GEN. CAMERON ELECTED!

We last week announced that the friends of Gen. Ca ueron were sanguine of his election, strictly on the ground that Forney was his competitor. Backed as the latter was by the written preference of the new President, and with all the patronage of air incoming Administration to bear upon the contest, it was even deemed preposterous to think of his defeat, by many whose souls were not adequate to their de-"Dourest father and mother, do not sires. But For ney, the agent of Mr. Buchanan, and one who labored most sedulously for his election in the late campaign, was fairly brought upon the track as the nominee of the great Democratic party that had just won a fresh victory in the Union, and has been defeated. The Senatorial Election of Pennsylvania was widely and carefully speculated upon by politicians throughout the Union, for upon it depended most significantly the prestige of the new President. But Penn-ylvania rejects the dictatorial assumptions of the first of its sous who has been called to the Executive chair of the Union. Simon Cameron, one of Mr. Buchanan's

most uncompromising political enemies is the victor, and that too in the name and for the benefit of the Friend of Freedum,

The question may be asked, how was the Democratic party defeated in the Legislature with a majority of five on joint ballot. The vote, with a little explanation will show clearly. It is thu:

## Cameron..... 67 Forney ..... 58 Foster Wilkins..... 1 - 133 Total

Early after the State Election we told our readers that though Mr. Camer in was not our choice, we believed him to be the most available candidate who could be presented by the Republican party. He was the only man in our ranks who could command any of the Democratic votes at all, and might doubtless get enough to overthrow their small majority. Contrary itself split upon the rock of ambition-Mr. Foster, a much mire talented and Meanwhile the Republican move- honorable man than Forney, relused their votes in the only ballot given. State. ## Close Figuring.

It is amusing to see our hunker friends squirm and kick at everything about them. They cau't even state the result of the election in this State with correctness. The Warren Ledger tries to decuive its readers with such loose statements as the following : "From the returns of this state received so far; we believe Fremont is in a minurity in Pennsylvania of nearly 200.000 and his minority may be still greater. Abolitionism and sectionalism are at a low discount in Pennsylvauia, and her vote clearly shows that Fremont has not received a majority of the votes polled in the non-slaveholdig States.

Now, as the official vote of the State had been published long before this paragraph appeared, there is no excuse for its falseness. Fromont received in this State, 147,000 votes, Buchanan 230,710, and Fillmore \$2.175-so that adding the Fillmore and Buchanan vote togethe, it does not leave Fremont in a minority of nearly 200.000, but only of 145.375. Apply the same rule to Buchanan-add the Fillmore and Fremont vote together, and Buchanan is in a minority, not only in the free States, but in the Nation. He is nothing but a minurity sectional President. The vote just taken at Harrisburg for Senator, shows him to he in a minority even in this State ; so we out delay leave the house. may conclude, in the language of the Ledger, that Buchanan and pro-slaveryism are at a low discount in Pennsylvania.

Figure again, Mr. Ledger.

## Foot Prints of the Trafic.

On Tuesday, of this week, a M Brown, of Bradford Township, was found dead, with his head lying in a stream of water near the road, face downward. Ho had evidently expired from drowning. A few hours before he left one of the places where this accursed stuff is legally dealt out, drank. Of course no one was to blame. He was killed under the authority of law. Themistake wasin having streams of parecedd water namog freely along, public nighways; for any save mun knows, that when a man is dounk, and falls y the wayside, if there be water or him to fall into, he must needs drown. To remody this defect, laws ought to be passed, strictly prohibitingwater from running along highways.

The law ought to go still further and prohibit praceable men and Indians passing along the highway when men are drunk. Then there would be no disturbances of the peace-no pounding of men and destroying of property. It would save our country large Free-State prisoners, for Sonator bills of costs for prosecutions. We Summer. The cane was wrought by would call the attention of our legislature to this much needed reform. During the past year that we have been living under the liceuse system, we have been reaping many of its beautiful results. Look at the amount of expenses thrown upon this county in cases of assault and battery, the direct results of the sale and use of liquors during the past few months! What say you tax-payers, will the licensing of taverns pay in our county ? - While we had no licenses our jail was touantless for months and months. Now it has from one to three in it the most of the time since licenses were granted. We ask all candid men to contrast the state of things now and two years since. Grog Shops.

Thanks to the ladies of Lawrence, which have wice cleared the city of gnig shops. Temperance, more than anything else, bas been a means of our prosperity. Whoever brings liquor here to sell, in small or large quantities, is looked upon as an enemy to the city-an enemy to the publicyand as an enemy to God. No greater, crime can be committed, in our estimation, than to sell whisky to poor, deluded, or besoited men. TA man is ruined, who is made a drupkasd, He is worse than dead. He lis dead to, morality and virtue, and to all the higher elements of his nature:

Drunkenness never stands alone. It. is one of a cluster of crimes. It is most generally accompanied by biasphemy, gambling, licentiousness, uoise, brutality, and a reckless disregard to the opinions, wishes, and comforts of others. It is wholly and entirely selfish, and dead alike to honor and merality. Any man who aids to make drunkard, hy selling liquor to them, or to sober men, who are going the same road by drinking drams, should be looked upon as a thief of character, a robber of virtue, and, last of all, a destroyer of life. All that is noble in man, he crushes to dust. All that is emerprising in communities, he destroys; and communities are called upon' to protect themselves, their young men and their fathers, by abating every nuisance of the kind.

The protest will probably be allowed a place in the Journal of the House, but cannot be so fortunate in the Senate. The protest is grounded on the neglect of the Senate to appoint a teller for the joint convention on the day preceding its session, which is argued to be the requirement of the law. The teller of the Senate was appointed on the same day with the balloting.
