WE publish this week the county finance a statement which will be read with interest by all tax-payers. As compared with the statement of Ellwood Greist, Treasurer, published in the SPT two years ago it shows that the expenses of 1870 were \$45,708.32 less than the expenses of 1868.

The approach of the day is now heralded by the appearance in the print-sellers' shop windows, of vast numbers of missives, each generally consisting of a single sheet of paper, on the first page of which is seen some ridiculous colored carricature of the maleor female figure with a few burlesque verses below.

More rarely the print is a sentimental such as a view of Hymen's altar, with a piness before it, while Cupid flutterrs above and hearts transfixed with his darts decorate the corners. Maid-servants and young fellows interchange such epistles with each other on the 14th of February, no doubt thinking that the joke is amazingly good.

No explanation can be found of the day being named atter St. Valentine. Several reasons have been advanced, but none of

them satisfactory ones. The observance of the day seems to be gradually dying out, although the original custom of selecting Valentines was certain-

ly a pretty and graceful one. REGISTER'S OFFICE .- The following leters of administration have been granted, since the 22d inst. :
