CIRCULAR TO TEACHERS.

TEACHERS' INSTITUTE.

A Teachers' Institute will be opened at Coudersport, Potter county, Pa., on Monday, April 16, 1855. The session will continue two weeks, and will embrace a series of drill exercises in the different branches of study pursued in our Common Schools, together with constant instruction in the approved modes of Teaching. It is designed that the instruction given shall be thorough and practical, and such as will be of direct and valuable service te those who propose to engage in Teaching the ensuing year.

Interspersed with the other exercises, will be frequent lectures and discussions, upon Educational topics, and especially upon the discipline and management of schools.

Arrangements have been made to secure the services of several persons of much experience, both as practical Teachers, and as Instructors in Teachers' Institutes. Among those who will lend their assistance, are Messre. C. H. ALLEN, Principal of the Smethport Academy, F. A. Allen, Superintendent of Schools in M'Kean county, J. Blooming-DALE, Principal of the Condersport Academy, and THOMAS G. SMITH, graduate of the New York State Normal School.

It is earnestly to be hoped that Teachers throughout the county will heartily second this effort to advance the cause of Education and it is confidently believed that their general attendance upon the Institute will result in much benefit to themselves, and to the schools in which they may hereafter engage. That rone may be deterred from considerations of they have been benefited) sufficient to cover the incidental expenses. Board in private families can be obtained at reduced rates. The entire expense of the session will not number in attendance is considerable, the made as far as possible, to give time, if desired, for the payment of the bill. It is suggested to Teachers that a slight advance upon the ordinary wages would soon remunerate them for the expense incurred, while the advantage will be lasting.

To Those who wish to attend, will please communicate personally or by letter, as soon 20 convenient, with the undersigned, who will be happy to make any arrangements on their behalf that may be desired.

Ter Teachers who may attend the Institute, are requested to bring with them a sett of the text-books used in our schools, and as far as possible the different varieties in the several

Teachers from adjoining counties will be admitted to the Institute, on the same terms

to all secret combinations to control the Darlot-Box, whether under the direction of
priests or laymen: a friend of Temperance,
the Homestead, and all reforms calculated to secure to Labor its just consideration, recompense, and political weight, and to Trade, its Natural Freedom, in virtue of which every man has a right to buy and sell in whatever market he pleases. It believes, in the right of individual judgment in all matters, whether of religion or posities, and rejects the dogma of passive obedience and non-resistance in both Church and State; holding that no man who suggests the formula in the formulation of who swears to support the Constitution of the United States can deliberately violate his own sealed conviction of its meaning, with-out incurring the guilt of perjury, and that no citizen can obev a human enac ment which requires him to commit injustice, without

immorality.
It regards Slavery, and the issues involved in it, as forming the great Policical Question of the day; taking the ground, that slavery, from its necessities, instincts and habits, is perpetually an agonistic to Ercedom and Free Labor, and unchangably aggressive; that its workings can be counteracted only by a permanent system of measures; that the Whig and Democratic Parties, not having been formed with a view to the issues raised by the Slave Interest, but being held in thrall by it, so far from presenting any resistance to its exactions, atlord facilities for enforcing them; and that one or both must be broken up, and the true friends of Liberty be united, without regard to old issues or prejudices, on without regard to old issues or prejudices, on a Party of Freedom, as a necessary prelim-inary to the overthrow of the Slave Power, It therefore gives its carnest support to the Republican Movement, so far as its policy 211 63 has yet been developed—a movement which

promises to effect such a union.
