grateful for the favor bestowed. PERSONAL.-Mr. G. C. Franciscus left Philadelphia, with his family, for Richmond, on Wednesday morning last. He will spend the winter in Aiken. South Carolina. His close attention and arduous duties as General Agent of the Pennsylva nia railroad, began to tell upon his health; hence his family physician advised him to spend the balance of the winter in a locality where the weather is of a more even temperature. We hope that the refreshing showers and genial sun of spring-time will bring him back refreshed in the full vigor of health, for such is the wish of his

many friends and relatives in this vicinity. Won't somebody send the publisher of the guerrilla concern down on the banks of the Susquehanna, a spelling book, to enable him to spell beginning and benefited? He disgraces the profession every week by issuing a paper full of errors and misrepre-sentations. We gave him a lesson on botchwork, last week, but he will not remember. Send him a dictionary at once, or employ a proof reader for him who will not disgrace our borough. The poor "Pub" himself does not really know when a word is misspelled. or where to put in a punctuation point; his education is about as sadly deficient in this is in all other branches. Send him a spelling book; we think he would be benefited. by it, as he spells this word four or five Webster has allowed for it. Hess has appliing books for sale, cheap.

SPIT CURLS AND LONG SERMONS. SPIT CURES AND LONG SERMONS.—
The Lebanon Courier says, that a lady in that place spent an bour and a quarter in giving the right set to her "spit curl," last Sunday morning, came home from church complaining that the sermon was "horribly long," that the pastor "actually preached forty-five minutes." There are a good many who think more of their curls than they do of their souls.

The girls in Lebanon are away behind the age. Columbia girls do not wear spit earls; but they do like to see the smoke that gracefully carls from those fine flavored Havana Segars, which are only kept at the store of Mr. John Fendrich, corner of Front and Locust street, Columbia.

COURT PROCEEDINGS .- We here give GOURT PROCEEDINGS.—We here give the correct proceedings which took place in Court of Common Pleas, in the case of Supplee & Bro. vs. Shireman, Hoffheins & Co. In January, 1856, plaintiffs made, sold and delivered a steam engine and boiler for \$3600 for the defendants, who are manufacturers of agricultural implements, in York, Pa. A couple of weeks after the engine and boiler was set up, the grown-sheet of the boiler was set up, the crown-sheet of the boiler came down. The defendants had paid boiler came down. The defendants had paid \$1500 on account, and claimed damages, on the ground that the boiler was defectively constructed. Plaintiffs denied the defective construction, and alleged that the crownsheet came down by reason of carelessness on the part of defendants' engineer, and that the water was allowed to get low, and that thereby the crown-sheet was burnt. On the second day of the trial the case was compromised, by a verdict for plaintiffs for \$2100 and costs.

Other reports of this trial make Supplee & Brother lose the \$1500 which was paid them on account.

them on account. CHESTER COUNTY ITEMS.—Jones Wilson have sold their warehouse, coal and lumber yard, at Parkesburg, to Hinkson & Thompson, of Cochranville, who will con

tinue the business. Price, \$3.000.

A cow belonging to Mr. Hezekiah Arnold, of East Nantmeal, had a very strange looking calf a few days ago. Its fore and hind feet were all together, and its back forming a peak, while its intestines were hanging to it loose, without anything to protect or cover them. Of course the calf did not live

cover them. Or course the catr did not live long.

Samuel Morris, of Londongrove, raised a steer which was sold last week, 5 years old, at 16 cents per pound, live weight. The live weight was 3000 pounds. It was purchased for Boroeff, of Philadelphia. John R. Way, of the same township, sold a pair of home-raised steers, 6 years old, to Abm. Paul, for \$555. Joseph Walters, of Kennett, has sold a pair of oxen to Mr. Paul, supposed to weigh about 5200 pounds, at 124 cents per pound.

SHOOTING ACCIDENT .- We learn that son, (aged seventeen years) of Daniel Engle, nurseryman, near Marietta, accidently shot himself in the leg with a on Monday last, whilst in pistol, school at Maytown. It appears that Engle was exhibiting the pistol to a school-mate who wished to buy it, and whilst holding it in an oblique position under the desk, he raised the hammer, and in attempting to lower it his tingers slipped and the contents of the pistol were discharged, the ball taking effect in the lad's log, below the knee, and glancing downward lodged in the fleshy part of his leg. It is needless to say that the report of the pistol caused considerable consternation among the pupils of the school. By desire of Dr. Withers, of Mount Joy, who was called to attend the case, Dr. Hinkle, of this place, dressed the wound, and now, under the care of

Dr. W. the patient is doing finely. HONEY-MOON CONVERSATION .-- The following report of a conversation between a newly married couple took place at a ntering place, last summer. We believe the parties were from Wrightsville. There is a depth of affection in it, which is refreshing to contemplate.

