A Cagn,—I would respectfully return my thanks to the Columbia Fae Insurance Company, through their Agent, Philip Zae er, for their promptness in adjusting the loss sustained by me at the recent far, at my residence in Franklin street. The matter requires special notice as the Company waive the right of paying the damage four months after the fire, as stipulated by the poticy, and have paid the same four days after.

REAL ESTATE SALES .- Wm. Patton, Esq., has sold his vacant lot corner of Third and Cherry, to John Cooper, Esq., for 33000. Henry Rice has purchased Mrs. Eagle's desirable property on Locust above Second, at a reported price of \$6000. Mr. Rice intends to occupy it as his residence. We are glad that Henry has decided to return to Columbia, and permanently locate.

THE READING ROOM.-We cheerfully remind our young men, and our old men too, that the Reading Room is open every night till 10 o'clock. The desks and tables covered with the best newspapers; and as the wealth of the association will afford. the management will provide new attractions. Let every young man, who teels an interest in himself and the community, aid it by his influence presence, and money, however small it may be. Let us all contribute our share.

A INCIDENT IN COURT .- The trial of the case of Hough & Hersh vs. The Northern Central railway company, met an unexpected continuance on Wednesday morning after considerable progress had been made in the trial. Mr. John Seldomridge, one of the jury, discovered that he was related to G. Edward Hersb, one of the plaintiffs, as third cousin, and communicated the fact to the Court. This necessitated the withdrawal of the juryman, and upon the refus-al of the defendant to proceed with eleven jurors, compelled a continuance of the cause. Mr. Feldomridge and Mr. Hersh were et tire strangers to each other, living i different parts of the State, and the rela tionship was discovered by accident.

MINSTRELSY.-The celebrated Female Minstrel Troupe of Madam Rentz will visit town on Tuesday evening, and give one entertainment in Odd Fellows' Hall. They are said to be one of the finest minstrel troupes ever organized, and the only Fe male minstrels in America. The press in towns where they have performed, represent the troupe very superior. The pro-

gramme says: Two Jolly sons of Momus will lend their aid to increase the attractiveness of the entertainment, and their comic songs and flashes of wit keep the audience in a roar of laughter. Mr. Leavitt's Stump Speech is a perfect volcano of wit, and Mr. Taylor's ugile entics on skates neve fails to "bring down the house." Connoisseurs will find the strains of melody evoked by the skillful manipulations of Sig. Cassaletti and Mr. Pratt to be of a superior quality; and these artists richly deserve the high encomiums so freely lavished upon their efforts.

SAD NEWS .- Dr. Mellinger and family and triends were saddened a few days ago, by the intelligence of the death of their son. E. T. Mellinger, in Cuba who with his wife had left Columbia for that place on the 7th day of October.

They arrived at the island of Cuba, on the 15th ult. Mr. Mellinger was prostrated with sudden sickness, and died on the third day after their arrival.

The body, according to the customs of the island, were put in a stone vault, and cannot be removed for five years. The intelligence of this sad and unexpect

ed death cast a gloom over the whole fami ly, as well as the community. We sympahizo with the afflicted in their loss. Mr Mellinger was a courteous gentleman, pleasant in all his social intercources, genial s a companion, and above all a loving busband.

BURNED TO DEATH .- A singular fatal ac cident occurred near David Landis' mill, in West Lampeter twp., yesterday morning at the residence of Mrs. John Worth. Early in the morning of that day a son of Mrs. Worth's aged about thirteen years, in company with a smaller brother went on the garret to examine a mouse-trap which he had set the evening previous. In reaching the trap the boys were obliged to pass under a lot of tobacco hanging on the rafters, which ignited from their condle. An explosion forlowed, from the effects of which the oldest boy's hair was singed and his face badly burned. The small boy informed his mother of the affair, who at once proseded to the scene of the accident, where she found her boy in a h lpless condition She carried him down stairs and called ome of her neighbors, but before any relief could be administered death took place, There is some uncertainty as to the cause of the explosion which occurred. From the fact that there was a camster of rock powder standing uncorked under the tobaccoor the existence of which the family had no snowledge—it is supposed that a spark of fire fell into the caust r from the burning bacco, causing the explosion. This view of the matter is strengthened by the fact that the physician who examined the body t the deceased gave it as his opinion that the injuries were caused by the burning of powder. The tobacco, which was not ally ary, did not burn rapidly, which, no doubt, only damage done to the house was the

