KEEPING EGGS FOR WINTER Usg.-At this season, when eggs are generally plenty, provision should be made for keeping a supply over for winter's use. Many plans have been recommended, some of which have been successful, others not. As our readers are well aware, the pores covering the whole surface of egg shells are very numerons. An examination with As our readers are well aware, the pores covering the whole surface of egg shells are very numerons. An examination with the naked eye will disclose multitudes of in-dentations, which on closer survey with a magnifying glass prove to be pores, which penetrate through the shell. Through these the air finds access to the contents of the egg, and, evaporating them to a certain degree, permits a further entrance of air mult sufficient is introduced to commoneo decomposition. Manifestly the remedy against this is to close the pores with some substance impervious to air. Line water is often recommended, but this cannot always be relied upon; neither can salted water, var-nish, nor a partial boiling of the albumen nearest the shelt, which hast plan is the most often suggested by writers. We have tried it faithfully, and have found that the eggs spoil nearly as soon as they would had they not been so prepared. The plan which we have found to be most effectual, is to cover the on ire shell with tallow, which hourg melted, penetra-tes the pores thoroughly, and then hardens suddenly. Lard, oil and butter answer the purpose for a short time, but they do not remain permanently on the shell, and as soon as they have dided off, exaparation of the egg commences.—Massachusetts Plongh-mote. DEMOGRACY AND IGNORANCE.—If the Herald is to be regarded as a democratic paper and if it has the minutest qual-ity of a representative sheet, we have the democratic party of C dumbia as of old, opposed to entration. This will be seen by the following, from the pen of one of our Borough School Directors. By voting the Democratic ticket you will say plainly that the niggers shall remain as as they are.—Herald.

We hope that this precious, this honest (?) specimen of a director will give a effect of the secret intentions in his official capacity. Whenever the wants of the colored people of Columbia are such as soon as they shall be so far advanced in the primary dep rimens, we know there is no respectable or *honest* democrat, who will fail to accede their right in this partie-be one so the support of such colored schools will be required, and when once it be becomes a necessity, the whole amount as-sessed will not be one-tenth of what the immechanics and laboring men" of this and other places have paid for the support of the *Herald* school Director himself. LITIZ ITEMS.—Two very suspicious char-acters were seen prowling about the town during last week. On Sunday afternoon they were found in the yard of Linden Hall Seminary and could not tell what they wanted there. There was no little excite-ment in consequence in the town. The fel-lows said they were from Philadelphia and on their way to Lancaster to hunt work. —Great interest is being manifested in music by the young men. In the Moravian church a new Tromoone choir is being formed to take the place of the ter-mor resigned.—All the schols have been opened and the scholars are rapidly return-ing. It will make the town quite lively again.

A basket of peaches, the celebrated Sus-quehana variety, and a hot of grapes (Con-cords) from the well known nursery and fruit orchard of Hairy Longnecker, at the Maytown toll gate, 1 mil, south of May-town, have been received at this office. The Susquehannas are very fine; it takes one hundred and twenty of them to fill a box, or crate. They are delicious. The Sry typographical force return their thanks for the treat. \$100 will exceed the amount of tax col-lected from darkies for school purposes, and where will the balance be found? It will have to come in part from the hard-earned wages of the laborers and mechanics, in upsection of property - *Herald*.

Will have to come in part roun too have-carned wages of he halovers and mechanics, in possession of property.—Herald We have no objections to citizens talking on the subjects of taxes, wrung from "the hard-carned wages of mechanics," if they have the semblance of a right to do so. But we would like to refer the Editor and School Director of the Hera d to another kind of assessed taxes, which have been imposed on the "haborers and mechanics" of this and other communities throughout the state. Our colored people are poor, but they must give the credit of their poverty to the democratic bondago from which they have just been resecued. They are igno-rant, but copperheadism would slike them deeper into stupidity and degradation. The desperation with which this model school director?Jughts to keep the poor ise-gro in ignorance and crimes, is only an ev-dence that his cause is hopeless, and that civilization, as well as the opinions of the better classes of our citizens, are against him. better classes of our citizens, are against him.

AN ATTEMPTED OUTRAGE - A gentleman rolding in West Hompfield, informs us that on last Saturday morning, as a neighbor's wife was coning to the Columbia market, about 5 o'clock in the morning, she was met by a colored man, who after passing her, turned and followed her, muttering some indistinct seutences. Thinking his designs were wicked, she raised an alarm, and ran, ho following her closely, though soon giving up the pursuit. Afterwards he overtook 'a voung lady well and widely known in Columbia, and attempted a re-enactment of the same outrage. Her resistance and crees for help alarmed him, and he fied without accomplishing his hellish purposes.