William-dear William," said the wife, with a world of affection in her eyes. "Speak, heavenly charmer," replied the new husband, returning, with interest, the

expressive glunces of his spouse. " Dear William !" "Adored Eliza."

"Sweet flatterer!" "Angelic creature."

" Dear, dear William, pardon me—but do you think a short walk would hurt us, as the divine Willis says?" "I fear, loveliest of thy sex, that you may

be fatigued." "Fear not, dearest." "Heavenly emanation-bright dream of

my precarious existence—but I cannot elp fearing."
"Sweet William?"

" Celestial Eliza!" Here they fell to violent kissing, which asted about fifteen minutes.

Almost breathlessly, the lady exclaimed:
"William, dear William, why are you so
weet? Oh, life joy, the estuey of wedded bliss! Best beloved, will you ever love me thus?"

"By yonder fearful—I say tremendous orb I swear," he exclaimed, pointing to the setting sun!
"And as a memento of our wedding day, will you yearly bring me here-will you, you cherished idol?"

"Yes, my only pet-my life-my love-I will bring you here every year-if my capital holds out!" "Oh, bravest, and best of thy noble sex. talk not of capital in this, our hour of bliss. "But, oh! sweet - heavenly - darling William-I have only one more favor to

"What is that, my precious idol?" "Will you always buy my dresses, my gaiters, and all our dry goods, at the store of I. O. Bruner, Front street, Columbia? By go doing enough can be saved to visit this It is deeqless to sta that the brecontions bluce each test. William promised.

THE WEATHER .- It is said that "variesy is the spice of life," and if that be true, we may venture the assertion that we have had some spicy weather for the last few weeks. It has rained sleeted snowed. frosted, froze and thawed alternately, and has made every change that the almanac speaks of but settle. We hope, however, it will do that next, and our delinquent subscribers will follow suit.

ST. VALENTINE'S DAY .- According to our Almanacs, next Friday, the 14th inst,, will be St. Valentine's Day. In the usual course of Nature, it hath again coursed around us, bringing along to many delightful remembrances of the past, to others what is to come.

Lexicographers interpreted Valentine, "A weetheart, chosen on Valentine's day; a letter sent on Valentine's day," &c. No doubt numerous love tokens will be ex-changed with one another, on Friday next, and letters sent—to whom? To the one we love, of course. Oh! who does not love the sweet sound, Love? But with man love is never a passion of such intensity and sincerety as with woman. She is a creature of sensibility, existing only in the outpourings and 'sympathies of her emotions. Every earthly blessing, nay, every heavenly hope, will be sacrificed for her affections. Thus

it is, has been, and ever will be. The maidens of Rome, in ancient times. put great faith in certain old charms they used to practice on St. Valentine's eve. For curiosity sake we will here reproduce one from an ancient manuscript, called "the nine keys." Get nine small keys—they must be all your own, remember-by begging or purchase, (borrowing will not do, nor must you tell what you want them for:) plait a three-plaited band of your own hair, and tie them together, fastening the ends with nine knots; fasten the with one of your garters to your left wrist on going to bed, and bind the other garter around your head; then say-

's to Valentine, take it not amiss— To try your favor I've done this; You are the ruler of the keys, Favor me, then, if you please, Let me thus, your influence prove, And see my dear and wedded love.'

At the present time, fair maidens and beaux use different charms—such missives as can be bought at the book store of W. U. Hess Columbia. Some of his specimens are truly exquisite, and very appropriate to bestow upon refined ladies, while others (horrid carricatures) are disgusting.

