SUNDAY SCHOOL CELEBRATIONS.— The Presbyterian and German Lutheran Sunday Schools, of this place, held their annual celebrations Tuesday, the former at Litiz Springs and the latter at Heise's woods. The weather was very favorable and the children enjoyed themselves.

EARTHQUAKES COMING .- A German astronomer has published a statement to the effect that the present year is not to close without some terrific convulsions of nature in the simple shape of earthquakes and other pleasant etceteras. The months of August and September are designated for these dreadful events to come to pass.

ENTERED UPON HIS DUTIES .- Mr Joseph L. Suydam, of Contesville, formerly of this place, entered upon his duties as Superintendent of the new Wilmington and Reading Railroad, on Monday, of last week. From the experience Mr. S. has had in railroad matters, we know he will make a most valuable officer.

COUNTY COMMITTEE MEETING .- The Republican County Committee met in the Orphans' Court Room, an Monday, the 19th inst. After the chairman, Martin S. Fry, stated the object of the meeting, Hon. E. Billingfelt offered several rules supplementary to those which now govern the party at the primary elections. They are intended to guard against fraudulent voting, and stuffing the ballot-boxes at the primary elections. The discussion elicited. took a wide and desultory range. A member from Columbia stated in his remarks that he knew of one man who has received pay from, and promised to vote and use his influence for three of the candidates for Sheriff. Yes, this fellow "can be seen" anytime, and we can lay our hand on his shoulder in five minutes. After referring said rules for final action to the committee which meets on Monday, the 26th inst., "Honest Andy," of Donegal, offered the following interrogatories which were to be answered by the various candidates for Assembly, viz: Are you in favor of reducing the compen-

sation of members? Are you in favor of abolishing the Legis-

lative Record? Are you in favor of reducing the number of officers now created by the Legislature?
Our Andy wanted to know whether the last interrogatory included the twentyseven pasters and folders.

He was answered by the author of the same that it did. A green member, from a new district, offered an additional interrogatory to the effect that every candidate for the Legislature pledge his sacred honor not to charge more mileage than he would be entitled to if going in a direct line to Harrisburg from his residence. This, together with the previous ones, were laid over for action on

next Monday.

In the meantime the "rules," &c., were ordered to be published in the daily and weekly Republican papers of the county,

until next Monday. The subject is a grave one to every lover of the welfare of the Republican party. It behooves them, therefore, to give the matter their attention. If the ascendency of the party is to continue in this county, an st primary election may determine that fact.

THE FIRST LOCOMOTIVE.—A few days ince the first locomotive was placed upon the rack of the Wilmington and Reading Railroad at Coatesville, Pa. It is used for hauling ties, iron, &c., for the construction of the road, which is rapidly approaching towards completion.

CAUTION TO BOYS .- Our exchange papers make record of the death of many boys while bathing. It is not to be wondered at when the carelessness, and even recklessness of many boys, is daily observeable. Lads who cannot swim, venture into deep water, and are often attended only by those as helpless as themselves. Parents should caution their boys of the dangers of bathing.

ADAMS EXPRESS .- Expressman Zieger should by all means, if not for his own convenience, for the credit of the borough, equest from the Adams Express Company a suitable wagon for the conveyance and delivery of goods passing through the agency for this place. It is not at all enterprising-like to see a small boy wheeling a huge trunk, several boxes, parcels, &c., on a wheelbarrow through the streets, for

atrons of the company, it looks "slow." GRAND CONCERT .- The new Organ for horse, on Wednesday of last week, at John he Evangelical Lutheran Church at Elizabethtown, Pa., will be opened by a Grand Concert, on Thursday evening, July 29th, to commence at 8 o'clock. Celebrated Or ganists and Vocalists from Philadelphia, Columbia and Lancaster, will take part, and make it the richest musical treat ever offered the Court for a jury, which would then be to the people of Elizabethtown and vicinity. The Clepper Brothers, Profs. B. C. Unseld, B. F. Mullen and T. J. Wight, of the Columbia Æolian Club will lend their assistance on the occasion.

PAY Your Dog TAX .- War will be waged against all dogs upon which the required tax has not been paid, after the first day of August next. A pound is now being constructed for the confinement of "delinquent curs," in which, however, they will only be retained a short time before killing. Jacob is determined to enforce the ordinance, so step up to the captain's office, on South Second street, No. 216 and pay your chare, all ye owners of dogs, else abide by the law.

LAFAYETTE COLLEGE .- We have reeived a programme of the Commencement Exercises of this institution, situated at Easton, Pennsylvania, which will begin on Sunday, July 25, when the Baccalaureate will be preached by Prof. Saml. J. Wilson, and with various exercieses extend till Wednesday evening. On Tuesday a poem will be read before the Annual meeting by James P. Boyd, Esq., of the Philadelphia Press, and an oration will be delivered before the literary societies by ex-Governor James Pollock. Arrangements for excursion tickets have been made with the different Railroad companies.

