The Spy for the Campaign.

We will send the Weekly Spy for the campaign, in clubs of five or more, for TWENTY-FIVE CENTS, each single subscriber THIRTY CENTS. This will about cover the expense of the paper upon which the SPY is printed. Send in your names during next week. We hope our Republican friends throughout the county will interest themselves in the matter. Every Republican as well as every Demoerat should take the SPY. We hope to have a favorable report from our Republicans friends in every district.

Want Equal Division. The German Democrats of New York city are reported as dissatisfied with the Trish control of the party, and holding all the offices while they must be content with lager and voting the " straight" ticket. They complain that they have no representation in the "ring" and are not disposed to both cut bait and fish, with no share for themselves. -

Pennsylvania Threatened. Pennsylvania is threatened in the West The Chicago Republican says: "The Pennsylvania coal operators, who are plundering the people by their scoundrelly combinations, may as well 'make and he has directed a reassessment in all hay while the sun shines.' We give them due notice this is their last chance. The next session of Congress will attend to their case, and, by abolishing the tariff on imported coal, knock the pins from under their villainous stricture. There is not a protectionist outside the State of Pennsylvania who will not unite in the determination to end this system of deliberate robbery of the public by the surest and most summary means. The war cry of the Western Congressmen next fall will be, "Away with the tariff on coal?" So play out your little game, gentlemand it is almost ended.'

A NUMBER of our candidates for office under the mistaken notion that George Brubaker is omnipotent in settling tickets, have been courting him for the Thug vote; but within a short time past they have begun to smell a rat, and learn that an alliance with him is death to their prospects, and that their best plan is a pretended repudiation of him. Hence they publicly assure the voters that they are no Thugs--no Brubaker men-that they have formed no combinations or rings with any other candidates or any other person, and are honestly running on have linked their fortunes with Brubaker too late that "honesty is the best policy" and that dirt defileth.

Genry at Lookout Mountain. A Philadelphia letter says: The Governor's ripe experience as an Executive, his world-wide military celebrity, his invaluable services rendered to every portion of the Commonwealth during his and practice of strict temperance principles, have given him a hold upon the Republican party of the State which cannot be easily shaken. His re-election is considered a foregone conclusion here, no matter who the opposition may select at his day in relation to the taking of Lookout Mountain, which might be inserted in this connection, and will doubtless be interesting to your readers. Gov. Geary has frequently been asked to relate the circumstances connected with the initation of the capture of this famous Mountain in 1863. but his known modesty has made him reticent concerning his military record, and it was only recently that the following important chapter has been added to the substantial as related by the Governor that Gens. Geary and Hooker were riding together one day just before the capture of the Mountain, in full view of it, bristling as it was with rebel infantry and artillery, when Gen. G. remarked, 'Hooker.' (their relations were of that intimate character that titles between them were always dispensed with,) 'Hooker, I have a plan by which I can take Lookout Mountain.' What is it, Geary?' asked Gen. II. 'No man, Hooker,' replied Gen. G., ' can know my plan of attack until I get an order to doubtless recommend that it be committed take the mountain. Give me the order to heart, and the Chairman of the Central and then I will let you know my plan, but | Committee will have it printed in italics, not till then .- Gen. Hooker, as his custom was when in deep thought, held his head in an inclined position, as if closely examining the quality of the hair in his charger's mane, and so the two rode side by side for more than a mile, when Gen. H. suddenly looked up and said. By comatose convention, do declare: G-d Geary, I believe you are the man to take Lookout Mountain-I give you the order. You will move your division upon it to-morrow morning at daybreak. Now

tell me your plan of attack. Gen. G.,

The Income Tax.

It is reported that the Commissioner of Internal Revenue has issued instructions to the assessors and collectors calculated to secure more accurate returns of the in come tax. In Washington a list of persons who have made no return of income has been furnished to the Commissioner. these cases. It is also asserted that many persons have made returns but have not paid the tax, and that the collectors have made no effort to secure these sums.

