

**Lateral From Europe.**  
ARRIVAL OF THE ATLANTIC.

We clip the following summary of news by this steamer from the *Evening Post*:

**The War.**

Nothing new or important has occurred since previous accounts. The following are the latest despatches: JANUARY 13.—A dispatch from Admiral Bruat, of date January 13, thus reports progress: "The cold has been pretty sharp the past few days. Since yesterday the weather is milder and the snow has thawed, though the wind is still from the north."

"In the night, between the 7th and 8th, the Russians made a sortie against the parallel which is in advance of Battery No. 19. Our soldiers waited till they were within pointblank distance, and then vigorously repulsed them. They left many killed upon the ground."

"In the night, between the 11th and 12th, 150 Russians attacked our lines. Driven back after a hand-to-hand fight of some minutes, they left our works seven killed and two wounded. Our loss was five wounded."

JANUARY 11.—Considerable reinforcements have recently reached the allies. Letters from the Crimea, dated January 12th, state that sickness was on the increase in the camps.

Menshikov is reported to have said: "Our troops may rest; General January, February and March will fight our battles far better than we can."

According to Russian reports of the 15th from Sebastopol, many men of the allies desert and join the Russians.

The Duke of Cambridge, like Prince Napoleon, has left the army on the plea of ill health. Both these scions of royalty are at Malta, on their way to their respective homes.

Russians about to take the Offensive. A letter from Odessa, of the 9th, in the *Ost-Deutsche Post* says: "I am able to inform you positively that the Russians have taken all the necessary measures for assuming the offensive in the Crimea, and you may shortly expect to hear of their making forward, as they have received the necessary reinforcements."

Impediment of the Ministry. Lord Lyndhurst has given notice, that on Friday, the 2d of February, he will move the following resolution: "That in the opinion of this House, the expedition to the Crimea was undertaken by Her Majesty's government with very inadequate means, and without due caution or sufficient inquiry into the nature and extent of the resistance to be expected from the enemy; and that the neglect and mismanagement of the government in the conduct of the enterprise have led to the most disastrous results."

From the London Times, Jan. 6.] House of Commons—Resignation of Lord Russell. Mr. HAYTER.—Sir: I have been requested by the noble lord, the member for the city of London, to state that he has considered it consistent with his public duty respectfully to tender to Her Majesty his resignation of the office which he held, which resignation Her Majesty has been graciously pleased to accept. (Hear.) The noble lord will take an early occasion of stating to this House the grounds upon which he has been induced to come to this resolution.

From the N. Y. Tribune. TREASON IN THE SENATE. WASHINGTON, Feb. 3, 1855. The variety of character in the Senate is a subject of study. Judge Evans, of South Carolina, a very sedate, and I have no doubt, a very honest man, without a suspicion as to the righteousness of slaveholding, sits near Senator Wade, an equally honest man, but a most decided opponent of Slavery. Somebody sends very regularly to Mr. Evans a copy of the *Liberator*, (Garrison's paper,) which he reads attentively, but with the most profound and even verdant astonishment. Turning to his friend from Ohio, he exclaims, "Is it not admirable that such a paper should be allowed in this country?" "Why," says Senator Wade "that's considered in our State as a most excellent family paper." "I am sorry to hear you say so," says the Judge, evidently much surprised.

The temper of the times was illustrated to-day. A Northern Senator, having read the appeal in the *Independent* for subscriptions to pay the fine of S. M. Booth, collected among his colleagues quite a handsome sum toward that object, which greatly shocked the loyal feelings of Douglas, Weller & Co.

An incident no less illustrative and significant occurred not long since. A slave applied to one of the Senators from a Western State for a contribution to purchase his freedom. "Why the devil don't you run away?" asked the Senator, adding, "I can't give money to buy slaves." The poor fellow wistfully and disappointedly, and the rest of the company, the Southern portion especially, opened their eyes.

"Here," said the Senator, calling the negro back, "here's ten dollars, take that and run away, but don't ask me for money to buy a slave."

Here you see what treasurable characters there are even in the Senate of the United States. And what is

more, they seem to be increasing. But, as Senator Wade said to Douglas, "What are you going to do about it?"

**THE SOUTHERN VIEW.**

The editor of the Jackson (Miss.) *Central Democrat* reasons himself into the belief that Slavery will ultimately be introduced into California. The Legislature, he says, passed a law, soon after the organization of the State allowing twelve months for the conveyance out of the State of slaves carried there before the adoption of the Constitution; and, no arrangements having been made for taking them out, in that time, the law was extended at the last session. Of course, he says, Slavery has existed in the new State, permanently, ever since it was settled. And now, he says, there is a great change in the Public Sentiment. Men of capital, who are springing up there, know how profitably the labor of slaves can be used in mining.

"They know how rapidly fortunes can be accumulated by the possession of slaves as a portion of their capital, and the immense advantage they will possess over those who employ white laborers, in consequence of the exorbitant price of the latter, and from these considerations will seek the possession of the whole machinery, as well as the area, for working the precious metals. There is no doubt but capitalists in California are now taking this view of the matter, and, by a combination of capital power, the object is easy of accomplishment. It is a known fact that a strong and healthy negro man can earn from fifteen hundred to two thousand dollars per annum, by working in the mines; and will not this fact, within itself, be a sufficient cause for negroes to be sent there, if only for one or two years? Negroes are now being sent daily from Virginia, North and South Carolina, and in a great many instances even from Alabama and Mississippi, where Slavery is much more profitable than in the former mentioned State. A negro population is bound to concentrate there, and the combined efforts of the Abolitionists cannot prevent it."

