wished it, Mr. Gibson would enable him to throw off the Dutch yoke; that there TARE NOTICE, MEN. WOMEN AND CHILDREN was a large fleet of American vessels of war, who would assist the Flirt against the Dutch. The mate travelled in a native dress to avoid suspicion, and when captured the letter alluded to was found concealed and are prepared to astonish the natives at in one of his stockings. The matter had caused much exitement in Batavia, as the accused parties are to be tried for treasona ble designs against the Dutch government.

was kept a close prisoner, but released by the court, on the ground that the affair appeared to be no more than a foolsh escapade. On the same day the procurer general had Mr. Gibson and crew imprisoned, and at the last account they were incarcerated, awaiting trial bosore the supreme court. Mr. Gibson had addressed a letter to the American commodore, begging his interference and protection.

The Specie Movement.

The amount of gold deposited in the United States Mint during the month of April has been \$3,070,000, The official statement will vary but little from this shipments of specie from this country to Europe have been only \$8,000, while the Lewistown May 23, 1853.

Lewistown May 23, 1853. receipts of coin from abroad have amounted to probably a couple of hundred thousand dollars. It will be remembered that on
the 1st insta we estimated the excess of
our recents receipts of gold over our exports at about \$6,800,000. If we add to this the result of the April movement of specie, we shall have a total excessor \$10,070,000. The flow of specie from Europe
is just setting in, and coming with the increased receipts anticipated after the close of the rainy season in California, we shall probably soon have a greater amount of the precious metals in the country than was ever before known.

UND SEUM California, we shall Emberaces everything that belongs to the Bardware. Conchivate and Paddlery trade, which is always large and bright from first hands, which can bledge to sell to country dealers any goods they may want on as faborable term as they can parechase to Philadelphia. F. G. FRANCISCUS. Lewistown, May 80, 1852. was ever before known.

o'clock yesterday morning, Mr. John F. Burns, a grocer residing at No. 55 Ross street, corner of St. Mary's died from poison communicated to his system by a dis-HORRIBLE DEATH. Between 7 and 8 eased horse. About two weeks since, it appears that the deceased had a horse afficted with glanders, and during an administration of medicine, thrust in the animal's mouth his hand, the middle finger of which had been previously cut and the nessi inia open. Through this wound the poisonous virus was absorbed and mortification having supervened, Professor Smith, a day or two since was called on to amputate the diseased member. Perceiving, however, says the Argue that the relation of the shape of electing offices to conduct the shall be shall be say for the ensuing sear.

It or let of JUNE, there is the bound of the shall be shall be shall be say for the ensuing sear.

THE COMMISSIONERS. however, says the Argus, that the poison had penetrated to every portion of the unfortunate man's system, the Professor declined performing the operation, and stated that no earthly skill could save his life .-After lingoring in great agony, death kindly closed the scone of suffering. Baltimore Sun.

MARRIED-On the 8th April, by the Mrs. Frances Ann McKisick, both of Clearfield county.

raham Crowl, to Miss Mary Kephart, all of Clearfield county.

Stomach. DIGESTION.

DIGESTION is chiefly performed in the stomach by the aid of a fluid which freely excuses from the inner coat of that or gan, when in a state of health, called the Gastrio Juico. This Find is the Great Solvent of the Vood, the Parifyles, Pieserving, and Stimulating Agent of the Stomach and intestines. Without it there will be no digettion,—no conversion of Pood into Blood and no nutritice of the body; but rather a four toroid, painful, and desirective conditionof the whole digettive appurature. A weak half used, or injured stomach produces no good Gastriu Jaico, and heat, ethe discase, distress and debility which ensue.

DEPOSENT AND RENNET. DIGESTION.

ease, distress and debility which ease, and beale the dispepsin and continued to the continued to the Gastric Juice. It is found in great abundance in the solid parts of the human stomech after death, and sometimes all of the Gastric Juice. It is found in great abundance in the solid parts of the human stomech after death, and sometimes of the contest the atomach of animals, as the ox, calf, &c. It is found in the stomach of animals, as the ox, calf, &c. It is found in the stomach of animals, as the ox, calf, &c. It is found in the stomach of a mind the material used by farmers un masing cheese, called Remet, the material used by farmers un masing cheese, called Remet, the material used by farmers un masing cheese, called Remet, the material of the distriction of the mile is the one that the stome of a calf will curdle nearly one thousand them the two weights of milk—one of the mile at the continued the stome of the st

Diseased stomaces protoces to such that this west may be perfectly upplied, we quote the following

STENTIFIC EVIDENCE.

BARON LIEBIG, in his celebrated work on Animal Chemistry, says: "An Artifons Disease tive Fluid may be treadily obtained from the mucous membrane of the stomach of readily obtained from the mucous membrane of the stomach of a Call, in which vertices at the stomach of a Call, in which vertices at the stomach stomach of a Call, in which vertices at the stomach stomach."

BEFREIRA, In his famoustratise on "Foot and Diet," published by Wilson & 120. New York, page 55, states the published by Wilson & 120. New York, page 55, states the same great fact, and down is the method of preparation.— I be a sea of the Wilson & 120. New York, in his "Text Book of Chemistry," page 352, says.

There are lew higher authorities than Dr. Perel a Dr. Jilin W. DIAPER, Foot New York, in his "Text Book of Chemistry," page 352, says.

Whether artificial digestion could be reformed—but it is now universally admitted that I may he.

Professor DUNGLISUN of Philadelphia, in his great work on thuman Physiology, devotes muore than fifty pages to an examination of this subject. His experiments with Dr. Boans mont, on the Gastrio duice, obtained from the living human mont, on the Gastrio duice, obtained from the living human the Natural digestions."

AS A DYSPEPSIA CURER.
