What Kills Preachers. It is not preaching that kills preach-

ors. It is something else. It is dyspepsia acquired in College or in school, where ignorant students allowed to attend to their minds and neglect their stomach till both are wrecked for life. it is burning gas and kerosene in close rooms at midnight, when they ought to be in bed, and sleeping in the morning when they ought to be up and out of doors.

It is sitting down in the study with a cigar and pen, and trying to cudgel out a dry theory for Sunday 'essay, instead of walking abroad among the poor, the sick, the tempted, the busy and the tired, giving each a gracious word, and tetching back a half dozen sermons bubbling up within the heart.

It is in lolling idly in parlors, being dined and wined by rich brethren, and fed on mince pie and plum pudding by the dear sisters who think nothing is too good for the ministers, until sick and weary of such a life, a sensible man would long for the luxuries of bran breadand cold potatoes, instead of being temperate in all things, abstemious, active, vigorous, earnest and alive.

It is in spending hours and hours writing dry essays which no one else will ever read, rather than studying the living world until it dwells richly within the heart, and the pouring it out to thirsty souls like the gush of living fountains. It is standing up half choked by a stiff cravat and a close collar, bending the neck and cramping every vocal organ in the effort to read a prosy sermon, till the face is livid and the brain paralyzed, instead of standing erect, free and clear, and talking earnest common sense and good gospel to persons who need it, and. love it, and long to hear it poured forth .-Christian.

"Ir over I'm married," said Ike, looking up from the book he was reading, and kicking the stove door to, "If ever I'm married-" "Don't speak of marriage Isaac," said Mrs. Partington, "till you are old enough to understand the bond that binds congealing souls. People musn't think of marriage with impunity. It's the first thing children thinks of now a-days; and young boys with pianofortes, and young girls with their heads friscassed into spittoon curls, are talking of marriage before they get into their canteens Think of such ones getting married.

A newly married lady in Chicago, con plained to her matthat on her reception day her card-basket was overrun with circulars from lawyers, announcing terms of divorce.
"So absurd, you know, before our honeymoon is över." "True, dear," replied ma (who had been twice divorced), "but I'd put them in a safe place; you may find them very useful in a year or two."

An old lady, on a steamboat, observed. two men pumping up some water to wash the deck, and the Captain being near, she accosted him as follows: "Well, Captain, got a well aboard, eh?" "Yes, ma'am; always carry one," said the polite Captain. "Well, that's clever. I always dislike this nasty river water, especially in dog-days.'

Han Henglishman's hobservations: "Hin the morning, you know, I went to the barber, 'e clips my 'air, and then, you see, hin the hevening, I went to the top hof moyeus' saw the moon heellpse the sun."

treatment to render existence desirable: If you are suffering, or have suffered, from involuntary discharges, what effect does it produce upor your general health? Do you feel weak, debili tated, easily tired? Does a little extra exertion produce palpilation of the heart? Does your liver, or urinary organs, or your kidneys, frequently get out of order? Is your urine sometimes thick, milky or flocky, or is it ropy on settling? Or does a thick scum rise to the top? Or is a sediment at the bottom after it has stood awhile? Do you have spells of short breathing or dyspepsia? Are your bowels constipated? Do you have spells of fainting, or rushes of blood to the head? Is your memory impaired? Is your mind constantly dwelling on this subject? Do you feel dull, listless, moping, tired of company, of life? Do you wish to be left alone, to get away from everybody? Does any little thing make you start or jump? Is your sleep broken or restless? Is the lustre of your eye as brilliant? The bloom on your cheek as bright? Do you enjoy yourself in society as well? Do you pursue your business with the same energy? Do you have as much confidence in yourself? Are your spirits dull and flagging, given to fits of melancholy? If so, do not lay it to your liver or dyspepsia. Have you restless nights? Your

back weak, your knees weak, and have but little appetite, and you attribute this to dyspepsia or liver-complaint? Now, reader, self-abuse, venereal diseases badly cured, and sexual excesses, are all capa-ble of producing a weakness of the generative organs. The organs of generation, when in perfect health, make the man. Did you ever think that those bold, defiant, energetic, persevering, successful business men are always those whose generative organs are in perfect health? You never hear such men complain of being melancholy, of nervousness, of palpitation of the heart. They are never afraid they cannot succeed in business; they don't become sad and discouraged; they are always polite and pleasant in the company of ladies, and look you and them right in the face—none of your down-cast looks or any other meanness about them. I do not mean those who keep the organs inflated by running to excess. These will not only