Young, who has been attending the convention of the Locomotive engineers at Nashville, during the past two weeks, returned on Thursday evening. In our last we inadvertently emitted the name of Harry A. Lewis, of the R. & C. R. R., from the list of delegates from this section. Both | to be the offender. Her mother appeared these gentlemen were in attendance, They in her behalf and promised to take her out represent their visit to Nashville as the of town. The little girl plead that she had most pleasant episode in their recollection. We note with pleasure these conventions, us they must have a great influence for good. Every man, woman and child who izens, paid us a visit upon the occasion of steps aboard a train is personally interested our Tournay and Barbaene. As soon as in the character, standing and moral worth they arrived they were taken under the of the engineer who is to direct the train, special charge of our friend, E. S. Dorsey, Hence the public will approve every step which will tend to elevate him. Engineer Sherman, said in convention:

The locomotive engineer is continually exposed to danger. No other calling in life is so hazardous as his; he may be said to of their host of friends and "took" the town go torth daily with his life in his hand, and to be bourly forced to the contemplation of a frightful accident or a horrid death. As they were again taken in charge and until he takes leave of his beloved wife and cherished little ones, he knows not but that the fond kiss he presses upon their lips may be

the last one on earth-that the heartfelt good-bye may have its echo only in eterniy. His business is to encounter peril and to control the energies of the mightiest forces in nature; and none know better than he, that from the moment he steps upon the foot-board until he surrenders his | would not surprise us in the least if the engine at the terminus of his trip, there may be but an instant between him and

To the soldier, whose peril only is in batle, the post of danger is the post of honor and glory-to the imperilled engineer it is the post of business and of duty; and should be perish there, he knows full well that his bravery and devotion will meet with no honor, no reward. Facing death continually, is it any wonder that his familiarity with danger should breed conempt of it? feeling conscious that his bravery will bring no glory to his name, is it surprising that be gradually grows reckess and careless?

In 1863 an organization of Locomotive Engineers was formed under the name of the "Brotherhood of the Footboard," having for its object the protection of the inter est of its members.

In 1864 this organization was superseded by the institution of this Brot erhood, Our constitution, in its first article, declar s the purpose and object of the organization to

"To combine the interest of Locomotive Engineers, to elevate their stonding as such, and their character as men."
Grand, noble, holy purpose! Who of all the world shall declare there is august at fally or wrong in this; or that it is not our sacred duty to secure so great an end?

HALLOW EVE passed off with the usual mount of toolishness, throwing corn, an ractising tricks which ought to be stopped. Its further celebration in the manner low conducted is about "played out" or nght to be.

We have in our possession a stiff felt hat, with box wood smoke pipe which an houstiad (Harry Bennet) found on Tuesday morning, and brought to this office with the request that "we put it in the paper." THE Washington Borough correspondent of the Lancaster Inguirer, says: On last Saturday evening a new school house in Manor township, near this borough, was dedicated to the cause of education. The following gentlemen constituted the speakers: Supt. J. P. Wickersham, David Evans, Esq., and J. M. Grider, E-q., the latter gentlemen speaking in the German language. John makes a good speech and was applanded highly by the audience.

Work is still being prosecuted on the Columbia and Port Deposit railroad. Some two and a half miles of it are graded below town, Messrs Wolf and Upp are putting things forward at a lively rate. They are to put on a heavier force at an early day. This I have from good authority.

