Notes of Schools.

No. 51. This school I should have noticed before, as one in which I saw exemplified the good effects of mildness and patience in subduing turbulent scholars. This school was kept open only five days in a week. I entirely agree with the State Superintendent, that with a good teacher, (as was the case above,) and close application, it is better to have no school on Saturday. It affords a rest and recreation, to both teacher and pupils, and more will be learned than by the other plan. On Wednesday afternoon it is an excellent custom to omit the regular exercises, and have declamations and compositions. These are eminently useful as aids to good elocution and practical grammar. The teacher may add interest to the occasion, by performing a few simple experiments in Natural Philosophy, and by the exhibition of natural objects, and familiar remarks upon them. I knew a teacher who kept a whole school and a whole district interested for weeks, in the operations of a large worm, which came out at last a large butterfly. Indeed the teacher should have something new to tell the pupils every day, and take a few minutes for that purpose, whenever attention lags. This implies of course that the teacher has some knowledge and activity of mind, beyond the mere ability to read mechanically, and to hear lessons, and "work sums" in the same way. One such teacher is worth a dozen who do *not teach*, but merely keep school. This is illustrated in school.

No. 52. This school was taught last winter, by an uncommonly well qualified male teacher, who was continued in employment for a season, by private subscription; and the improvement thus began, has been going on the past summer, under another good teacher. In such schools, where they had made it a point to have good teachers, I find intellectual activity, pupils in Algebra, Natural Philosophy &c,

By the way, the types some weeks since made me say, that in a certain town where I found an unusual number of pupils in Mental Arithmetic "Algebra is no more studied than in other towns." The types of course should have said "more studied." I have uniformly found that the best and most advanced schools, are those in which Mental Arithmetic has been most studied.

No's. 53 & 54. Of one of these schools complaint was made, that the teacher did not "keep her hours;" and of the other, that she "let the children go out too much." The complaints might have been well founded; but the impression seems to prevail with many parents, that the principal business of a teacher is to keep the children rigidly confined, six hours in each day, to a hard bench, except when called to read, or permitted to have a short recess. Now this monotonous confinement, is for little children, injurious to health, to temper and to mental activity. Many children acquire an invincible repugnance to school on this account. Frequent change of posture, more frequent recess than is usual, and suitable expedients to prevent listlessness and drowsiness in school, are essential for the younger pupils. Older pupils can bare more confinement.

No. 55. I regretted very much that this school happened to be closed for a short vacation; but I heard *excellent* accounts of it in the neighborhood. The teacher had received one of the professional certificates issued a year ago, before the Department adopted provisional certificates; but though as well entitled as almost any one to retain this certificate, she had voluntarily expressed her desire to return it, and receive one that should describe her qualifications. This is the right spirit. In some other cases however, teachers have manifested dissatisfaction with their certificates; thinking I suppose that they were better judges of their qualifications than anybody else could be. Of course then they should examine themselves, and make out their own certificates.

Yours, &c., P.

FOURTEEN years ago, a gentleman now residing in Pittsburg, stamped his name upon a piece of the silver coin commonly known as a "levy." Lately he received it by letter from his brother in Iowa, who had received it there. The history of that shilling would be curious. Who can imagine its various adventures?

The subscriber takes this occasion to express his thanks to the people of Potter and of other sections for their liberal support during the past year, and to assure them that no pains will be spared in the future that may be required to make this school an institution worthy of the entire confidence and support of all who desire a sound rudimental as well as a thorough mathematical and classical education.

J. BLOOMINGDALE, Principal.

The undersigned Officers and Trustees of the Coudersport Academy are moved by a sense of official and personal duty, to call the attention of the public, and of the people of our county in particular, to the rising and useful character of this institution of learning.

When we invited the present worthy Principal to the post he occupies, we found the Academy depressed and decaying. We submitted its organization and other more serious affairs to his discretion and management; and our experience enables us with increased confidence to assure parents and guardians that he has proved faithful, efficient, and practical—just such an instructor as this community needs.

War Declared at Last.

THE long repose of Europe is about to be disturbed by the bugle's note and the rattle of the drum, calling its slumbering millions to arms in the defense of their firesides and their country. England and France are calling for men and means, and rushing forward their armies to battle against the aggressions of the Russian Bear; but while the Old World is convulsed by revolution, unusual peace and plenty reign in the New.

In the peaceful and quiet pursuit of our business we have formed a copartnership under the name and style of N. S. BUTLER & CO., and have taken the store in Empire Block, in the village of Olean, formerly occupied by Thing & Brother, and are now receiving a splendid new stock of goods adapted to the season and wants of the community, which we intend to sell exclusively for cash down, at prices that will cause consternation and dismay in the ranks of old fogyism that has been so long established in this section.

Our stock will consist in part of the following Goods:

Hardware,	Crockery,	Boots & Shoes,
Hats,	Caps,	Carpets,
Oil Cloths,	Drugs,	Medicines,
Dye Stuffs,	Glass,	Paints & Oils,
Sash,	Putty,	Chairs,
Bedsteads,	Mattrasses,	Feathers

Stone and Wooden Ware,

And we mean to keep such an assortment of the above goods that persons from a distance can be assured of finding everything they usually want at prices that will do them good Call and see for yourselves.

HYGEANA.

Brought Home to the Door of the Million.

A WONDERFUL DISCOVERY has recently been made by Dr. Curtis, of this city, in the treatment of Consumption, Asthma, and all diseases of the Lung. We refer to "Dr. Curtis' Hygeana, or Inhaling Hygean Vapor and Cherry Syrup." With this new method Dr. C. has restored many afflicted ones to perfect health; as an evidence of which he has innumerable certificates. Speaking of the treatment a physician says: It is evident that inhaling—constantly breathing an agreeable, healing vapor, the medicinal properties must come in direct contact with the whole of the airy cavity of the lungs, and thus escape the many and varied changes produced upon them when introduced into the stomach, and subjected to the process of digestion. The Hygeana is for sale at the druggists' through out the country.