ruin their constitutions, but also those they do business with or for. How many men, from badly cured diseases from the effects of self-abuse and excesses, have brought about that state of weakness in those organs that has reduced the general system so idiocy, lunacy, paralysis, spinal affections, sui-cide, and almost every other form of disease which humanity is heir to, and the real cause of the trouble scarcely ever suspected, and have doctored for all but the right one.

Diseases of these organs require the use of Diuretic, HELMBOLD'S FLUID EXTRACT BUCHU is the great Diuretic, and is a certain cure for diseases of the Bladder, Kidneys, Gravel, Dropsy, Organic Weakness, Female Com-plaints, General Debility, and all diseases of the Urinary Organs, whether existing in Male or Urinary Organs, whether existing in Male or Female, from whatever cause originating, and no matter of how long standing.

If no treatment is submitted to, Consumption or Insanity may ensue. Our fiesh and blood are supported from these sources, and the health and happiness, and that of Posterity, depends upon prompt use of a reliable remedy.

Helmbold's Extract Buchu, established upward of 19 years, prepared by H. T. HELM-BOLD, Drugists, 501 Broadway, New York, and 104 South 10th Street, Philadelphla, Pa. PRICE—\$1.25 per bottle, or 6 bottles for \$6.50, delivered to any address. Sold by all Druggists everywhere.

SHAKING AND BURNING. It is not necessary to journey from the tropics to Alaska in order to experience the extremes of heat and cold. Thousands undergo all the nconveniences of this thermometrical change be, without the trouble of moving over the threshold. A word with these involuntary shakers. What are they doing to expedite their return to a medium temperature?—to break the chills and banish the fever? Are they dosing themselves with quinine, thereby imperiling the soundness of their bones and impairing the vigor of their brains and nervous system? Some of them are, no doubt, but not the majority of them, it is believed. The value of Hostetter's Stomach Bitters as a harmless and certain spe ific for fever and ague is understood and appro-clated in all parts of the country where inter-mittents prevail. The residents of such localities begin to take it early in the spring as a protection against the miasma by which they are surrounded; not all of them, perhaps, for a blind adherence to error is the special ty of some peo

ple, but the greater number.

If there is any fixed fact in therapeutics, it is this: that the Bitters are a far better safeguard this: that the litters are a lar better sateguard against all the varieties of periodic maindies produced by unwholosome exhalations than any drug or compound in the materia medica of the profession. This assertion is made with all due respect to faculty, but being an important truth and one that nearly concerns the health of large ettlements in various parts of the country, and indeed of the public at large, it is made fearlessly. Founded on ample and unimpeachable
testimony, it defies disproval.
To break up chills and fevers, as well as to
prevent them, there is nothing so reliable as
this wholesome vegatable restorative.

the Pair Killer. I consider it a very valuable medicline, and always keep it on hand. I have traveled a
good deal since I have been in Kansas, and never
without taking it with me. In my practice I used it
freely for the Asiatic-Cholera in 1840, and with better
uccess than with any other medicine. I also used
it here for Cholera in 1855, with tee same good results.

A. HUNTING, M. D.

weeks, from ten to fifty or sixty fatal cases each day
have been reported. I should add that the Pain

been used with considerable success during this,
epidemic. If taken in season, it is generally effectual in checking the disease.

UNION PACIFICE R. R., Office of Gen'l Sup't, Oxana, Dec. 16, 1889.

Hon. T. M. Avery, President National Water Company, Chicago, Ill.:

Dear Six:—During the month that I have carried one of your 'B. W. Raymond' Watches it has not failed to keep the time with so much accuracy as to leave nothing to desire in this regard. For accuracy in time-keeping, beauty of movement and finish, your Watches challenge my admiration, and arouse my pride as an American, and I am confident that, in I respects they will compete successfully in the markets of the world, with similar manufacturers of older nations. They need only to be known to be appreciated.

Yours most respectfully.
