ICE HARVEST. -The Columbia Ice Com pany commenced cutting and storing ice in their new house, above the bridge, on Tuesday afternoon. The quality of ice is good, being clear and about five inches

"Our Fowl."-Friend Hess, the toy and stationery dealer, has sent us a turkey, for the holidays. It is a promising bird, and although it is of an indigestible charac ter, we accept it for the use of "Harry," who devours otherwise than with his teeth.

RE-APPOINTED.—Mr. Abraham Hies tand, of Lancaster city, who formerly held the office of general inspector for this county, but which office was abolished by the new law of last session of Congress, has been appointed an internal revenue guager and has received his commission.

Fox Chase.—The dinner and fox chase is to take place at Petersburg on the 26th, instead, of the 23d, as we stated a few days ago. Mr. Evans, who gives the din ner, invites us to lend a hand in the destruction of a large turkey on the occasion. If somebody don't send us a turkey, we're bound for that chase.

GAS METERS.—Now that the cold weather is at hand, our readers would do blankets, &c. During last winter a numher of our business places were suddenly involved in darkness by neglect of this precaution. A word to the wise, &c.

GRAND NEW YEAR BALL. — The Twelfth Annual Ball of the Columbia Fire Company, will take place in Odd Fellows' Hall, on New Year Eve. That it will be the best and most thoroughly enjoyable ball of the season--no one need doubt, as it will be only after the same style of those heretofore given by the gentlemen comprising that enterprising Company.

A GENTLE HINT .- We judge that some of our grateful farmer subscribers forgot to send in that nice turkey, on Thanksgiving Day—as we had to "make other engagements." If such there be he may send it in for Christmas-and we will give him such a complimentary notice that he will put on a standing collar, and won't condescend to feel disposed to permit his offspring to associate with the neighbor's children, for weeks to come.

WANTED .- A half dozen elegant and refined young gentlemen of this place, are desirous of procuring situations as sons-inlaw in some wealthy families in the corporate limits or near thereof. They are wiling to be used as fireside ornaments, keep pound cake from moulding, use surplus greenbacks in any quantities and otherwise add to the respectability of the family. Doting parents wishing to increase their families should apply early.

tence that read the same forward and backward. In reply we have received the following from a little girl in town: "Anna did" or "Did Anna ;" again "Hannah did" or "Did Hannah."

An Answer.-We asked a few weeks

This is very good for a little girl, and shows an inquiring mind, which we are ever disnosed to encourage. Since our query has met attention, we

present as a curiosity, the following, which is one of the two or three lines in the Euglish language that read precisely the same, either backward or forward: Snug & raw was I ere I saw war & gun

THE WHISKY BEND .- A lady triend has suggested to us, that if we would enlarge upon the "Whisky Bend," which so sorely afficts many of the masculine gen der, in our midst, and say less in ridicule of the "Grecian Bend," introduced by the ladies, we would better subserve the moral interest of the community in general, and the peace and happiness of many households in particular.

Our fair correspondent has rather the best of the argument, we admit. When we come to think over the matter we do remember to have seen a fellow, a few evenings since who had the "Whisky Bend" the worst kind. We know that some persons got on a high old "bender" the other night while playing Romeo and Juliet. The "Grecian" and "Whisky" are frightful "Bends," without a doubt, from either of which deliver us.

CHRISTMAS GIFTS .- The practice of making presents on Christmas is said to have originated in the exemple of the wise men of the East, who brought their offerings to the manger at Bethlehem, and laid them at the feet of the infant Saviour. Since then, Christmas gifts have been universal throughout Christendom, and many persons feel that they have not properly discharged their duty unless they bestow something among friends and favorites. Those who can afford it usually do, and this holiday never passes around without an interchange of tokens of good feeling and kindness in almost every neighborhood. Be the gift ever so small, and intrinsically, everso valuless, it is esteemed as a special favor. The anxiety with which our children look forward to the approach of this popular holiday, is an indication of the great interest they feel in the receipt of those gifts, and their little heart, are made light, and filled with gladness whenever they are made the objects of some special donation. The practice of decorating our churches with evergreens on Christmas originated with the ancient Druids, who wore garlands of ivy and misletoe, on that day, and since their time it has been religiously kept up by several denominations of Christians.

