

## Important from Mexico.

PROGRESS OF THE REVOLUTION.

BALTIMORE, Oct. 2.—The Southern mill this morning, brings New Orleans news of Saturday last.

The papers contain details of late Mexican news, giving a lengthy account of the action at Guaymas between Count Bouillon's band and the Government troops,—according to the account by Gen. Yanez, it was a desperately contested affair,—Bouillon's followers were principally French, Germans, Chileans, and Irish, and they remained faithful to his cause.

The Government had issued a decree prohibiting the discharge of cargoes of vessels coming consigned to Captain or Supercargo, except under the responsibility of some established house at the port or place in which they arrive.

Letters received gives us later news of the progress of the Revolution. Every confidence is entertained in Jalisco, of the entire success of the opponents of Santa Anna.

Rumors had reached Monclova that the Governors of Zacatecas, San Luis Potosi, and Nueva, were relied upon as against Santa Anna.

Preparations are being made for a general outbreak at Durango. The towns of Sinaloa and Sonora, on the Gulf of California, are already issuing pronouncements.

## Governor Bigler in Erie County

The people of Erie intend to manifest at the October election their sense of Governor Bigler's patriotic and noble conduct during their Railroad difficulties. He showed himself on that occasion to be a true Pennsylvanian; just towards the people of other States, but firm in supporting the dignity of Pennsylvania, and the rights of her citizens. For this, Erie county will give him a "full" vote. In the Iron Foundry of Messrs. Seaman & Co., in the city of Erie, the workmen—some eighty-four in number—have resolved to sink all party considerations, and vote *en masse* for Bigler. The people know their friends. It is charged upon Judge Pollock, the Whig and Know Nothing candidate, that he favors the interests of the railroads and monopolies, and the people of Erie county are going to leave the railroaders and monopolists to take care of him.—For their part, they intend to vote for Bigler. Again, we say, look out for the tallest kink of a vote for Bigler in Erie county.—*Washington Examiner.*

WHY ASHAMED OF IT!—If known nothing has sprung into existence from pure motives and justifiable ends, why do men who belong to the order shrink all questions and deny their connection with it? If it is established for high and holy motives, why do those who belong to it defend the fact? If it is not political and religious crusade against one denunciation alone why make it a secret midnight conclave?

All these questions are easily answered. The editor of the Westchester Journal having come in possession of a list of the members of that place, he was waited upon by a number of them who begged of him not to publish it! The editor, for states that at the succeeding meeting many entered the Hall with masked faces!

We shall anxiously await the great and good end to be accomplished by an order which men are ashamed of or too cowardly to avow an open connection with.

**THE WHIGS AND FOREIGNERS.**—Two years ago General Scott and the Whig leaders travelled the entire country, pleading for foreign Catholic votes, and denouncing Gen. Pierce and the Democratic party as being their enemies. Every Whig paper took the same course. General Scott loved the rich Irish brogues and sweet German accent, and his tongue swallowed the declaration with thrilling satisfaction. The only bid ever made in this country for foreign Catholic votes was made by the Whig party under the lead of General Scott, and now that same party have shifted their ground, and are endeavoring to strengthen their party by abuse of foreigners. A party without principle is an unpincipled party.—*Eastern Argus.*

**EMIGRANT PAUPERS.**—The city of Boston has adopted efficient means to prevent the shipment of European paupers to that port. Four paupers were on Saturday last arranged before a Justice in that city, on joint charge of being "foreign paupers," receiving aid from the city of Boston, against the peace of the Commonwealth, and contrary to the law in such case made and provided." The charge of pauperism was sustained, and the Court ordered the prisoners to be returned to the Queen of Great Britain. They will be forwarded in the ship "Star of Empire," which leaves Boston in a day or two for Liverpool.

**FREEPORT AQUEDUCT FALLEN.**—We learn that the Aqueduct across the Allegheny river, near Freeport, fell down on the 26th ult. It is only a few years since this work was re-built. It was then done in a great hurry, and to this fact may be attributed its early destruction. Fortunately, no boats were upon it at the time, although several had passed over but a short time previous.

"Most people think," remarks Mr. Scissors, "that the selection of matter suitable for a newspaper, is the easiest part of the business. How great an error! It is by far the most difficult. To look over and over hundreds of exchange papers every week, from which to select enough for one, especially when the question is not what shall, but what shall not be selected, is no easy task. If every person who reads a newspaper could edit it, we should hear less complaints."

