WHIT-MONDAY.—Monday next, known in the calender, as Whit Monday, will be kept as a holiday. The custom of observing this day is a very old one. It has come down through many centuries. With our rural friends, it is regarded as an innocent enjoyment, preparatory to the commence ment of the labor of farm and the field. Innocent amusements, visits to town, indulgences in the dance and other popular sports, usually fill up the hours from morning until night, and the shades of the latter are often appropriated to wooing and en-deavoring to win the affection of those fair on es, who are ordained as our friends, to be hoped that this last fight will cure our helpmates and companions.

SUNDAY SCHOOL ANNIVERSARY .- The E. E. Lutheran Sunday School Anniversary will take place in that church, on Wednesday evening, June 17th, 1868. soon occur again. NATIONAL CAMP MEETING .-- The camp meeting inaugurated last year at Vineland, will be held this year at Manheim, Lancaster county, Pennsylvania, from the 14th to the 24th of July. The ground is eligibly situated, in a beautiful section of country. It is being laid out with taste and adaptation to a large assemblage. This meeting is of a union character, designed to embrace Christians of various denominations. The committee is companies to curry passengers at reduced fares. Probably this will be the largest gathering of Christians ever known on this Continent. Parties are already going forward to engage sites for tents. SUPERB BEEF FOR WHITSUNTIDE.-Thursday last, we visited the establishment of Messrs. Wolfe & Killingerat Fairview, to witness the slaughter of the mammoth bullock of which mention was made in these columns last week. We venture the assertion that it was one of the finest bullocks ever slaughtered in this part of the county. In addition to this, another steer was killed which was also a fine specimen. The beef will be exposed at the shambles on market this morning and we believe it is all store the Gettyshurer Katalysine sold to customers; they not having enough of this quality of meat to supply the demand. This shows the popularity of these young and enterprising victualers and they return thanks to their sustomers and the public generally for the liberal support given them. They richly deserve the patronage extended to them, and we know it is appreciated. Their slaughtering establishment is on a new plan and is entirely original. It is a model of neatness, and well adapted to the business-everything clean, neat and in the right place. They have connected with their shops an ice-house, vaults &c., for the

preservation of meats in warm weather. It would be unjust to close this article without mention of the numerous other butchers in town who have likewise killed extra fine beeves for Whit-Sunday, among whom we may mention P. Saylor & Son, M. Wike, Swartz, Yeager, Minich and others. A walk through our market-place this morning, would convince any one that Columbia has about the finest beef market in the United States.

CHILD ABANDONED .- On the 22nd inst., Lucinda Harris, a colored damsel of "tow hill," made complaint before Samuel Evans Esq., against Adam Perry, (colored) for fornication, bastardy, and maintenance. The defendant promised to pay the dusky Lucinda divers sums of money, a portion LIFE OF GENERAL GRANT.—Mr. J. thereof to be paid before the "going down of the sun." The defendant having failed to "come to time" as promised, the complainant proceeded to the shore of the river and deposited upon a raft where the defendant was drawing boards, a "piccaninny' of the male gender and then made tracks for "tow hill." She has not been heard of since, and the last seen of Perry he was making the best of time on the Lancaster turnpike with a young African slung on his back, singing-"Carry me back to ole

Virginny." Assault.—On Saturday last, Edwin Spear was arrested and taken before the same Justice for committing an assault upon Annie, aged seven years, an adopted child of William White, who resides upon Jacob II. Strickler's farm. The defendant was observed wandering through the town without a hat and somewhat intoxicated; he insulted a number of females before he was arrested. In default of bail he was com-

nitted to jail to answer at August Sessions. Mayhem .- On Saturday last, a number of Welshmen, some of whom have been working at Baker's Rolling Mill, at Chickies, others in this place having been paid off, desired to have a "high old time," and proceeded to "Mechanics Hall" where, after mbibing a quantity of lager, they became quarrelsome. William Gay and David S. Jones struck each other several times, and becoming separated, passed out of the bar room by different doors into the street, where they again met and fought. The defendant knocked Gay down and kicked him in the face and on the body until he became helpless, when he seized hold of Gay's nose with his teeth and bit off a portion of it. The fight collected a large concourse of both sexes from "fishtown" to witness it. The defendant made haste to get out of the town, but Gay's better half and "old Ironsides" pursued and "nabbed" him just as he was stepping upon the cars in Marietta. The defendant was taken pefore Samuel Evans Esq., who committed him to prison in default of bail to answer. After a diligent search, Mrs. Gay found