GETTING UP IN THE MORNING .- It requires a deal of courage to get up out of a nice warm bed these bleak, cold mornings. There is a heap of mental augmentation, and close calculation as to how many minutes you can possibly tarry under the comfortables before you take the final start. But then it is nothing after all when you have made up your mind to do the deed; few questions have given rise to more deliberations than that simple one of getting up, in the morning. Philosophers differ widely, and poor humanity has to act for itself in the absence of a real science applicable to the matter. One wise man contends that no one should rise until the earth is fully aired, while others claiming to be equally astute indulge in the following aphorisms: "He who would thrive must rise at five." So goes the proverb, though there is more rhyme than reason in it; for if

He who would thrive must rise at five,

it must naturally follow,
He who would thrive more must rise at four,

and it will ensue, as a consequence, that He who would still more thriving be, Must leave his bed at turn of three; And who this latter would outde, Will rouse him at the stroke of two.

And, by the way of climax to it all, it should be held that He who would never be outdone, Must even rise as soon as one. But the best illustration would be,

He who would flourish best of all, Should never go to bed at all.

STOREKEEPER APPOINTED .- Benjamin J. Schaum, of Lancaster city, has been ap-pointed by the Secretary of the United States Treasury, a storekeeper for this Conressional district.

For the benefit of our lady readers who have just commenced to practice the Gre-cian Bend, we append the following receipt Throw up your chin and out your chest, Assume the form of the letter S! Like a kangaroo your arm extend, And then you'll have the "Grecian Bend."

WHITE WIRE FOR CLOTHES LINES.-Mr. M. A. Reid, of this place, has secured the general agency for the sale of the Girard Company's white wire, for clothes lines. The wire is highly spoken of. We invite attention to the advertisement in another

THANKS .- Mr. Henry E. Wolfe, one of Nature's noblemen, living on the out-skirts of our borough, has put us under obligations for an elegant present. May you live long, Harry, and always prosper, as we know you will. The Lord loves a cheerful giver, as we love a good dinner.

IMPORTANT CHANGE IN THE REVENUE DISTRICTS OF PENNSYLVANIA .- From and after Saturday last, December 19th, the Assistant Assessor, heretofore employed in the different distilleries in operation, cease to act—all distilleries henceforth to be taxed to their full capacity when in operation. The effect of this change will of course be to save a large amount of money in salaries for Assistant Assessor and to reduce the manufacture of whisky, as many distilleries will not operate under this regulation, and therefore the price of distilled liquors will be increased, because of their consequent scarcity.

CHURCH DEDICATION.—The new house of worship built by the "United Brethren in Christ," near Safe Harbor, on the road leading to Washington, and known as the Highville Church, will be formally opened and consecrated to the service of God, on the 27th inst., (first Sabbath after Christmas), by Rev. Dr. Glossbrenner, Senior well to attend to their gas meters, and see Bishop of the Church, and one of the ablest that they are covered sufficiently with living preachers. Other able ministers will participate in the occasion. All who attond will be accommodated, free of charge, Services will be held at 10 A. M., and 2 and 7 o'clock, P. M. An earnest invitation is extended to the public.

> .FATAL ACCIDENT .- On Sunday morn ing last an accident occurred on the Pennsylvania railroad, at Gap station, which caused the death of Wm. Carter, Jr. It appears that a burden train was moving at a slow rate, when one of the wheels of a car broke, causing a wreck of the cars and the throwing of Carter from the train, breaking his neck. The deceased was on his first trip as brakesman, and resided in Marietta. His remains passed here on Sunday last, in the care of his father. Deceased had returned from the army but-a short time, and was about twenty-five years of age.

THE FAIR .- The Fair of the Columbia Fire Company came to a close on Monday evening last, after a successful run of six evenings. The following are a few of the drawings announced at the close : N. E. Wike, silver watch; A. J. Kauffman, rag carpet; John E. Tyler, rag carpet; Mrs. Geo. M. Booth, silver set; John Maxwell, pair of blankets; Mrs. Wm. Hogentogler, stove; J. C. Bucher, handsome rug; Mrs. McMahon, pair of skates; Leonard Shuler, pen and holder; Mary Hook, set of furs; Miss Jennie Lockard, pen and holder Washington Righter, ten set; Wm. Fisher, pen and holder; Mrs. John E. Tyler, set of casters; D. F. Griffith, coal oil lamp; Master Bletz, \$1 greenback; Allen Richards, \$1 greenback; Harry Akins, \$5 greenback Dr. A. Craig, canary birds; Miss Kinzer, of Reading, gold watch; Rev. W. S. II. Keys, a handsome pulpit bible.

