READ IT .- We invite the attention of the readers of the SPY to the new advertise ment of H. C. Fondersmith, in another column. He offers great inducements to buy-

ACCEPTED.-Both the Columbia and Vigilant Steam Fire Engine Companies, o this place, have accepted an invitation to participate in the Firemen's parade, at Harrisburg, on the 26th inst.

MINISTERS SPANKED .- The Leavennaragraph vesterday concerning fourteen ministers who had been 'spanked' during infancy, for 'spanked' read 'sprinkled.' "

VERY LATEST .- The last oddity in the freaky world of fashion is wooden parasols made of thin strips of wood and decorated something after the Chinese fashion. They are pronounced handsome by fashion

SUPERINTENDENT COMMON SCHOOLS. -On Tuesday last, Mr. David Evans was re-elected Superintendent of Common Schools of Lancaster county, by a majority of five votes. Mr. Evans received 111 and A. O. Newpher 106 votes.

DAM FOR WATER COMPANY .- The Columbia Water Company are building an extensive dam in May's Meadow, about one mile and a-half from town. It is a substantial work-breast eighteen feet high, and when completed Columbia will be supplied with pure spring water-a luxnry that not every town can afford.

STREET OBSTRUCTIONS.—Street obcomplaint for many months--and with reason. It is a fact that the sidewalks in several localities of the borough are absolutely impassable, being blockaded with building material, &c. One is never sure on coming home at night whether he can reach his own domicile at all, except he wade through pools of mud and mortar and climb over fences of boards and bricks. These things ought not so to be, and there is an ordinance regulating such matters; but who will enforce it? is the question.

THE ECLIPSE.—The total eclipse of the sun on the seventh of August next, is the only one that will be visible in North America during the present century. The center of the line of totality will pass through Springfield, Illinois, and near Des Moines, Iowa. Both of these stations, as well as many others, will be occupied by coast survey parties. Congress has arpropriated \$5,000 to defray the expense of observations. Professor Winlock, director of Harvard Observatory, is making arrangements for viewing the eclipse and noting of its features at Shelbyville, Ky. The observations will last between two and three min-

EAST PENNSYLVANIA RAILROAD. At a meeting of stockholders of the East Pennsylvania Railroad, held on Friday last, the directors of the road were author ized to declare a stock dividend of 100 per cent.. clear of all taxes, payable to the stockholders on the 12th day of May. And, also, to lease the road for nine hundred and ninety-nine years to the Philadelphia and Reading Railroad Company. At a subsequent meeting of the directors, proper steps were taken to carry the action of the stockholders

RECOIPE FOR MAKING TATTLERS .-Take a bandful of the weed called Runabout, the same quantity of root called Nimble-tongue, a sprig of the herb Backbite, (either before or after dogdays,) a table spoonfull of Dont-yon-tell-it, six drachms of Malice, a few drops of Envy, which can be purchased in any quantity at the shops of Miss Tabitha Teat ble and Miss Nancy Night-walker. Stir them will together, and simmer them for half an hour over the fire of discontent, kindled with a little jealousy then strain it through the rag of Misconception, and cork it up in the bottle of Malevolence and hang upon a skien of Street Yaru; shake it occasionally for a few days, and it will be fit for use. Let a few drops be taken before walking out, and the subject will be enabled to speak all manner of evil and that

PUBLIC GROUND COMPANY.-The citizens of Old Columbia feel grateful to the managers of the Public Ground Company for the manner in which the affairs of the corporation have been conducted. Columbia has been furnished with an admirable institation of learning, which is widely and favorably known. It is hoped, the time will soon come when still greater usefulness may be derived from the munificent gift of Mr. Wright. There are those however, who would be pleased if an exhibit, statement and report of the affairs and condition of the Company was made, that all might see and know therefrom what further advantages may be hereafter expected. As many of our citizens are entirely unacquainted with this matter, a history of its origin and progress would be very interesting.

