

From the Lancaster Express.
DRUNKENNESS AND BAD WHISKY.

At the last session of the Legislature a law was passed for the regulation of the liquor traffic, to which we call the attention of our readers. Although it is very deficient in many of its details, and entirely wrong in principle—recognizing as it does the right of the Legislature to license an evil—it is now a law of the State, and should be enforced until we get a better one. By a careful examination of Sec. 5, it will be seen that every tavern keeper in Lancaster city and county can be evicted under this law, and heavily fined, and imprisoned for sixty days; for we presume there are few men who are not aware that all the liquors sold in the taverns are "adulterated" or "corrupted," and "essentially unwholesome, noxious, and injurious to health." No one knows this fact better than the liquor-seller himself, and since the Legislature has enacted a law on the subject, it might as well be enforced. In Ohio, where a recent law has created the office of inspector of liquors, one of the incumbents, a practical chemist, reports that *all* the brandy he has yet examined, is nothing but drugged whisky! That a similar test here would reveal a similar fact, is the opinion of all who profess to be judges of "good liquors." Shall it be tried? Will our friends who talk so loudly about the "regulation" of the liquor traffic lend us a helping hand in this case!

We would also direct the attention of parents, relatives, and others, to the provisions of Secs. 1, 2, and 3. There are a number of very distressing cases of the invasion of "domestic and private rights," which may be reached under these Sections, if the proper course is taken by individuals and sustained by our Court. Here is the law as approved by the Governor:

An Act to protect certain domestic and private rights, and prevent abuses in the sale of intoxicating liquors.

§ 1. He it enacted, &c., That willfully furnishing intoxicating drinks by sale, gift, or otherwise, to any person of known intemperate habits, to a minor, or to an insane person, for use as a beverage, shall be held and deemed a misdemeanor, and upon conviction thereof the offender shall be fined not less than ten nor more than fifty dollars, and undergo an imprisonment of not less than ten nor more than sixty days; and the willful furnishing of intoxicating drinks as a beverage to any person when drunk or intoxicated, shall be deemed a misdemeanor, punishable as aforesaid.

§ 2. That it shall be lawful for any member of the family, or blood relation of an intemperate person, or any overseer of the poor, or any magistrate of the district in which such intemperate person resides, or has legal settlement, or the committee of a habitual drunkard, to give a distinct notice, verbal or written, to any keeper, merchant, grocer, distiller, brewer, or other person manufacturing, selling, or having in existing liquors, forbidding him or them from furnishing such intemperate person or habitual drunkard with intoxicating drinks or liquors, and if within three months after such notice, any one to whom the same is given shall furnish or cause to be furnished in existing liquors to such intemperate person or habitual drunkard, he shall be deemed guilty of misdemeanor, and upon conviction thereof shall be punished as provided in the first section of this act.

§ 3. That any person furnishing intoxicating drinks to any other person in violation of any existing law, or of the provisions of this act, shall be held civilly responsible for any injury to person or property in consequence of such furnishing, and any one aggrieved may recover full damages against such person so furnishing by action on the case, instituted in any court having jurisdiction of such form of action in this Commonwealth.

§ 4. That any judge, justice, or clergyman who shall perform the marriage ceremony between parties who either of said parties is intoxicated, shall be deemed guilty of misdemeanor, and upon conviction thereof shall pay a fine of fifty dollars, and be imprisoned at the discretion of the court, not exceeding six months.

§ 5. That any willful adulteration and corruption of spirituous, vinous, or malt liquors, manufactured or intended as a beverage, whereby the same are rendered essentially unwholesome, noxious, and injurious to health, or any sale of such liquors for use as a beverage, with knowledge that the same is so adulterated and corrupted, shall subject the offender for a first offense to a fine of fifty dollars, and for a second and subsequent offense a fine of one hundred dollars, and imprisonment not exceeding sixty days.

§ 6. Any person prosecuting for an offense indictable under this act, shall, upon conviction of the offender, receive such responsible sum for expense, services, and time expended as may be directed by this Court, not exceeding twenty dollars, to be taxed and paid as a part of the costs in the case, such allowance to be exclusive of compensation to such prosecutor as a witness under existing laws; provided, that such allowance shall not be made in more than one case at the same time to one person.

§ 7. That no action be maintained or recovery be had in any case for the value of liquors sold in violation of this or any other act, and defense may be taken in any case against such recovery without special plea or notice.

§ 8. That it shall be lawful for the Courts of Quarter Sessions to revoke any license they may have granted, or that may have been granted under the general law regulating licenses in the city or county of Philadelphia, for the sale of liquors, whenever the parties holding license shall be proved to have violated any law of this Commonwealth relating to the sale of liquors, or whenever the premises of such party shall become the resort of idle and disorderly persons, so as to disturb the general peace of the neighborhood, upon notice given to the person so licensed.

Approved the eighth day of May, 1854.

Are Leached Ashes of any Value to Land?

To be sure they are, but of much less value than unleached. The leaching takes away from it all that is soluble in water, such as potash, soda and common salt. At least two-thirds of the ingredients composing the ashes of hard wood, is left unchanged. This consists of lime, magnesia and the phosphates, &c. In applying it, more in quantity is needed than before leaching.

The value of ashes as a manure, is not sufficiently known, or appreciated. Much of the land in this country needs it. It will not answer as a substitute for plaster in all cases. Whatever is wanting in the soil, that must be given it. If it is found in plaster, then use it; ashes may contain it, then it answers equally well. The elements of the two are quite different. Experience must decide when an analysis of soils cannot be had.—*M. Keen Citizen.*

From the Bradford Reporter.