Toward the close of the Fair, the friends of the several physicians in town were active in the contest for a handsome cane that was to be given to the one receiving the largest number of votes, which was finally awarded to Dr. Armor. The following is the vote: Armor, 6991; Craig, 558; Lineweaver, 187; Hinkle, 159; Herman, 14; Brunes, 9; Murphy, 2; Case, 11; Hamilton, 1. The cane, at ten cents a vote, brought \$162.90, which we should say was well paid for, and a handsome source of

revenue for the Company. The Fair closed under the most pleasing circumstances, and was by far the most successful enterprise of the kind ever held in Columbia. The entire proceeds amount to \$1002, and it is thought that \$600 will be realized clear of all expenses. We congratulate the Company upon their great suc-

COUNCIL PROCEEDINGS -A stated meeting of the Town Council was held on Friday, the 18th inst., at 7] P. M., Mr. T. R. Supplee, President pro tem, in the Chair. Present, Messrs. Crane, Detweiler, Mulon, Shreiner, Supplee and Upp. The minutes of Nov. 20th and 21st, were

read and approved.

Mr. Upp, Chairman of the Road Commit tee, reported that Wm. Rochow wanted seven hundred and twenty dollars (8720) damages, for the opening of Washington street through his property, being at the rate of six dollars (\$i) per foot for frantage on both Washington street and Laneaster avenue, and recommended that he be paid that sum, provided the County Commissioners agree to it. In the matter of the opening of Fifth street, he reported that Leonard Smith wanted two hundred and fifty dollars (\$250) for the removal of his house and smithshop, and recommended that that sum be paid and Mr. Smith be permitted to occupy the premises until April 1st, 1869. Union street has been repaired by Mr. Wolfe to the satisfaction of he Committee, and the order for his ilud

estimate given bim. The Finance Committee reported \$277.75 received by the treasurer since last meeting, and a balance in the treasury of \$317,35. The Market Committee reported but littie progress made in the construction of the new Market House on account of the inclement weather.

The Fire Committee reported three new plugs put in at the following points, Second and Perry, Third and Perry, and Fifth and The Payement Committee reported re-

pairs in different parts of the town. The Gas Committee reported two lamps destroyed. On motion of Mr. Upp, it was

Resolved, That Wm. Roelnow be allowed five hundred and fifty dollars (\$550) damages, provi-ding the County Commissioners agree to bear their portion of the same. On motion of Mr. Upp, it was Resolved, That Fifth street be opened from ust to Walnut street after April 1st, 1869,

On motion of Mr. Detweiler, it was Resilval, That Leonard Smith be allowed two his smithshop and dwelling (\$20) for the moving of his smithshop and dwelling, to be puld him May ist, 1881, provided the County Commissioners are satisfied with the price named.

The following preamble and resolution submitted by Mr. Detweller, were read and had over one month:

laid over one month:

Whereas, The vacation of sixth street, between Cherry street and Lancaster avenue, at our last stated meeting, was done so quietly that several of the members of this body did not hear the motion put on the original resolution, and but two or three present voted, and which if carried out would be detrimental to the microst of this borough and contrary to the wishes of sevencials of our citizens; therefore, on motion.

Be it canceld, That when 'Sixth street shall be opened between Locust and Cherry streets, that the same be opened and extended through to Lancaster avenue, as laid down on our borough plan and that all ordnance to the contrary, be and the same is hereby repealed.

WINTER SICKNESS .- A physician at ributes much of the sickness in winter to the bad effects of coal gas. Unskilful handling of the valves of a "gas-burner" stove often drives gas into the air of the room, which is infused so gradually that it will be breathed by the inmates without noticing that the air is foul. A proper ventilation of rooms, and especially sleeping apartments, is much more important in the winter than in the summer for the above

School Affairs .- We are glad to nnounce, that the free night school gotten up by a gentleman of our borough, is a decided success. Upwards of seventy young men and boys have attached themselves to it and there is an average attendance of sixty every night. The scholars are from eleven to twenty-three years of age, and it is very gratifying to observe the determination of all to learn and improve. Mr. Oberlin employed at private expense, is principal, and is conducting the school with rare ability; and lately the Directors of the Common Schools, seeing the great good likely to result from the experiment. have given him an assistant in the person of an excellent young man, Mr. Sourbeer, now engaged in teaching a day school. We hope that the result of this movement may be the establishing of a night school every winter.

