REPUBLICAN COUNTY TICKET

OLIVER J. DICKEY, Cong. Elect. HENRY M. ENGLE, East Donegal.

GEORGE J. HIGH, East Lampeter. JOHN K. REED, City.

THOMAS COCHRAN, Junior partner in E. H. Rauch, who will be sole proprietor and editor in the future.

THE democracy of Columbia have nominated their Borough ticket, and oh, what a ticket. Comment is unnecessary. Vote the whole Republican ticket.

Go to the polls on Tuesday, and show to the few dissenters as Schultz, Armstrong, & Co. that they have not the least sympathy with the masses of the people.

THE PUBLIC DEBT.—General Grant uses the same tactics in the business of reducing the public debt that he used in business of reducing Richmond.

THE Democracy of Columbia and the soreheads did not turn out in strength on Saturday morning. Even the amiable Editor of the Herald remained at home all day.

THE Democratic Swindle of "Repeating" is to be tried on a large scale in Philadelphia, at the approaching election.

THE Republican ticket for County, Borough and Ward purposes is nominated, and we urge every man to vote the ticket.

THE copperheads, who pronounced the war a failure, who cursed the Union soldiers as "Lincoln hirelings," and who exulted over every rebel victory have a County Committee who on Monday last met in Lancaster and...

ALL over the State the democracy and the free-traders are co-operating in defeating protection candidates. In John Cessna's district, thousands of dollars of British gold are used by the free trade agents to defeat Cessna and elect Meyers, the copperhead candidate.

WE publish such portion of the proceedings of the National Labor Convention as has reference to the question of Protection to home industry.

IF this Convention had authority to speak for the workmen of the country, we have the assurance that Free Trade has but few friends in the ranks of labor.

IF you want protection to home industry, plenty for your families, and good wages for yourselves, vote with the Republican party.

HERE is good advice from the Chester County Village Record, and we ask every Republican to read it, and do what it says:

A full vote in Pennsylvania is a Republican victory. Our opponents count on the apathy of the Republicans. They will be disappointed.

IT is quite good a tariff as we could ask for, and precisely what the country needs. We will not quarrel with a word, where the meaning is plain, and we endorse the workmen's tariff platform, and adopt it as our own.

IN other matters the Convention displayed much benevolence of intention, but little practical wisdom, and we shall comment more fully upon its proceedings hereafter.

THE time for preparation is short. But it is ample if it be well employed. Every township should be canvassed, and every man urged to discharge his duty by turning out at the polls.

EVERY man to do. A full vote is a Republican victory. The members of the County Committee, especially, have a responsible duty. The honor and the interest of the party are in their hands. They must work but in their work they are entitled to the aid and encouragement of all true friends, and it will be cordially extended to them.

RAIN or Shine be at the polls on "Tuesday next. Bring out your neighbor. Stir up the lukewarm—confirm the wavering—and encourage the active and vigilant.

THE Columbia Herald calls Col. Shoch, John K. Reed, Henry M. Engle, and other true Republicans "Thugs," and represents them as "knuckling to the tail end of Thuggery." Of course, anything, gentlemen.

REPUBLICANS VOTE EARLY. Make your arrangements to be early on the election ground. Vote, and see that your neighbors vote. Watch the opposition. See that no fraudulent votes are polled. See that no thoughtless Republicans are imposed upon by false representatives of spurious tickets.

REPUBLICAN VICTORIES.—All the fall elections held thus far in the North, West, and Southwest, have resulted in Republican victories. First came the echo from the green hills of Vermont of a sweeping triumph; then Maine, the "Star of the East," followed with another emphatic majority; then the golden territory of Colorado elected the entire Republican ticket, and, lastly, Wyoming repudiated her Democratic majority of last year by casting a handsome one for the Republicans.

"Thugs in Council." Under this caption the Copperhead steam machine of this place treats all Republican nominees for office, who are independent enough to decline nomination on the sorehead ticket. We learn for the first time, that Col. Shoch, John K. Reed, Daniel Brown, Henry M. Engle or Henry Baumgardner were thugs. You've struck the wrong man that time. They are good Republicans, and the County Committee did right in requiring an expression from them.

SOMETHING MISSED.—The publishers of the Phenological Journal, or the Day's Doings, missed a splendid opportunity on Saturday for beautifying the pages of their respective publications. What a splendid treat it could have made to have photographed the officers of the Independent meeting. The imperial and Shaksperian Spencer in the foreground, flanked by the radiant Shultz and the bold immigrant boy from the Emerald Isle, Jemmy Peoples; and in the background, Honest Andy and his big stick, would have made a picture that posterity would have honored and admired. As no artist, however, was present, the glowing picture can only be preserved in the recollection of the forty-two persons who witnessed it. —Examiner & Herald.

