

**SHOTS IN THE REAR.**  
William S. Parkham, Esq., one of the Whig electors of Louisiana, declines serving in that capacity, as he has determined not to support Scott.

The Boston Bee says a "Pierce Club of Webster men" is about to be formed in Boston.

In 1848, the Trenton (N. J.) Gazette, a Whig print, spoke of Gen. Scott as "weak, passionate, illiberal, and devoid of true principles of religious freedom."

Hon. John Henderson, formerly a Whig Senator from Mississippi, is now a zealous supporter of Pierce and King.

On Saturday week, Gen. Toombs made a speech in Congress, in which he took a strong ground against Scott.

The Buffalo Courier states that Whigs in that city are betting that Scott will not carry New York, Ohio or Pennsylvania.

H. S. Hastings, who represented Albany in the Whig National Convention, says in his paper—"we cannot see how the friends of freedom and Kossuth can do otherwise than throw their influence in favor of the Democrats."

At a Democratic meeting at Fremont, Sandusky county, Ohio, John L. Green, until now a prominent Whig, was called upon to make a speech, and announced that he should vote for Pierce and King.

Hon. Wm. Wright, the Whig candidate for Governor of New Jersey in 1847 has come out in favor of Pierce and King against Scott. Mr. Wright is a gentleman of much influence in that State, and will prove a serious thorn in the flesh of whiggery there.

The Savannah Republican contains a letter from Charles S. Jenkins, of Augusta, declining to support either of the Presidential nominees. The Republican expresses the opinion that Gen. Scott cannot carry Georgia without the aid of Mr. Jenkins.

Gen. Scott's Record in regard to our Adopted Citizens.

The whig press stands aguish at the disclosures made by the New York Herald, and copied into our columns of yesterday, in respect to the plan for disfranchising our foreign-born population, which was drawn up in duo form by General Scott, and published by him in the National Intelligencer of December, 1844, over the signature of "Americus." The New York Mirror says:

"The Herald, also has revelations touching Gen. Scott and aliens, and quotes from an article signed 'Americus,' in the National Intelligencer of December, 1844— which article it charges to Gen. Scott—as follows:

"1. To reduce the term of naturalization from five years to three years.

"2. To exclude all aliens forever from the right to vote in any public election whatever, except—

"3. Such aliens as shall have served two years in the army or navy, who shall thereby be entitled to the rights of citizenship, including the right of suffrage.

"4. Aliens shall be exempted from involuntary service in the militia, the army, or navy, (just as free negroes and Indians are.)

"5. The law to go into operation six months after its passage."

"If the above was Scott's deliberate proposition, it will prove a stumbling block to him, taken in connexion with his 'native' letter of 1846."

The above paragraph from the Mirror also settles the point, to which we called the notice of that journal three days ago, in regard to the date of Gen. Scott's 'native' letter, as published by Colonel Webb in the columns of the Mirror, in June, 1848. It appears that the letter *did* bear date of 1846. There are, then, two 'native' letters from General Scott's pen—the well-known Reed letter of November, 1841, and another of 1846.

Will the Mirror refer to its file of June, 1848, and publish the letter?

**RUPTURE WITH ENGLAND.**  
Mr. WEBSTER, Secretary of State is at present in the East. At his reception at Marshfield, on Saturday last, in the course of his speech on the occasion, he used the following important language:—

He then alluded to the fishery question, and said it would not become him to say much on that point, until he spoke officially; but he would assure them that the administration would neglect the matter under any circumstances. "The fishermen," he continued, "shall be protected in their rights at all hazards. Why should they not? Most potent consequences were involved—the fisheries were the nurseries of a navy, from which the most glorious triumphs had sprung. Their sudden interruption by England cannot be justified by any principle or consideration whatever. It was wholly unjustifiable. The treaty of 1818 was made with the crown of England, and if a vessel is captured and adjudicated upon, the crown is answerable. We know whom to deal with. The United States will never permit their rights to be adjudicated by petty provinces, nor allow our vessels to be seized by municipal officers, and condemned by the municipal court of Quebec and Newfoundland. No! No!! No!!! He then branched off upon other topics, when the ceremonies closed and the meeting adjourned.

**CHURCHES OF THE CANDIDATES.**—The Presbyterian, a religious paper, publishes a trial, said to be from the pen of Dr. Junkin, of Washington, from which we ascertain these facts: Gen. Scott is a Protestant Episcopal, and worships at St. John's church, of Washington. Mr. Graham is a Baptist, and worships at a Baptist Church; he worships, part of the time, at least, with that denomination. General Pierce is, by education, a Congregationalist, though not a member of the Church. Mr. King is a Protestant Episcopalian in his preferences.

