 WHICH WE
BOUGHT EARLY IN THE SEASON.
 And at our Prices
ARE CONVINCING BARGAINS.

GEO. W. & B. F. HALDEMAN'S
 Popular Dry Goods Store,
 112 & 114 LOCUST ST.
 Oct. 26-27-28.

LOCAL INTELLIGENCE.

LANDLORD'S NOTICE TO QUIT printed and for sale at this office. Also all law blanks at shortest notice.

EVERYBODY that buys Clothing, Hats, Caps, Boots, Shoes, or Gents' Furnishing Goods, gets more than the worth of his money at Bachelder's, or better known as the big 5, on Front street, near Locust.

We had our forms locked up and everything ready to go to press, when we found, we had omitted to announce a grand opening of Furs, Clothing, Boots, Shoes and Notions, at Hanauer's, Front street. Ten thousand people wanted to call there.

DICKSON & ZUCCHER'S Silver Show will give one performance on Monday evening. The management announces it as the greatest concentration of talent in America, ever engaged in one show.

Flour, coal, furniture, green backs and silver given away every evening. Doors open at 7 o'clock. The "trouble" commences at 8.

THE TERN.—The two Lumber Merchants, who took an airing on Sunday afternoon, and who were mistaken for Gen. Grant and Robert Bonner, with "Destiny" would do well when they propose accomplishing the feat of driving fifteen miles in 1 hour and fifteen minutes, to send messengers ahead, or accident might occur by collision with other teams on the road.

A VALUABLE NOTICE.—We would call the special attention of our readers to the grand opening of Furs at Fonder'smith's Store, this week. His stock is unusually good. He has all the new styles, and is offering extra inducements this season, giving his customers the advantage of the late decline in the Fur market, by selling them at half the prices they were sold at last season. A good set of Furs for \$500 Siberian Squirrel Sets from \$8.00 to \$8.00. Sable sets from \$12.00 and \$15.00. Remember Fonder'smith's Store is headquarters for Furs.

WHAT ADVERTISING WILL DO.—We need not go to Philadelphia for a Wanamaker, or to New York for a Heimbald for an example of what advertising will do. We have an instance at home—where we refer to the business success of Robert Hayes, Esq., corner of Fourth and Cherry streets.

A little less than a year ago, Mr. Hayes' place of business was comparatively unknown, except to a few who had been regular customers at the stand for the past quarter of a century. His business was limited; Mr. Hayes, too, was a young man who had to conquer the opposition and rivalry which business men meet with everywhere.

At our suggestion Mr. Hayes took a quarter of a column in the Spy and a thousand circulars, and sent them to his customers. The net gain so much encouraged him that he increased the advertisement to a full column and had printed, subsequently, many colored circulars, bills and posters of all colors and sizes, and frequently cards for special purposes, which he threw around and had posted judiciously, all over this section of the county. The result was a monthly, almost weekly, bulletins, as regular as expected by the public, as his goods are appreciated by his hungry customers.

To sum up in a few words what we might lengthen at will, we have only to say that during last week Mr. Hayes shipped from the Philadelphia wholesale markets, upwards of twenty thousand lbs. of groceries, the freight on which, paid to the Pennsylvania R. R. Company, and for unmet sheet posters as an experiment. The net gain so much encouraged him that he increased the advertisement to a full column and had printed, subsequently, many colored circulars, bills and posters of all colors and sizes, and frequently cards for special purposes, which he threw around and had posted judiciously, all over this section of the county. The result was a monthly, almost weekly, bulletins, as regular as expected by the public, as his goods are appreciated by his hungry customers.

On motion it was ordered that the Board Committee be authorized to dispense with all the force authorized now at work upon the streets.

LANDLORD'S NOTICE TO QUIT at this office.

Go to the big 5 and get one of the good nine dollar suits worth fifteen.

DEDICATION.—The new U. B. Church at Mountville, will be dedicated to the worship of God, on to-morrow at 10 o'clock. The dedicatory services will be conducted by Bishop Weaver of Baltimore, assisted by a number of ministers from abroad.

EXHIBITION.—An exhibition by the Sabbath School of Mt. E. Church, Tuesday and Wednesday evenings, December 6th and 7th. The exercises will consist of dialogues, recitations, music, &c. The public are invited.

SALE OF STOCKS AND BONDS.—At the sale of stocks and bonds at the Washington House, by J. A. Jordan, Auctioneer, on Wednesday, 7th inst. of Water Company Stock, were sold for \$275; Columbia & Chestnut Hill Turpike stock, \$19.50 per share; 5 \$100 Water Company Bonds, at \$67.50 each. Columbia & Washington Turpike stock was not sold.

GRAND OPENING.—On Thursday next the Messrs. Halde-man will open their winter stock of Furs, which have all been made of Selected Skins, to their own order and for their own sale exclusively. Their assortment of Rich Furs is the finest they have ever shown, and includes all the Novelties in Russian Sable, Hudson Bay Sable, Mink Sable, Astrachan, Real Siberian Squirrel, &c., for Ladies, Misses and Children. They are also glad to announce a grand reduction in prices. Ladies will save much time and money, and be certain of getting Genuine Furs, by making their selections from the magnificent stock now offered at Halde-man's Popular Dry Goods Store.