"ALL THAT GLITTERS." ETC .- Our youths dye very young. We notice some whose whiskers and incipent mustaches are of a reddish character, suddenly appear changed to a beautiful black. But then they require constant watching; for it looks suspicious when the bristles are white or red near the skin, and black as ink at the ends. Don't fall in love with the color of a moustache, until you are certain it is genuine. The last is for the benefit of the dear girls, and, not to be too partial we would advise the young men not to believe in a rosy cheek until they have tried to rub the color offand failed. This is an age of deceptions and Grecian Bends; truth requires that we should investigate closely before we believe. All the white teeth that grin at us on the street are not natural: dentistry works wonders. Diogenes is abroad, and is more than ever suspicious of the absence of truth

A Question.

Messes. Editors:—There are many things which the limited scope of my pen might bring to the notice of the readers of the "Sry," but none I think at this time of as much importance, as the question, "why are not our lady teachers as well paid as those of the opposite sex?"

The expenses of a single lady are just as great as those of a single gentleman, they are required to do as much work, to teach as many pupils, and as many hours, and they must possess the same qualifications, and yet receive from five to lifteen dollars per month less than the male teachers.

I believe that at present the borough of Columbia is the exception, and not the rule, and if I am right, this abuse should at once be remedied and the salary of the ladies who teach made equal to that of the gentlemen.

gentlemen.

I believe too, that the force of teachers be increased, for I have been inform-

should be increased, for I have been informed that the schools are very full, and corsequently the scholars do not receive sufficient attention, and lastly, though not least, the teachers are over worked.

Education does not receive the attention from the citizens of Columbia that it should, or the foregoing abuse in our school system would not have continued so long.

Since my pen has taken up this subject, I will say in addition, that the teacher should receive a good vacation this winter, for, all thinking people know that theirs is a very annoying, weary and troublesome occupation, and I think, too, the pupils would also be benefited by a vacation during the holidays. Hopeing that I have not written in vain, I remain, you'rs truly,

J. M. GILPIN.

Missas Editors:—I wrote last time upon the necessity of a Lyceum in this place, which has not received the attention I had hoped it would, for I presumed that it was only necessary to say Lyceum, and the people would open their eyes in astomishment, and wonder why they never thought of it before, and allowed this Gilpin to received them at it.

thought of it before, and allowed this Gripin to remind them of it.

I had hoped to see a meeting of the enterprising young men before this, at which money would have been sub-cribed, officers elected, constitution and by-laws adopted, subject selected for discussion at their next meeting, and to have seen it maned the "Columbia Leveum."

But I am disappointed, the Columbia Lyceum will not take its place among the educational mediums of the day, this week at least, and I will in disgust till up my page, about money the all assorbing thing of Commbia critzens and the rest of mankind.

Now, money certainly is the grand lover of society, and to obtain it we must sacrifice many comforts, and some not having the fear of God before their eyes will sacrifice principle for its possession. But even they, perhaps would not do so if they underthe fear of God before their eyes will sacrithe principle for its possession. But even
they, perhaps would not do so if they understood how to keep it. Economy is the key
or source of wealth, and therefore there
should be something to induce economy,
and the best thing for that purpose, is, after
all our necessary wants are supplied, to
place the surplus beyond our immediate
reach, which I think would frequently prevent the expenditure of money for useless
things, and which do not add to our comforts.

things, and which do not add to our comforts.

Much money is spent for tobacco, whisky, pleasure-driving, balls, expensive parties, georgous dressing, &c., which could and would be saved if people placed their moneys beyond the reach of the influences which the foregoing are known to produce. Nearly all would be rich, but they will not practice the self-deniat necessary to become so; many wish to become so by a strike, such as marrying for money, speculation, fraud and chicanery.

Banks, I consider the correct medium for economy, for by placing all surplus

Banks, I consider the correct medium for economy, for by placing all surplus moneys in the bank and getting interest therefor will cause saving and desire for accumulation. Many affect to despise and prefer to enjoy the present to the full extent of their incomes, and consequently accumulate nothing, and as a rule, such persons do not benefit themselves nor the world in general, for all know that the great works of the world are performed by the accumulated-money of our capitalists. But reader, it requires courage in this age to save, to economize, and only those who have the bravery of soldiers can dare public opinion in that respect.

Therefore, ye who are wise will open accounts at bank and stop up many a leak that you cannot account for.

Yours, very respectfully, J. W. Gilpin. THE PALM OF SUPERI ORITY IS AWAR DED TO MRS. S. A. ALLENfor her inprolved (new style) Hair Restorer or Dressing, (in one bottle,) and a grateful public appreciates the very low price, One Dollar. Every Druggist sells it. dec5.1mo

No countryman need be known by his dress. There are marks of his calling which are honorable and becoming. We answer, that the influence of the thousand lot holders will be exerted in tayor of the place, and many will settle there, and every house built in the city will cause an advance in the value of the remaining lots, and as we retain a sufficient number of lots we look for our interest in the town being very valuable in a few years. est in the town being very vanuable in a few years.

