We noticed a week or two since an article in the People's Journal, Potter Co., Pa., enjoining upon farmers to plant more corn. To this suggestion we are bound to heartily respond. No crop stands the drougth so well as corn. It is well adapted to our soil, and the climate would seem to be yearly improving and thereby lessen.

S. JONES takes this method to inform the people of Coudersport and the public generally, that he has just opened a Grocory and Provision store, where he will keep constantly overything in the line of "catables," and which he will sell as reasonable as can be desired. The "substantials" can be possible to the people of Coudersport and the public generally, that he has just opened a Grocory and Provision store, where he will keep constantly overything in the line of "catables," and which he will sell as reasonable as can be desired. The "substantials" can be possible, while the appetites of the most Co., Pa., enjoining upon farmers to plant more corn. able and convenient of crops. We are surprised that so few of our farmers sow corn broadcast, to be used as fodder. One acre of land, well prepared and two bushels of seed, is capable of producing as much fodder as four acres of the best meadow land in the country. It is true that the trouble of curing is considerable, and sometimes difficult, but the crop will abundantly pay for the utmost effort. In a dry time like the present during the heat of summer, an acre or two of such fodder especially for farmers who keep milch cows, is invaluable.

Although we are no farmer, still reading and observation has taught us many things in regard to a successful system of agriculture. We have however had a little experience in sowing corn, and we are confident from the results of our experiment, that farmers who once resort to it, will follow it up as a matter of great profit. Try it neighbors for yourselves, and we will warrant you against the severest damages resulting from drougth-Wellsville Free Press.

WHEN TO CUT WHEAT .- Cutting wheat at the proper time is a matter of more impor-tance than farmers generally are aware of. When wheat is cut from ten to four een dsys before it is fully ripe the grain not only weighs heavier but mesures more, being of decidedly better quality, and produceing a larger proportion of fine flour to the bushel. As the grain ripens, the thickness of the skin rapidly increases, woody fibre being formed at the expense of the starch and sugar. Py this process, the quantity of flour is lessened and its quality deteriorated. It is there-fore all important that the wheat should be at while sugar, gluten, starch, water, &c. ill constitute a large proportion of the grain. This same reasoning applies to rye, barley. result of accurate and carefully conducted ex-periments made both in this country and in

THE HERALD OF FREEDOM.

A PAPER FOR THE MILLION!!

THE undersigned proposes to publish, at Kansas Territory, to commence about the first of September next, an Independent weekly Newspaper, of double medium size, devoted to the develop-ment of the resources of the Great West, and particularly to the interests of Kansas Valley. It will defend the principles of the Declaration of Independence, together with the com-promises of the Constitution, as understood by its framers. In favor of the greatest area of freedom, it will labor to prevent the extension of any institution over the new territory incompatible therewith.

With several years' experience as an editor and publisher, and well conscious of the responsibilities incumbent upon him in his new location, the proprietor undertakes the work with a confident assurance of success. All his means, time and talent, are devoted to the cause, and he engages in it with the view of contributing his share towards building up in the heart of the American Continent a state sacred to liberty. He asks the support of the friends of free institutions everywhere, and appeals to them for aid and encouragement urges them to give him a subscription list at the very outset which will place his enterprise above the reach of successful op-

Contemplating a very large circulation immediately, the publisher has determined on taking out with him, at the very commencement, his steam Engine, and one of A. B. TAYLOR & Co.'s celebrated Power Presses, capable of making three thousand impressions per hour. He has had the press in constant use during the last year, and has tested its ability to do the best of work.

Every advantage which capital and talent combined can give a paper of this description will be thrown around it. With correspondents in all parts of the new territory, and tourents in an parts of the new territory, and tour-ists who will make weekly reports of the progress of the settlements, and observations upon the fertility of the soil, salubrity of the climate, and internal resources, the editor feels confident that his paper will be a welcome visitant in every family, and sorve as a guide to the emigrant in seeking a new home

in the West.
TERMS;—THE HERALD OF FREEDOM will contain thirty-two columns, will be print-ed on new type, and furnished to single subon new type, and turning to stages seribers payment invariably in advance, at two dollars, per annum; three copies five dollars; ten copies fifteen dollars; and twenty copies, with one copy to the getter up of the club, for

twenty-five dollars.

Until the first day of September next, all subscriptions should be directed to G. W. BROWN, Conneautrille, Cranford Co., Pa., and after that date to Fort Learenworth, Kan and after that date to Fort Learenworth, Kan sas Territory. Subscribers in the New England states may send their subscriptions to G. W. Brown, care of Eli Thayer, Esd., Worcester, Mass., if they prefer doing so.

J. BLOOMINGDALE, Principal. The undersigned, Trustees of the Cou-dersport Academy, are moved by a sense of official and personal duty to invite the attention of the public—of parents in particular, to the rising and useful character of this institution of learning. When invited, a little more than a half-year ago, to the superintendence of its affairs, we found it depressed and still declining. We requested Mr. J. Blooomingdale to become its Principal Teacher, and trusted organization and other most onerous affairs to his discretion and management. Experience has proved him to be faithful, efficient, and practical-just such an instructor as this com numity need. The number of pupils in the school is now over sixty. mportant to Farmers and Mechanics. THE subscriber has purchased of J. Bamborough the right to use in Potter and M'Kean counties his patent in the construction of Fanning Mills. He has also, at great ex-bense; commenced the manufacture of a PRE-MIUM MILL which will clean from 100 to 200 bushels per hour. This Mill was patented March 20, 1847, since which time it has stood at the head of the list at all the State and ceunty agriculturul societies where it has been exhibited, and is a universal favorite with all armers who have tried it. It took the pre-mium at the first Agricultural Fair held at Harrisburg, Oct. 31st, 1851, when there were 30,000 people present; and at the great State Agricultural Fair at New-York, held at Rochester Sept. 16-19, 1851, this Fanning Mill

received the highest honors. Having met with uniform success wherever tried, I confidently invite the farmers of Potter and M'Kean counties to call at my shop in Condersport and examine for themselves. A supply always on hand, to be sold on reasonable terms.
