MASTER' WILLIE'MATHIOT has left at this office a cluster of thirteen full grown. perfectly formed tomatoes. They are round regular in proportion, and of the best kind we have ever tasted. Master Willie a boy 'ney, from Massachusetts, sporting a fine of ten summer's, raised these in his garden at 329 Walnut street. We hope his youthful industry may cling to him even in manhood and old age. All children, both boys and girls should learn how to cultivate garden plants; fruits and flowers. The pleas ure of having their time employed, profitably, and of enjoying the delicious fruits, always awaken an activity, which it will do well for older people to imitate. '[If only these tomatoes could be changed to delicious peaches, how we would enjoy them -even change to grapes or pears would not be objectionable.

We admire these changes and can not praise too, highly, the christian enthusiasm and generosity which prompt them. The styles of church architecture are daily imoving." There is no reason why the places of worship should not be made attractive and pleasant for all classes Art and nature contribute their quotas towards accomplish-ing this purpose. He would be in possession of the money in a few days, when he would pay the cash and desire possession immediately afterward. This was agreed to. But Mr. M. was obliged to meet a little expense and desired to borrow ten or fifteen dollar from Mr. Geist. This was not agreed to. A BEAUTIFUL CHURCH .- We have another Church improvement to chronicle; hat of the German Reformed Church, at the corner of Third and Cherry Streets, Rev F. Pilgram, the Pastor. For several years past the church building was somewhat neclected, until Mr. Pilgrim took charge o the congregation, and, with most untiring zeal and energy, has succeeded in making it one of the most beautiful-the pride of our borough: 'The entire inside of the Church has been

emodled and refitted so as to meet the wants of the growing Congregation. The wails in the vestibule are painted. in stone, in imitation of block sand-stone. The main body of the Church is beautifully 'frescoed pearl tint, in pannels and columns, relieved by a scroll cornice. The celling is thrown up in a dome, and refleved by the surround-

ing panels. In front and over the pulpit in half circleare the words, "The Lord is in His Holy Temple." To the right of the pulpit is a tablet inscribed with the Apos tle's Creed, and another on the left with the Lord's Prayer, in small ornamental letters; The gallery has been cut down, and a place fitted up for a pipe Organ of six stops, which will soon be placed in the Church, and be used on the occasion of its re-dedication The pulpit and altar railings are of the purest white, with china gloss." The read-ing stand and baptismal font will be replaced by others, all' in harmony with th general taste which has governed the entire work. The finish of the pulpit is neat and plain. The pews are parti-colored and the backs are relieved with stained cap pieces, The aisles will be carpeted, and the vesti bules covered with matting. In the outfit of the Church, comfort and

conomy have been consulted as well as aste. It is the common remark of every one that there is perfect harmony in the lending of the colors of the sides and ceilings. The frescoing was done by Mr. Geo. Seiling of Reading, and the painting, which is in especially good taste, by Mr. Daniel McCulley of this Borough.

The entire refit is a monument to the untiring zeal of the pastor, and to the self-sac-rificing devotion of the Congregation. May they see abundant fruits as the result of their labors. The Church will be re-dedicated on Sun-

day, September, 26th. Due notice of the programme for the occasion will be given. This will prove an occasion of vital interest to the people of Mr. Pligram's charge. quets of choicest flowers, and wreaths of im-