Coal .-- A rare chance to buy the best quality of coal, cheaper than ever before offered to the public. Having just made arrangements with Messrs. Kendrick & Dovey, Miners and Shippers of the St. Clair Shaft, Keystone and Tunnel Collier ies, which represent the very best. White Ash coal shipped from the Mahanoy and Schuylkill regions. I am now prepared to sell all sizes, by the car load, at regular mine prices with freights added, and 2,352 lbs, to the ton. I have also constantly on hand the best Wilkesbarre, Lykens Valley, Shamokin and Pine Grove coals, which I will sell at the lowest market prices, from \$2.75 to \$6 per ton. No coal sent from yard without being re-screened. Office and Yard at the old Baltimore Depot, nearly opposite Black's Hotel, Front street.

John S. Given. A LIVE "SPOOK."-A spook appeared o Second street, on Tuesday and Wednesday, throwing stones, coal and other missiles through the windows of Mrs. Bruner's and A. G. Guifes' houses. Scores of people gathered in the yards and streets. During the day, and in their very presence, the saved the building from destruction. The spook continued to make the aforesaid violent manifestations. It was a mystery; but as the occupants of the houses were not inclined to be superscitious, they watched for the mysterious personage.

Finally the spook appeared in human form, in the person of a little mulatto girl, who had secreted herself on the roof of a back building and behind lences, whence she threw the stones, &c. She was arrested, taken before Esq. Evans, and proved been urged to commit these offences, by a vicious boy. Interesting.-We are not often called upon to notice an event of so much impor-tance to our general readers, as the REGU LAR WEEKLY OPENING OF NEW GOODS AT HALDEMAN'S POPULAR DRY GOODS STORE. For several weeks past, this firm has been receiving large invoices of Fall Goods, and their stock is now pronounced, by those who have examined it, as MOST COMPLETE. Owing to the war in Europe, many kinnds of desirable goods are now entirely out of the market, and others have been greatly advanced in prices. The Messrs. Haldeman made large purchases of Foreign Goods EARLY IN THE SEASON, WHILE THE ASSORT-MENTS WERE GOOD AND PRICES LOW, and are now able to offer to their customers, an unusually 'h indsome stock and without any advance in prices. They make a splendid display of SILKS: SILK POPLINS; PLAIDS, SATTEENS in the new cloth shades; and the best assortment of BLACK SILKS ever shown in Columbia, REAL PAISLEY SHAWLS, ROMAN STRIPE SHAWLS in new colors. Best Kid Gloves at old prices. We advise our readers to make their purchases at HALDEMAN'S STORE, as they are certain to have a large choice of the best goods, and

at the very lowest possible prices.

Prompt attention to this matter requested.

Cold weather has set in, stoves are in lemand, and the question naturally arises, Whore shall I get a stove? Experience teaches us that the best articles are always the cheapest. Hence we advise all our readers to go at once to Wilson's, corner of Second and Locust, and examine his stock of new and second hand stoves. He has the Morning Glory, Juniata Base Burner, the Sunnyside Diamond, and all kinds of ook stoves.

Wilson's lot of second-hand stoves, is the largest in Columbia. Buy where you have the largest assortment to select from. Go to Wilson's.

