Advertisements, to secure immediate in-sertion, must be handed in on or before Thurs-day evening, each week.

IT is a great pity Columbia has no fish

market NAVIGATION is fairly open on our canals and business is growing brisk.

THE windows of the dry goods stores in our borough present an unusually dis-

play of handsome spring goods, &c. Columbia cannot be beat in this branch of merchandise.

THE "Hivers" have received from the Borough, three hundred feet of new leather hose, which upon a trial a few days since, was found to be of a superior quality.

NEW STAMPS .- The new postage stamps are now making their appearance. The color is blue and white, and they are about two-thirds the size of the old ones

IF any of our patrons fail to obtain their paper in their new homes they will obligo us by informing the carriers or leaving directions at this office.

ASA M. HART, a prominent merchant of Reading, Pa., died in that city, of paralysis, on Wednesday night. Mr. Hart was formerly of Lancaster, and is well and fav-orably known throughout the county.

FAIR.—A number of little girls are now holding a fair in the Vigilant engine house, with a good show of success. We believe the proceeds go to the Children's Home. May the dear little girls be abundantly rewarded for their enterprise.

DEDICATION OF A CHURCH .--- The Reformed Church recently erected near New Providence, this county, will be dedicated to the service of the Triune God on the last Sabbath in this month. Several prominent ministers will officiate on the occasion

OUR SCHOOLS .- The whole number of scholars enrolled in the white public schools of this borough, for the month of March, was eight hundred and one; average attendance, six hundred and thirty-six. Enrolled in colored school, sixty-nine ; average attendance, forty-three.

FARMERS have commenced the spring campaign. It will not be many days before seed-sowing will be the order along the line. Although the winter was an open one, the general opinion appears to be that fruit trees and winter grain fields have escaped the the effects of the cold.

PASSENGER travel is unusually brisk. The scene at the depot on the arrival and departure of trains is one full of bustle, crowding and confusion. Travel over the Pennsylvania railroad has been nearly double the last month that of the preceding month. The Reading & Columbia are also doing a more lively business in both passenger and freight lines.

PASSED THROUGH .--- Wm. Penn Lodge No. 1, U. O. I. B., a' German organization of York, Pa., accompanied by the Citizens' Silver Band, (Captain Philby, leader,) one of the best in the State, passed through this place Wednesday morning en route for Reading, Pa., where a new Lodge of the above order was organized.

THE LATEST.—The latest style of collar is called the "velocipede." The points are so long that they jab holes through the pantaloons at the knees. When washed and hung on the clothes line, one of them looks like a pair of drawers. One reason they are named after the velocipede is because they are "turn-overs."

HENRY M. HAGER has been confirmed as post-master of Lancaster, and will enter upon his duties immediately. MORALITY .- Columbia - according to

DEATHS AND MARRIAGES.-These notices add much to the interest of a newspaper. We would therefore urge upon the clergy in particular, and all others, to send in promptly such matters. We charge nothing for the publication. Physicians, too, have great advantages in securing information of accidents. These are also

matters of interest. When it is desirable, we will publish the name of the physician in attendance in cases of injuries reported.

A RELIC.-We are under obligations to S. C. Slaymaker, of Gap, Lancaster county, Pa., for a copy of THE MONITOR, published in Columbia, by William F. Houston; bearing date January 30th, 1824. The paper is well printed and in a good state of preservation. We quote from its pages the following prices current at that time : First quality of pannel boards per 1000 feet, \$15; second quality, \$12; Common boards \$7.59 to \$5, per 1000 feet; Culling boards, \$5; Coal, \$5 per ton; Pork, \$6 per 100 lbs. : Beef \$4 to \$5 per 100 lbs; Flour, \$4.50 to \$5.00 per bbl ; Wheat \$1 per bushel ; Rye, 45 cts. per pushel; Corn, 37 cts. per bushel; Oats, 25 cts. per bushel; whisky 1S to 20 cents per gallon. THE COLUMBIA WATER COMPANY.-The Columbia Water Company have set earnestly to work to make improvements that must redound to the great credit of the company, as well as benefit to the community, by furnishing an abundance of clear cold spring water to our thirsty inhabitants. They have purchased of Col. Shoch, at a cost of \$4,635, over three acres of ground and have now engaged a large force of men, horses and carts in crecting a reservoir which, when completed, will have an area of an acre. This reservoir will consist of two parts, so that one may be drained and cleaned while the other will contain an abundant supply of water. The reservoir is located on the high ground above Lancaster avenue on one of the most elegant sites in the neighborhood: high enough to supply all parts of our borough with water, even to Kitchen town and its vicinity.

