The Agricultural Society of this County, at its meeting held in December, adjourned to February court week, when it proposed to take measures preparatory to holding a fair next fall.

We hope this programme will be carried out; that the meeting court week will be largely attended, and everything put in proper working order to accomplish the result aimed at.

Our County has extensive agricultural resources which are becoming every year more and more developed; but drifting along as we have done, without a working agricultural organization, and without county fairs, the outside world does not know what it is accomplishing, what its resources are, nor what it is capable of. The best advertisement that can possibly be published for the benefit of the County, is the holding of such a fair as its farmers can easily get up. Advertising is the life of business, and advertising of this kind would certainly be the life of Potter County.

Hon. C. S. Jones was in town over Sunday. He came Saturday night and returned to Harrisburg Monday morning.

Coudersport has got a Billiard Saloon. It is located over Rees' jewelry store in the Dike building, and is kept by Mr. David Ingraham.

The snow on the "Hog Back" between here and Kettle Creek has been full four feet deep the present winter, and is now over three feet in depth.

Last Monday a man whose name we did not learn, working for Fish & Underhill on a lumber job near the Joerg farm on Kettle Creek, met with a serious accident. He was trailing logs when a tug broke, letting the whiffletree fly back, which struck him in the breast, breaking one rib and injuring him internally in a serious manner.

The donation at Colesburg last Monday evening for Rev. O. M. Leggett produced substantial results to the amount of fifty-nine dollars.

We take the following statement from the Williamsport *Sun*. Our readers will see from it what are the prospects of the lumbering region of Pennsylvania.

The distruction of the forests in Pennsylvania has gone on so rapidly of late years as to excite serious apprehensions of a failure of the supply. The matter has become so serious that the heaviest lumbermen in Northwestern Pennsylvania have united in a circular, which they have sent to lumber dealers and consumers through the State, calling attention to the critical condition of the lumber interests. It appears from this that the amount of pine lumber annually cut on the Susquehanna river and its tributaries exceed 500,000,000 feet. Should this amount be cut for the next five years, it would amount to 2,000,000,000 feet. A careful estimate has been made of the area of the timber lands, and the average yield of lumber per acre, and the alarming conclusion is reached that three years stocking at the present rate of 500,000,000 feet per year would entirely exhaust all the pine lumber now standing. These statements are made after very careful estimates, and with emphatic endorsement on the part of the most experienced lumberers in the State.

The first part of last week Zeke Edgecomb, who was working on one of the lumber jobs on Kettle Creek, was going down a log slide in company with another man when a descending log bounded from the slide just at the right point for striking him broke both his legs. He was taken to North Point, where the broken limbs were set and his condition rendered as comfortable as possible.

Under ordinary circumstances the above paragraph would close our account of this accident, but there is another part to the story which proves that misfortunes sometimes bring blessings with them.

When Mr. Edgecomb arrived at North Point a young lady living in the place, and to whom it seems he was engaged to be married, hastened to see him, and in order that she might remain and attend to his wants a clergyman was called in and the knot matrimonial was tied while the injured man lay flat on back in bed. [Right here we might appropriately quote a little of Scott's poetry, but as the words don't just occur to us we forbear.]

We are happy to be able to state that Mr. Edgecomb is doing well, with every prospect of retaining both of his legs.

The man who was in company with him at the time of the accident also received some quite serious injuries.

The local elections were held in Tioga county on Friday, the 24th of January. The county gave a majority of 861 against license. Thus the good work goes on; wherever the people have had a chance to vote on this subject they have closed up the rum shops.

The whiskey interest throughout the State is said to be making a desperate effort to have the Local Option law repealed, and are raising large sums of money for that purpose, but the Legislature will hardly be induced to meddle with it in face of the decided expressions of the people at the ballot box.

James G. Clark was last week holding concerts through Tioga county. We would like to see him get around to Coudersport. His singing is something to enjoy, and to remember.

In our notice of the Buffalo *Express* last week we stated that the price was eight dollars a year. That is the price at which it is furnished to city subscribers by carriers. It is sent by mail for six dollars a year.

Mark Twain hits off one of the *peculiarities* of a certain class of society. He has written a lecture on his rights to the vacant throne of the Sandwich Islands, in which he bases his claims on the fact that he has no other means of support.

