Saturday, February 15, 1868 COMMUNICATIONS, letters, contributions, generally of merit and interest to the reader, will be acceptable from friends from all quarters.

READ advertisement in reference to "lock boxes," in our new post office. -VALUABLE real estate is offered for sale

by Samuel Hinkle; administrator. Rea advertisement in another column. THE natural bridge across the Susque hanna river, at this place, still-remains

firm, and the heaviest teams pass over. MR. W. K. Nowley, Notary Public, has removed his office to the Post Office

building, No. 130, Locust street, second floor DISTRIBUTION OF BREAD. Lodge 400, Sons of Malta, of Columbia: distributed three hundred loaves of bread to the suffering poor of our borough, on Wednesday

THE Columbia Bridge Company have at last advertised to receive proposals for lumber necessary for the construction of bridge across the Susquehanna river, at this place.

CROWDED OUT .- The markets, and other interesting matter, intended for this issue, have been unavoidably crowded out to make room for the advertisement of the county finances.

House Furnishing Goods.—Persons visiting Lancaster should call at A. C. Flinn's House Furnishing Store. He wants to see you; especially those who are about to commence house-keeping.

SEWING SCHOOL .- A school is open on every Saturday afternoon, for the instruc tion of children in plain sewing, in the lower room of the Town Hall, at 2 o'clock P. M., to which all are invited.

PERSONAL -Our friend, R. A. O. Kerr. Esq., dropped into our sanctum a few days ago. He is of the firm of Kerr & Co., brokers, Altoona, Pa., and represents business in that go-ahead town as very flatter-

WHERE TO BUY.-At the store of Mullen & Brother, Odd Fellows' Hall, Columbia, may be found a choice selection of groceries, provisions, canned fruits, teas, spices, etc. Everything new and seasonable in their line is offered at the very lowest prices.

RHINDERPEST .- Brigham young's fool has got the rhinderpest. Serves him right. He always was afraid to insure his filthy carcass in Brigham's bogus Insurance Company, for fear he might lose his money, as he knows that Robel concern is

morning and evening.

The Rev. Mr. Baker, of Lancaster, is expected to preach in the Episcopal Church, of this place, to-morrow (Sunday) morning and evening. "Bible Class at 3 P. M.

RANGE EXPLODED. A patent range, at the residence of Col. W. G. Case, exploded on Saturday morning last, with a loud report, scattering the coal, ashes, &c., in every direction, and completely demolishing the range. The servant girl was cooking breakfast at the time, and escaped slightly injured. The water pipes being froze up was the cause of the explosion.

Hor-Air Funnaces are now in general use for heating-dwellings both in city and country, and have almost superseded stoves in dwellings of any pretension. The objections hitherto made are now almost completely obviated; and this to a greater extent in the Gothic Furnace manufactured by A. M. Lesley, 605 Sixth Avenue, New York. We have in use one of these heaters in our dwelling, and it gives us pleasure to state that it is entirely free from escape of gas, economical in the consumption of fuel, free from complication, and sup-plies abundant heat.—Horticulturist.

. BRIGHAM" YOUNG, jr.; the head and front of a bogus Insurance Company, takes. us to task for typographical errors in the Spy. Well, if that ain't refreshing. If any of our readers choose to call at this office Brigham's" manuscript, with words bean suitably adjusted. Owing to these circumwe will show them some of "porkeine tifully (?) spelled, and sentences handsomely (?) punctuated. In speaking of iron ore, he spells it "oar," and having occasion to mention cel, he spells it," eal," &c., &c., &c. Now, Brig-ham, you should stay in out of the night air-study your spelling book, or get some one to teach you before you attempt to call attention to the faults of others.

OIL EXPLOSIONS .- Explosions are becoming frequent, and are almost always attended with serious and in many case fatal results. Pure oil is not explosive when used for illuminating purposes, if ordinary, care, is employed. The impure, adulterated oil, containing askit does, gasoline, benzine, or other explosive elements; will explode when used in lamps, unless very great care is taken. The best way to avoid all risks, is to buy the genuine article. The difference in price between the best oil and the impure, is only a new to sell oil at considerably cheaper rates almost safe to set it down as an adulterated article. Don't buy it, and you will be on

