SUCCESSFUL SURGICAL OPERATION .-On Tuesday last, Dr. Alex. Craig performed an operation on a little boy, son of Isaac Snyder, aged about thirteen years, of this lace, for stone in the bladder.

The operation took place in presence of Drs. D. J. Bruner, Devlin, Murphy and Lineaweaver, with very successful results. The stone taken from the bladder is of a rough oval shape and weighs nearly four ounces. The boy has been suffering for some years, and has taken a great deal of medicine for what was supposed, as kidney disease: but as soon as the boy was brought before Dr. Craig, he was told at once that stone in the bladder was the cause of his suffering. The little fellow gave his full consent to have the operation performed, and he stood it manfully. At this writing he is doing well.

FROM COLORADO.-We see by the Colorado papers that our former townsman, C. P. Elder, is a prominent man in that region. An exchange says: "At Denver the public installation of officers of Denver Encampment, No. 2, I. O. C. F., took place last night before a large audience. C. P. Elder, D. D. G. S., installed the various officers for the present term. After the cere-

DON'T TRIFLE WITH GOD!-A sad ase has just been brought to our knowledge, which we give in substance, as it was given to us. A Rev. Mr. Sweeny, of this place, (colored), died on last Friday. He had been regarded as a good man, and both white and colored entertained for him sentiments of respect and good will.

On taking sick in December, he professed his entire readiness to die; but as he approached his hour, he manifested a desire to reveal something that rested on his mind, and the Minister, Rev. Mr. Cooper, in charge of the congregation, was sent for. On approaching the bed, the dying man remarked, "If I die now, I am lost." What ! said the Minister-"Did you not tell me that you were ready to die?" "Yes, but it was not time. I have been acting the hypocrite all my life. I never knew what religion was. I have never done any good. I have been a deceiver, and if I die now I am lost." The mercy of God was held up before him, and he was urged to look to Christ, but with a strange and awful indifference he went down to death unmoved. unclaimed, and powerless for prayer to the very last. His only regret was, that he had "tried to mock God and deceive others with a false profession." He, with all his profession, and brought "three former wives to the grave by brutal violence, and one of his ent wife on a bed of pain for days." In the retrospect of his life, he sadly remarked: "I have done everything that is bad, I have taken away what no man can give," (alluding to his inhumanity to his wives). What

ST. VALENTINE .- Valentine day comes on Sunday this year-14th of February. Of this Saint, so celebrated among young folks, little is known, except that he was a priest of Rome, and martyred there about

the year 270. It is recorded that on St. Valentine's day each bird of the air chooses its mate. Hence it is presumed that our homely ancestors. in their lusty youth adopted a practice which we still find peculiar to a season when nature bursts its imprisonments for the coming pleasures of the cheerful spring. Lydgate, the Monk of Bur, who died in 1440. has a poem Valentine in praise of Queen Catharine, consort to Henry V., which we are obliged to omit for want of space. Chanlcer also indulges partially to a great extent on the subject of valentines, as also most of the old English poets. Old John Dun-

AN EYE OUT WITHOUT KNOWING IT -We are permitted to make public the folowing instance of surgical skill: A lady (Mrs. George F. Harring), from Eberly's fill, Camberland county, Pa., brought her little boy (a child of about four years of age.) to our town to have an operation per formed on his eye. Some twenty months since, the little fellow ran the long blade of a barlow knife into it, destroying the eye. Severe inflammation at once set in, and continued, in spite of all the medical skill they could employ, until sympathetic opthalmia, or blindness in the uninjured eve had taken place, with the dreadful prospect of total blindness for life. Consulting the judgment of our eminent surgeon, Dr. Hinkle, it was determined to remove the injured eye, as the only means of saving the other, and for this the little fellow was brought to town. The idea of "getting his eye taken out" amused him much, and he was in high glee on being carried to the doctor's office for the operation. Being placed under ether, the whole thing was over and the eye nicely padded before "mother's darlng" got awake. On being restored, and taken back to their boarding house on Cherry street, (Mrs. Strebig's), he remarked, "Why,mamma, you said I was going to get my eye taken out, and here I am with noth-

ing done to me but a wet rag fied on. When will I get my eye taken out?" He was utterly unconscious that the eyo was gone. He is doing finely, at this writing, being able to bear the light and distinguish colors, which he had not been able to do for a long time. Should be see, (as there seems to be a fair chance of his doing) he will owe everything to the splendid skill of Dr. Hinkle-who took "out my eye without telling me anything about it. These regulations will be the same in this

diocese. PROCESURES OF SCHOOL BUARD. Owing to reports having been put in circulation to the effect that undue severity was exercised in punishing the pupils of the punishment was inflicted to compel chil-Iren to engage in religious exercises, in opposition to the expressed wishes of their parents, a Committee was appointed at the January meeting of the Board, to investigate the above charges. Said Committee reported as follows to the regular meeting of the Board, on last Monday evening: TO THE BOARD OF SCHOOL DIRECTORS, OF COLUMBIA.

GENTLEMEN: -Your Committee begs leave to report that, in pursuance of your instructions, they appointed a meeting in the school building, for Thursday after-noon, the 21st alt., due notice of which was noon, the 21st alt., due notice of which was given in the papers, inviting the attendance of all aggrieved. At the time appointed, several children appeared, (attended by their parents) and testined that they had been punished for not joining in the opening exercises of the schools, said exercises including the repetition of the Lord's Prayer in a form not recognized as orthodox by their parents. Several of the teachers were implicated in this charge, but we concluded to hold a second meeting, which we did, on last Thursday afternoon, the 2sh ult. due notice being previously given.