NEWSPAPER LEECHES .- In every community they are highly respectable people, of the genus Pecksniff, who might be very aptly termed newspaper leeches. These people are great newspaper readers. They can't resist a canvasser, they invariably ake all the papers they can get, they keep on taking a paper just as long as the publisher will send it. They are highly appreciative readers, they never get mad at the editor, they never send word to "stop my paper"—until they are asked to pay their subscription. Then how their feelings are shocked, how severely critical and virtuously indignant they become. How they despise the mercenary editor who wants his pay. How they roll their eyes in horror at the base ingratitude which cannot appreciate their unfailing support. How they resolve to discard forever the vile sheet for which they are expected to pay like other people. Oh, these Pecksniffs are indeed newspaper patrons. They take the paper every time; but when it comes to paying for it-they can't take it upon such terms. And as for indebtedness accrued-why, that you see, is, of course, why certainly, they never, oh, no, how could you suppose, or do you, no sir'ee-you can't, not by a good And off goes Pecksniff in a huff-and

sends his valuable name to some other trusting journal, which has not before been honored with his lecherous subscription. There are more newspaper leeches than whisky leeches, and very strictly moral, and, examplary, and important people, they are, too. Most of them are wealthy. They dart their siphon-tongue upon a newspaper, and suck, and suck, until whole reams of paper and gallons of ink have been drawh in their insatiable maw. Finally, along comes a bill. Oh, dear, what squirming. The leech is disgusted. He won't stand such treatment. He lets go. He never took it. He never got it. He never subscribed on purpose. He ordered it stopped long ago-when the bill was first sent to him. His neighbor has read it mor'n he has. He takes lots of other papers. He can't afford it. His evesight is bad. It hasn't come regular. He thought it was only a dollar a year. He don't like it. His wife would rather have the Ledger. He supposed some admiring friend sent it to him. He thinks papers cost too much. He only took it to help it along. He don't see why so much fuss ought to be made over a mean newspaper account anyhow. And so the leech slinks about, swindling the printer, exposing his own indescribable meanness, and getting his newspaper for nothing .- Ex.

COAL POCKETS .- This is the name says the State Guard, of the peculiar structure in course of completion at the terminus of the Reading and Columbia Railroad at this place.

These pockets are supported by two strong sand-stone pillars, or piers, fourteen feet in height and extend into a basin formed for the purpose and into which can onts can be run from the river. They u twenty-four in number, each one contain ing a triangular space of sixteen by twen eet, and having a capacity of ninety to They are intended to be used for unloadi and loading of coal, and will hold in the a gregate, two thousand one hundred ar sixty tons. The daily deposit of clean co in these pockets, after making a liberal d duction for screenage, will be equal to si teen hundred and sixty tons. They are the work of the Reading & Columbia railros company, and will be completed at an i mense amount of labor and outlay.

The piers which support the pockets a forty feet apart and are approached by extension track from the end of the ma one and from which the cars laden wit coal will be run. The coal cars will be constructed that the bottoms can be open without difficulty, and their contents emp

tied into the pockets below. The coal will be transported to the ciof Baltimore by way of the Tide Water canal, and the boats which will bear the ebony treasure, will be loaded as follow will be in the basin, immediate below the pockets, and the latter will run into the boats by means of a drawn ga with which each one of them is furnished The loaded boats will then proceed on the way across the river and into the canal an from thence by way of the Chesapeake Ba

to the city. The intelligent reader will at once observ that these pockets, as they are styled, mus in the course of a long time, exert a tremen dous influence upon the coal trade between the rich mine hills of Pennsylvania and th Monumental City. The difference in th price of transportation from the present, w are told, will be one dollar per ton, which will make coal in Baltimore so much cheap er, increase the demand for it in that city while by making the Tide Water Canal direct line of communication, it will vastly benefit that company and simble it to be come what it has long desired to be, a self supporting, paying institution. More espe cially will the people of the lower end l benefited, for they can purchase their coa

along the line of the canal at a dollar a ton less than they now pay for it.

The Reading and Columbia Railroad, already doing a large and extensive business, is destined at no distant day to become one of the great thoroughfares of the country. Its present connection with other lines which lead into the very heart of our immense coal fields, its passage through a stretch of country distinguished for its beauty and fertility and abounding in mineral and agricultural wealth, have given it a power and straight which will not be confined to its present comparatively narrow limits. along the line of the canal at a dollar a to

County Items.—The farm of Daniel Kinports, in Warwick twp., containing 61 acres, was sold to Daniel Furlough, for \$7,350. Daniel Kinports also sold to Israel Hostetter, 48 acres for \$4,600.

In consequence of the inconvenience and delay occasionally experienced in the Court of Common Pleas, by the panels of jurors becoming exhausted, the Court last week ordered that hereafter the panels shall consist of forty names, instead of thirty-six, the number heretofore drawn.