The site now covered by Chicago, Cleveland, Toledo, Cincinnatti, and many of the large cities was sold a few years ago for a few dollars, and now the lots bring fabulous prices. With the influence and natural advantages possessed by this town, it may in time rank with the large cities in wealth and position.

We expect that all receiving a lot will use their influence in favor of the town, even if they do not settle there themselves.

No taxes due for a year and then but a few cents, and we will attend to that for all who may wish it. may wish it.

Abstract of title, deeds, and other papers are on file in our office.

NEW ADVERTISEMENTS. HILE

UNION PACIFIC RAILROAD COMPANY, OFFER A LIMITED AMOUNT OF THEIR FIRST MORTGAGE BONDS

NINE HUNDRED AND SIXTY MILES Of the line West from Omaha are now com-pleted, and the work is going on through the Winter. As the distance between the finished ortion of the Union and Central Pacific Rail oads is now less than 400 miles, and both companies are pushing forward the work with great energy, employing over 30,000 men, there can be no doubt that the whole GRAND LINE TO THE PACIFIC Will be open for business in the Summer of 1869

Will be open for business in the Summer of 1881. The regular Government Commissioners have pronounced the Union Pacific Railroad to be FIRST CLASS in every respect, and the Special Commission appointed by the President says:

"Taken as a whole, The Union Pacific Railroad has been well constructed, and the general route for the line exceedingly well selected. The energy and persecuration with which the work has been unreal. has been well constructed, and the general route for the line executingly well selected. The energy and perseverance with which the work has been urged forward, and the rapidity with which it has been executed are without parallel in history, and in grandcur and magnitude of undertaking it has never been equated." The report states that any deficiencies that exist are only those incident to all now reads, and that could not have been avoided without materially retarding the progress of the great work. Such deficiencies are supplied by all railroad companies after the completion of the line, when and wherever experience shows them to be necessary. The report concludes by saying that "the country has reasen to congratulate itself that this great work of national importance is so rapidly approaching completion under such lavorable auspiese." The Company have now in use 15 locomotives, and nearly 2,000 cars of all descriptions. A large additional equipment is ordered to be ready in the Spring. The grading is nearly completed, and ties distributed for 120 miles in advance of the western end of the track. Fully 120 miles of iron for new track are now delivered west of the Missouri river, and 90 miles more are ar route. The total expenditures for construction purposes in advance of the completed portion of the 7.00 acres per mile, the Company is entitled to subsidy in U. S. Bonds on its line as completed and accepted, at the average rate of about \$2,000 per mile, according to the difficulties encountered, for which the Government takes a second lein as security. The Company have already received \$2,155,000 of this subsidy, of which \$1,250,000 was paid Dec. 5th, and 610,000 bec 18th.

ready received \$22,05,000 of this subsidy, of which \$1,250,000 was paid Dec, 5th, and 60,000 Dec 14th.

GOVERNMENT AID—SECURITY OF THE BONDS.

By its charter, the Company is permitted to issue its own First Mortgage Bonds to the same amount as the Government Bonds, and so more. These Bonds are a First Mortgage upon the whole road and all its equipments. Such a mortgage upon what, for a long time, will be the only railroad connecting the Atlantic and Pacific States, takes the highest rank as safe security. The earnings from the way or local business for the year ending June 30, 165, on an average of 472 miles, were over FOUR MILLION DOLLARS, which, after paying all expenses, were much more than sufferent to cover all interest Hability upon that distance, and the earnings for the last five months have been \$2,385,50. They would have been greater, if the road had not been taxed to its utmost capacity to transfort its own materials for construction. The income from the great passenger travel, the China freights, and supplies for the new Rocky Mountain States and Territories, must be anople for all interest and other liabilities. No political action can reduce the rate of interest. It must remain for thirty years—six per cent, per annum in gold, now equal to be lived energy and supervision upon what is vive largely a Government, its market pince would not be less than from 20 of 5 per cent, premium. As these honds are issued under Government athority and supervision upon what is vot largely a government for the present is PAR, and accured interest six per cent, from July 1st, 1868, in currency.

The prince for the pleasent is PAR, and accured interest six per cent. from July 1st, 1868, in currency.
