TRENCH AND SUBSOIL PLOWING

When the company two horse plow When the common two horse plow alone is used by farmers, it pulverizes the soil only a few inches in depth, be generally, that he has just opened a Ground only a few inches in depth, be generally, that he has just opened a Ground only a few inches in depth, because of Provided the common two when he will be an extended to inform the common two when the common two and its own weight, and the aread of very and Provision store, where he will keep the horses on the bottom of the furrow, dradually form a hand crust at that depth, through which the roots of food here at all times, such as FLOUR and plants and the moisture of rains do hot easily ponetrate. Hence the roots that coming a few inches of good soil on any control of the most control of the most control of the most control of the most daily control of the most daily control of the kind, please call and extraine before purchasing elsewhere, and if the country satisfy you your case must vy rains fall, this shallow bed of millow earth is soaked and injured by surplus water. Again, in time of mon, Codish, Mackerel, Blue Fish, Rice, drouth, this shallow bed of moisture is soon evaporated, and the plants suffer in concequence.

Grain and all other kinds of Produce taken in replaced for mode at the code rate.

But, on the other hand, when soil is and deep, it absorbs, like a sponge, gradually gradually gradually gradually gradually gradually gradually gradually provided the relationship of the property of the property of the provided the provide made deep, it absorbs, like a sponge, all the rains that fall, and gradually gives off the moisture as it is wanted ! during hot and dry seasons. For this reason, deep soils are not so easily injured by excessive wetness, or by extreme drouth, as shallow ones. In addition to this advantage, they allow addition to this advantage, they adown a deeper range for the roots in search commence on Wednesday, July 26, 1554 of nourishment.

Soils are deepened by trench-ploring and by subsoilers. By trenchplowing, the common plow with a earth to an unusual depth, and to throw up a portion of the subsoil, covthrow up a portion of the subsoil, cov-ering with it the top-soil which is Higher Mathematics, Lain, Greek. thrown under. A subsoil plow on the contrary, only loosely the subsoil, but deep not lift into the surface.

When a mixture of the subscile is and French is agreeded, 6.25 Instruction on the Pinto Force, extra, 10.00 Use of instrument, 2.09 Vocal Music, free of charge.

When a mixture of the subs II with the surface tords to report the school aiche, the Lod of the host but of a thospitality of a more wille character, it would be only becaused the ly intermined to the ticker!

TOMAPORS AND LIMA PRANS

We confided The following paragraphs, which we find a the Working Tarmer, to our gardeners. In this latitude the per centage is too high, but approximates to the truth: During the early part of the growth of these

crops the sociace of the soil should be frequently disturbed. When tomatoes have set their fruit, they thould be shortened in, and may be deferred until the largest of the fruit is of half size, when it may be readily chierved that ninety per cent, of the fruit is ithin eighteen inches of the ground, while sincty per cent of the vine or bush is beyond that distance. The vines, therefore, should be triumed in within half an inch of the tomate nearest the end of each;-this will adtost san and an freely, and although ten percent, of the tonadoes that might have grown will be taken away, still the remaining portion will be greater in weight and measure, than if the vine had not been shortened in. Cyclopedia of Entertaining Knowledge. Tomators riculso several days earlier by this tremmen', and therefore bring a much higher Trice in the market.

Lima beans are usually suffered to wind them elves around a pole twelve or fifteen | Dairyman's Manual, feet high, and before the vine reaches the top A Popular Cyclopedia of Modern Domestic of the pale, once hears are already of a size Medicines, comprising every recent improve-to be pulled at its bottom. Lima beans should ment in Medicines, comprising every recent improve-ment in Medicines in common use—by be pinched off when 54 feet high, and they will readily throw out side shoots well filled with pod-, which will ripen before frost; Anatomy, Physiology, Surgery, Dietics, and whereas, when not shortened in, the beans on the management of the sick. Designed for the upper ends of the vine cannot perfect themselves in time to be saved. It is unfair to expect a gill of sap to travel through forty feet of vine wrapped around a pole, and make a perfect bean at the extreme end of it. The hamense amount of imperfect and half formed vine through which it has to travel, causes too great an evaporation of moisture before arriving at its point of destination. The Lima bean with us is an exotic, and its behavior during growth is very different from its habit where maive, and therefore the mode of culti-Nyation, as with the tourto, peach, &c., must . compensate for these differences.-Form Jour-

IS FARMING PROFITABLE?

We often hear the affirmative of this derided and by persons too, whose opinions are entitled to credit. We do not prefer to discuss this subject, but to give a practical illustration of it, and let our readers make the application.

Der Brooks Shuttick, of Bellord, bought and moved upon his farm eleven years since, It was a rough farm, for which be haid \$2,300. He was a manufacturer and had shuttered his health is a mill at Lowell. He paid in cash \$2000, aving a debt to be paid from the farm of \$1,400. During that eleven years he has supported a large family, educated his children, having one son in college; has contributed lib-gorally to the charities of the day; has been a praily to the charities of the day; has been a liberal supporter and patron of Agricultural Socie ies, spending time and money freely, to further these objects in a word he has been an active both farmer. Now mark the result the his, add from his farm 8 to) word; of land and \$350 words of wood, tunier, &c., standing apon the some, which to you not be recknown as the result of agricultural labor. He his words he would not have weeks since sale paid the 51, 100, and a few weeks since sold his tarm for \$3.70 a-gi ing a bilance on his farm of \$1,500, for improvements and rise in value of lights. To recognition, receipts from

War Declared at Last.

THE long repose of Europe is about to be disturbed by the bugle's note and the reville of the drum, calling its slumbering millions to arms in the defense of their firesides and their country. England and France are calling for men and means, and-sending forward their armies to battle against the aggressions of the Russian Bear; but while the Old World is convulsed by revolution, unusual peace and plenty reign in the

In the peaceful and quiet pursuit of our business we have formed a copartnership under the name and style of N.S. BUTLER & CO., and have taken the store in Empire Block, in the village of Olean, formerly occupied by Thing & Brother, and are now receiving a splendid new stock of goods adapted to the season and wants of the community, which we intend to sell exclusively for cash down, at prices that will cause consternation and dismay in the ranks of old fegyism that has been so long established in this section.

Our stock will consist in part of the follow ing Goods: Hardware, Crockery, Boots & Shoes, Hats, Caps, Oil Cloths, Drugs, Carpets, Medicines, Dye Stuffs, Glass, Paints & Oils. Chairs, Putty, Bedsteads, Mattrasses, Feathers

Stone and Wooden Ware, And we mean to keep such an assortment of the above goods that persons from a distance can be assured of finding everything they usually want at prices that will do them good

Call and see for yourselves.

Premium Fanning Wills.

mnortant to Farmers and Mechanics. THE subscriber has purchased of J. Bamborough the right to use in Potter and M'Kean counties his patent in the construction of Fanning Mills. He has also, at great exbense, commenced the manufacture of a PRE-MIUM MILL which will clean from 100 to 200 bushels per hour. This Mill was patented-March 20, 1847, since which time it has stood at the head of the list at all the State and ceunty agricultural societies where it has been exhibited, and is a universal favorite with all armers who have tried it. It took the premium at the first Agricultural Fair held at Harrisburg, Oct. 31st, 1851, when there were 30,000 people present; and at the great State Agricultural Fair at New-York, held at Rochester Sept. 16-19, 1851, this Fanning Mill

received the highest honors.
Having met with uniform success wherever tried, I confidently invite the farmers of Potter and M'Kean counties to call at my shop in Condersport and examine for themselves.

A supply always on hand, to be sold on rea-JOHN RECKHOW. 6-37tf
