LATEST NEWS.

All the crowned heads of Europe are exulting over Johnson's acquittal. There is a secret sympathy between tyrants. The liberty-loving masses of Europe are

depressed by his acquittal, for they know that it will help fasten fetters upon their limbs

McCoole and Coburn, the pugilists, have been sentenced forty days' imprisonment by the authorities of Dearborn county, Ohio, and are now in jail.

Henry F. Dickens, a son of the great novelist, recently gave a public reading from his father's works for the benefit of a school in a country town in England. The papers are silent as to his merits as reader. The nomination of Gen. The difficulty is that the President nominated him vice Stanton "removed," and the Senate has declared against the power of removal. The nomination will probably be confirmed, with an explanatory resolution appended.

The Republican Senators held a caucus yesterday in reference to Colonel Fornev's reignation, but came to no decision, and the matter was adjourned until Monday. The majority of white voters registered in Washington is 4015. The white majority last year was about 1000. The Radical editors of Missouri, at a

### The President's Acquittal.

Another vote took place on two of the articles of Impeachment, on Tuesday last, and the result surprised no one. The second and third articles were voted upon' and the thirty-five to nineteen was a fore-gone conclusion. Since the vote on the 11th article, the opinions of the different Senators have crystalized into a fixed shape and every one knew as to the result. The country will now watch for the effect of this narrow escape of the President. If His Accidency is not a perfect fool, he mus know that his only chance of official safety is to put himself upon his good behavior for the rest of his official term. He must know another impeachment would certainly con vict him. It needs but to admit three or four Southern States with a brace of Senators spiece, of the strongest Radical tendencies, and his conviction would be certain. Nine articles are yet held over his head in terrorem, and he knows it. He will not be likely to court his fate by any more of his bull-headed and ruinous pranks.

ticles, and the final adjournment of the Court without voting on the remainder The impeachment Court met on Tuesday, pursuant to adjournment, and the Chief Justice took his seat. Senator Williams moved that the resolution hertofore adopted as to the order of voting on the impeachment order be rescinded. Objection was made, but the Senators by a vote of 29 yeas to 25 nays, decided that it should be received and acted upon. Senator Conkling moved as a substitute that a vote be immediately taken on the articles in their order. Disagreed to-yeas 26, nays 28. Senator Morrill moved that the Court adjourn to June 23d, and Senator Ross moved to substitute September 1st. Both motions were lost, the first by a tie vote. On motion, the second and third articles were then voted upon, and 35 Senators voted "guilty," and 19 "not guilty" on each. On the announce ment of the result on the third article, Senator Williams moved that the Court adjourn sine die, which was agreed to-yeas 34, nays 16, the anti-Impeachment Senator voting in the negative. So the Court adjourned as ordered, and the Impeachment trial of Andrew Johnson came to an end.

Registry Law.

Copperheads are complaining of the cost of executing the Registry law. This law was neccessary to protect the purity of the ballot-box, and to secure honest elections. And this must be secured, whether it cos much or little. But the State Guard suggests that a close calculation shows that it will not require any more public money to defray the expense of making a registry of voters than it took annually to pay the cost of a judicial and legislative investigation of election frauds committed by Democrats.

The Whisky Ring. The Impeachment trial has demonstra

ted the close relations existing between the "whisky ring" and President Johnson. The "ring" defrauds the Government out of not less than a hundred millions of dollars a year, and have, very naturally, used part of this money to keep in office Andrew Johnson, who winks at their rascality. These swindlers are of course Copperheads and "induce" many of the Copperhead papers to conceal these damaging facts from the people.

Money for the President.

Mr. Ralph Newton, the New York broken in his testimony before the impeachment managers, answered affirmatively to the question whether he was aware that money had been raised for the President. There had been subscribed in New York, he said, \$100,000 for the President in case of convic-tion, and \$50,000 to defray the expenses of his trial in case of acquittal. This money, was in the hands of highly respectable citizen of New York, Mr. Wm. G. Appleton, the bookseller .- Washington Star,

### Another Prize Fight.

The fight is for thirty-five hundred ()llars-Bussy staking two thous-and gid Hicken fifteen hundred. The fight is to be at catch weight, and fought July 15th, within fifty miles of St. Louis.

### Irish Emigrants.

The emigrants who left Ireland in 1867, according to the returns of the Registrar General, amount to 81,724. The number of emigrants, who embarked at Irish ports from May 1st, 1851, to December 31st, 1867, is placed at 1,832,000.