the safe side: १५५ न कार्य क्रम्पात क्रमान क्रमान क्रमान SHAD IN THE SUSQUEHANNA.—Col. Jas. Worrall, Commissioner, under the act of March 30th, 1800, relating to the passage of fish in the Susquehanna and its tributarics, has made his report, and in which he eays, that the passage for fish constructed in the Columbia dam, is a perfect success. Shad have since been caught of the very dinest quality, and in respectable numbers. as high above the Columbia dam as Newport, on the Juniata. The numbers actually taken between Columbia and the Juniata, are estimated, at from ten, to eighteen thousand. None of the Companies have complied with the act except the Susque hanna Coal Company, who had constructed a satisfactory weir, which affords an

easy passage to the fish. Suits have been brought in the Dauphin County Court, against the Pennsylvania Railroad Company, and other incorpora-tions owning dams, to test the constitutionality of the act, and it was supposed that the question would soon be settled.

FIRE ENGINES FOR SALE.—The Vigilant Fire Company have for sale two Splendid Hand Engines. Reel and Hose The engines are complete in every, respect and a rare opportunity is offered to parties or corporations who wish to purchase. They will be sold at a burgain.

Poor "JABE." - We copy the following from the Reading Dispatch. It is innded for Brigham young's "Jabe:" "Jabe, our Copporhead friend over at Colum-ia, is, informed that any notice of himself or is 'rebel nose rag.' In this page will cost him on can's per line, (each insertion,) cash in advance. Ve can't do it on any other terms."

The sensible editors failed to see the pro riety of noticing him or his "rebel nose ag" without price, in advance. Take it me. "Jabey."

CHESTER COUNTY ITEMS .- James D McClellan, of the Mansion House, West Chester, has taken the Logan House, at

The Chester Springs property has been sold to a Company for a Soldiers' Orphans' Home, for the sum of \$35,000. James Dowlin, of East Caln township, is the owner of a cow which he purchased last spring, and which in August last, at one milking, made nearly one pound and three-quarters of butter, or over 22 pounds in one week. Later in the fall, she made seven-teen and a half pounds in one week.

COUNTY ITEMS .- John E. Wiley, o Concy township, has donated to the Home-for Friendless Children, his pay and mileage—amounting to \$11.25—received for serving, as a juror in the Court of Common Pleas, last week. Very commendable.

A storekeeper in Philadelphia recently received about 1000 pounds of roll butter from Loreaster courts, and in cutting some

from Lancaster county, and in cutting some of the rolls found stones weighing from one of the rolls found stones weighing from one to two pounds in the centre of them.

Hannah Brabson sold a house and a small lot of ground in Eastland, this county, to John Reynolds, of Little Britain twp., for \$277.50.

or \$211,00.

Solomon Sholl has sold his dwelling house and lot of ground in Mount Joy borough, to Sunuel P. Beckly, for \$1500. YORK COUNTY ITEMS .- A little son of

Roy. G. P. Weaver, Wrightsville, fell, a few days since, striking his chin, and having his tongue between his teeth, nearly severed a piece therefrom.

A strange and fatal disease has made its appearance among the cattle in some parts of York county. One farmer has lost six valuable cows, within the past two weeks. Another has lost three, and another also three, with the remainder of the herd, some twenty in number, suffering.

Mr. A. H. Chase, editor of the True Dem-Mr. A. H. Chase, editor of the True Democrat, York, will deliver a lecture on the subject of "Washington," on the evening of the 22d inst., in the Court House, "York, for the benefit of the Ziegle Guards, of that

OUR NEW POST OFFICE.—The buildings lately occupied by Dr. Craig and W. K. Nowlen, on Locust street, above Front, have been removed, preparatory to the erection of the new post office building, by Mr. John Fendrich, which is expected to be ready for occupancy early in April next. The building is to be of brick, two stories high, and will be topped with a French roof. There will be two entrances to the office direct from the pavement, and also separate apartments for ladies and gentlemen. The first floor will be used exclusively as the mail department, and the balance of the building will be occupied by the Post Mistress, as a dwelling. The number of private boxes will be four hundred and forty, exclusive of a number of lock-boxes,

all of which will be constructed on the mos

modern style. To Tobacco Smokers .- We find the following in an exchange. Smokers should put it in their pipes and smoke it. Read, reflect, reform: We enter our protest against the practice which prevails among some tobacco smokers of obtruding their stale smoke and villainous pipes into public places. They complacently puff their smoke on all sides to the intense disgust of all who are not addicted to the use of tobacco. Every man has a right to smoke as much as he chooses; but he has no right to offend his neighbor who don smoke. In all mixed assemblages there may be counted the majority of ladies; yet RELIGIOUS NOTICES .- Rev. V. Eckert, quite too often the smoker, in his purely selfish enjoyment of his cigar or pine utterly ignores their right to breathe th undefiled air and obtrudes himself and his smoke upon them at all times and seasons.

