An Act of Cruelty.—Chapped hands and face are the most serious annovances that farmers and people who labor much out of doors experience from exposure. Exposed persons, especially children, repeatedly suffer intensely from great cracks in the hands that often bleed. It is cruel to allow one's self or otoers to suffer in this way when the means of positive prevention are so easy to be had, and so cheaply, as to pay ten cents for a cake of Hand Sapollo. Hand Sapollo is not only better than the costliest soap for removing dirt but it prevents chapping and renders the skin soft and pliable. Sold everywhere. 50-2