and produced the minor portion of her

ADJOURNED MEETING OF COUNCIL.—An adjourned meeting of Council was held on the evoning of the 23d inst., to consider the proposals received by the Road Committee, for grading and cindering certain streets. Present, Messrs. Green, Presidont, Crane, Detwiler, Nourse, Shreiner, Supplee and Upp.

WRIGHTSVILLE NEWS .- We condense the following interesting items from the Wrightsville Star of yesterday: A large lump of iron-ore, weighing thirty-two hundred and fifty pounds, was received at the works of the Wrightsville Iron Company. It was taken from a mine on Rudisell's farm, near Hanover, which is now worked very successfully by this Company.

The residence of C. C. Burg, Esq., on Hellam street, was entered on Tuesday night last, by some unknown rascal, who stole from a vest-hanging in one of the rooms, a fine gold watch, the property of Mr. Burg. This is the second successful robbery committed within two months, on Mr. Burg's premises.

Henry N. Flora, an old and respected citizen of this place, died very suddenly on Saturday night last. It is the intention to commence in a week or so, towing after right, when there will be but little detention on either side. There is great activity in this line of business, and it is daily on the increase. The steamboat, used in towing boats across the river, is almost constantly in motion.

O. of U. A. M.—A new Council of the Order of United American Mechanics was instituted in this place, on Wednesday evening last, and will be known as Riverside Council, No. 160. About thirty persons were initiated, after which the following officers were installed by State Councellor Snyder, assisted by District Deputy State Councellor J. K. Snyder:

PETER FRALEY, Councellor. PETER FRALEY, Connectior.
Dr. S. A. Bockius, Vice Councellor.
F. Williams, Rec. Secretary.
H. A. Fondersmith, Ast. Rec. Secretary.
WM. Young, Financial Secretary.
L. M. Williams, O. P.
Edmund Spering, Treasurer.

There was quite a number of brethren present from Murietta, Lancaster, and the urrounding county, and a right pleasant time was bad. Riverside, No. 160, starts under the most favorable auspices, and contains good members-the bone and sinew of the place. May it ever prosper. They meet on Thursday evening of each veck, in the SPY building.

R. R. ACCIDENT.—Quite a serious acident occured at Kauffman's Siding on Thursday evening, about six o'clock, by which Mr. Harry B. Hearts, a freight conluctor on the R. & C. R. R., residing in Reading, was much injured—losing three fingers and a part of his left hand besides receiving a very severe cut on the top of his head. Mr. H. says that he was in the act of reaching for the brake when the train jerked up suddenly, throwing him off his balance and in falling reached out to save himself, but struck just outside the rail with his head and left arm under the wheel; he withdrew his head just in time but the wheel passed over the hand. He had the presence of mind to bind up the crushed and bleeding member which timely measure undoubtedly saved his life. He was brought to this place at seven o'clock the same evening in a carriage, when Dr. Hinkle performed the operation of amputation, taking off three fingers and a part of the hand, beginning between the first and second fingers and taking off all that part of the hand in a diagonal line to the wrist, leaving one finger and thumb. Last, winter Mr. H. was bruised and cut. He left for Reading yes terday morning, where he has a wife. He was in good spirits, though suffering considerable pain.

600 MILES OF THE

UNION PACIFIC

Rail Road

Are now finished and in operation. Sixty miles of track have been laid this spring, and the work along the whole line between the Atlantic work along the whole the between the Arthurbe and Pacific States is being pushed forward more rapidly than ever before. More than twenty thousand men are employed, and it is not imassible that the entire track, from Omaha to Sacramento, will be finished in 1869 instead of 1870. The means provided are ample, and all that energy, men and money can do to secure

the completion of this GREAT NATIONAL WORK, at the earliest possible day, will be done.

