The Tobacco Crop Again. Editors of Father Abraham: In looking over the Columbia SPX, I noticed an article on Tobacco. In making his statement the writer says there are fifteen thousand cases of tobacco in Lancaster county, which is

In making up his article he has taken the number of acres raised in the county, but vidently forgetting that it was only a half crop in general, short on account of drought nd also seriously damaged by early frosts. Instead of fifteen thousand cases, there are only about five thousand. Had the crop been an extra one, the article would be very nearly correct, but instead of being extra, or good, there was only about one fourth, or, at most, one-third of a crop.

SUSQUEHANNA. We clip the above from Father Abraham of last Saturday. The author of this correspondence is either a tobacco dealer, or is writing in the interests of tobacco merchants. It is not generally known, though it is very strongly suspected in intelligent circles that "Susquehanna" as well as the correspondent of the Lancaster Express, both pro and con, are one and the same person, and that his object is to render the market so unstable as finally to reap a rich harvest. Large tobacco dealers from New York in a recent effort to buy the crop from our farmers here, have expressed hemselves as satisfied that it is utterly imporsible to induce them to sell, and that they must go west for bargains. The result will be that our farmers will wait till the eastern markets are pretty well supplied, and then be compelled to sell at a loss. Our information as to the value and abundance of the crop is derived from reliable source, and our estimate of the influence the sale would have upon the money question is not too high. Nearly one million of dollars will be thrown in the money market by a prompt sale. This in time will relieve a community of business men, and the means of putting millions of dollars in circulation. As the rates are as high as last year, proportionate with the price of gold, we advice prompt sales, not only for the farmer's sake but for the general financial interest of the country.

THERE is no class of men to whom life insurance does not offer advantages; but of all classes, perhaps, salaried men have most need of the blessings secured by insurance on their lives. The Public Reading Room. COLUMBIA, Feb. 16th, 1870. EDITOR SPY :- Having read with interest

and hearty approval, your articles advocating the establishment of Public Reading Room, and being impressed with the advantages, which such an institution will confer upon the public, and especially upon our young men. I have the pleasure of tendering through your columns to the citizens of Columbia, the use of the Hall on Second street,at present occupied by the Good Templars, free of rent. In the event of ts bo ing accepted for such purpose, I reconmend that a board of responsible persons be chosen, to whom the management of the institutionbe entrusted, and that such other measures he adopted as will render it a permanent blessing to the Borough.

Very Respectfully, S. S. DETWILER. —At last the citizens of Columbia have it within their reach to establish a first class public reading room. Ever since our advocacy of this project, we feared the difficulty of securing large, commodious and suitable rooms, would eventually cause the object of our hopes to be abandoned. But here is he generous offers of a citizen, made without solicitation, and upon such conditions, that all we have to do, is to accept. The room offered by Mr. Detwiler is large, well adapted for the purpose, only a few steps from the central business portions of the Borough, and convenient of access. To fit t up will require but a small outlay. Will the good people of Columbia accept the offer? Let us lead off in this enterprise. Other towns have their Christian Association Rooms. We can certainly furnish and mantain an open reading room, when it is offered to us free of rent. Will Columbia be behind sister towns in her philanthropy Lancaster has a circulating Library. Cotrimbia has already a store of literary wealth in the Shoch Library, and if we promptly accept the above offer and open the reading room. Columbia will not only equal, but far excel Lancaster in enterprise and in gen-

rous public spirit. To maintain the institution it will require sufficient funds to purchase fuel and light, and provide attendance. This will be trifling in comparison with the good, which will necessarily flow from it. We are ready to do our part. We will endeavor to secure exchanges from all the leading journals in the country, without regard to their political sentiment. The borough clergymen can and no doubt will do much to aid it: sufficient funds can be raised by voluntary conribution to secure an occasional invoice of new books, magazines, monthlies, &c. Files of our local papers can be preserved, as a matter of reference. Religious journals without regard to sect, can be contributed and many other items added, which we

can not ennumerate now. To the work now. Let a meeting be called, an organization be effected, and the initiatory measures fully considered. Rules and regulations must be adopted, and provision made for a permanent organization, and a permanent institution, Let us act promptly. Due notice of public meeting will oe given. In the meanwhile, let all good itizens, and especially the clergymen incite an interest for the institution-one which will supply a want, pretty generally felt.

