good earnest throughout California, at the date of the steamer's departure.

The streams had risen to such an extent as to render many of the roads impassable. The rain, however, had interfered very little with the operations of the miners, who were represented to be doing well.

The greatest drawback experienced in the mines was the continued high price of food, the want of which at cheaper rates many of the markets for nearly every description of produce had largely advanced since the departure of the steamer of the last ut.

The greatest advance that has been re
