AYER'S PILLS

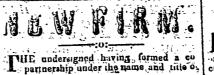

AYER'S PILLS, NEW and singularly successful remedy for the exter of all Billous diseases - Costiveness, Indi-cestion, Jaundice, Dropsy, Rheumatism, Ferers, Gont, Humors, Nerroamess, Irritability, Inflamma-tions, Hendache, Pains in the Breast, Side, Back, and Einebs, Female Complaints, &c., &c. Indeed, very few are the diseases in which a Purgative Medi-cine is not more or less required, and much sick-ness and suffering might be prevented, if a harm less but effectual Cothartie were more freely used. No person can feel well while a costive habit of body prevails; besides it soon generates serious and often fittal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feveri-b symptoms, and Billous derangements. They all tend to become or produce the deep scated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Profes-sors, and Patients, has shown results surpassing any thing hitherto known of any medicine. Cures have been effected beyond belief, were they not sub-stantiated by persons of such exalted position and character as to forbid the suspicion of untruth. Among the many eminent gentlemen who have testified in favor of these Pills, we may mention : D. A. HAYES, Analytical Chemist, of Boston, and State Assayer of Massachusetts, whose high professional character is endorsed by the Hos. EnwAND EVENET, Senator of the U. S. Roberner C. WINTHROP, Ex-Speaker of the House of Representatives. Amont Lewnex Merker, Minister Plan, to Encland.

About I and the second second

Also, DR. J. R. CHILTON, Practical Chemist, of New York City, endorsed by HON. W. L. MARCY, Scretary of State. WM, B. ASTOR, the richest man in America. S. LELAND & CO., Propr's of the Metropolitan Hotel, and others. Did space permit, we could give many hundred cortificates, from all parts where the Fills have been used, but evidence even more convincing than the experience of eminent public men is found in their effects upon trial. These Fills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of These Tails, the result of nong investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by ohenical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effects should prove as they have proved more purely remedial, and the Pills a surer, more powerful antidote to disease than any other medicine, known to the world.
As it is frequently expedient that my medicine should be taken under the counsel of an altending Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate Fornule by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and Entish American Frovinces. If however there should be any one who has not received them, they will be promptly forwarded by mail to his address.
Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists in their mystery. I have no mysteries.

mysteries. The composition of my preparations is kild open The composition of my preparations is hid open to all men, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many em-inent Physicians have declared the same thing of my Pills, and even more confidently, and are will-ing to certify that their anticipations were more than realized by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action — reniove the obstructions of, the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derange-

body, restoring their irregular action to health, and by correcting, wherever they exist, such derange-ments as are the first origin of disease.