STEAMING ACROSS THE CONTINENT .- It is gratifying to approunce that at last we are to have a public lecture. As will be een by public announcement, Mr. J. J. Sprenger will deliver his lecture, "Steam. ing across the Continent," in Odd Fellows' Hall on next Thursday evening. This lecture as is pretty generally known, was deivered before the members of the Linnau. Society in Lancaster, some time since. The Lancaster dailies speak of it in the highest terms both as to the lecture and the lecturer. The subject is one of general interest. The great West is to-day the centre of the Union Mr. Sprenger happily expresses the grandeur and beauty of that country. A sunset on the plains is a scene of grandeur, equalled only by a sunset at sea. The georgeous scenes along the range of the Rocky mounains, the snow-capped peaks, sparkling in the sun like rubles and diamonds, the dark bold bluffs, like frowning battlements, the boundless prairies, dark ravines, rushing streams and the solemn grandeur of westtogether tend to lengthen life and make it ern immensity are made to pass in panoramic view before you, in the living words of the lecturer. Recently some of the prominent citizens of Lancaster presented the following testimonial to Mr. S.:

LANCASTER, Pa., Feb. 12, 1870. The undersigned having bad the pleasure across the Continent," on Tuesday evening, Jan. 25th, 1870, take great pleasure in recject to the favorable notice of the people; the former as being worthy of countenance and support, and the latter as highly instructive and entertaining to all who feel interested in the welfare and progress of our common country

This is signed by Hon. A. E. Hayes, Hon A. E. Roberts, Prof. John Hart, the clocutionist, Capt. Geo. M. Frankliu, Gen. Stein man, Prof. J. B. Kevinski, John H. Pearsol. C. R. Bear, Ruben H. Long, W. L. Peiper Prof. S. S. Rathvon, John Best.

The proceeds of the lecture are to be de voted to the purchase of a cabinet organ for the Æolian Quartette. The mere mention of this fact alone should be sufficient cause for insuring a crowded house. The citizens of Columbia and especially some of the churches, are under many obligations to this band of singers for their services both on public and private occasions. Whenever any benevolent cause asked their aid to make an entertainment attractive, they cheerfully gave their time and talents. The Lancaster Express of recent'date said: "Our neighbors of Columbia should foster this band of really tine performers." We know our duty in this respect, and let us show our appreciation of the Quartette and their rare services, by giving the lecture a full

IN TIME OF PEACE PREPARE, &c .- Our attack upon the" Hotchpotchers" last Saturday has had the desired effect. We had in in type a descriptive account of the several "spitting," sparring and otherwise belligerent demonstrations which were to come off; how we encountered the "greatest hero of them all;" how we fortified ourselves behind bottles, mortars, drugs and boxes of natent medicines; how we have fortified our sanctum, with ten-inch columbiads. and Cohorn mortars; that for three days we had Bank street barricaded at one end, and at the other (Walnut street) a full battery of artillery posted, with a hundred-pound brass howitzer in position to sweep the alley leading from Front street, near Williams' Drug store; and how we had invited bids for the easting of a huge sword at least ten feet long to use against our enemies. But the "Hotchpotch Guards" have become harmless as doves, their fire very "thin," and as they have retreated in confusion, re counting to sympathizing friends the stories of their bleeding wounds, we give that space in our columns to the Public Reading

Room enterprise. HAND CRUSHED .- James Mall, a young man employed in the Machine Shop of Supplee & Brother on Second st., met with an accident on last Tuesday morning which ecessitated the amputation of a portion of the two middle fingers of his left hand. He was helping to unload a heavy casting, which was being done by means of a crane. Having been directed to wind up the chain he took hold of the main wheel of the crane gearing with his left hand. Instead of grasping it by one of the spokes he clasped the rim. The result was a crushing of the first joints of the middle fingers. Dr. Craig

RELIGIOUS.-Divine service may be ex ected at the Episcopal church next Sunday given by Rev. S. H. C. Smith in the M. E. | February 20th, at the usual hours both in the morning and evening. A cordial invitation extended to all.

Our Prospects for the Future.