THE NEW CURRENCY .- Collectors of specimens of money will now do well to save a clean piece of each kind of fractional currency, as it is all to be called turand no more used. The new series will be entirely different, and the same is true of all greenbacks that are to be issued hereafter. The quality of the paper is to be changed, and the new style is now in process of manufacture under government supervision. It is thought to be impossible to counterfeit the currency that is to succeed that now in use. New and different presses will be used in printing, and a part of the work will be done in some other city than Wasnington. The disagreeable parts of the work which have made the Treasury Department a factory will be banished to other quarters. All the people who have been at work in this bureau have been furloughed until the middle of this month, when the operations

LARCENY.—John Smith, who hails from Indiana, and James Armstrong, of Mass., two forlorn specimens of humanity, stole a piece of goods from Wm. G. Patton's store on Tuesday at noon. After stealing the goods they straightway went in search of an officer to give themselves up. They as he "pours it from the hollow of his hand." said they did not want to be sent to jail for a few weeks as vagrants, but wanted to be of the world-while the same world requires earn some money, by extra work, to buy clothing. Justice Evans accommodated, and sent them to jail to answer at August Sessions. Since old Ben Knywood shuffled off this mortal coil, it is rare indeed that persons are anxious to steal for the luxury of going to prison, especially at this season of the year. Perhans the motive these parties had for wishing to go to jail, will be found in the fact that they have violated the law in some other locality, and wish to evade

COMMENCED AGAIN .- Old Brigham has commenced preaching again, and his discourse is, as usual, insanity, fools, knavery, thieves, &c.

BITTEN BY A DOG.—Wednesday evening last, Harry, son of John Swartz, of this place, whilst running down Locust street, with the Columbia Steamer, was bitten in the face and breast by a wortbless dog be onging to Strine's livery stable.

THE RIVER is in excellent rafting order and many rafts are passing down. The river along the shore is lined with lumber of all kinds. There has been but little umber purchased, as yet, in comparison with other years.

MATRIMONIAL.—By reference to our bymenial department, it will be seen that quite a number of the fair daughters of Lanthe good work go on.

NEW Hose .- The Columbia Steam Fire Company have received a new lot of hose, purchased by the borough, and upon a trial Wednesday evening, found it perfect with the exception of one section which bursted at one hundred and sixty pounds pressure.

OFF FOR WHITE PINE -Joseph H ck, proprietor of the Washington House, of this place, started for Hamilton, White Pine County, Neyada, Tuesday afternoon He is interested in the White Pine Mill and Mining Company of that place, and goes to look after his interest there. He will be gone about three months.

MASONIC TEMPLE.—The first course of granite is now being laid at the new Masonic Temple, Broad and Filbert streets, Philadelphia. The huge blocks thus far used will, in addition to the massive foundation indicate the substantial character of the building, which, when finished, will be

DECORATION OF GRAVES .-- On the 30th of May the graves of soldiers throughout the United States will be strewn with flowers. Why not make the day one for bedecking the graves of civilians, of both sexes as well as of soldiers? This is a custom extensively observed throughout Europe, and is poetical and beautiful. Let all who have dead to honor put flowers upon their graves on the 30th of May.

Knights of Pythias .- J. J. Keyes, Esq., of the Grand Lodge of Pennsylvania, Knights of Pythias, visited Evergreen Lodge, No. S1, of this place, on Wednesday evening last. His lecture before the lodge was well received and highly instructive. A yote of thanks was passed. This order is in a very flourishing condition and has taken root in almost every State in the Union. It is about being established in France and England.

RETURNED HOME.—Samuel B. Richards and John Richards returned home this week. At the close of the war they enlisted in Col. Hambright's 29th infantry regiment, regular army, which was stationed for a long time in West Virginia and Tennessee; but lately in Texas. There has been a consolidation of regiments, and some of the non-commissioned officers whose term of enlistments were about to expire. were allowed to resign, and the Messrs. Richards were among the number. They left Texas about two weeks ago, and arrived here on Monday, looking none the

AN ORDINANCE RELATING TO MAR-KETS .- Our worthy Chief Burgess, wishing to facilitate matters in connection with the observance of our market rules, has issued the following:

the following:

This is to give notice to all concerned, that the following sections extracted from an ordinance, passed May 9th, 1866, will, hereafter, be rigidly enforced:

Scroot 3. That it shall be unlarful for any person or persons to buy or sell either directly or indirectly, any action or articles phatsever, at said market, refore the time fixed to opening the same; any violationer: the section shall subject the oftender or official error of a penalty put exceeding rax politic to a penalty put exceeding rax politic the market shall not be published from selling mean restalls before the opening of market. Secret S. That it shall be unlawful for any buckster, store, storekeeper, or other person to gurchise any article or articles whatsever, at the market place in the borough during market hour, for the purpose of re-selling or battering the same, under a penalty of TEX politics.