EVERY Governor of the State of Penusylvania has been a native born Penusylvanian. Mifflin was born in Philadelphia, M'Kean in Chester county, Snyder in Lancester, Findlay in Franklin, Heister, Shulze and Ritner in Berks, Wolf in Northumberland. Porter and Shank in Montgomery, Johnson and Geary in Westmoreland, Bigler in Cumberland, Pollock in Northumberland, and William F. Packer and Curtin in Centre. PACKER'S recent purchase of understood, very generally by this time, that the sum paid to the delegates for his nomination, and to buy up those treacherous journalists who had been supporting Cass added to what he stands pledged to give to purchase his election, will foot up a total of about a quarter of a million of dollars-a mere bagatelle for a Democratic fifteenmillionaire. Supposing this sum to be rateably apportioned among the counties, what will be each county's share. How much for Lancaster? How much for Vestmoreland? 'How much for York? How much for each of the rest? We sub mit the problem to those expert Democratic statisticians who figured last year so accurately on each county's share of the national debt. The problem will not be so very difficult, if' they will bear in mind that each Democratic vote is to be reckoned at about seventy-five cents.

Bloody Result of a Joke. Near Hillsboro, Illinois, George Blackburn, aged eighteen years, killed his cousin John T. Blackburn, ared twenty-two years. John was driving a reaper and George binding in the harvest field. The first provocation was given by George throwing apples at John as he passed on the resper, in which conduct he presisted notwithstanding the remonstrances of his cousin and uncle John finally told him if the offense was re peated he would chustise him. George coolly armed himself with a knife, sharpened on his shoe, and repeated the prove cation. He drew a line on the ground, and threatened John if he crossed it he would kill him. John picked up a piece of wood as though to throw it, but without doing so turned of to follow the reaper. George immediately sprang at him and stabbed him twice almost instantly killing him. The murderer, so far from evincing any remorse for the crime, has ever since evinced the greatest hardiness, justifying the act, threatening to kill others, and joking on the sub-ject. The day following the act he was arrested and had a preliminary examination, and was committed to fail to await his trial, upon which he remarked that he would rather board in Hilsboro than work in the field.

He continued to grow worse, and a physician was sent for, who did every thing in his power to alleviate the suffer ings of the sick man, but all without avail. Mr. Lee died about three o'clock resterday ufternoon. His disease was ascertained to be that of dropsy of the heart. He was about 51 years of age, and resided at Prairie de Rocher, Ill., where his body will be sent for interment. Mr. Lee held the ticket which drew the

Origin of Methodism. Methodism originated in Ireland, at Cork, in 1748. In August of that year, Mr. Charles Wesley preached a famous sermon In the open air to more than 1000 people, and in the following month incorporated in church fellowship some souls whom he had won for Christ. As in other places, the planting of Methodism in that city followed by fierce persecution. In May, 1750, Mr. John Wesley preached in Cork, and-was burned in effigy by a frantic mob. But "none of these things moved" him, and within six years a chapel was opened by him on Hammond's Marsh. In September 1782, Cork , was enriched with the dust of one of the pioner Methodist preachers in North America. Richard Boardman, who rests under the shadow of the old cathedral in hope of the resurrection of the just. Mr. Wesley's last visit to Cork was only two years before his death. Methodism is now strong and influential in that city.

From the Mt. Joy "Herald" Henry Bechtold.

Menry Bechtold.

Mr. Editor:—As the time for the County election is near at hand, it is important that the people be informed of the character and claims of the different candidats. Every voter, as he is supposed to vote understandingly, should be convinced that the candidate for whom he casts his vote is properly qualified for the position which he seeks. There are two things which are necessary to qualify a person for public position. The first is business capacity. The second is good moral character. Both these are combined in our townsman, Mr. Henry lechtold, candidate for the register of wills. He has been known among us for many years as a perfectly reliable business many years as a perfectly reliable business man. He speaks the English and German languages, and is capable of filling any position within the gitt of the county. position within the gift of the county.
His mortal character is beyond reproach.
He is perfectly honorable and upright, and
is worthy the confidence of the public.
Every citizen of our borough should sustain him at the coming election, and thus
encourage business talent, and moral excellence.