WHO THREW THAT BRICK ?--- MOUday a two cent dog sprang from an alley on Front street, closely followed by a three pound brick. Rounding the corner at right angles he came in contact with the feet of a Dutch woman, who was carrying a jug of molasses in one hand and a basket of eggs in the other. The sudden collision of the dog with her lower extremities threw her from her feet, and she sat down rather sudden upon the basket of eggs, at the same time breaking the jug of molasses upon the sidewalk. A young gent., with carpet-bag, anxious to catch the Reading train, was run ning close behind, and stepping upon the fragments of the jug and its contents, sut down pretty abruptly upon the Dutch woman, who cried out, " Mien (lott !" with vengeance. The young man said something about a mad dog, but in the excitement of the moment said it backwards, all of which resulted from the throwing of a brick.

THE FASHIONS .- Gentlemen this spring will wear overcoats with a wide rolling collar, cut away to some extent and about as short as usual. Vests will be mostly single breasted, open low enough to admit a fair view of the shirt bosom. Pants will be snug in the leg as ever. The new spring overcoat is something between the regular vercoat and a cloak.

BONNETS .- The milliners say the new bonnets are to be more diminutive than ever. As a compensation, the price is to be increased. Nothing like preserving the equipoise.

SHORT DRESSES .- It is stated in some of our fashion books that short dresses are to be all the rage and they are even to take the

place of the long trailing skirt in our ball rooms. What is meant by short dresses. we presume, is the dress as worn at present on the street, which we regard not only as the neatest, most instead and lady-like of century. What is known, in the fashionable world and in popular parlance as street soon, as they are absolutely ridiculous in every sense of the word. But few persons we apprehend, would desire to continue that fashion. It is expensive, inconvenient and certainly not comfortable or handsome. There were days when the sales of the concern touched the lofty figures of twelve thousand dollars in one day. This of course was owing in general to the pro-dicious efforts put forth by Wnnamaker & Brown to meet the wants and wishes of the people in the matter of low prices and desi-rable goods. But no small part. of the credit is due to the country people who seem to go an masse; county after county supplying, itself from the boundless and varied stock of the Largest Clothing House. Having made this good beginning, the pro-prietors have no fears of not being able to continue in the favor and patronage of their fiiends from out of town; but have determ-ined to please them so well this Senson that Oak Hall shall become the great "Resort" of the country trade. At each beat of the heart two and a-half ounces of blood are thrown out of it; one hundred ord correctivities oppose per minute; six and bent of the heaves would of it; one hundred and seventy-five ounces per minute; six hundred and ifty-six pounds per hour; seven and three-fourth tons per day. All the blood in the body passes through the beart in three minutes and distributes the nutritive principle to every texture and the source of every secretion. Now, if the blood is weak and impure the danger of in-curring disease is eminent. This is certain to be its condition, more or less, at this period of the year. And just here we me admonished of the superior advantages of Mishler's Herb Butters for cleansing and renovating the blood. This it will always do, and also prevent any disease arising from impure blood, because it removes the cause. Begin at once to purify your blood with this great tonic, and thus ward off di-sease before it entrenches itself in your sys-tem.