**Fatal Disease at Millintown.**  
The Junata Sentinel, received last evening, gives the following account of the disease and its progress:—

"Our town has been visited by some disease as singular in its symptoms as it is fatal in its result, and which from its malignity extent and indifference to treatment, caused the utmost consternation, and alarm. Two or three sudden deaths in Patterson had excited the fears of our citizens, but the interval of a week had somewhat calmed them, when on Friday evening the epidemic reappeared with the utmost violence, and in the course of forty eight hours, hurried off seven persons, which to our small place, was a dreadful mortality. No cases occurred from Saturday till Tuesday, when a child which had imprudently eaten some green fruit, was violently attacked. Prompt remedies, however, seemed to check the disease, and though dangerously ill, is now in a fair way to recover. No cases have since occurred. This was the first case which yielded to medicine, and from the fact that the latter attacks were much less malignant than the first, we believe and hope that the disease has spent its force, and that our town will now regain its usual health."

The same paper enumerates the deaths as follows:—

On the 17th inst., Frederick B. Koller, aged 25 years.

On the same day, Robert Barnard, aged 54 years.

On the same day, Mrs. Margaret R. Fasicik, aged 80 years.

On the same day, Andrew J. Hemphill, formerly of Clearfield county, aged about 25 years.

On the 18th inst., Mary, daughter of David and Catharine Stouffer, aged 5 years.

On the same day, Miss Jane H. Bryson, aged 62 years.

On the 20th inst., Michael Shirk, of Walker township, aged 25 years.

**More of the Great Fire at Montreal.**  
The Montreal Herald, of Saturday, the 10th inst., contains several columns of the particulars of the conflagration which occurred in that city on Thursday and Friday last. After narrating with much minuteness the progress of the fire—which broke out in a house on the east side of St. Lawrence street, near the fields—the Herald remarks:

"As to the victims, they deserve the utmost compassion. The majority belong to the laboring classes. The sufferings of some of them, especially of the children, must have been intense. Anxious to take care of their property, they resolutely sat upon their goods, though without the slightest shelter, with the sun beating directly upon them, in many cases little to eat, and perhaps oftener in great straits to procure water. Fortunately the night was so fine as to make a moonlight bivouac by no means a serious hardship."

"We have heard of several cases of *croup de soleil* caused by exhausting labor in the heat; but of no fatal case. There were also some births in the fields on this memorable occasion. We have not yet made up the lists, but, at a rough calculation, we suppose there may have been fourteen hundred houses burnt, which at seven inhabitants to each house, would give nearly 10,000 without houses; the probability is, however, judging from the census returns, that as many as 15,000 must have bivouaced in the open air. We cannot refrain from bearing testimony to the cheerfulness with which the poor people bore their misfortunes. The writer walked some miles through heaps of furniture piled on each side of the street, between midnight and four o'clock in the morning, and, conversing with many of the people, he found nothing like complaint or despondency."

"A table is given, showing the yearly rental value of properties destroyed, which sums up a total of 1,080, worth probably about \$201,000, besides a considerable quantity of merchandise and furniture. The fire was principally in what are called the suburbs, and the damage consequently is less in extent than if it had occurred in the business quarter. The popular distress, however, could hardly be aggravated."

**More Whig Renunciations in New Jersey.**  
The Trenton American states "that Dr. J. G. Goble, formerly a good Whig, and L. C. Grover, Esq., one of the most active and influential members of the Whig party, vote for Pierce and King. Scott's prospects in his adopted State are hardly less hopeless than in that of his nativity. In this connection it is proper to state that Horace H. Day, Esq., one of the efficient men in the Whig party of New Jersey, addressed the great rejection meeting at Faneuil Hall.

"The Ontario (N.Y.) Repository, a grave, staid, and consistent organ of what are denominated silver grays, holds open the door, and bids the Tribune and its tribe to walk out of the Church at once."

Thus: "It is the privilege of the Times and the Tribune to defy curse and 'spit upon' the Whig platform to their heart's content, if such is their inclination and taste, but not with the sanction nor within the pale of the Whig party. THAT POINT IS SETTLED."

An Irish colonel of Dragoons, previous to a trial, in which he was the defendant was informed by his counsel, that if there were any of the jury to whom he had any personal objections, he might legally challenge them. "Faith, and so I will," replied the son of Mars; "if they do not bring me off handsomely, I will challenge every man of them."

"Like those who walk upon a line, if we keep our eyes fixed upon one point, we may step forward securely; whereas an imprudent or cowardly glance on either side will infallibly destroy us."