Interference. Mn. Epiton:—As a candidate for the Assembly, I beg leave to protest against people from Harrisburg and other places interfering with our county nominations. I am not willing that the State Treasurer, either n person or by agent, shall come here and by manoeuvre and intrigue so common to by manuscrift and intrigueso common to politicians of a wily easts, dictate who shall or shall not be voted for. Let them stay a home and mind their own business, we feel competent to attend to ours. We have had a little too much of this sort of thing, for it is especially demoralizing to some of our gentry of easy virtue, and if persisted in. I apprehend, instead of our having to bribe the rings and cliques of Lancaster, under the Taug rule, we shall have to go to H tr risburg and buy our nominations from another class of office-brokers, who have set up for business on a larger and more expensive scale. I hope the people at the next primary election, will select our best men without dictation from abroad, and by so doing inform those meddling corrupsome and mind their own business, we fee so doing inform those meddling corrup-tionists that when we want them we will end for them. A CANDIDATE.

MR. EDITOR:—We are pleased with the prospect of electing Mr. John K. Reid, of Lancaster, to the office of County Commissioner. It is time that a competent and honest man should fill that post. The affiliars of the control of the country of the co sloner. It's time that a competent and honest man should fill that post. The affairs of the country require to be looked after, and should he be elected, we will not hear of excessive mileage, \$69,000 for bridges and other extras. We have no doubt, the people appreciate his services as a Director of the Poor for six years past, and know that he cannot fail to be a good and honest Commissioner.

We have every assurance that H. M. Engle will make a first-rate run as a candidate for Assembly. Mr. Engle, is a good nonest and intelligent farmer, and one of the editorial committee of the Lancaster Fairmer, a valuable agricultural paper published in Lancaster. swindle, and is fully able to state the distance exactly between Donegal and Harrisburg.

EEITOR SPY:—Permit me to criticize in a friendly way a few of the recent items of your paper. You tell us that a California editor calls Anna Dichinson "oxeyed," as if it were intended for satire or burlesque. But this word is a literal translation of Homers' epithet applied to the Goddess out Juno. It is not so pleasant to English ears as its kindred epithet "Gizelle eyed," but three thousand years of classic celebrity, have consecrated the phrase "oxeyed Juno" as the highest compliment that can be paid to femule beauty in any language of the civilized world.

The resemblance of woman's eyes to those of the Ruminantia has been a favorite theme of poets in all ages and nations, and in many instances the parillel is undoubtedly correct; but in the case of Miss Dickinson it seems to me singularly inappropriate, for her eyes are neither large enough nor placid enough to entitle them to this classical epithet, and your California man has probably borowed the expression without comprehending its meaning.

out comprehending its meaning.

Again you tell us in another place that
the mortality among drunkards is five

the mortality among drunkards is five times greater than among temperance men. For drunkards, you should have written drinking men, for it is not drunkeness that kills, but the drink, as any man may convince himself who will make two lists of his acquaintances of those that can get drunk and soberngain two or three times a day and of those that feel it no more than if they poured it into a knot-hole, and he will find in the average of any number of cases that the drunkards will live the longest, and the reason for this is plain, for, drunkenness is the desperate resistance of a sound constitution to the poison which assails it while one of less vigor accepts the condition and one of less vigor accepts the condition and submits quietly to the doom imposed.

Candidates for Office.

Mr. Editor:—I would be sorry to learn, that any candidate who was basely and treacherously defeated last year by the Thugs, should consent to play second fiddle to them for the purpose of being put upon their ticket. Yet, there are rumors, that at least two who have had a taste of office, are so anxious, that they are willing to forsake their old friends who elected them two years ago, to get another pull at the public test. It is perhaps none of our business, if they choose to take the risk. the public test. It is perhaps none of our business, if they choose to take the risk. But, the consequences will be all their own, and all their own, and all we can say, is, that their chances are not improved, and will be beautifully. less, by the operation. They will find too, they are not the only anxious ones who are doomed to disappointment, and that Thuggery, no matter how dishonest, is not yet omnipotent.