In Lancaster county the rate of taxation for the current year is two and a half mills on the dollar; in York county it is seven mills; in Berks county nearly ten. Lancaster has a Republican majority of about six thousand. York a Democratic majority of about three thousand, and Berks of about seven thousand.

YORK COUNTY ITEMS.—A number of capitalists of York and elsewhere have sub-scribed fifty thousand dollars towards the erection of an anthracite furnace in York. The Conference of the United Brethren which commenced on the 23d ult., in York borough, was brought to a close on the Monday evening following. The exercises were of a very interesting and impressive

were of a very interesting and impressive character.

Last week a dog belonging to Mr. Charles Lain, of York, grew so savage as to render it necessary to kill the animal. He bit several persons, among whom was Mr. Lain himself, his partner Mr. Griman, two children belonging to his neighbor Mr. Frazier, and Mr. Edwin Weiser, a medical student at Dr. Jas. W. Kerr's.

Some of the York county farmers are complaining that the growing grain in the fields has been somewhat injured by the late rains and colds. We have not heard of any complaints by the farmers of this county, and hope that the injury to the grain of our neighbors will not prove serious.

In York, a few days since, a boy appeared on the streets driving a goat and dog hitched together in a sled. Young America is up to all kind of contrivances for its own amusement.

A Minister Taken Prisoner!

Mr. Editor.—Have you ever had a "nice surprise" in the shape of a splendid outfit," made up by the combined skill of the weaver, the merchant, the tailor, the hatter, the bootmaker, and whatever else enters into the elaborations, the niceties and conforts of a perfect toilet? If you have not, sir, I really hope it may not be long until you may know what a nice thing it is to be "surprised" in that, way. We have been permitted to "by it on" and know all about it. Let me tell you how it happened. The other day a carriage drove up to our door, and on our "answering the bell" a gentlemanly looking man took me by the arm and claimed me as his "prisoner." Well, what could I do? but surrender to one "stronger" than myself. So, with some considerable flutter about the heart, I endenvored to resign myself to whatever might come, and took a seat in the waiting conveyance, and was hurried down town to Bletz's, then to Hiteshue's, then to Fraley's, then to Brook's, and from thence safe hone again. Well now, what do you suppose grew out of this mysterious carriage ride? Can't tell? Well, listen! A day or two ago a large box was slipped in at my front door—having read no little about the dangers of mysterious boxes—I opened very cautiously, when lo! a splendid "hat' popped in sight; this gave me courage, and I reached in again, and out comes a magnificent pair of "boots," then a "coat, overcoat, cloak, vest, pants, stockings, suspenders, gloves, neck-tie, drawers, shirt—everything you can think of in the way of a "perfect outfit."

Now sir, just indulge your imagination A Minister Taken Prisoner!

Now sir, just indulge your imagination

Now sir, just indulge your imagination a little, and fancy how matters went off in the "Parsonage" for the next day or two. The children (God bless them) thought "Papa" looked like a gentleman—they are not the only ones that think that broadcloth, beaver and calfskin make a gentleman,—and the dear wife innocently remarked, that "I looked better than when I got married." She didn't think so then, but we've been married a long time, you know. Of course, I am pleased, delighted, and I, too, think I look better than I did with the "old suit," but who made the preacher so rich? I know a little, but not all about it; I only know that a number of dear, kind rich? I know a little, but not all about it; I only know that a number of dear, kind friends, ("OUTSIDEIDS," I believe they call themselves) have laid me under many obligations for this splendid and costly expression of their good will. Whoever they are, they have my hearty thanks. Having clothed the minister, may they, themselves, be clothed with the "righteousness of Christ." And may He, who vouchsafes his blessing on "a cup of cold water" given in His name, abundantly reward the kind hearts and hands who have so largely contributed to my resources and comfort. to my resources and comfort.

"GOD BLESS THEM," is the prayer of the grateful recipient.

jauls-smal MILES OF THE

UNION PACIFIC RAILROAD RUNNING WEST FROM OMAHA AUROSS THE CONTINENT.

ARE NOW COMPLETED! THE TRACK BEING LAID AND TRAINS RUNNING WITHIN TEN MILES OF THE SUMMIT OF THE ROCKY MOUNTAINS.