From the testimony elicited at these examinations, we find that the said opening exercises have been customary in nearly exercises have been customary in nearly all the schools, and that the children have all the schools, and that the children have considered themselves required to participate therein, but we have failed to find sufficient evidence to convince us that punishment has in any case been inflicted for refusal or neglect to so participate; on the contrary, we have the concurrent testimony of nearly all the pupils in the four schools we visited, (those of Misses Lommon, Colwell, Hunter and Mithin,) that they had never known punishment to be inflicted, or threatened for any such refusal. In view of all the circumstances, we recommend the pas all the circumstances, we recommend the pas-sage of a resolution by the Board, requir-ing teachers to instruct the pupils that parcipation in these exercises is not require

ing teachers to instruct the pupils that participation in these exercises is not required of children whose parents have conscientious objections thereto.

On the subject of the system of punishment adopted in our schools, (upon which we were also instructed to report,) we would state that only two cases of undue severity were reported to us, an investigation of which revealed the fact that punishment is often inflicted by the Principal for offences committed in the rooms under the immediate charge of other teachers. Now, as the capacity to govern a school is as much a requisite of a good teacher as the capacity to impart instruction, and as the facility of appeal to the Directors in cases of incorrigibility, (which are exceedingly rare, is so great, we take this opportunity of expressing our disapprobation of the system of punnishing by proxy, and request the Board to give an authoritive opinion on the subject.

He will remain in San Francisco a short time, and from there he will go to White Pine, Nevada. We wish our friend Bebee a safe passage and great success in his undertakings.

To Editors and Publishers .- Our friend, Owen T. Wharton, Esq., a practical printer and editor, we learn, desires to form connection with some good Republican newspaper. He is an energetic, talented and experienced man, and from our personal knowledge is entirely competent in the several departments of a first-class of fice, and worthy the especial attention of such of our brethren of the "quill" as feel the need of a desirable partner. He has been favorably connected with this office, but is now located in Philadelphia, from his own choice. Letters addressed No. 12 North Seventh street, will reach him.

COLUMBIA .- There is excitement here caused by the charge of the Daily SPY that Mr. Griest, the late County Treasurer, loaned \$160,000 of the county funds to a banking house, for which he was paid \$600 interest. This sum, it is said, belonged to the county. This is described as a "system of thieving, which, if not stopped, will destroy the Republican party in that county.—Philadelphia Post.

SURGICAL OPERATION .- We were permitted to witness the skill of our distinguished townsman, Dr. Hinkle, on Wednesday last, in removing a large "malignant tumor" from the neck of Casper Seipert, of this place, assisted by Dr. J. F. Cotrell. The tumor was the size of an ordinary cup, on the right side of the neck, and nvolving all the important large blood vessels and nerves. It was with no little trepidation that we beheld the keen knife working its way in among the "thousand strings" of which life is made, and where the smallest mistake must end in death. When the huge ball of malignant flesh rolled off, and the patient "still lived;" we felt that the triumph of skill was all complete, and only needed that the crown laureate be placed on the brow of our eminent surgeon, Dr. Hinkle.

A DASTARDLY ACT-ATTEMT TO FIRE THE HOME OF FRIENDLESS CHILDREN.— One of the most cowardly and dastardly acts over perpetrated in this city, was committed at the Home for Friendless Children last evening. About eight o'clock some one entered the front door and proceeding to the front sitting room, deposited in the centre of the floor a ball of rags saturated with coal oil or some other inflammable liquid, and set fire to it. The matron, Miss Spence, immediately after entered the room, just in time to gather up the blazing ball and cast it in the stove. The carpet was burned time to gather up the blazing ball and cast it in the stove. The carpet was burned through and the cloor slightly charred. But for the timely arrival of the matron a fearful calamity would probably have ensued. The children, of whom there are about two hundred in the institution, had nearly all retired to bed and many were sound asleep. The act was the work of a grown person, or at least one who wore large shoes, as the prints of the shoes in the snow in front of the door were plantly visible last evening. The person after setting fire to the ball retired to the outside of the building, and went to the front window to watch the progress of his internal work. This was evigress of his internal work. This was evi dent from the toot-prints in the snow. We hope that no efforts will be spared to bring the miscreant to justice. No punishment could be too severe for such a wretch.—Ex-

THE GROUND HOG .- Tell us not in mournful numbers, that the Ground Hog tender or advanced age, or hard labor, are saw his shadow on Taesday, 24 inst. We know the tradition well, and it reads after this manner: Ye Ground Hog cometh forth at II o'clock, in the forenoon, on ye secon ! granted by dispensation. Others dispensed of Holock, in the forence, on ye second from the fast for other causes, as well as him, and on beholding his shalow , to the casting whereof the sun must needs snine at the hour of his emergence), incontinently turneth tail, reverts to his subterraneau abode, and knows full well that there will be yet six weeks of weather not endurable by a Ground Hog, is seen no more until that period bath clapsed. Contrariwise, if he seeth no shadow by reason of the cloudy public schools of this place, and also that obstruction of the sun, he rejoiceth within himself, and stayeth out, goeth whither his vagrant fancy leadeth him-perceiving, in his intuitive wisdom that the shadow of cloud will pass, and the sunshine and the etherial mildness will presently follow: which is, teutonically speaking, the best

thing vot he likes. Now it is established by many creditable witnesses that there was no brilliant sunshine in this region on Tuesday, consequently the Ground Hog is still at large. He knows his biz.