Before we make up our minds to vote for ny one in particular, would it not be well o inquire into the merits and demerits of

those asking our support? As the office of Sheriff is a very important one, and should be filled by a thorough Republican and an honest man. I beg leave to submit a few queries to which I would respectfully ask a reply.

1. How long since Mr. Hildebrand the Thug candidate for Sheriff has belonged to our party.
2. Did he not belong to the Copperhead

2. Did he not belong to the Copperhead party, until a short time ago?
3. Were there not during the war some strong doubts about his loyality?
4. By what hocus pocus has he become so prominent in the Thug Ring?
5. Does he belong to the whisky ring?
6. If he does not belong to the whisky ring, why does that pure and immaculate distiller, iMr. Benjamin Stauffer, take so active a part for him?
7. How much did he give George Brubaker to be put on the Thug ticket—was it a thousand, or only five hundred dollars.
When these queries are answered, a few more may be propounded.

SCHENCK'S PULMONIC STRUP.

Scaweed Tonic and Mandrake Pills, will cure Consumption, Livar Complaint and Dyspepsia, if taken according to directions. They are all three to be taken at the same time. They cleanse the stomach, relax the liver, and put it to work; then the appetite becomes good; the food digests and makes good blood; the patient begins to grow in flesh; the diseased matter ripens in the lungs, and the patient outgrows the disease and gets well. This is the only way to cure consumption.

To these three medicines Dr. J. H. Schenck, of Philadelphia, owes his unrivalled success in the treatment of pulmonary consumption. The Pulmonic Syrup ripens the morbid matter in the lungs, nature throws it off by an easy expectoration, for when the phiegm or matter is ripe, a slight cough will throw it off, and the patient has rest and the lungs begin to heal. angs begin to heal.
To do this, the Seaweed Tonic and Mandrake Pills nust be freely used to cleanse the stomach and liver, o that the Pulmonic Syrup and the food will make so that the Pulmonic Syrup and the liver, regood blood.

Schenck's Mandrake Pills act upon the liver, removing all obstructions, relax the ducts of the gallbladder, the bile etarts freely, and the liver is soon
relieved; the stools will show what the Pills can do;
nothing has ever been invented except calomel (a

Mandrake Pills. deadly poison which is very damperous as assectively interest with great care), that will unlock a gall-bladder and start the secretions of the liver like Schenck's Mandrake Pills.

Liver Complaint is one of the most prominent causes of Consumption.

Schenck's Seaweed Tonic is a gentle stimulant and allerative, and the alkali in the Seaweed, which this prescription is made of, assists the stomach to throw out the gastric pilce, to dissolve the food with the Pulmonic Syrup, and it is made into good blood without fermentation or souring in the stomach.

The great reason why physicians do not cure consumption is, they try to do too much: they give medicine to stop the cough, to stop chills, to stop night sweats, hectic fever, and by so doing they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies.

Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills or fever. Remove the cause, and they will all stop of their own accord. No one can be cured of Consumption, Liver Complaint, Dyspepsia, Catarrh, Canker, Ulcerated Throat, unless the liver and stomach are made healthy.

If a person has consumption, or course the tungs are in some way diseased, either tubercles, abscesses, bronchial irritation, pleura adhesion, or the lungs are in some way diseased, either tubercles, abscesses, bronchial irritation, pleura adhesion, or the lungs are a mass of inflammation and fast second, the stomach and liver for the only chance is to take School of the order of the make good blood; then the patient begins to gain in flesh, and as soon as the body begins to grow, the langs connence to heal up, and the patient gets fleshy and well. Ins is the only way to cure consumption.

When there is no lung disease, and only Liver Complaint and Dyspepsia, Schenck's Scaweed Tonic and Mandrake Pills are sufficient without the Pulmonic Syrup. Take the Mandrake Pills freely in all billious complaints, as they are perfectly harmless. Dr. Schenck, who has enjoyed uninterrupted health for many years past, and now weighs 225 pounds, was wasted away to a mere skeleton, in the very last stage of Pulmonary Consumption, his physicians having pronounced his case hopeless and abundoned him to his fate. MANHOOD.

