Ar least five hundred colored men were turned out of employment in Richmond for expressing their political preferences at the recent election.

Some how or other the great reduction of the public debt since the inauguration of the present administration does not ap pear to find favor in the eyes of several leading Democratic papers. Sorry every body cannot be pleased.

THE Copperhead papers are just now shamelessly abusing General Sickles, the one: legged hero of Gettysburg. How these Copperheads do love Union soldiers ! They hate Sickles because he refused to continue with the party in its alliance with slaveholding traitors.

SINCE Johnson's snarl at Washington we have been somewhat impressed with the importance of his remarks. From his scabrous ejection from the White House. contrary to his vaticinations, we can chronicle the following disaster : The Whisky Ring is no more. Alas! Stealing has ceased. Economy is the rule. Honesty is in the ascendency. The debt is literally wasting away. Congress will actually be able to commence reducing taxation. Our credit is perfect. The laws are enforced. Peace reigns throughout the land. -Johnson is still out of office, and the prospect of the nation ever becoming a monarchy is more gloomy than ever. Is it: any wonder the air at Washington was tainted a few nights ago with the terrible imprecations of Andrew Johnson. the President that was?

FROM the extraordinary efforts now being made by some of our candidates for office, it is very evident they intend to force themselves into nomination by hook or by crook, thinking that if they can obtain a nomination no matter how, they are sure of an election. We beg leave to notify, all, and, each, and every one of them, that no man will "be recognized as a candidate unless at the primary elections he shall fairly and honestly obtain his nomination by a majority of votes cast by members of the Republican party. False counting, stuffing ballot-boxes, ringing in Copperheads to vote, and any other trick or device to prevent a clear and honest choice being made, will, must, and shall 'render his nomination a fraud, not to be respected or voted for. It has sometimes happened that impropermen have by trick and intrigue foisted themselves upon the ticket and compelled the party to elect them lest political opponents should elect. their ticket; but that state of things does not now exist. The people are determined to make their own choice of candidates and will not be thwarted. Therefore, tricksters, scallawags, and ballot-box stuffers, look out !

only produces stupor of mind, headache and predisposition to take cold, but that it either causes or greatly aggravates the most malignant diseases, such as fevers, inflammations, infantile maladies, cholera, scrofula and consumption. The fetid vapors thrown off in the breath and by insensible

perspiration from large numbers of crowded children during school hours, and the narcotic poison, carbonic acid gas, frequently generate lung diseases and scarlet fever. The report before us calls the atten-

tion: to the fact that the best has by no means yet been done for ventilation which it is in the power of skill and science to accomplish, inasmuch as it has been the usage to attempt to ventilate from the top in violation of the law that vitiated air falls, but does not rise. Trespassers on Fruit Growers.

One of the greatest appoyances suffered by fruit growers near large towns is the petty thieving to which they are subjected. The boys' code of morals does not rank depredations upon orchards as a high rime, but these little thefts of the youngsters are nothing to the more serious raids sometimes committed by gangs of rowdies, who not only steal the fruit, but damage and destroy the trees and often insult the owners. To have a fine tree, bearing some choice variety of fruit, the bringing of which to perfection has perhaps been the pet hobby of the owner, whose growth

he has watched with jealous care broken and destroyed, and the fruit, which he expected to exhibit with pride as the reult of judicious culture, carried off is an annoyance which cannot at all be measured by the mere money value of the thing tolen. To protect fruit growers against such trespasses the Legislature of Maine has passed a law capable of prompt and rigorous enforcement against offenders. The owner has the power to arrest trespassers, who can be find twenty dollars and subjected to thirty days' imprisonment by a magistrate. Such a law should be in force in all the States.

County Committee.

We respectfully caution the County Committee of the Republican party that will meet on Monday the 19th inst., at Lancaster, as to the course of proceedings they may there adopt. The Chairman and several other members of that body are candidates for office, and the eyes of the Republican party are upon them. Their action will be closely scrutinized. We hope nothing will be done to excite suspicion, and that whatever is done, will be done to secure a fair and HONEST ELEC-TION OF CANDIDATES BY THE PEOPLE. without fraud, trick or deceit, and indepen.