The boys will appreciate this from a Williamsport paper:

A SNOW PALACE.—Two enterprising and ambitious youths of our city have just completed the building and architecture of an immense structure of snow, to which they have given the title of "Temple of Snow," dedicated sister to the famous "Palace of Ice," built by Queen Anne of Russia during her reign from 1730 to 1740. Some idea of the size of this edifice may be formed by giving the following dimentions: Circumference at base 50 feet; at top 20 feet; altitude 10 feet; an excavation forming a room 7 by 12, and 8 feet high, has been made in this huge snow pile, which is handsomely fitted up for the reception and entertainment of guests, with strict rules and regulations for the welfare of the structure. It will no doubt stand many months a monument to the assiduous labors of the youthful architects and builders.

New-County-isms.—The new county, when the little thing finally draws breath, is to be christened Highland county. It is a very nice name, and when conferred we suggest there shall be no wrangling among the godfathers.

One of the Westfield Highlangers gives as a reason for the plan, that the people of that village feel bad because Wellsboro has got a railroad and they haven't. They propose to console themselves by the erection of county buildings.

How about the new county seat, anyway? There seems to be some uncertainty and a little bad blood on that subject. Pity there couldn't be a half-dozen of them.

"Probabilities," under date of Feb. 4th, predict for the Middle States fresh southerly to westerly winds, cloudy weather and rain.

At a recent meeting of the Elmira Farmers' Club, under the subject of sheep raising, one of the members talked about dogs and dog owners in this way:

Mr. Howell declared that while striving to do his duty as an Assessor he had positive proof that men whom he had deemed true would lie about the possession of a dog. He had asked such men, "Do you own a dog?" and in spite of the negative reply his own eyes had given him positive proof that dogs claimed the spot as home.

Queer men—those of Elmira!

A Beautiful Handwriting.

There are but few of our readers who would not like to acquire a rapid and beautiful handwriting, for there is no one accomplishment so highly prized as this. The business colleges of the country have afforded the best instruction in this branch and have succeeded in producing the most accomplished penman. The best penman in America to-day is Prof. GASKELL, Pres't of the Bryant & Stratton College of Manchester, N. H.

There are few lovers of the beautiful art of penmanship who have not heard of this wonderful penman and many have seen specimens of his skill. His large specimens have attracted great attention in New York City and throughout the country where they have been placed on exhibition.

He is now engaged day and night sending out Copies for self-instruction, which he writes himself expressly for adplicants, so that any one can learn to write at the home fireside. These contain full printed instructions, and are put up in large heavy envelopes and sent by mail prepaid for $1.00 per package. They are all numbered and so fully explained that no one can fail to learn rapidly from them. They have been ordered by thousands—not by poor writers alone, but by the leading teachers of penmanship throughout the United States and Canada. Our readers would do well to write for a package, as nothing so complete, beautiful and useful for self-instruction will ever again be offered them.

TOWNSHIP and School Treasurers having demands against the late County Treasurer can have their accounts settled by calling on Dan Baker, Esq., at the Recorder's Office, Coudersport, Pa. A. L. HARVEY, *Co. Treas.*

WISHART'S PINE TREE Tar Cordial,

NATURE'S GREAT REMEDY

FOR THE

Throat and Lungs.

It is gratifying to us to inform the public that Dr. L. Q. C. Wishart's Pine Tree Tar Cordial, for Throat and Lung diseases, has gained an enviable reputation from the Atlantic to the Pacific coast, and from thence to some of the first families of Europe, not through the press alone, but by persons throughout the States actually benefitted and cured at his office. While he publishes less, so say our reporters, he is unable to supply the demand. It gains and holds its reputation—

First: Not by stopping cough, but by loosening and assisting nature to throw off the unhealthy matter collected about the throat and bronchial tubes, which causes irritation.

Second: It removes the cause of irritation, (which produces cough), of the mucous membrane and bronchial tubes, assists the lungs to act and throw off the unhealthy secretions, and purifies the blood.

Third: It is free from squills, lobelia, ipecac and opium, of which most throat and lung remedies are composed, which allay cough only, and disorganize the stomach. It has a soothing effect on the stomach, acts on the liver and kidneys, and lymphatic and nervous regions, thus reaching to every part of the system, and in its invigorating and purifying effects it has gained a reputation which it must hold above all others in the market.
