Cherry Pectoral. For Diseases of the Throat and Lungs, such as

Coughs, Colds, Whooping Cough,

Bronchitis, Asthma and

Consumption.

Among the great discoveries of modern science, few are of more real value to mankind than this effective remedy for all diseases of the throat and lungs. A vast trial of its virtues, throughout this and other countries, has shown that it does surely and effectually control them. The testimony of our best citizens of all classes establishes the fact that Cherry Pectoral will and does relieve and cure the afflicting disorders of the throat and lungs beyond any other medicine. The most dangerous affections of the pulmonary organs yield to its power, and cases of consumption cured by this preparation are publicly known, so remarkable as hardly to be believed were they not proven beyond dispute. As a remedy it is adequate, on which the public may rely for full protection. By curing coughs, the forerunners of more serious disease, it saves unnumbered lives and an amount of suffering not to be computed. It challenges trial and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attacks of pulmonary affections, which are easily met at first but which become incurable and too often fatal if neglected. Tender lungs need this defence; and it is univelse to be without it. As a safeguard to children, and the distressing diseases which beset the throat and cneed of childhood, Cherry Pectoral is invaluable for by its timely use multitudes are rescued from premature graves and saved to the love and affections. Consumption. restoring sleep. No one will suffer troublesome induenza and painful broncititis, when they know how easily they can be cured.

Originally the product of long, laborious and successful chemical investigation, no cost or toll is spared in making every bottle in the utmost possible aerfection. It may confidently be relied upon as possessing all the virtues it has ever exhibited and capable of producing cures as memorable as the greatest it has ever effected.