The largest cargo of corn ever received at Buffalo in a sail vessel, was brought into port on Friday of last week, in the barque Great West. She had twenty-eight thousand bushels.

## SHOCKING MURDER.

On Tuesday afternoon last, an unknown Frenchman was found dead on his bed in a lodging house in Dock Street, Philadelphia, where he had taken lodgings the previous night, with another Frenchman equally unknown.—The latter got up in the morning and went out, saying he would soon be back again—but has not since returned. From appearances the man was murdered in his sleep, some sharp instrument having been forced into his brain through the ear. No doubt exists as to the criminality of his partner.

**INFLUENCE OF ISLANDS ON NAPOLEON'S DESTINY.**—An island gave birth to Napoleon, arrested in his career, he seeks shelter on an island, and from that island returns again to shake the world with the thunder of his tread; fallen, he is sent from an island to die on an island, killed by an island power. He issues from the sea to begin his course; and that course fulfilled, sinks again in the ocean. What may not the future found upon these curious coincidences, when ephemeral history shall have disappeared, and given place to immortal poetry.

**INFORMATION WANTED.**—Will any of our whig friends inform us what has become of the question of a "Protective Tariff"? It should certainly not be abandoned; especially if it is the correct doctrine as the whigs formerly contended.—Can't the Telegraph and Herald agitate the question? It would undoubtedly be satisfactory to the old-line whigs.

## Har. Union.

The cholera continues its ravages in London—the deaths from that disease during the week ending on the 8th inst., reaching four thousand.

**REBUKING THE ADMINISTRATION.**—Allowing the Democrats of Vermont to gain over two thousand votes since the election of General Pierce.

Mr. Ward has again left Louisville, so account of the circulation of an incendiary handbill, calling a town meeting.

Cake Flour is selling in New York at \$7.50 per barrel—\$2 below the present price.

He who encourages young men in the pursuit of agriculture, is doing a good work for society a hundred years hence.

**MARRIED.**

On Sunday the 1st instant, by the Rev. John Pierpont, Mr. Jeremiah M. Richel, in Miss Sarah Matilda Hamilton, all of Brady township, this county.

On Tuesday morning the 4th instant, by James Wright, Esq., Mr. Henry Evans of this Borough and Miss Lydia Tait of Lawrence township this county.

**DEED.**

On Sunday the 1st instant, at the residence of his son-in-law, Jasen Winslow, in Elk county, ROBERT COLLINS, aged about 85 years.

The deceased was a native of the county Donegal in Ireland, where he learned the trade of House-Carpenter. He afterwards moved to the city of Dublin, where he resided eleven or twelve years, and emigrated to Philadelphia in the year 1809. From Philadelphia he removed to Lycoming county, and in 1807 removed to this county, and located on what is now the property of the town of Westfield. In his death he left behind him the only inhabitant. He was a man of vigorous health and constitution, which he retained until within the last six or eight years. Generally regarded as no less for his kindness of heart, for he regarded the great family of mankind as one universal brotherhood, yet he no doubt had his faults, but among them was not to be found a mean or dishonest act.

He was the head of a large family of children and lived to behold his descendants even unto the fourth generation.

His remains were brought to this place on Monday last, and interred in the Catholic Cemetery.

**HYDRAULIC.**

BY ASTLEY COOPER, Bart., M. D.

THE HYDRAULIC, or WATER-POWER, MANUFACTURED BY DR. COOPER, is a valuable discovery, which has recently been made by Dr. Curtis of this city, in the art of Consumption, Asthma and All Diseases of the Lungs. We refer to Dr. Curtis' HYDRAULIC, or HYDRAULIC VAPOR, and CHERRY SYRUP.—With this new method Dr. Curtis has restored many invalids once past helplessness, as an evidence of which he has numerous certificates. Speaking of the treatment, a physician remarks: "It is evident that inflation—constantly breathing an agreeable, healing vapor—the medicinal properties must come in direct contact with the whole of the aerial cavity of the lungs, and thus escape the many and varied changes produced upon them when introduced into the stomach, and subjected to the process of digestion. The HYDRAULIC is for sale at all the druggists throughout the country.