MANHOOD.

IN THE YOUNG AND RISING GENERATION, the vegetative powers of life are strong, but in a few years how often the pallid hue, and lack-lustre eye and emaciated form, and the impossibility of application to mental effort, show its baneful influence. It soon becomes evident to the observer that some depressing influence is checking the developement of the body. Consumption is talked of, and perhaps the youth is removed from school and sent futo the country. This is sen of the worst movements. Removed from ordinary diversions of the ever-changing scenes of the city, the powers of the body too much enfeebted to give zest to healthful and rural exercise, thoughts are turned inwards, upon themselves. selves.

Who can say that these excesses are not frequently followed by those direful diseases Insanity and Consumption? The records of the Iosane Asylums, and the melancholy deaths by Consumption, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibition appears. The countenance is actually sodden and quite destitute—neither Mirth or Grief ever visits it. Should a sound of the voice occur, it is rarely articulate.

THE FACTS AS THEY ARE: We began in 1851 to make improvements in the style and make of Ready-Made Clothing, and continued to do sa, introducing new styles and ideas every year, so that the outre character of the business is now vastly better and totally different from the systems of older hozaes. Our first idea is to learn exactly WHAT THE CUSTOMERS WANT, and instead of persuading him to buy what may be most conveniently at hand, we take the utmost pains to meet HiB wishes.

The building we occupy is the MOST CONVENIENT SIZE, LARGEST AND BEST ADAPTED for our business of any in Philadelphia any in Philadeiphia.
Customers can see what they are buying, our Establishment being on the corner of three large streets, Market, Sixth and Minor streets, abundant light is afforded from all directions. A light store is far better for

tions. A light store is an ective lot customers than a dark one.

**Alexchants know that our sales are larger than those of any other kause in Philacelphia, in our line: hence we have to buy larger quantities of goods, and so get them at lower prices, especially as we buy altogether for cash. Buying cheapest, we can sell cheapest. We closely examine every inch of goods that comes inte our Establish-ment, invariably rejecting all inf-perfect, moth-eaten and tender fab-

ment, invariably rejecting an imperfect, moth-caten and tender fabrices.

The time wasted in looking over the too's of a dozen stores can be avoided. Ex. under one roo', we offer for sale an assortment equal in variety and extent to that embraced by a score of the ordinary houses.

We have 600 hands employed in the manufacture of Clothing, who are constantly making upstock to take the place of that daily sold; this gives our customers sace and fresh goods to make selections from.

It is an undisputed fact that this Department, (a large Hall on our second doer fronting on Minor street, has nothing in Philudelphia, to equal it. We have here concentrated the best skill and workmanship, and those who prefer Clothing made to order really have advantages they do not receive elsewhere.

AYER'S SARSAPARILLA,
FOR PURIFYING THE BLOOD.
The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly maryelious. Invertate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the serofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enemity of the constitution, and invites the attack of enemity of the second in the constitution, and invites the attack of enemity of the organism that the production of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop breed in fection throughout the body, and then, on some favorable occasion, rapidity develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or its shows its presence by cruptions on the skin, or four literations on some part of the body. Hence the occasional use of a bettle of this Sarsaparilla is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this Sarsaparilla: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears, and other eruptions or visible forms of Scrofutous disease. Also in the more concented forms, as Dyspesia, Dropsy, Heart Disease, Fits, Epilepsy, Neuragia, and the various Ulcerous affections of the muscular and nervous systems.

Syphills or Venercal and Alercurial Diseases are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. Leucorrhoza or Whites, Uterine Ulcerations, and female Diseases, are commonly soon releved and ultimately cured by its purifying and invigorating effect. Minute directions for each case are found in our Almanac, supplied gratis. Rheumatism and Gout, when caused by accumulations of extraneous matters in the blood, rield quickly to it, as also Liver Complaints, Torpidity, Congestion or Inflammation of the Liver, and Jaundice, when arising, as they often of from the ranking poisons in the blood, This Sarsaparilla is a great restorer for the strength and vigor of the system.
