Two weeks later from California.

Arrival of the United States at N. Orleans.

NEW ORLEANS, May 20.—The steamship United States arrived this morning from San Juan, bringing advices from San Francisco to the 30th of April, being thirteen days later than our last advices.

The United States has made a splendid passage, the entire trip from San Francisco occupying but 20 days.

The Grand Jury in the case of the steamship Independence, wrecked in St. Simon's Bay, have rendered a verdict, in which they express the opinion that the vessel was wholly unseaworthy at and before the time of the painful accident, and that much blame attaches to her owners for allowing her to be employed in the transportation of passengers, when they must have known such was the case.

Business at San Francisco continued dull, though holders of flour had been enabled in some instances to obtain a slight advance.

The stock of provisions and other necessary articles of consumption in the interior, was very light, and the roads leading thereto in a most wretched condition, so that high prices and much suffering are anticipated.

The accounts from the mines continue of a cheering character, so far as regards the product of gold. The miners and others are idustriously and profitably employed.

There have been but few arrivals at San Francisco from the Atlantic ports, since the departure of the last steamer, although a number of vessels are considerably over due.

Among those arrived, is the barque Old Hickory, from New York, after a passage of about 146 days.

The list of deaths given in the San Francisco papers show considerable increase for the last month over previous months.

The agricultural prospects throughout California for the coming year are very flattering, and a large yield is confidently looked for.

The *Alta California* represents trade as dull in many of the leading articles, and the market depressed, owing in part to the backwardness of the Spring trade and the bad condition of the roads. An active business, however, was anticipated during the month of May.

The stock of flour on hand was large, and heavy arrivals were expected during the next few weeks.

The whaling ship Robert Brettsford, from New Bedford, is ashore on Christmas Island.

The Legislature would finally adjourn on the 11th of May.

Two fires had occured at San Francisco, but they were fortunately extinguished before any damage of importance was done.

The banking house of Page, Beacon & Co., had been robbed of $3,000.

Two discoveries of gold near Negro Hill are reported.

The agricultural prospects of the State are in a very flattering condition.

Later dates from China had been received at San Francisco.

The American ship Charles Andrews had arrived at Singapere.

FROM THE SANDWICH ISLANDS.—The Sandwich Islands Legislature assembled on the 6th of April.

A company has been formed for the establishment of a line of steamers between the Sandwhich Islands and San Francisco.

Disastrous Gale on Lake Erie.

BUFFALO, May 20.—There was a very heavy gale on Lake Erie yesterday, which it is feared has caused immense loss. We have already accounts of a number of disasters.

The brig Andre, from Chicago, with 11,000 bushels of corn, was driven ashore and lost near Cleveland,

The propeller St. Joseph and steamer America were both badly damaged in going into Cleveland.

A fishing vessel was capsized off Cleveland, and three lives lost.

The captain of the brig Montezuma reports passing a vessel capsized, and the crew clinging to the wreck. Owing to the heavy sea, he was unable to render any assistance.

Several other vessels are reported ashore between here and Cleavland.

Fatal Railroad Accident.

MONTREAL, May 14—8 P. M.—The express train coming in from Rouse's Point, to-day killed a man, (name unknown,) who was sleeping between the rails, near St. Johns. He was thrown a distance of forty feet, and died instantly.

SPEED ON RAILROAD BRIDGES.—The Superintendent of the Philidelphia and Columbia railroad has given orders that no trains shall cross any bridge at a greater speed than six miles an hour. This is a salutary regulation, and we believe the same has been adopted by the Central, the Harrisburg and Lancaster, and the Baltimore and Susquehanna roads. If rigidly enforced, it will make railroad travelling more safe, as well as prolong the duration of bridges. As yet, we are informed that engineers and conductors do not strictly observe it. This may be owing to its recent adoption. It is probable that a sense of duty will induce a rigid enforcement on the part of the superintendents of the several roads. Public opinion, as well as the corporate interests of the roads, demand it.—*Nat. Argus.*

GOLD IN EASTERN NORTH CAROLINA.—The *Norfolk Beacon* states that a gold mine, which promises to be very rich, has recently been discovered in Tyrell County, (N. C.) This is the first discovery of gold that has been made in the lower part of the State.

☞The Ohio and Pennsylvania railroad trains ran through from Pittsburgh to Carlisle for the first time regularly on Monday last.

MARRIED.—On Monday the 24th inst., by the Rev. J. H. Hamilton, Mr. Hugh Mullen to Miss Elizabeth Ogden, all of Lawrence township, Clearfield county.

MARRIAGE.

Happiness and Competence.

WHY IS IT?

THAT we behold many females, scarce in the meridian of life, broken in health and spirits with a complication of diseases and ailments, depriving them of the power for the enjoyment of life at an age when physical health, buoyancy of spirits, and happy serenity of mind, arising from a condition of health should be predominant.

Many of the causes of her sufferings at first—perhaps years before, during girlhood, or the first years of her marriage—were in their origin so light as to pass unnoticed, or were in their origin to light as to pass unnoticed, in their origin to light as to pass unnoticed.

IN AFTER YEARS,

When too late to be benefitted by our knowledge, we look back and mourn, and regret the full consequences of our ignorance.

What would we not often give to possess in early life, the knowledge we obtain in after years. And what days and nights of anguish we might have been spared, if the knowledge was timely possessed. It is

MELANCHOLY AND STARTLING

To behold the sickness and suffering endured by many a wife for many years, from causes simple and controllable, easily remedied—or better still—not incurred, if every

WIFE AND MOTHER

Possessed the information contained in a little volume, (within the reach of all) which would snatch herself

YEARS OF MISERY,

And to her husband the constant toil and anxiety of mind, necessarily devolving upon him from sickness of the wife, without giving him the opportunity of acquiring that competence which his exertions are entitled, and the possession of which would secure the happiness of himself, wife and children.

SECURE THE MEANS OF HAPPINESS

By becoming in time possessed of the knowledge, the want of which has caused the sickness and poverty of thousands. In view of such consequences, no wife or mother is excusable if the neglect to avail herself of that knowledge in respect to her health and prosperity to her husband, and confer upon her children that blessing above all price—healthy bodies, with healthy minds. That knowledge is contained in a little work entitled

PENNSVILLE TANNERY.

THE undersigned would respectfully announce to their customers and the public generally, that they have commenced business upon the "READY PAY" system, believing that by so doing they will be enabled to sell their leather at a much lower rate than can be afforded by those who are willing to pay, as is too often the case, under the credit system.—Secondly we can sell our stock lower than on credit, because we can make our return sooner, and thus there will be an advantage to the soil er as well as the buyer.—We intend keeping constantly on hand a good assortment of LEATHER, such as Spanish Sole, Upper Kips, and Calfskins, Harness Leather Skirting, &c

For which we will take in exchange for the highest market prices, all kinds of country produce such as GRAIN of every description, Red-hides, Calf skins, Lumber, Bark, Tallow, &c., and even a little cash would come very handy. We will also, furnish customers with ready made Boots and Shoes, Gears, Harness Collars, Bridles, Lines, Saddles &c., on short notice, and at the same prices which they would have to pay for the manufacturers if they bought of them. Harness makers, the manufacturers if they bought of them. Harness makers, shoemakers, and others, will please call and examine our stock. JOHN RUSSELL & CO