The remaining ten miles will be finished as soon as the weather permits the road-bed to be sufficiently packed to receive the rails. The work continues to be pushed forward in the rock cuttings on the western slope with unabated energy, and a much larger force will be employed during the current year than ever before. The prospect that the whole GRAND LINE TO THE PACIFIC WILL BE COMPLETED IN 1870. WILL BE COMPLETED IN 1870,
was never better. The means so far provided for
construction have proved ample, and there is no
lack of funds for the most vigorous prosecution
of the enterprise. These means are divided into
our classes:

1.-UNITED STATES BONDS. 1.—UNITED STATES BONDS,

Having thirty years to run, and bearing six per cent, currency interest, at the rate of \$16,000 per mile for 517 miles on the Plains; then at the rate of \$18,000 per mile for 518 miles on the Plains; then at the rate of \$18,000 per mile for 150 miles through the Rocky Mountains; then at the rate of \$2,000 per mile for the remaining distance, for which the United States takes a second lien as security. The interest on these Bonds is paid by the United States Government, which also pays the Company one-half the amount of its bills in money for transporting its freight, troops, mails, &c. The remaining half of these bills is placed to the Company's credit, and forms a sinking fund which may finally discharge the whole amount of this lien.

2.—FIRST MORTGAGE BONDS.

2.-FIRST MORTGAGE BONDS. 2.—FIRST MORTGAGE BONDS.
By its charter the Company is permitted to issue its own First Mortgage Bonds to the same amount as the bonds issued by the government, and no more, and unity as the root progresse. The Trustees for the Bondholders, are the Hon. E. D. Morgun, U. S. Sennior from New York, and the Hon. Oakes Ames, Member of the U.S. House of Representatives, who are responsible for the delivery of these Bonds to the Company, in accordance with the terms of the law.

3.—THE LAND GILNET.

The Union Pacific Railroad Company has a land grant or absolute donation from the govern-ment of 12,500 acres to the mile on the line of the road, which will not be worth less then \$1.50 per acre, at the lowest valuation. PHILADELPHIA. 4.—THE CAPITAL STOCK.

The authorized capital of the Union Pacific Railroad Company is \$100,000,000, of which \$8,500, 000 have been paid on the work already done. The Means Sufficient to Build the Road 

Amount..... ...\$83.445.019 As the U. S. Bonds are equal to money, and the Company's own First Morigage Bonds have a ready market, we have as the AVAILABLE CASH RESOURCES FOR BUILDING ELEVEN HUNDRED MILES: U. S. Bonds \$29,728,000
First Mortgage Bonds 29,328,000
Capital Stock paid in on the work now done \$5,500,000
Land Grant, 11,620,000 acres, at \$1.50 per \$1,000,000 ., 21,120,000 Total ..... ...\$88,276,000

The Company have ample facilities for supplying any deficiency that may arise in means for con-struction. This may be done wholly or in part by additional subscriptions to capital stock. EARNINGS OF THE COMPANY. EARNINGS OF THE COMPANY.

At present, the profits of the Company are derived only from its local traffic, but this is already much more than sufficient to pay the interest on all the Bonds the Company can issue, if not another nile were built. It is not doubted that when the road is completed the through traffic of the only line connecting the Allantic and Pacific States will be large beyond precedent, and, as there will be no competition, it can always be done at profitable rates.

It will be noticed that the Union Pacific Railroad is, in fact, a Government Work, built under the supervision of Government officers, and to a large extent with Government money, and that its Bonds are issued under Government direction. It is believed that no similar security is so carefully guarded, and certainly no other is based upon a larger or more valuable property. As the Company's FIRST MORTGAGE BONDS,

are offered for the present at NINETY-FIVE CTS. ON THE DOLLAR; they are the cheapest secur-ity in the market, being more than 15 per cent, lower than U.S. Stocks. They pay SIX PER CENT. IN GOLD, or over NINE PER CENT. upon the investment, and have thirty years to run before maturity. Subscriptions will be received in Columbia, by SAMUEL EVANS, Esq., and in New York at the Company's Office, No. 20 Nassau street, and by Connental National Bank, No. 7 Nassau str. O'Clark, Dodge & Co., Bankers, No. 5t Wall street, John J. Cisco & Son, Bankers, No. 3t Wall street, John J. Cisco & Son, Bankers, No. 3t Wall street, and by the Company's advertised Agents throughout the United States. Remittances should be made in drafts or other funds par in New York, and the Bonds will be sent free of charge by return express. Parties subscribing through Local Agents will look to them for their safe delivery. through Local Agents will look to them for their safe delivery.

A New Pamphlet and Map, showing the Progress of the Work, Resources for construction, and Value of Bonds, may be obtained at the Compuny's Offices, or of its advertised Agents, or will be sent free on application.