LAWLESSNESS.—It is a lamentable fact that lawlessness abounds in our borough before the notice of those who are charged with the maintenance of the peace and the most open and audacious outrages committed under the very eyes of the law; that such conduct on the part of the roughs can be stopped we do not for one moment donot. All that is necessary, is for a few determined men to be in the right place at the proper time. Are our policemen in the right place, at the proper time? Let the ladies answer, who have been insulted whilst walking our streets at night, for recreation or business purposes. When anything bappens that requires the services of the Kinght of the star, the general inquiry is, where's the police? The question is simple enough in itself, but the satisfactory answer therefor is something beyond the power of any one interested in police in effects. It was but a short time ago, about 11 o'clock P. M.; a gentleman was standing no one of our screet corners near his home, when he heard a person, a short distance off, yelling murder! more in defiance than pain or distress, alternating his ladeous cries, with snatches of that incomparable off, yelling murder! more in defiance than pain or distress, alternating his hideous cries, with snatches of that incomparable ballad, "Shoo Fly," loud enough to awaken the whole neighborbood, which he most undoubtedly did, but failed most miserably to disturb the peaceful slumbers of some guardian of the public peace. On reaching the spot where the gentleman stood he was recognized as a prominent rough, but the gentleman not learing personal violence, interrogated him as to the cause of so much noise at such an unseemly hour of the might, and was answered cause of so much noise at such an unseemly hour of the might, and was answored
that he was just doing it for spite, at the
same time remarking that he wasn't alraid;
that they dare not touch him. Why are
such characters allowed to prowl our streets
at such hours, making night more hideous
than the surrounding darkness, with demoniacal yells.

We can searcely believe that our police are
afraid of them, but such is the fact: the no-

ifraid of them, but such is the fact; the po licemen cry out once an hour and some band of roughs the rest of the night. We would rather applicate our policemen than be compelled to notice their short-comings; but it is a duty we owe the public that makes us condemn, without reservothe force of men, who are noted by the concernings to watch over

demn, without reserve the force of men, who are paid by the corporations to watch over the property of its effizens. A few weeks ago, during the fire of Mr. Brown & Weissers barns, it was the impression with a great many that that was just the beginning of a series of confingrations.

Is there no policeman in York fearless enough to do his duty to niprowdy is min the bud, and stay the hand that would apply the lighted match to our homes. The want of a competent police force is severely felt in York; but let the policemen do their daty and they will receive the hearty support of every law-abiding citizen.—York Dauy.

MUSICAL ENTERTAINMENT, -- A Very

gratifying and creditable Musical Entertainment was given by the Mountville Choral Choir, in the U. B. Church of this place, on Thursday evening last, for the benefit of the U.B. Sabbath School of this place. The choir consists of about twentyfive young ladies and gentlemen. The programme of the evening showed good taste. The most noticeable pieces, were "Golden Plain," "Cold Water," "Take Me by the Hand Father," "Soldier's Requiem;" and "The Rescue," by Rev. Balt zel, Teacher of the Choir, was very fine; recoiving the strictest attention of the audi care. Every part was satisfactorily sustained, especially Second, by Miss Witmer, who exercised very good taste, manifesting her talent as a singer; Tenor rather strong Miss Garber, who presided at the organ, did nobly. The entire programme of the evening was a success; although there is room for improvement. A large, audience was present to witness the entertainment of the evening, and all were much pleased. After the close of the exercises, our Mounttille friends departed on a moonlight stroll homeword, feeling not a little proud of their success. Our Columbia friends will not be angry, should they pay a visit to Columbia soon again.

To the Nervous and Debilitated.

Whose sufferings have been protracted from ndden causes, and whose cases require promp reatment to render existence desirable: If you are suffering, or have suffered, from involuntary discharges, what effect does it produce upon our general health? Do you feel weak, debili ated, easily tired? Does a little extra exertion produce pulpitation of the heart? Does your iver, or urinary organs, or your kidneys, fre-quently get out of order? Is your urine some-fines thick, milky or flocky, or is it topy on ettling? Or does a thick seum rise to the top? Or is a sediment at the bottom after it has stood awhile? Do you have spells of short breathing or dyspepsia? Are your bowels constipated? Do you have spells of fainting, or tushes of blood to the head? Is your memory impaired? Is your mind constantly dwelling on this subject? Do you feel dull, listless, moping, tired of company, of life? Do you wish to be left alone, to FONDERSMITH'S get away from everybody? Doesany little thing make you start or Jump? Is your sleep broken or restless? Is the lustre of your eye as brilliant? The bloom on your cheek as bright? Do on enjoy yourself in society as well? Do you have as much confidence in yourself? Are your spirits dull and flagging, given to fits of melancholy? If so, do not lay it to your liver or dyspepsia. Have you restless nights? Your