SUMMER SICKNESS .- It is the custom attribute at least one-half the sickness, especially in cities, at this season of the year, to eating cucumbers. We do not believe cucumbers are less healthful than any other garden vegetable, if properly prepard, and eaten in moderation. Few persons are ignorant of the pernicious influence of ulphurie, nitric and muriatic acids upon the human organs of digestion and the entire alimentary canal: and yet it is declarl upon good authority, that much of the vinegar in commerce, or liquid sold as vinvinegar in commerce, or liquid sold as vinegar, is made by the use of these concentrated acids, at a cost of not more than one or two cents a gallon. It is quite likely, therefore, that adulterated vinegar is the fertile cause of so much sickness in the summer season. The corn vinegar manufactured in this place by Himes & Myers, is strictly pure. strictly pure.

A YEAR OF PLENTY.—From all parts of the country the cheering intelligence con-THE BAND PIC-NIC .- The most order- tinues to come announcing the abundance of the earth's productions. The wheat crop just harvested is all that could be desired, and the yield is pronounced to be far above the average. In the South the cotton promises to furnish more bales than has been or disturbance of any kind occurred to mar | produced since the commencement of the the pleasure of any one. This speaks well war. In the West, excepting a portion of Illinois, the corn stands firm, and gives assurance of an uncommon harvest. In our Religious Notice.—The Second own section all kinds of grain have done quarterly meeting of the M. E. Church, of exceedingly well, and potatoes, the farmers own section all kinds of grain have done say, are too plenty to pay. The peach and plum crop is also unusually large. The chances are that the apple yield in Pennsylvania this fall will be the largest it has known for a long stretch of years. Should this hold good all over the country, the poor man may once again have a barrel of apples in his cellar. We have plenty, now lat us have neare. let us have peace.

THE COMING ECLIPSE .- On the seventh of August will occur one of those interesting phenomena which silently but eloquently communicate to mankind some very infollowing in the Long Brunch News, of Sat- | structive ideas as well as facts. It is nothing less than a total eclipse of the sun, com-mencing about half-past five o'clock in the afternoon, and continuing nearly two hours. Should the weather be clear, it will be visible over the greater part of North

> America. Everywhere throughout the United States, the lovers of science are making preparations for the occurrence. The Government has taken measures to secure accurate observation of the eclipse. Many close observers will be on hand at various points on our continent. There will be del egations from abroad, as well as numerous private individuals at home, watching the astronomical transaction. The naked eye, the smoked glass, the opera glass, and the tolescope, will be employed on the interesting occasion.

SPIDER IN A MANS HEAD-NARROW ESCAPE FROM A HORRIBLE DEATH .- An intelligent traveler, named Jonas Wells, from Ritchio county, West Virginia, called at our office yesterday, and stated that he had just been delivered from a certain death-that a spider which entered his head and was preying upon the brain had been extricated a few minutes before. The circumstances are these: On Tuesday night last, Mr. Wells found himself in the country, and wishing to "turn in" for the night, laid down upon some straw and was soon wrapped in the arms of morpheus. During his slumber, it is supposed, the spider was out late at night and coming in mistook the stranger's ear for his web and accordingly crept in, unconscious to the sleeping, weary man. On awaking in the morning Mr. W. experienced pain in his head, but did not concern himself much about it, thinking it would soon pass away. He suffered the most excruciating pain, the effects of which almost made him blind, and he concluded to wend his way to town and seek medical aid to relieve his misery. He sought a drug store, and entering requested the clerk to drop from a feather a small quantity of turpentine into his ear. No sooner had the fluid reached the spot than a clever sized spider hopped out and was captured by the druggist. He says he could distinctly hear and feel something working or gnawing as if at his brain, from which he suffered the most intense pain No doubt had the insect remained in his head longer, it would have reached the brain and death would certainly have been the result. He is now entirely relieved. Mr. W. though in destitute circumstances, made so by the late war, is an honest and reliable man, having some very complimentary recommendations from men of note in Virginia and other States.

STATED MEETING OF COUNCIL.-A tated meeting of Council was held last Friisy evening. Present--W. W. Upp, President, and Messrs. Crane, Detwiler, Hippey, Shreiner, and Supplee. The minutes of

June 18th were read and approved. The Road Committee reported Market treet graded, and the alley adjoining the property of Tinny Skeen on Fourth street repaired. They presented a communication from the Borough Regulator relative to the grade of Fifth street, between Locust and Walnut, and to changes in the pavement grade on Front street in front of the new freight depot of the Pennsylvania Railroad Company.

