It is to be hoped that the system will be tested this summer all over the United States. —A fervid young convert in Minnesota, during a recent revival, feeling a great in- terest in the spiritual future of a friend, whose profession was that of a trapper, made public supplication for him in words following: "Lord, there is Mr. L.—, who traps for a living. Very many suffer from general debility, others from weakness of the stomach and inability to di- gest their food; some have creeping senations along the nerve fibres, or pain in the back, with aching and weary throbbing of the limbs. Thousands of ladies suffer through long years from what are called Fenale Complaints, caused by the relaxation of mus- ele and ligament that attend deficiency of vital force. Thousands of business men, overworked in mind and body, use up the nervous fluid and become un- fit for dury or the enjoyments of life. Excesses in youth, and the terrible effects of fever and ague, in- volve shattered constitutions and the failure of the general functions of health. To sufferers from all these causes, DODD'S NERVINE AND INVIGORATOR offers an invaluable boon—a natural and efficient recovery of lost powers. No person, man or woman, suffering from any cause, can afford to neglect this remedy. The Nervine will be found to poscess an equalizing and nutritive principle. It allays firita- tion, and like sleep promotes the secretions of the system. It has affinity for the nervous fibres, and supplies them for the waste that is constantly taking place. Like wholesome food taken into the stomach, it undergoes rapid digestion, invigorating in its pro- cess the digestive organs, and producing a CALMNESS AND TRANQUILITY, Newner on any other preparation. It contains no plantform fashieosh, and số, far from producing cosi- tiveness, it will bo found an efficient cure for consil- pation, and has obtained a world-wide renown for this peculiarity. We repeat that the victory is over- whelming and decisive at all points, con- situation, Governor, congress and Legisla- ture, and that State, too, where the white population is in large preponderance, and where the white vote was sufficient to have carried any ticket on which it could have been concentrated. This is the end, to which, the fanaticism of zenlots like Toombs, and Cobb, and Stephens, and Jenkins, and Herschel V. Johnson, has brought the State of Georgia. Misled by the mad threats of South Caro- liua, these men forgot the tremendous power of the North or fancied that the North was a sort of blind giant to be, fooled with at will. This victory insures the election of two United States Senators, of Republi- can faith, so that when Georgia appears at Washington gain and applies. for restan- tion, it will be as a thoroughly Republican- state. It also insures the ratification by the Legislature of the pending amendment to the national Constitution, which a Dem- ocratic Legislature would undoubtedly have rejected. EDITORIAL & MISCELLANEOUS. Death of a Member of the Legis.

It is universally, conceded that had there been a vote taken at the appointed time, with Senator Howard present, the President would have been convicted.

Everything depends, upon what the peo ple do and say ad interim, that is to say be-tween the disaster, (for we can call it by no other name,) and the actual vote. Already the tide of popular indignation has gone rolling down to the Capitol, and should the vote not be taken to-day, the feeling against the renegade Senators will become so bitter and, so, hostile that their personal safety will be endangered. CORRUPTION. and specific s

We are pained to hear the clamors against our United States Senators, and to, know the basis upon which they are founded, showing too plainly: to be misunderstood, that.corruption and abaleful desertion of principle have at length entered that body; the members of which, for all time past have been believed to be honest, incorrupt and incorruptible. But, whilst we deplore this state of things in that august body, we cannot withhold our belief that the members of the House of Representatives are no less corrupt, and perhaps more so than our Senators. For years past, frauds upon the revenue of the most startling character have been; committed time and again by the "Whisky Ring," and truthful com plaints have been made to Congress, in hopes that some legal remedy may be applied 'to prevent' distillers, and others connected with them, from continually robbing the government ; but a deaf ear is turned to all and everything stated. There has been almost a universal demand that has been almost a universal demand that the tax' on Whisky shall be reduced, or that the capacity of the stills shall be taxed so that some revenue may be collected for the distillation of spirits, but the answer has been always adverse. This week we have again the mortification to see the Chairman of the Committee of Ways and Means, report a bill against a reduction of the Whisky tax, the effect of which will be to continue the State frauds complained of. Members may not know, or perhaps are indifferent to public opinions: upon this subject; but we can assure them that the belief is becoming general, that too many of them are supposed to be concerned in and share the plander realized by these about the matter, but these are facts which indifferent so upplicity on the part of some of them. And we now advise they while they are claimorous against the dishonest Sena tors, for political rascality, they had better took to their own standing lest they fall by the tax on Whisky shall be reduced, or

look to their own standing lest they fall by the Whisky speculators.