A WORD TO THE LADIES .- In one of our exchanges we find the following directions for preserving bouquets, in their original treshness and beauty for a long time : "First sprinkle it lightly with fresh water. Then put it in a vessel containing soap-sud-; this will nutrify the roots keeping the flowers as bright as new. Take the bouquet out of the suds every morning, and lay it sideways-the stalk entering first into the water; keep it there a minute or two, then take out and sprinkle the flowers lightly by the hand with water. Replace it in the soap-suds and it will bloom as fresh as when guthered, The soap-suds need changing every three or four days. By observing these rules strictly, a bouquet can be kept bright and

beautiful for at least a month, and will last longer in a very passable state."

As we think no decoration so beautiful in drawing room or boudoir as fresh blooming flowers, and being somewhat curio us as to the truth of the above, we promise that one of our fair readers, who shall first send us the result of the experiment, the most tasteful bouquet we know how to select. To what fair hand shall we be indebted for solving the doubt?

SILENT INFLUENCE.-It is the bubling spring which flows gently, the little rivulet which runs along day and night, by the farm that is useful, rather than the swollen flood or the warning cataract Niagara excites our wonder, and we stand amazed at the power and greatness of God there, But one Niagara is enough for the continent sent to jail for a sufficient length of time to | thousands and tens of thousands of silver fountains and gentle flowing rivulets, that every farm and meadow and every garden, and that shall flow every day and every night, with their gentle, quiet beauty. So with the acts of our lives. It is not by great deeds, like those of the martyrs, that good is to be done: it is by the quiet and virtue of life-the Christian temper, the meek forbearance, the spirit of forgiveness in the husband; the wife, the father, the mother, the brother, the sister, the friend, the neighbor, that good is to be done.

WHAT IS THE CONDITION OF YOUR CELLAR?—Is it damp, close, filled with disagreeable odors, proceeding from germinating or decayed vegetables? If so, says the Boston Journal of Chemistry, it is bigh time you gave the matter your earnest attention: for you have in that locality the

germs of disease, and yourself and family are liable to be prostrated at any moare liable to be prostrated at any moment.

Reader! think your cellar or basement is in good sanitary condition; do you know that it is? Have you fairly and carefully examined the premises? Have you looked over the potatoes, turnips, and other vegetables, to ascertain their condition? We know that diptheria, typhoid and scarlet fevers, and many other most serious illnesses have their orign in cellars, both in city and country; and we can do our read-

There is a reason for it, and we can point it out. They arise from the indifference manifested to the observance of hygienic rules, and violation of sanitary laws. Clean-lines is essential to health, and is just as necessary in the country as in the city. A family living over a foul cellar is more liable to be poisoned and afflicted with ilness the country as in the cuntry as in the city. He was kindly attended by the Company's physician at Reading; but after five months of great suffering, he called on Dr. Hinkle who on examining the arm found that "Necrosis" had proceeded so far that nothing but an operation could save his life. With the nuruose if possible, to save both life and arm for the unfortunate mun, he proposed to take out

After being apprised of the chances for and against him, Mr. Kelchner preferred "Resection," when Dr. Hinkle, assisted by Mesers. E. K. Smith, Wm. Patton and Dr. H. S. Case, proceeded to lay open the arm along the ourse of the bone, carefully avoiding the main artery, veins and nerves in the section, until the whole of the diseased bone was exposed, when the upper and lower parts of the fractured bone were cut off by a chain aw, leaving a clean wound of four or five inches long in which every muscle and important blood-vessel could be seen carryng the vital fluids to their respective parts. The New Market House. The expenditures for the erection of thi The expenditures for the erection of this building, appears to meet the approval of all the entizens of our borough. The material used in its construction appear to be of good quality and the workmanship mechanically and well done, excepting the finish of the end fronting on Third street, which has a plainness of style, that detracts very much from the architectural proportions which it should have possessed; this deformity we are pleased to learn, the Council propose to correct.

The arrangement of the market stands in the interior are very complete for the ventical and the stands of the interior are very complete for the ventical stands of the stands of the control of the ventical propose to correct.