On motion of Mr. Detwiler, an unbroker ascending grade from Locust to Walnut street, as recommended by the Regulator, was adopted. On motion of Mr. Supplee, the matter of

changing the grade in front of the freight depot, was referred to the Road and Pavement Committees. The President reported that the County Commissioners had agreed to pay their

portion of the damages (\$1,005.05) asked for by Mr. Samuel B. Heise, in the compromise claim presented by him at the last stated meeting of Council. On motion of Mr. Detwiler, Mr. Heise's

claim was approved, and an order directed to be drawn in his favor for \$603.03. In the matter of calling a jury to decide upon the damage inflicted upon other parties by the opening of streets, he reported that application must be made at once to

They reported further that the balance on hand and the amounts to be collected from taxes, rents, &c., will not exceed \$9000. whilst the amounts appropriated to complete the new Market House, pay damages, put in fire plugs, repair the Town Hall, pave market square, and pay interest and contingent expenses will exceed that sum. It is therefore necessary at the present time for the Council to refrain from taking any action that will increase the liabilities of the

The Market Committee reported too little progress made upon the now market house during the past month to warrant an estimate being made. A contract was made with D. J. Wallings, (he being the lowest bidder) for the painting and penciling of the Town Hall and steeple, with two coats of paint, at \$144.50, which work is nearly completed. They also engaged Mr. Wallings to bronze the ball and vane at \$15, and paint and letter the balance of the signs required for the market house, at eighty cents a

sign. The following circular was prepared and widely distributed among the farmers of

York county:

"The Columbia Bridge Company have reduced the toll on the Columbia Bridge, in favor of the Farmers and Butchers of York county, attending the Columbia Market, to one-half their fixed rates, on (Market Days) Tuesday, Thursday and Saturday of each week. In behalf of the citizens of Columbia, we cordially invite the farmers and all others, of York county, having marketable produce for sale, to avail themselves of our market, as no town in the interior of the State aflords or commands higher prices for the product of the garden and farm, than the market of Columbia borough. Our necommodations are ample, having recently erected a large and commodious Market House, with all the modern improvements, giving greater conflort to the York county: commodious Market House, with all the modern improvements, giving greater comfort to the vendor than any other Market Rouse in the State. There are yet a few stalls remaining vacant inside, and those wishing stalls inside, and under cover should apply at once. Tables outside can be obtained at any time by calling on the Market Committee or S. S. Detwiler, at First National Bank. We are also pleased to add that the merchants of our town are always supplied with a superior stock or Goods which they guarantee to sell at prices as low as can be obtained at any other point."

The following communication was received from the Chief Burgess: TO THE TOWN COUNCIL OF THE BOROUGH OF

COLUMBIA.

Gentlemen:—Complaints have been made to me that the Chestnut Hill Iron Ore Company is obstructing Union Street with a large pile of stones and has fenced up the way to Shawnee Run where it crosses the Lancaster Turnpike, thereby preventing persons fromwatering their cattle, and getting water therefrom. I saw the grievances complained of, but I am unable to decide upon the action I ought to take, as I am ignorant of the relative rights of the Borough and the C. H. I. O. Hartman & Co—Gents: One week ago to-day, I was taken with an attack of cholera morbus; the vomiting and purging was most excessive, and accompanied by intolerable cramps. My family became alarmed, and sent for Dr. ——, but he was not at home, and the nearest other physician being three miles off, it was concluded to preque a buttle of your Mishother physician being three miles off, it was concluded to procure a bottle of your Mishler's Her'b Bittere. My wife gave our boy one dollar, and bidding him "make haste," despatched him to the nearest druggist, Messrs. Kaufiman & Bros. He returned, and according to the directions on the bottle I took a wineginssful immediately, and repeated the dose every fifteen minutes for three-quarters of an hour, and astonishing as it may seem, it stopped all discharges and cramps like magic. You cannot be lieve how grateful I feel to you for this potent remedy. One dollar cured me, and I am satisfied that had the doctor been at home it would have cost me not less than five dollars. The Cheanest insurance is that which

THE cheapest insurance is that which THE cheapest insurance is that which enables one to secure the grantest amount for the least outlay, and to select this from amongst the various terms and conditions, offered by different companies, it is necessary to consider, firstly, the amount of premium required, and secondly, the manner in which premiums are to be paid. The amount of premium should be suchas to meet all future contingencies, and yet not more than sufficient to effect this object.

Experience having shown that the rates more than sufficient to effect this object.

Experience having shown that the rates formerly required by all mutual companies were much higher than necessary for the purpose, some of them adopted what is known as the "note" or "half-note system." By this system the policy holder is required to pay larger amounts of money in after years, and yet if he is compelled by misfortune, or otherwise to stop the regular payments even of any additional assessment, he is denied the advantage of a paid up policy as a means of securing the up policy as a means of securing the amounts already paid in.
The Delaware Mutual Life Insurance amounts already paid in.

The Delaware Mutual Life Insurance Company, having quit the use of the note system, has reduced the rates twenty-five to thirty per cent. lower than those of other mutual companies, making these rates all cash, while the company is entirely and thoroughly mutual in all its relations, thus affording insurance on the lowest terms consistent with entire security, at the same time that a careful selection of risks, and the most thorough economy in managing its business, is steadily developing a very light proportion of losses, which will tend still further to increase its dividends, and thus reduce the actual cost of insurance.

Our friend Bussett, is the agent of this vigorous and thriving Company, and will always be found ready to afford any further information which may be desired.