FACTS FOR THE PEOPLE ABOUT GAS .-Under this heading a late number of the American Gas Light Journal furnishes some practical advice concerning the management of gas, and some simple facts, the knowledge of which may save our readers much dissatisfaction, annoyance and use

less expense: ..."It is a common occurrence for consumers o complain of the excessive cost and de icioney of light. To the inaccuracy of the meter they generally attribute the first, and to the poor quality of gas the latter condition is usually charged; when, in reality, the fault will generally be found to res with the cousumers themselves, through their own ignorance and mismanagement. "Whenever light is obtained from gas at a greater cost than necessary, it is just as much a loss as to permit any other valuable commodity to run to waste. And a proper knowledge of the conditions that cause unnecessary loss, will place in our hands he means requisite to avoid and prevent it. "BURNERS .- There is no part connected with the consumption of gas, whereby the

hest results are obtained in the quality of

light and economy of gas, of more importance than the burners.
"It would be difficult to convince the majority of gas consumers, who have not given the subject attention, how remarkably the light derived from gas is reduced by improperly constructed burners; or where the pressure or the flames are unstances, the amount of gas consumed i disproportionate to the light obtained, and the account of the consumer is much increased. In fact, there is no exaggeration in stating that a large proportion of the consumers, through their own mismanage ment, pay twice as much as there is any occasion for, considering the amount of light obtained, all of which could be saved

by using a proper burner, and a correct adjustment and control of the pressure. "The most important requisites for good burners are that the orifices where the gas issues should be perfectly regular in size, and of a proper size to permit it to issue with a very low pressure. And these onditions should be adhered to, whatever the kind of burner may be, whether the argand, bats-wing, fish-tail or single jet, etc. "If the orifices are too small a high pressure is required to expel the gas, and the light is diminished just in proportion to the increased pressure. In such burner the flame will have a blueish tinge, and the lower part will be of a deep blue color, giving but little light in proportion to the gas consumed. As an example, an argano of fifteen holes passing five feet of gus at 1-10th pressure, yielding a light of 12 candles will, if the orifices are reduced, to pass the ame amount of gas per hour at 5-10ths pressure, only give the light of six candles loss of 30 per cent. Hence, we see that the light to be obtained from a given quan tity and quality of gas is entirely dependent on the burner employed. This demon-strates the necessity of having propoburners, and shows clearly how by gences on this point, the consumer may find his gas bill increase, in what appears to

him a very mysterious manner. Card of Thanks. At a stated meeting of the Columbia Fire Company, held in their Hall, on Friday evening, 7th inst., the following resolution was passed, and ordered to be published in the Borough papers: Resolved, That the thanks of this Company are hereby tendered to Col. S. Shoch, Gen. J. W. Fisher and Samuel Evans, Esq., for their liberal donation of standard works to the Library of this Company, and also to Mr. J. E. Minilker & Co., Reading Pa.—Dear Sirs:—
It affords me pleasure to speak of the wonderful effects of your "Pain Cure," in my own case. In June hast Iwas attacked with Neuralgia in my abdomen and side. After suffering intensely for nearly two weeks, I was induced to try your remedy, and after an application, to my utter surprise, I was relieved in a few seconds. So sudden was the relief, that I could scarcely believe my own senses. From my knowledge of the preparation, I firmly believe that it will stop pain from nearly every cause, and almost instanting.

MISS KATE VANDERSLICE, of Pottsville, says:
"I was benefited more by using the Phomix Pectoral than any other medicine I ever used."
Jacob Powers certifies that he has sold hundreds of bottles of the Phomix Pectoral, and that all who used it bear testimony of its wonderful effects in curring cough.
John Royer, Editor of the Independent Phomix, having used it, has no hositation in pronouncing it a complete remedy for cough, hourseness, and irritation in the throat.

The proprietor of this medicine has so much confidence in its curative powers, from the testimony of hundreds who have used it, that the money will be paid back to any purchaser who is not satisfied with its effects.

It is so pleasant to take that the children cry for it. THE PHŒNIX PECTORAL, It is so picusan war in the cents. It costs only Twenty-five cents. It is intended for only one class of diseases, namely, those of the Throat and Lungs.