Democratic Consistency. The Kansas Democracy, in their State platform, call for the reduction, if not abolition, of the tariff and oppressive internal taxation.

The Democracy of Illinois, in their State platform, in effect demand the repeal of the tariff, which would strike off all external, or import taxation.

Between these two "planks" we greatly wonder what kind of taxes the Democracy would levy. To adopt either is to repudiate the public debt, destroy the National credit, and stop the wheels of Government. To advocate both at once, is quite consistent with Democratic tactics in different localities, and about as near uniformly in creed as they ever get.

In Kansas, they want a tariff and no internal taxes, while in Illinois they want internal taxes, and no tariff. Do the leaders really know what they say?

The attendants and exhibitors at the late exposition of textile fabrics held in Indianapolis took strong ground in favor of protecting American industry, and approved the principal of fair and just protection to home industry, not only as applied to woollens, but to branches of the production, and manufactures, opening the way for competition, for fair wages, for increase of home trade, home market, healthy foreign trade, and the best good of the people. Resolutions were adopted as follows:

Resolved, That we recognize the Free-Trade movement as a struggle on the part of British competitors for the control and possession of our markets by breaking down our new industries, which cannot be disastrous to our industry and finances.

Resolved, That we ask the Free Traders to take open ground for free trade and low wages—the latter being the inevitable result of their theory—and no longer claim or pretend to be friends of the workman, when in fact they are enemies, and their success will reduce him to the pauper pay of British factory workmen or deprive him wholly of enjoyment.

The Labor Question. We publish such portion of the proceedings of the National Labor Convention as has reference to the question of Protection to home industry.

IF this Convention had authority to speak for the workmen of the country, we have the assurance that Free Trade has but few friends in the ranks of labor.

IN Adams county, Copperhead meetings are called, and only "white men" are invited. In Louisiana, on the other hand, there were colored delegates in the recent Convention, and even in Maryland, there was such a thing to be seen as a "colored" Copperhead meeting.

Such brazen inconsistency and hypocrisy could only occur in one party in this country.—Gettysburg Star.

Protection or Free Trade. That is the question. Every vote for Dickey is a vote for Protection; for steady work to our mechanics; for prosperity to the hearths of workmen.

Every vote against Dickey is a vote for Free Trade; for the extinction of our furnace fires; for turning our mechanics out of employment; for reducing our laborers to beggary.

The mule ticket won't win. All the Republicans have declined except one or two.

Henry M. Engle, John K. Reed, Henry Baumgardner, John J. Fry, Cyrus Keam, and Col. Shoch have already declined. Here is Col. Shoch's letter; it has the ring of the true metal. Such prompt action will teach copperheads that we love none but true Republicans: COLUMBIA, Pa., Oct. 3, 1870.

John M. Stehman, Esq., Chairman of the County Committee.—Dear Sir: I observed in your paper that, at a public convention held in Fulton Hall on the first instant, I was nominated as a candidate for the office of County Auditor upon an independent ticket. This was done without my solicitation, and is unauthorized. As I am not in sympathy with the party, I will unhesitatingly give my unequalled support to the ticket settled by that party on the 27th of August at the primary election, and no other.

Very respectfully, SAM'L SHOCH.

The Duty of the German Republicans. The time of the autumn elections is before the door. With it comes to all faithful Republican citizens the stern duty, once again to testify by the weight of their votes in favor of our principles, acknowledged to be true and right. This time we have to regret a split in our own ranks.

The little band of bolters who, by obstinate and inordinate self-conceit, shows dissatisfaction, shuns no means of maligning the candidates nominated by our party, and imputes sordid and impure motives and intentions to them. But for this we always regard as needless imputations, are, how they can severely cast a shadow of a stain upon the men who, through the confidence of the Republican party, have been nominated to fill these important offices. But it is nevertheless even yet of the greatest importance that all true Republicans shall work diligently in order that the chances of victory may not be forfeited through the lack of united action for the good cause.

THE GIRLS.—Can we not bring up our girls more usefully, less showily, less dependent on luxury and wealth? Can we not teach them from babyhood that industry is higher than riches, that honor is not in the number of their dresses, but in the quality of their character; that even enjoyment itself is never so sweet as when it is earned. Can we not teach them, whatever may be their station, principles of duty, simplicity, and taste, hopefulness, hatred of waste, and these being firmly rooted, trust to their honest industry for the support of their young maiden may be called—Miss Mifflin.