The arrangement of the market stands in the interior are very complete for the vendor of produce, but we tear they will not give that comfort and convenience to those attending market that the projector of the present arrangement contemplated during a full and well attended market; the avenues become crowded and progress through them is made very difficult and uncomformthem is made very difficult and uncomform-ble. We also learn that the market com-mittee recommended the abandonment of the cells for the purpose of a lockup, and that they be fixted up for storage and cellar purposes, and that an abatement of two hundred and forty dollars be made on the contract. This recommendation was approved by the Council and agreed to by the contractor

They have further suggested the improvement of making a single entrance to the cel-lar only, which will be sufficient for the lar only, which will be sufficient for the purpose of cellar as above indicated, which entrance will be upon the alley or east side of the market house—the upper or west entrance will be closed and a proper deduction will be made with the contractor for the same. This arrangement will give satisficient space for the erection of three stands which will rent for thirty dollars, and preserve the use of the cellar below which contains seven apartments and will no doubt rent for ten dollars each. This change suggested by the Market Committee-will increase the annual revenue of the Market House one hundred dollars, and afford conveniences to meet the requirements of those attending our market and giving completeness to our present well furnished market house.

Now, the present is the most important period of the year to prepare the human system by using this Celebrated Bitters for the severe drain upon its strength which the near summer months will bring, and under which an unb aced, depleted and debilitated organism will speedily give way. It is to prevent this evil result that this Bitters is recommended for both sexes and all ages. It is the most excellent Spring and Summer Tonic ever offered, and wherever it has been introduced it is found indispensable to young and old. it is found indispensable to young and old. It purifies the blood and secretions; accelerates the digestive functions, regulates the liver: recruits all the vital forces; tones the entire system and enables the weak and nervous to sustain any fluctuations of the mperature or changes in climate.

It is said that the proprietors of the celebrated Plantation Bitters rent no less than nine pews from the different denominations in New York city for all those of the company of the company than yer. their employees who will occupy them reg-ularly, free of charge. This is certainly praiseworthy, and it is to be hoped that others who employ a large number of peo-ple, will follow the example. The above fact, accompained with the belief that a firm who would look so closely after the morals who would look so closely after the morals and welfare of their employees, would not undertake to impose upon the public, has induced us to give the Plantation Bitters a trial, and having found them to be all that is represented, we cordially recommend them as a touic of rare merit.—Observer, April 1st.

THE MORE, THE MERRIER .- People THE MORE, THE MERRIER.—People used to talk about high prices as semething inseparable from big stores. Oak Hall has done much to do away with that foolish prejudice by giving a live example of the Largest Clothing House in the State selling goods at the lowest prices. And men are coming to understand that the truth is just the reverse and that the houses doing the most business and so requiring the largest accomodations are the ones who can and do sell the cheapest. In this as in everything else, except courtship and marriage, "the more, the merrier."

Mr. RAMBO:—Your suggestion, that the Clerk of the Council should be required to keep a record of all fires, false alarms, incidents, &c., in reference to the destruction of property by fires, meets with general approbation, and should at once be complied with. As no harm can arrive from it, it will be a matter of great interest to all citizens. Let it be done.

Dr. Gatchell. Mr. Editor:—You say in your paper that Doctor Catch-all (I suppose you mean Gatchell) voted to increase the members pay to \$1500. Permit me to set you aright in this. He did not vote for the bill, but he did worse. He dodged the vote and did not vote at all, although in heart and soul he was for it. He wanted the increase, but knowing that his constituents would be opposed to it, he dared not vote for it, but sneaked away not voting at all, although he hoped it would pass.

LANCASTEE.

A Card.

MR. EDITOR:—Did you ever get into a "deep, brown study?" Of course you have, all editors get into that fix when they are compelled to fill up their "locals," and nobody will get killed; nobody will let somebody burn down his house; and all our merchants refuse to have their stores robbed, &c.; why how can you help getting into a "brown study," when you are called on to get up something exciting, and yet the whole community is. "doggedly" fixed in keeping down all excitement. No wonder you get into a "brown study;" it's enough to give you the "blues" in the bargain. I pity you. I wish you had the "study" (no, one like it) that I have got. It's so nice, rich and comfortable; it never makes the head ache, nor the eyes redden; O, it's luxurious enough for a Prince, and if I knew how, I would say something right grateful to those generous ladies of a sister denomination to whose kindness I am indebted for a leantiful and costly "Studying gown."

Rot. I am in the fix of that dear little

cherub boy who, when most asleep, was told to say his prayers. And he began, Now I lay me down to sleep I pray the—the—the— O, He knows the rest, and closed his little eyes, muttering—"He knows the rest." So I can only say thanks, many thanks, for this splendid gift—and ladies, if I fail to say all I ought, you "know the rest."
