BUCHER, Now children, if you will stop this DAILY AND WEEKLY. J. BY ANNA LINDEN. the good old politeness which reigned over hurlyburly and be quiet a few minutes With a pallid face and a wistful eye, How eager they gaze at the passers-by, And wonder where each of their homes may be Where loved ones will smile their forms to see And conjecture if those by their side are their TERMS OF SUBSCRIPTION: I will tell you how little Harry puzzled his show and heartlessness when I was a lad. COMMUNICATIONS, Selections, Recipes and ar-leles of interest and value, are solicited for this leparthent of the paper. We desire to supply he public with the best practical information in determent to the farm, garden, and household. put the barbarous nations of old to shame. This long tried and popular Remedy is again called to the attention of the public. As often as the year rolls around, the proprietors annu-ally make their bow to the people, and remind them that amongst the many things required for the health, conifort and sustenance of the family through the long and tedious months of winter, Coe's Cough Balsam should not be for-gotten. For years it has been a household medi-cine—and mothers anxious for the safety of their children, and all who suffer from any disease of the throat, chiest and lungs, cunnot afford to be without it. In addition to the ordinary four ounce so long in the market, we now itrnish our manimoth family size bottles, which will, in continon with the other size, be found at all bring stores. father. After dinner, one night, papa was It is all hollow ceremony now, my dear; Wholesale and Retail Dealer in Fitz James Eustace, a young exquisite, and if the old man cannot stand without standing by the fire, leaning his elbow on who was escorting his cousin Isabel Winassistance, he is thrown down and trodden the mantle shelf, and his head on his hand, chester, to Nahant, drew down his mouth These of their kindred and these of their home Then turn them away with a deep-drawn sigh A quivering lip and a humid eye, upon. In guarding the delicate relations of the household, secrecy becomes a virtue. Even | garden, of which so many complain, while if by chance the private affairs of a household are laid open to a stranger, honor what is needed and destroying everything will require him to turn from them, and if that can injure the fruit trees, in the shape a knowledge of them were forced upon of bugs, worms or other insects, and lay a him, they should be locked in a sacred large number of eggs, which are a cash arti silence, A double obligation of silence and se creey rest upon one who is a guest in a bave tried it, and know it is so. I have

amily. The turpitude of a betrayal of about one hundred fowls, which have workfamily history by a visitor, is far greater ed admirably among my trees, keeping the than theft would be. To pocket half a dozen silver spoons would do far less damage, produce far less suffering, and be less immoral, than talebearing. It is a thing so scandalous that it should degrade a person, and put him out of society. To betray the secrets of the household is not only an odious immorality, but it is a sin and a shame to be on good terms with those who

notes of his method of bastening the growth of this beautiful climber, which as a general thing, is rather slow in getting under

way. He says: "The seed should not be planted until the weather is really warm, in May or even the first or second week in June. When the right time has come, put them in some quite warm water, warmer than you can bear your hand in, but not boiling. Let them soak until their outer covering is broken in a good many places, showing the white in-side. In the meantime, the ground should be well prepared-made fine and light by pulverizing the large lumps of dirt and throwing out the stones. Now pour boil-ing water over the bed. In sufficient quan-tily to penetrate to the depth of four or five inches, and to make the surface soft and muddy. Sow the seeds at the depth of one-third of an inch, smooth the earth over them, and cover closely with light boards. Keep the boards on until the plants appear, un-less a warm rain should intervene, in which case the boards should be removed until the weather is sgain clear. By this means the plants will often get above ground in three days.

presented a finer appearance than at present where something should occur to mar its healthful condition, we shall be again bleve-ed with a bountiful crop of this staple of life.

Line at the foot of peach trees attacked with the grub or borer. Dig away the dirt, put in a little lime, and then place over it dirt.

to learn the full benefits which may be de rived from the proper management of fowls, and it is quite possible that the method I have suggested may offer the best way of getting our apple orchards into bearing con dition. Preparation of Whitewash. Whitewash is one of the most valuable articles in the world, when properly applied, and now is just the time in which it

is in the greatest demand. We would advise housekeepers to cut out the following, for reference: Take a clean, water-tight eask, and put into it half a bushel of lime. Slack it by pouring water over it boiling hot, and in sufficient quantity to cover it about five inches deep, and stir it briskly till thoroughly slackened. When the lime has been slakened, dissolve it in water, and add two pounds of sulphateof zinc and one of common salt. These will cause the was to harden and prevent its cracking, which gives an unseemly appearance to the work A beautiful cream color may be given to the wash by adding three pounds of yellow ochre; or a good pearl or lead color by the addition of a lump of ivory black. For fawn color add four pounds of umber; one

mon lampblack. When applied to the outside of houses and to fences, it is rendered more durable by adding about a pint of

ground in good condition, keeping off the insects and promoting the growth of the orchard. I am satisfied that we have yet

are known to commit such outrages. They are miscreants. They put themselves ou

of the pale of decent society. They should

be treated as moral outlaws. These hungry-eyed wretches who sit in the unsuspicious circle of parents and children, treasuring their words, spying their weakness, misinterpreting the innocent liberties of the household, and then run from house to house with their shame less news are worse than poisoners of wells or burners of houses. They poison the faith of man in man. If one opens his mouth to tell you such things, with all your might smite him in the face! There are two actions which justify you in instantly knocking a man down: the one is the act

pointing a gun at you in sport, and the other is the attempt to tell you a secret which it is disgraceful for him to get, and for you to hear. Make no terms with such people Tale bearers have no rights. They are common enenties of good men. Hunt, harry and hound them out of society ! They are the worst of pests save one, and that is the

listener to the tale bearer. There could be no tattling if there were no one to hear. It takes an ear and a tongue to make a scandal. Greedy listening is as dishonorable as nimble tattling. The car is the open market where the tongue sells its ligotien wares. Some there are that will

They are born from an egg-four from their twins. There is no such thing in the annals ov nature as a single cockroach. The maternal bug don't sett upon the egg as the goose doth, but leaves them lie around loose, like a pint of spilt mustard seed, and don't seem to care a darn whether they get the set of the s - the

around horse, like a pine of spin mustaria seed, and don't seem to care a darn whether they get ripe or not. But I never knew a cockroach egg fail tew put in an appearance. They are as sure tew hatch out and run as Kanada thistles, or a bad kold. The cockroach is of two colors, sorrel and black. They are always on the move, and kan trot, I should say, on a good track, and a good day, class to three minitis. Their food seems to consist not so much in what they eat as what they travel, and often finding them dead in my soup at the boarding-boase, I have come to the conclu-sion that a cockroach can't swim, but they can float.

realize that the invitation had been extended to him solely to save his cousin's feelings. But, notwithstanding this, he
