PUTTER COUNTY.

This county, through the firmness of Judge White, seconded we doubt not by the citizens, is fast working out the demonstration that the sale of liquors by the small in public houses is not necessary to their respectability or maintenance. This gentleman laid down the doctrine in 1852, that the Court had a discretion in the matter of licensing, so far as to refuse the granting of any to sell liquor, and that such a license could not be claimed as a right. Acting upon this doctrine no licenses of such a character have been granted for more than three years, and recent intelligence has come to hand by which we learn that the county has had better houses since 1852 than ever before. Here is practical evidence. Should the people of Chester county, have misgivings as to the working of prohibition, we hope they will have patience; and should any be disposed to prophecy evil things of it let them wait until thorough experian party to interpose, for ence and time shall have filled up the of giving peace to the gaping voids that appear so largely to their view in the breaking down of a long established system. Time will heal all griefs, even the thirst and longings for rum. Taverns with rum have given us a long and bitter experience. Their fruits are well known, we need not pretend to enumerate them. We have in operation the expeace to abide by and main- periment, in our own county, of Taverns without rum. A few years will present the contrast sufficiently clear to the public view. Should that contrast be unfavorable to temperance nothing is more easy than a return to the ancient regime. It is easier to slide back to error than to make sacrifices and practice self denial for the truth's sake-easier to learn forty oaths than one prayer. We feel no wer under the constitution to apprehension of the eventual triumph of temperance, despite evil forebodings, self interest, or the strong demands of appetite. We are proud to hail the white flag of Potter county and of good old Chester. Such men as Rob't G. White and Townsend Haines stand as the bulwark of those great principles which mark the enlightenment of this age, and which are destined yet to develop the highest moral and intellectual energies of the nation .- West Chester Herald.

Higher Law Doctrine in Virginia.

It is stated that U. S. Senator Hunter, of Virginia, in a recent stump speech at Petersburg, declared that "All Christian Churches and individuals believe that the allegiance which they owe to God is higher than any obligations to man, and that in a conflict between kuman and divine laws, you must serve God rather than man."

This is the same higher law doctrine that Mr. Seward avowed in his speech in the U.S. Senate. It seems to be getting popular South.

GRAPES IN CONSUMPTION.—The use of grapes as an article of food is much reccommended in eases of consumption. They contain a large quantity of grape sugar, the kind which most nearly resembles milk sugar in its character and composition; which also is very useful for consumptives, it having a great attraction for oxygen, and therefore, readily affording materials for respiration.

Very Important Information.

No doubt thousands of persons may be relieved, and many cured, by using your remedies. You are at liberty to use this in any way

you may think proper. Respectfully, yours, &c., C. JOHNS, M. D., No. 609 Houston street, New-York.

Prof. S. CENTER writes as follows: GENTLEMEN,—I have recently had occasion to test your Cherry Syrup and Hygean Vapor in the case of chronic sore throat, that had refused to yield to other forms of treatment, and the result has satisfied me, that, whatever may be the composition of your preparation, it is no imposition, but an excellent remedy. I wish, for the sake of the ufflicted, that it might be brought within the reach of all.

Rev. Doctor Cheever writes:

New York, Nov. 15, 1854.

Dear Sir:—I think highly of Dr. Curtis's Hygeana, as a remedy in diseases of the throat and lungs.