We call the attention of the People to the positive statement of this writer, that "negroes are now being sent daily from Virginia, North and South Carolina, and in a great many instances, even from Alabama and Mississippi," to California.

Thus, while the Slavery Extensionists are carrying on their operations everywhere, the good People of the North are meditating how most effectually to discourage Immigration, thereby reducing their political power, already so divided as to be a match for Slavery.—*National Era*.

**A WORD FITLY SPOKEN.**

We occasionally receive letters in which the writers express an intention to "stop" their country or village paper, and take one of our publications instead. We always regret to receive such intimations. We think a man ought to support his own paper first, and then if he can afford to take a paper published at a distance, let him do so, and we shall be happy to supply him with the *Life Illustrated*. The country press, in our opinion, is the most important in its effect on the enlightenment of a nation. It conveys in three thousand rills, the intelligence of the age, and from various sources of intelligence, to nearly every home in the country. The country press ought to receive a cordial support. Every place should try to have its paper of such a character that its people could be justly proud of it. To this end, let them pay promptly, advertise liberally, recommend warmly, and in every way stand up by their editor, as long as they conscientiously can.—*Life Illustrated*.

**Dedication.**

**Very Important Information.**

Dr. JONES, one of the most celebrated physicians in New-York, writes as follows: "Dr. CURTIS—Dear Sir:—Having witnessed the excellent effects of your HYGEENA on ISHALING HYGEAN VAPOR AND GIBBERY SYRUP, in a case of chronic Bronchitis, and being much in favor of counter-irritation in affections of the throat, bronchial tubes, and lungs, I can therefore cheerfully recommend your Medicated Apparatus as being the most convenient and effectual mode of applying anything of the kind I have ever seen. No doubt thousands of persons may be relieved, and many cured, by using your remedies. You are at liberty to use this in any way you may think proper. Respectfully, yours, &c., C. JOHNS, M. D., No. 609 Houston street, New-York."

Prof. S. CENTER writes as follows: "GENTLEMEN,—I have recently had occasion to test your Cherry Syrup and Hygean Vapor in the case of chronic sore throat, that had refused to yield to other forms of treatment, and the result has satisfied me, that whatever may be the composition of your preparation, it is no imposition, but an excellent remedy. I wish, for the sake of the afflicted, that it might be brought within the reach of all. Rev. Doctor CURVEY writes: NEW-YORK, Nov. 15, 1854. "Dear Sir:—I think highly of Dr. CURTIS'S Hygeana, as a remedy in diseases of the throat and lungs. Having had some opportunity to test its efficacy, I am convinced that it is a most excellent medicine, both the Syrup and the inhaling application to the chest. The Hygeana is for sale by D. W. SREXNER, Coudersport."

**THE NATIONAL ERA.**

WASHINGTON, D. C. G. BAILEY, EDITOR AND PROPRIETOR. J. G. WHITTIER, CORRESPONDING EDITOR.

The *National Era* is an uncompromising opponent of slavery and the Slave power; an advocate of personal, civil, and religious liberty, without regard to race or creed; a foe to all secret combinations to control the Ballot-Box, whether under the direction of priests or laymen; a friend of Temperance, the Homestead, and all reforms calculated to secure to Labor its just consideration, respect, and political weight, and to extend its Natural Freedom, in view of which every man has a right to buy and sell in whatever manner he pleases. It believes in the right of individual judgment in all matters, whether of religion or politics, and rejects the dogma of passive obedience and non-resistance in both Church and State; holding that no man who swears to support the Constitution of the United States can deliberately violate his own settled conviction of its meaning, and that no citizen can obey a human enactment which requires him to commit injustice, without immorality.

It regards Slavery, and the issues involved in it, as forming the great Political Question of the day; taking the ground, that Slavery, from its necessities, instincts and habits, is perpetually antagonistic to Freedom and Liberty, and that the only way to secure a permanent Democratic Republic, not having been formed with a view to the issues raised by the Slave Interest, but being held in thrall by it, so far from presenting any resistance to its exactions, afford facilities for enforcing them; and that one or both must be broken up, and the true friends of Liberty be united, without regard to old issues or prejudices, and Whig and Democrat, as a necessary preliminary to the overthrow of the Slave Power, and the establishment of a Republic.

The *National Era*, while occupying a decided position in Politics, has supplied provided in its Literary, Miscellaneous and News Department, during the session of Congress, careful abstracts of Intelligence, Domestic and Foreign, are given every week in its columns; special attention is devoted to its movements; and it has secured the services of some of the most distinguished literary writers of the country.

J. BLOOMINGDALE, Principal. The undersigned Officers and Trustees of the Coudersport Academy are moved, by a sense of official and personal duty, to call the attention of the public, and of the people of our county in particular, to the rising and useful character of this institution of learning.