back weak, your knees weak, and have but little appetite, and you attribute this to dys pepsia or liver-complaint? Now, reader, self-abuse, yenereal diseases badly cured, and sexual excesses, are all capa-ble of producing a weakness of the generative organs. The organs of generation, when in perfect health, make the man. Did you ever think that those bold, defiant, energetic, perse-vering, successful business men are always those whose generative organs are in perfect health? You never hear such men complain o being melancholy, of nervousness, of palpitation of the heart. They are never afraid they can not succeed in business; they don't become sad and discouraged; they are always polite and pleasant in the company of ladies, and look you and them right in the face—none of your down-cast looks or any other meanness about them. I do not mean those who keep the organs inflated by running to excess. These will not only ruin their constitutions, but also those they do

How many men, from badly cured diseases from the effects of self-abuse and excesses, have brought about that state of weakness in those organs that has reduced the general system so much as to induce almost every other disease-idioev, lunacy, paralysis, spinal affections, sui-cide, and almost every other form of disease which humanity is heir to, and the real caus of the trouble scarcely ever suspected, and hav doctored for all but the right one. Diseases of these organs require the use of Diuretic. HELMBOLD'S FLUID EXTRACT BUCHU is the great Diuretic, and is a certain cure for diseases of the Bladder, Kidneys, Gravel Dropsy, Organic Weakness, Female Cor plaints, General Debility, and all diseases of the Urinary Organs, whether existing in Male of Utinary Organs, whether existing in Male or Female, from whatever cause originating, and no matter of how long standing.

If no treatment is submitted to, Consumption or Insanity may ensue. Our flesh and blood are supported from these sources, and the health and nappiness, and that of Posterity, depends upon prompt use of a reliable remedy.

manufactured by Perry Divis & Son, Providence, RI, Leen before the public, and in that I m; has become known in all parts of the world, and been used by people of all nations. It remains to the year that same good and efficient remains, I swonderful power in refleving the most severe pain, has never been equalled and it has earned its world-wide popularity balls intrinsiement. No curative agent has had so wide-spread sale or given such universal satis, action, The various lits for which the Pain Killer is an unfailing cure, are too well known to require recapitulation in this advertisement, As an external and internal medicine the Pain Killer stands univaried, Directions accompany each bottle, Sold by all druggists, Frice 25 ets, buts, and \$1 per boille.

cach bottle. Sold by all druggists, Frice 25 ets, botts, and 31 per bottle.

A Bony and Mish Diseast.—Such is dyspepise. The stomach and the bitam are too intimited by the first of the one to suffer without the other, so that dyspepsia and dependency are inseparation. It may be added, too, that irritation of the stometh is almost invariably accompanied by trutation of the temper. The invigorating and tranquillzing operation of Hostetter's lutters is most powerfully developed in cases of indigestion. The first effect of this agreeable tonic is comforting and encouraging. A mild glow prevades the system, the chronic uneas ness in the region of the stomach is lessoned, and the nervous restlessness which characterizes the the disease is abated. This improvement is not transient. It is not succeeded by the the return of the old symptoms which superadded force, as is always the case when unincilicated stimulants are given for the companint. Each dose seems to impart a permanent accession of healthful invigoration.—But this not all: The apparient antibilious properties of the preparation are scarcely secondary in importance to its tonic virtues. Is there is an overflow of bile the secretion is soon brought within proper limits, and if the bileary organ is inert and torpid it is toned and reguladed. The effect upon the discharging organs is equally salutary, and in cases of constipation from the serface which is particularly destrable at this season when sudden spells of raw, unpleasant weather are apt to check the matural prespiration and produce congestion of the liver, coughs, and colds.