BASE BALL TEAMS.—The Dauntless visited Columbia on Thanksgiving day, to play the test game with our Blue Stockings. The place selected was Leife's field, corner Fourth and Walnut. The game lasted about four hours, the Dauntless having the best of the innings, with the exception of the increasing darkness, the latter refusing to play any longer, and the umpire according to a ruling of the game announced that the score stood 9 to 0 in favor of our Blue Stockings. The actual score showed the Harrisburg boys only four ahead, with the Columbia boys leading on them at each inning. Had the game been finished regularly, our boys would doubtless have been the victors.

PERSONAL.—The Columbia Rolling Mill is now fairly started, working as regularly as clock work under the efficient management of the late Mr. Lewis. Mr. Lewis is certainly the right man in the right place. We have no extended personal acquaintance with the gentleman, but from what we saw a few mornings since, the citizens of Columbia certainly are entitled to congratulate themselves that the services of such an able manager have been secured. The prosperity of our town depends largely on the success of our manufacturing interests; and these ably managed, will be profitable to the proprietors and employees both.

SPRUYEN DUVYLL, Nov. 26th, 1870.
 The Mill Owners regret their loss of the late Mr. Lewis, a man of high character, whom the Company have lost an efficient manager, and the workmen a friend. We are glad to hear that he has been placed in some other place, and for the present Mr. Lewis will be respected accordingly.

LOCAL BRIVITIES.—Much interest was manifested in Turkey on Thursday. A large number of the streets and stores presize the holidays.

Save your apple seeds. They are worth \$200 a ton.

All the overcoats of the season are made with velvet collars and silk facings, except ours.

It is not always well to do so, but now is the season for mining matters. There are, as a son of Erin might say, plenty of good "raisins" for it.

The postal card which we illustrated in our issue of the 19th inst., is a beautiful one, and is a good specimen of the art.

A man, who is the respondent in a divorce case in Chicago, recently succeeded in bringing out, in the cross-examination of his wife, that she had at one time "soaked" her head in a tin pan containing scalding water.

An exchange says a common mistake in the use of coal is the placing of too large a quantity in the stove or grate at once.

Coal, to burn freely, should only be six inches deep in the grate containing it, and if, properly lighted, there will be no trouble. By placing a few extra shovels occasionally in stoves when hot shovels are entirely dispensed.

An experiment was made at San Francisco, to find out how long it would take to take electricity to pass over the wires from that city to Cambridge, Mass., and back, without interruption, and the time was found to be eight-tenths of a second. The distance is six hundred miles.

This was really good news for lightning, but light beats it all hollow, traveling five times as fast.

The opening-out season of Winter styles among the milliners and modistes of Columbia, is just drawing to a close, and the stores which the week past had been thronged with charming women making selections from the gorgeous and tempting display presented to their vision. Many a paterfamilias and doting husband yielded to the irresistible pleading of his fascinating bride, and the wifely and wifely, and quietly succumbing to the influence, emptied their pocket books of their contents, to add to the adornments of woman's fitful and short-lived fancies. The different shop windows were richly adorned with all the novelties of the season, and all that attracts a woman's eye, and far exceeded in display previous years.

Look out for spurious notes in town. There is a new fifty cent currency counterfeited that is well calculated to deceive. The red and blue lines in the paper of the genuine are imitated by printing in the counterfeit, the long beard of Secretary Stanton is darker, and the figures "50" on the right hand are surrounded by solid black in the counterfeit, while in the genuine, on the reverse the counterfeit may be distinguished by the "S" in "customs" falling to touch the line encircling the large oval to the next, and also by the absence of the slanting and the line around the "50" in counterfeit.

The advertisement of magnificent marriages reached a climax in Philadelphia last week—a city newspaper proclaiming to the world that its next issue would contain an elaborate description of the wedding of the Hon. William B. Mann's daughter, Miss Emmie Mann, to Mr. Frank Brightly. Very good for the newspaper, but what do Mr. and Mrs. Frank Brightly think about it? Of course, there may be and probably are, many reasons to the contrary, but it is a pity that a better hope of future domestic happiness from sinner and sinner's daughter, especially in Republican America. However, there is the old proverb to insist; and we have nothing to oppose to it.

Not Quite Barred Alive.

How often do we make the remark, and how frequently do we say it from others, that truth is stranger than fiction; and how often do scenes pass before us, on the journey of life, which verify this saying? The story which I am about to relate is true to the letter, in every particular. It happened in a family

WIDELY KNOWN IN PHILADELPHIA in 1819—the name only is withheld, and only initials supply its place.

A professional contractor, whom I shall call B. W., was taken ill, the family physician was called in, who prescribed some simple remedies, and left him, thinking that he probably would recover from his illness before the next morning.

On Wednesday, 7th inst. of Water Company Stock, were sold for \$275; Columbia & Chestnut Hill Turpike stock, \$19.50 per share; 5 \$100 Water Company Bonds, at \$67.50 each. Columbia & Washington Turpike stock was not sold.