N. Y. Dutchman, Jan. 14.

The Inhaler is worn on the breast under the linen without the least inconvenience—the heat of the body being sufficient to evaporate the fluid.

Hundreds of cases of cures like the following might be named. One package of the Hygeana has cured me of the Asthma of six years standing.

Jas. F. Keesberry, P. M., Duncannon, Pa.

Pain cured of the Asthma of 10 years standing by Dr. Curtis' Hygeana.

Margaret Eastman, Brooklyn, N. Y.

Mrs. Pain of No. 5 Mammond st., N. Y., was cured of a severe case of Bronchitis by the Hygeana.

My sister had been cured of a distressing cough of several years standing, and decided to be incurable by her physicians. She was cured in one month by the Hygeana.

TO OFFICERS, SOLDIERS,

SEAMEN, &c., OF ALL WARS: THEIR WIDOWS, AND MINOR CHILDREN.

S. M. KNIGHT, Attorney for Government Claimants, Washington, D. C.,

CONTINUES to give prompt and personal attention to the prosecution of Claims of every description against the Government, and particularly to those before the Treasury Department, Pension and Bounty-Land Bureaus, Patent and General Land Offices, and Board of Claims.

An experience of years, and a familiarity with the means of obtaining the *earliest* and most favorable action on Claims, with his facilities for the dispatch of business, justify him in assuring his Correspondents, Claimants, and the Public generally, that interests intrusted to his keeping will not be neglected.

PENSION, BOUNTY LAND, PATENT, AND PUBLIC LAND LAWS.

He has nearly ready, for gratuitous distribution among his business Correspondents, (and those who may become such,) a neat pamphlet containing a synopsis of the existing Pension, Bounty Land, Patent, and Public Land Laws, down to the end of the late Congress—including the

BOUNTY-LAND ACT OF MARCH 3, 1855,

under which all who have heretofore received less than 160 acres are now entitled to additional land; said Act grants also 160 acres to all Officers, Non-commissioned Officers, Chaplains, Soldiers, Wagon Masters, Teamsters, and friendly Indians, of the Army, including State Troops, Volunteers, and Militia—and all Officers, Seamen, Ordinary Seamen, Marines, Clerks, and Landsmen, of the Navy, not heretofore provided for, who have served not less than fourteen days (unless in battle) at any period since 1776; and to the widows and minor children of all such persons entitled, and deceased.

This pamphlet contains "Forms of Application" more full and complete than any elsewhere to be found; adapted to the wants of every class of Claimants under the Act, with copious decisions and instructions of the Department, and practical suggestions as to the course to be pursued in suspended or rejected cases.

Parties not wishing to avail themselves of the facilities afforded by this Office in securing *prompt and personal superintendence* of their claims at the Departments, can obtain copies of the above pamphlet by remitting thirty cents in postage stamps.

INDUCEMENTS TO CORRESPONDENTS.

Correspondents who prepare and forward cases for management by this Agency will be dealt with liberally; supplied with all necessary blanks *gratis*, and kept constantly advised of the changes that from time to time occur in the execution of the laws.

It is within the subscriber's power to direct his Correspondents to the locality of very many persons entitled under the Act; and having obtained several thousand Land Warrants under former laws, he is in possession of data that will materially assist in securing additional bounty.

Fees, below the usual rates—and contingent upon the admission of Claims.

The highest cash prices given for Land Warrants, Revolutionary Scrip, and Illinois Land Patents.

Tin and Hardware.

THE undersigned has connected with his Tin, Sheet Iron, Copper, and Stove Business, that of HARDWARE and CUTLERY—so that in addition to the business heretofore conducted by him, he is now ready to supply the public with almost every variety of Hardware. Mill and Cross-Cut Saws, Hoop Iron, Nails, Cable and Ox Chains, Carpenters' Adzes and Broadaxes, Manilla Rope for Cables. A general assortment of Cutlery, Japanned Ware, Toys of every description; and in short, he designs to keep all such things as the public wants in his line, which he will sell, not for less than cost, but for a VERY SMALL profit indeed, and hopes by a strict attention to his business to receive a liberal share of public patronage.

All kinds of Produce taken in exchange for Goods, at the highest market prices; also, $20 per ton paid for old iron.

Premium Fanning Mills.

Important to Farmers and Mechanics.

THE subscriber has purchased of J. Bamberger the right to use in Potter and M'Kean counties his patent in the construction of Fanning Mills. He has also, at great expense, commenced the manufacture of a PREMIUM MILL which will clean from 100 to 200 bushels per hour. This Mill was patented March 20, 1847, since which time it has stood at the head of the list at all the State and county agricultural societies where it has been exhibited, and is a universal favorite with all farmers who have tried it. It took the premium at the first Agricultural Fair held at Harrisburg, Oct. 31st, 1851, when there were 30,000 people present; and at the great State Agricultural Fair at New-York, held at Rochester Sept. 16-19, 1851, this Fanning Mill received the highest honors.

Having met with uniform success wherever tried, I confidently invite the farmers of Potter and M'Kean counties to call at my shop in Coudersport and examine for themselves.

A supply always on hand, to be sold on reasonable terms.

6-37tf JOHN RECKHOW.

THE subscriber hereby gives notice to the public that having given PETER SHUTTS his note for eighty dollars, bearing date near the last of March, 1854, payable September 1856, and having never received any value therefor, he will refuse to pay the same; therefore he warns any person from buying the said note with and expectation of his paying it.