The predictions contained in the following remarks, from the *Montrose Democrat*, meet our ideas exactly. They are very sensible, and if not verified, we shall be very agreeably disappointed:—"The Bill granting one hundred and sixty acres from the public lands to each actual settler thereon, which has so long been agitated in Congress, and which passed the House early the present session, still hangs in the Senate. It will be recollected that it passed the House last session and was then smothered in the Senate. The country is beginning to look to the fate of the present bill with much anxiety, and to us the writing appears plainly on the wall. We have no confidence in the Senate so far as favorable action on this bill is involved. That body is too far removed from the people, too independent of their sovereign, too conservative in ideas. Such a proposition shakes their nerves, has too much of Young America about it ever to meet with favorable action here. But there is another reason why that bill will not pass the Senate, in our judgment more powerful than any other, and of itself sufficient to put an end to its existence. The South in a body oppose it: The fiat has gone forth from that quarter that the bill in some way will damage the "peculiar institution," and hence must fail. As soon as the Nebraska bill passed, we gave up the Homestead as doomed. Remember that the doctrine of popular sovereignty is claimed for the Nebraska Bill,—that is, that the people of that territory shall decide for themselves on the question of slavery. Why did the South support that Bill? Because it gave them a chance to introduce slavery where it was prohibited by positive law. Now does anybody suppose that the South will permit a Bill to pass like the Homestead, which would open those territories to a flood of free emigration, such as would pour in from the inducements held out of obtaining land free, on which to settle and make happy homes for free labor? Certainly not. If there be such a principle in the Nebraska Bill as popular sovereignty, of what value would it be to the South? They could no more obtain a footing for slavery in Nebraska under such a law than they could reach and pluck down the stars, and they will never permit it to pass. Mark this, that the Homestead Bill is dead—dead as Julius Caesar, because it is supposed to conflict with universal "nigger" dominion."

They who bathe in salt water, it is said, never have the cholera.

THE NATIONAL ERA.
RENEWAL AND NEW SUBSCRIPTIONS—WHO REQUESTS?
The time has come when we must call upon subscribers whose terms are about expiring; to renew; and, while doing so, to send new names with their own. The first half of the present volume of the *Era* will close with the last of this month. We have just sent out our special request to our voluntary agents, to join in a determined and vigorous effort to enlarge our list. The time is auspicious. People are aroused on the subject of slavery, and need information. Only the first great triumph of the slave power has been won. Further and more dangerous aggressions are meditated. The anti-slavery sentiment of the country needs organization. To promote the great cause of the Union for the sake of Freedom, the most active efforts ought to now be made, to increase the circulation of newspapers opposed to slavery.

The *Era* needs a special movement in its favor. Some of its best agents, during the last twelve months have diverted their labors to the establishment of local anti-slavery papers. We do not complain of this; but could they not now spare a few weeks to the *Era*, which has no local support, and must depend alone upon the general interest felt in the vigorous maintenance of such a paper at the seat of Government? In brief terms, let us say that, should they succeed in adding to our Weekly list six thousand subscribers, it would not repay the loss we have sustained in undertaking to carry on a *Daily Era*, although it would enable us to relieve ourselves from the embarrassment in which that has involved us. Let every agent use his best exertions for the paper. Let every subscriber whose time is about to expire, renew promptly, and send at least one new name. We reprint our terms, and shall keep them standing, as a guide to the efforts of our friends:

PROSPECTUS
Of the N. Y. Evening Post.

To add to the interest and usefulness of the *Evening Post*, we have enlarged it by the addition of an equivalent to about four additional columns. The weekly and semi-weekly editions were enlarged twelve columns only about three years ago. Four more columns added now increases the sheet to double the size of the paper on which they were originally printed. In announcing this enlargement, which may be permitted to say, is one of the results of the growing confidence of the industrial and commercial interests of the country in the course of the *Evening Post*, it is our duty to make our special acknowledgments to those numerous friends, both personal and political, who, through evil report and through good report, have cheered us with their generous countenance, and given us annually recurring proofs of their esteem and attachment, unflinching in the smiles, or frowns of men in power, who too often seduce or frighten men from the course their consciences approve—the manly assertion of truth and steady resistance of error. We take fresh courage from our success thus far, and from their friendly co-operation, to persevere in the path which we have deliberately chosen, and they have as deliberately approved.

We avail ourselves of this occasion to congratulate our readers upon the arrangement which we have been so fortunate as to make with Colonel Benton for the publication of a series of articles from his "Thirty Years in the United States Senate," which will be continued through the year and until the work shall be published, some time in 1854. We are also preparing a series of private papers and reminiscences of another eminent democratic statesman, which we hope to bring out in the course of a few weeks.

Premium Fanning Mills.
important to Farmers and Mechanics.

THE subscriber has purchased of J. Bamberough the right to use in Potter & McKean counties the right to use in the construction of Fanning Mills. He has also at great expense, commenced the manufacture of a PREMIUM MILL which will clean from 100 to 200 bushels per hour. This Mill was patented March 20, 1847, since which time it has stood at the head of the list at all the State and county agricultural societies where it has been exhibited, and is a universal favorite with all farmers who have tried it. It took the premium at the first Agricultural Fair held at Harrisburg, Oct. 31st, 1851, when there were 30,000 people present; and at the great State Agricultural Fair at New-York, held at Rochester Sept. 16-19, 1851, this Fanning Mill received the highest honors. Having met with uniform success wherever tried, I confidently invite the farmers of Potter & McKean counties to call at my shop in Coudersport and examine for themselves. A supply always on hand, to be sold on reasonable terms.