During the past week the anthracite coal rade in the Schuylkill region has decreased, while in almost all the other regions the supply has been increased over that o last year. The Reading road brought down of all kinds for the week 34,96; tons, against 45,870 tons the previous week, and for the fiscal year 503,845 tons, against 438,596 tons to corresponding date last year-an increase of 65,249 tons. The total product of coal from all the regions for the week, so far as we have the reports of the carrying compinjes, shows a decrease of 32,957 tons-and r the coal year, showing an increase of 189,248 tons. The trade is still unsettled, no definite basis having been adjusted by which to fix prices at the mines, and it will remain unsettled until the operators unite in the prices of coal at the mines. The apprehensions of a strike among the miners on the 1st of March, on the eight hour law, still continue. Some of the operators who are unable to furnish coal at a low figure at the mines, are in favor of a strike, which will at once bring into demand all the surplus coal, and open the spring trade at advanced prices; while other operators, whose mines are run at a cheaper figure. glory at the present prices, and are able to undersell their competitors.-The indications all round point to low prices and small profits the current year, in all departments of the anthracite coal trade. The lowest point in the basis for wages in the Schuylkill region lest year was \$3 per ton for coa at Port Carbon and Schuylkill Haven. No matter what the market price of coal might be, that is the lowest point at which the miners would consent to adjust wages. This figure still stands the same thus far this year, though it is well known, from movements made and making in the Lehigh and Wyoming regions, that it must

be reduced, or Schuylkill coal will be shut out of the market. The Pottsville Standard says that during brief conversation with Mr. Gowen, President of the Philadelphia and Reading Railroad, a few days ago, we learned that the Company have determined upon and are making arrangements to sink a coal shaft, between here and St. Clair, on what is known as the North America tract, in order to reach the great coal basin which is generally understood to underlie all this region below the water level. It is the intention of the company to make the search for this undeveloped basin a most thorough one. They will probably sink the shaft to a depth of one thousand feet, and spend two or three years in the work. The machicery, &c., necessary for carrying on the work will all be made in Pottsville.

Demonstration by our Colored-Cit-A large and enthusiastic meeting of our colored citizens was held on Wednerday evening in the Colored Masonic Hall, to make arrangements for the celebration of the ratification of the Fifteenth Amendment, so soon as officially announced. William Baker was called to the chair. Geo. Smeeney, Geo. McKey, David Newton Joseph Smith and Gabriel Shadd were appointed Vice Presidents, Sylvester Burrell, and John Stotts appointed Secretaries. Resotutions were adopted and other measares acted upon to make the demonstration a success. A resolution, acknowledging the gratitude of the colored men to the great republican party, and their loyalty to its

principles was adopted without a dissenting voice. Speeches were made by William Clegget Esq., Gabriel Shadd, Rev. Mr. Harris, Wesley Cooper, Thomas W. Hilton, James Mallen, Alexander Hall and Zachariah Snively. The colored people are awake to the important measures of the day, and they are harmoniously co-operating to make themselves worthy of the new franchises which the American people have so liberally bestowed upon them.

The arrangements for the public demonstration have not been completed, Messrs Z. Snively, Joseph Cole, and Wm. Rockaway have been appointed marshalls, and an adjourned meeting will be held on next Wednesday evening to provide for the coming event.

These people heretofore in ignorance and bondage are helping themselves, and as out of 3, while Heckrote killed 1 out of 3. they become more and more intelligent they will learn how to appreciate their new position in the history of the nation, and will know too how to guard their new franchises, and their elevation to freedom

THE CANCELLATION OF REVENUE STAMPS.-The Internal Raynue Bureau has directed that after May 1st, 1870, all adhesive stamps used upon instruments, documents, writings and papers, mentioned in Schedule B. of the Internal Revenue Laws, shall be cancelled by the person affixing either by writing upon each and every stamp, in ink, the initials of his name, and the date, year month and day upon which the same is attached or used, or by cutting or cancelling the same by a certain machine approved by the Commissioner. The regulation has been made on account of the extensive frauds alleged to have been committed by washing, restoring and using the internal adhesive revenue stamps which have been once cancelled by the "ribbon stamp machine." The Commissioner orders that after May 1st 1870, no other method of cancellation than that first mentioned above shall be recognized as a

legal or sufficient. The farmers in the southern townships of Lancaster county have been engaged in ploughing their corn ground and more recently the ground which they intend sowing with oats. The farmers near Lancaster, have also been engaged in ploughing, and from all sections comes the report that the ground ploughs admirably, and if the present mild weather continues, much of the spring work of our farmers will be done long before the first of April. This is a very unusual circumstance, and upon consulting the oldest inhabitant, he informs us that the like has not occured since the year 1829 when he states the winter was even milder

than the present one. FARMING IMPLEMENTS .- Edward J Evans & Co., advertise in to day's SPY a sale of valuable thorough bred Durham cattle and mules, as well as superior farming implements. The Durham cattle 20 in number, are prenounced to be of superior breed. The mules for sale drew the first premium and diploma in the "York County Agricultural Society" for two successive years. There will also be sold a threshing machine, wagons, todder, hay and straw cutters, reapers and mowers, ploughs, harrows, &c. The sale will com-21.