The UNION PACIFIC RAILROAD COMPANY icceive:

I.—A GOVERNMENT GRANT of the right of way, and all necessary timber and other materials found along the line of its operations.

II.—A GOVERNMENT GRANT of 12,800 acres of land to the mile, taken in alternate sections on each side of its road. This is an absolute donation, and will be a source of large revenue in the future.

III.—A GOVERNMENT GRANT of United States Thirty-year Bonds, amounting to from L—A GOVERNMENT GRANT of United States Thirty-year Bonds, amounting to from \$10,000 to \$18,000 per mile according to the difficulties to be surmounted on the various sections to be built. The Government takes a second mortgage as security, and it is expected that not only the interest, but the principal amount may be paid in services rendered by the Company in transporting troops, mails, &c. The interest is now much more than paid in this way, besides securing a great saving in time and money to the Government. a great saving in time and money to the Government.

V.—A GOVERNMENT GRANT of the right to fisue its own FIRST MORTGAGE BONDS, to aid in building the read, to the same amount as the U.S. Bonds, issued for the same purpose, and no more, The Government Principles to the Trustees for the First Mortgage Bondholders to deliver the Bonds to the Company only as the road is completed, and after it has been examined by United States Commissioners and pronounced to be in all respects a first-class Raifroud, laid with a heavy Trail, and completely supplied with depots, stations, turnouts, car-shops, locomotives, cars, éc.

—A CAPITAL STOCK SUISCRIPTION from the stockholders, of which over Eght Million. V.—A CAPITAL STOCK SUBSCRIPTION from the stockholders, of which over Engla Matton Dollars have been paid in upon the work already done, and which will be increased as the wants of the Company require. VI.—NET CASH EARNINGS on its Way Business, that already amount to MORE THAN THE INSTEREST ON the First Mortgage Bonds. These carrings are no indication of the vast through traffic that must follow the opening of the line to the Pacific, but they certainly prove that

First Mortgage Bonds UPON SUCH A PROPERTY, COSTING NEARLY THREE TIMES THEIR AMOUNT, ARE SECURD BEYOND ANY CONTINGENCY, ARE SECURE BEYOND ANY CONTINGENCY.

The Company have abundant means in their treasury, and make no appeal to the public to purchase their Bonds, as the daily subscriptions are entirely satisfactory; but they submit that, for entire security and liberal returns, there is certainly no better investment in the market.

The Union Pacific Bonds are for \$1,000 each, and have coupons attached. They have thirty years to run, and bear annual interest, payable on the first days of January and July at the Company's Office in the City of New York, at the rate of \$x per cent, in gold. The Principal is payable in gold at maturity. At the present rate of gold, those bonds pay an annual income on their cost of NEARLY NINE PER CENT.,

AND IT IS BELLEVED THAT THEY
MAY SOON BE AT A
PREMIUM. The Company reserve the right to advance the price to a rate above par at any time, and will not fill any orders or receive any subscriptions on which the money has not been actually paid at the Company's office before the time of such on which the holds and the Company's office before the time of such advance.

Parties subscribing will remit the par value of the bonds and the accrued interest in currency at the rate of six per cent. per annum from the date on which the last coupon was paid. Subscriptions will be received in COLUMBIA by SIMON C. MAY, and if New York at the COMPANY'S OFFICE, No. 20 Nassau Sirect, and by Wall st., And by the Company's advertised agents.

And by the Company's advertised agents throughout the United States.

Remittances should be made in drefts or other funds par in New York, and the Bonds will be seat free of charge by retwin carpress. Parties subscribing through local agents, will look by them for their safe delivery.

A PAMPHLET AND MAP FOR 1838 has just been published by the Company, giving fuller information than is possible in an advertisement, respecting the Progress of the Work, the Resources of the Country traversed by the Road, the Meaus for Construction, and the Value of the Bonds, which will be sent free on application at the Company's offices or to any of the advertised agents.