Candidates for office are now on trial it at 4 per cent., and receive from the County a per centage besides, for all the efore the people. They are watched, au political defeat surely awaits any and every one who will dare to obtain a nomination by any other than honest means. They must recollect that being a candidate will ustify no resort to unfair or dishonorable conduct. Some, we know, think and act as if "the end justified the means;" or, that " all is fair in politics." That is not so, and they who think and act so will find their mistake. We have had prohibitory laws on this subject from the year 1837... In 1841. the prohibition was en-grafted upon the "Constitution," which Constitution cannot be changed but by a two-thirds vote of the whole membership. During this whole period there have been those in the Church who were opposed to the "law" on "Secret Societies," and there have been at all times quite a number among us who were connected with some one of the many secret organizations with which the country abounds. Thus we have had all the while a modifying element at work in the? Church, seeking to do away with the objectionable feature. altogether, or so change as to maker it simply advisory; and I claim to be of this number. This does not fairly present the case. Our General Conferences are the direct creations of the people, and ience there is no necessity for a reference that it is not worth that amount, but for the margin between cost and value that would of any one question to their direct vote, by a Conference thus called into being. The "Delegates" go up from the people to ex-press their will, and the people are com-petent to instruct their Representatives on this or any other matter, but the Represen-tative is not competent to instruct his con-stituent. To do this, the Seaweed Tonic and Mandrake Pills trust be freely used to cleanse the stomach and hver, so that the Pulmonic Syrup and the food will make good blood. Schenck's Mandrake Pills act upon the liver, re-moving all obstructions, relax the ducts of the gall-bladder, the biols starts freely, and the liver is soon relieved; the stools will show what the Pills can do; nothing has ever been invented except calomel (a dendy poison which is very dangerous to use ex-cept wit, great care), that will unleck a gall-bladder and start the score tools of the liver Tilk Schenck's Mandrake Pills. Liver Complaint is one of the most prominent causes of Consumption. Schenck's Seaweed Tonic is a gentle stimulant and alterative, and the alkall in the Seaweed, which this preser pilon is made of, assists the stomach to throw out the gastric julee, to dissoft the food with the Pulmonic Syrup, and it is made into good blood without fermentation or souring in the stomach. The grate reason wy physicius do not care con-sumption is, they try to do too much: they give medicine to stop the cough, to stop chills, to stop night sweats, hectic fever, and by so doing they de-range the whole digestive powers, looking up the se-cretions, and eventually the patient sinks and dies. Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills or fever. Romove the cause, and they will all stop of their own accord. No one can be cured of Consumption, Liver Complain, Dyspesa, Caurch, Causter, Ulcerated Throat, un-less the liver and slomach are made healthy. If a person nas consumption, due to make blood out of food. Now the only cheance is the lings are a mass of inflammation and fast decaying. In stuch cases what must be done? It is not only the lungs that are wasting, but it is the whole body. The stomach and liver have tost their power to make blood out of food. Now the only cheance is the lungs are tone to the stomach, the patient will begin to want food. It will digest easily and much. This is the onnone Syrup. ASIATIC CHOLEKA, THE STORNGES! DEAR SIRS, --- I ought to have acknowledged long ago the box of Pain Killer you had the goodness to send ime last year. Its coming was most providential. I believe hundreds of lives were saved, under God, by t. The Cholera appeared here soon after we re-neived it. We resorted at once to the PAIN KILLYR, ising as directed for Cholera. A list was kept of all o whom the Pain Killer was given, and our native assistants assured us that eight out of every ten to whom it was prescribed, recovered. It has, too, been very useful in various other diseases. It has proved an incalculable blessing to multitudes of poor peoan including of observing to including of post-ple throughout all this region. Our native preachers are never willing to go out on their excursions with-out a supply of the Pain Killer. It behooves every honest Republican to be at his post at the coming primary election, for the nomination of candidates for the various offices. Corrupt and designing men of the party are at work in setting up a ticket to be "counted in" and the honest and well meaning Repub-then; true and honest Republicans, and frustrate the designs of scheming men. They are at work and have their "stool pigeons" in every district. Be not deceived by Thugs, Rings, or Factions. Let every Republican attend-the primary meetings, and vote for the best men ; this is the only way to purify the party.

The Lancaster Express of a recent date has a well-timed article on the above subject, which we copy as follows :

"The approaching primary meetings for the nomination of candidates for the Leg-islature and the various county offices willbe of unusual interest to the candidates and their friends, and of; vital importance to the party. The first and paramount consideration to every true Republican is the assurance of a fair and honest election in the nomination of candidates. If this assured the integrity of the party is secured beyond all question. If, on the other hand, it, should become evident that candidates have secured their success by fraud and corrupt combinations, in open disre-gard of the spirit and letter of our nominating system, the sense of obligation of the masses to support a ticket thus nominated will be so much weakened as it seriously jeopordize its success at the general election. From various sources we learn of a de-

termination among certain cliques and rings to carry their candidates by unfair means. Several attempts 'to form' combinations have been made, but thus, owing to the great number of candidates and the various conflicting interests to be harmonized, none of these schemes have been successful. The wire-pullers are, however, hard at work, and will no doubt succeed, before the campaign is over, in "setting up" some combination to cheat the honest, unsuspecting voters. What we want is. a square contest .- every candidate standing upon his own merits, according to the letter and spirit of our primary system of nominating; and if this is not interfered with by rings and corrupt combinations it shall be our pleasure to quietly look on and give a cordial' support to the suc-cessful candidates: 1 If, however, combinations are formed to force obnoxious candidates upon the people, it will become our pleasure as well as our duty, to do all in our power to the section of the