New York Correspondence. New York, May 25, 1865. A strong and popular ticket has been placed before the people by the just delib-erations of the Chicago Convention, and with such names as GRANT and COLFAX, the Republican party is certain of success. Since the name of the great captain of the age was first suggested by the Baltimore American as a nominee for the Presidency, the general' impression of the American people has been that in his hands the inter-ests and the honor and prosperity of the coun-try will be safe. SCHUTLER COLFAX, Grant's associate, for a man of his age, has considerable experience, and superior abil-ities and sagacity in our national political affairs, and is also the right man in the right place, and one whom the people will support in the coming campaign. These men are not only well known in the United States, but throughout the entire world are their flattering reputations the same. Imagine the effect of the news of their nom-ination abroad. It will strengthen the confidence of the friends of the Union all over the nations of the world, and on the Rhine, the Thames, and the Danube—from the mighty Amazon of South America to the Imperial Yang-ise-Klang of China, will the American sceurities be strongtheened with the prospect of the transfer from and after the 4th of March 1869, of the reins of our government from the hands of the dis-honered and unworthy Johnson, to n Allegheny on, Monday and Tuesday. Leaving Pittsburg, their next halt will be at Xenia, Ohio, where they play on Thursday. From Xenia they drop down to Cincinnati, where they will play, on Friday and Saturday, the two crack clubs of that city-the Buckeyes on Friday, and the Cincinnati the furewell game. On Sunday the boys will go to church. On Monday morning they will take boat for Louisville. Xy., where they will play on Tuesday and Wednesday. They will leave Louisville on Thursday, and be on hand to play in St, Louis on Friday and Saturday. Bloomington, Illinois, they will reach some time on Monday, where they will play, and take up the line of march again on Tuesday for Chicago, where they will take a lesson-or give one-on Wednesday, Thursday and Friday, the 17th, 18th and 19th. Saturday will see them making tracks for Detroit, where they will play on Monday, the 22nd. Leaving Detroit they will proceed direct to Cleveland, where they will play Wednes-

where they will pay on konday, the 20th and the second second

proper fruit?"
 "Riding alone, sir," was the prompt reply. —Peruvian Syrup. This valuable modi-cine has been silently making its way into public favor by the numerous remarkable cures it has performed. Its singular efficacy is owing to the protoxide of Iron, which remains unchanged in this preparation and is the only form in which this vide element of healthy blood can be supplied. —The excellent American Organ, manu-factured by S. D. & H. W. Smith, Boston, used at the late convention, deserves an especial notice, a large double banked in-strument of 14 stops, whose heavy sub-bass notes were distinctly heard above the whole chorus of 350 voices, while in accom-panying the recitatives in the oratorios, the effect of the soft stops and trenclo were very striking. We notice that the use of these beautiful instruments is beginning to be appreciated by musical societies in the larger citres. —Ever since women left off wearing bon-nets, and substituted for them a bit of paste-board, covered with some thin stuff, on the top of the head, and fastened under the chin with ribbon or a strip of lace, that painful disease, neuralgia has prevailed among them to an extent never known before. This fact, however, has no in-fluence upon the fashion; and we presume that for months to come, cases of neuralgia will be as innumerable, as obstinate, and as profitable to physicians, as they are at present.

that for months to come, cases of neuralgia will be as innumerable, as obstinate, and as profitable to physicians, as they are at present. -Mr. Aaron Fohl, of York county, met with a serious accident on last Friday. While in the act of tieing his mules one of them kieked him in the face, splitting his nose lengthwise and breaking his jaw bone. -The West Chester Republican suys that Capt. Underwood, of Penn township, Chester county, has a cow that gave birth to a very singular looking calf, a few weeks since. The calf is of lead color, and is covered by wool, resembling, a lamb. The head is shaped like that of a young fawn-the nose being quite sharp-and the ears and face as far as the eyes, being entirely barc. The young quadruped is growing nicely-and being a rare curiosity, the Captain hus concluded to raise it. The cow is of Western stock, while the sire was a cross of the Durham. - A new "collecting" mania tras troken out among the young Indies. Albums are made of cards with holes punched in them, and in these holes are inserted the eyes of the buttons which form the subject of the mania. One young ladj in Portland has alrendy collecting mania was ragging in all its virtlence, but the "album" in use was a string with a knot at one end, and the button swere 'legal teuder" in the game of "pitch button."
