THE JAPAN EXPEDITION:

The National Intelligencer has the following full and interesting account of the net to Mrs. Amanda Seeley, all of Clearexpedition to Japan Elle 196 Lenson &

About the 1st of January next, an expe- Mr. Henry Criner, to Mise Sarah Ann dition will depart from the port of Norfolk Kuntz, all of Brady township, Clearfield for the performance of important and ardous duties in the far off seas and Islands of the Pacific ocean. Its objects will be to survey portions of the China and Japan to Miss ELIZABETH HUNTER, both of Belseas, the route botween China and Califor. lefonte, Pa. nia, and the North Pacific ocean in the region of Behring's straits. It may probably also ascend the sea of Tartary; to fat, sweet, and well cooked—that accommake some examinations needed for the panied the above notice, clearly attests advantageous prosecution of commercial that the Printer is remembered when

known waters. In the North, however, it will no doubt find a very wide field for its operations making such investigations as are desirable for the furtherance of our important Burley, aged 22 years, 11 months and 15 interests in the whale fisheries.

this expedition; but it is not unlikely that High, after an illness of eight days, aged its arrival at: Japan will be so timed as to 60 years 4 months and 26 days.

The deceased leaves her husband, ten of Commodore Perty, whose fleet will tarry a considerable time in the vicinity of friends to mourn her departure. The early

We believe her commander is not the improvement of the occasion was yet chosen.

and many other officers are not yet desig- "Being dead yet speaketh."

The most eminent medical skill in the service will be detailed, and scientific men in every department will be selected with reference to their high reputation and eminent suitableness for the duties in view. The crews also will consist alone of young, healthy, vigorous and efficient seamen; men capable of enduring all the requisite labor and privations, and intelligent enough to appreciate the importance and salutary results of the mission upon which they are to be sent.

In every particular this expedition will be thoroughly prepared for the work before it. The vessels will all be peculiarly lighted improvements in the machinery of steady Wade Clothing, steamers have been introduced into the John Hancock; and the boats have been constructed in the best manner, with specific the Construction of Clearlies and Constructed in the best manner, with specific the Construction of Clearlies and Constructed in the best manner, with specific the Construction of the Construction of Clearlies and Construction of Constr ndapted for it in their construction and constructed in the best manner, with special reference to the contemplated sur-

In the selection of the requisite arma-In the selection of the requisite armaments offorto have been successfully made to obtain the most perfect of every kind, and such as will prove efficient in their appropriate uses. Thus sharp's breach loading rifle, with Maynard's primer, and Colt's improved revolver, will occupy their places armong the small arms.

Of all sorts, and very cheap.

Every Garment bought at this establishment is warranted to be as represented, as he pays a better price than THE JAW3, and sells no rotten or damaged goods, and therefore an able no rotten or damaged goods, and therefore as a second first law of homanity, and treat a determined to racios the first law of homanity, and treat avery one as he would wish them to treat him. At all events and are particularly expected, should they find nothing to the strain proved revolver, will occupy their places armong the small arms. their places among the small arms,

in the scientific departments the same circumspection is manifested. The astronomical instruments are obtained through omical instruments are obtained through the National Observatory at; Washington, and are of the vary best quality. Many of them, we understand have been made in this city, under the supervision of Mr. Wunderman, and possess the advantage of all the improvements suggested in the experience of the coast and topographical experience of the coast and topographical suggested of the naval service. We experience of the coast and topographical surveys, and of the naval service. We are assured, indeed, by those who are competent to judge of their merits, that instruments so perfect and so well adapted to their uses could not elsewhere be obtained, either in this country or in Europe. Scientific and miscellaneous libraries, for the use of both the officers and men, have also been provided; and thus the best means of preserving order and discipline, and of securing improvement, will constantly be at hund. MI

The means of collecting information in natural history have been exceedingly well cared for, even to the most minute particular, honor of the most minute particular, honor of the most minute particular, honor of the most will form a part of the implements supplied.