Ir you have been trightened out of insuring your life, as many a man is, by the high rates named by the agent with whom you talked, be sure that he showed you only the "mutual," tables and did not give you the figures of the "net cash plan." All you want of insurance will be secured to you on this latter plan, at rates which will surprise you, by the "American Life Insurance Company of Philadelphia. See their "net cash" tables before you say you can't

afford to insure. Public Sale. On Thursday, March 3d 1870, Henry Zeamer will sell at Public Sale on the John Miller farm, one mile from Marietta, 5 horses, 7 cows, 5 heifers, pigs, wagons, hay ladders, reapers, drills, cultivators, ploughs, harrows, and all other ararticles and implements usually found on well stocked farms. The farm implements are nearly new. We invite the attention of farmers and others interested.

BIRD BOXES .- People who desire the music of song birds, or the labor of birds to aid in protecting fruit from insects next season, should lose no time in putting out among their trees and shrubbery a good number of bird boxes. All who supply houses for the birds this winter, will find their gardens next spring resound with the twitter of the wren and blue bird, while their shrubbery will be cleared of vermin.—Intelligencer.

COLUMBIA, Feb. 17, 1870. MR. EDITOR :- For a sample of a model beggar, commend to us the editor of the Columbia Herald. A short time since he was asked to aid in raising funds to buy sunday suit of clothes for Rev. Frisby J Cooper, pastor of the Colored Methodist church in our borough. The request, the editor says, Mr. Cooper himself made. Any one who knows Mr. Cooper will bear witness to the declaration that he is a gentleman in every sense of the word. How did this editor, this man (?), who prates so loudly about elevating and improving humanity, treat the minister's request? He heard him, no doubt, gladly, remembering that before another year had passed, he would possibly be begging the gentleman to honor him with his company to the polls He promised his assistance. What has it amounted to? To insult of the vilest kind. Hating the black man, as only the narrow minded can hate, no sooner has he turned away from Mr. Cooper, than he meditates how he can best insult him. Barely mentions him and his wants, the people whom ne serves, and in whom, as a minister of Christ, he is expected to feel and manifest a leep interest, are held up as objects of ridcule and reproach. According to this wholesale vilifier

hey are a pack of thieves, against whom should be every man's hand, but every one of whom should be taught to work. A most excellent method of reform! Tell a man ou don't, and never will trust him, and then instruct him to lead an honest and industrious life! Knock him down and breaten him with death if he dares to rise. and then revile him for not making the effort! Carried away by the ferce of his hatred

for the black man, he manifests his malevolent disposition towards all men, by declaring that " for mental, moral and religious culture, the darkies' chances are about as good as that (?) of the white trash of our borough. The white children who attend our schools are "trash." The parents must therefore be "trash."

This is not the first wholesale insult which has been made to the people of Columbia in the columns of the Herald. It would be well then for it's editor to exercise a little more discretion in the future. If he will not respect himself, let him respect those who contribute to his support.

THE SHOOTING MATCH -A shooting natch came off at Lockard's meadow on Thursday afternoon. A large number of persons were present to participate in, and witness the sport. TO THE FRIENDS OF THE YOUNG .- The ics, an organization composed of some of the best youths of our borough have leased the third story room of the building occunied by Wm. G. Patton, dry goods merchant, in which to hold their meetings. They desire now to carpet it and otherwise fit it up so that it will be always comfortable and inviting. To this end they have appointed a committee to solicit subscriptions from our citizens. We hope all who feel an interest in the welfare of our young men will cheerfully and liberally respond to their solicitations. These young men are doing their part to provide themselves with profitable entertainment, and thereby save themselves from the destruction of body, mind and soul to which so many, buta few years their seniors, are fast bastening. C. BROWN, Proprietor, Milton, Pa. A. SLOANAKER, Esq., of Jersey Shore, came to visit his father-in-law, (John Beckley, sr.) on Saturday night last. On arriving, a foundered horse he was driving had become so bad that he could scarcely move at all. Mr. S. had intended to bleed the hores, and go through the old course of remedies for founder, but was induced to call upon C. Brown, and procure a package of Rep Horse Powders. He took four tablespoonfuls of the powder, but them in a pint of hot water, and drenched the horse thoroughly. The desired effect followed and he drove the horse home the next morning.—Miltonian, Oct. 15.
