May 21, 1851.

ELLIS IRWIN & SONS,

At the mouth of Lick Run, five miles from Clearfield, MERCHANTS, and extensive Manufacturers of Lumber, July 23, 1852.

TO LUMBERMEN AND OTHERS.

THE undersigned would respectfully inform the citizens of Clearfield and the adjoining co's, that he has just stored in Philadelphia, a very large quantity of grain, including

Rye, Oats, Wheat and Flour. Buckwheat Corn and Barley.

which he will sell in large or small lots on the most reasonable terms and at the lowest prices. The attention of those needing anything in this line is called to the stock, believing it would be to their advantage to give him a call. Come along then and be supplied by

G. W. KEPLER,

Philipburg, March 3, 1851.

D. O. CROUCH,

PHYSICIAN—Office in Curwenville.

May

CAUTION.

ALL persons are hereby cautioned against dealing with any just cause or provocation I therefore forbid any person harboring or troubling her on my account. E. MERRIFIELD.

March 10.

HENRY W. OVERMAN.

No. 14 (Old No. 6) South Third Street, below Market, PHILADELPHIA.

LEATHER DEALER.

Calf skins, Morocco, Linings, Bindings, RED & OAK SOLE LEATHER, &c.

N. B.—Rough Leather bought or taken in exchange

March 3, 1851.

TRACT OF LAND AT PRIVATE SALE.

THE undersigned will sell in cash terms a tract of land, containing about sixty-two acres, with about 25 acres cleared—lying on the West Branch, near the borough of Clearfield, with a good two story dwelling-house, log barn, and other buildings. An orchard of young trees recently planted, and a large scope of good meadow land render it a valuable and desirable property.

H. BUCHER SWOPE.

April 22, 1851.

A. B. SHAW,

RETAILER of Foreign and Domestic Merchandise, Shawville, Clearfield county, Pa.

ZACHARIAH MCNAUL.

Nov. 18, 1851.

DEPTF.

INHALATION IN CONSUMPTION.

BRONCHITIS, LARYNGITIS, and other Diseases of the Chest and Throat, successfully treated by the Inhalation of Medicated Vapors and powders, by absorption and constitutional treatment, as specified at the Staymore Medical Institute, New York city.

The Union of Emerson's Magazine and Putnam's Monthly has given to the consolidated work a circulation second to but one similar publication in the country, and has secured for it a combination of literary and artistic talent probably unrivaled by any other Magazine in the world. During the first month, the sale in the trade and demand from subscribers exceeded 10,000 copies and the numbers already issued of the consolidated work are universally conceded to have surpassed, in the richness of their literary contents, and the beauty and pretension of their pictorial illustrations, any magazine ever before issued from the American press. Encouraged by these evidences of favor, the publishers have determined to commence the new volume in January, with additional attractions, and to offer such inducements to subscribers as cannot fail to place it, in circulation, at the head of American Magazines. With this view they now announce the following splendid programme. They have purchased that superb and costly steel-plate Edgeling.

"THE LAST SUPPER."

and will present a copy of it to every three dollar subscriber for the year 1852. It was engraved at a cost of over \$6,000, by the late celebrated A. L. Dick, from the original of Raphael Merigoni, after Leonardo Da Vinci, and is the largest steel plate engraving ever executed in this country, being three times the size of the ordinary three-dollar engraving.

The first impressions of this engraving are held at \$10, and it was the intention of the artist that none of the Engravings should ever be offered for less than \$5, being duly worth that amount. Thus every three-dollar subscriber will receive the Magazine one year—cheap at \$3 a month this splendid engraving, richly worth \$3—a sum getting for \$3 the value of \$5.

We shall commence striking off the engravings immediately, yet it can hardly be expected that impressions of so large a plate can be taken as fast as they will be called for by subscribers.

We shall therefore, furnish them in the order in which subscriptions are received. Those who desire to obtain their engravings early, and from the first impressions, should send in their subscriptions without delay. The engravings can be sent on rollers, by mail, or in other manner, as subscribers shall order.

\$20,000 IN WORKS OF ART.

In addition to the superb engraving of "THE LAST SUPPER," which will be presented to every three-dollar subscriber for 1852, the publishers have completed arrangements for the distribution, on the 25th of December, 1852, of a series of splendid works of art, consisting of one rich and rare old paintings, valued at from \$100 to \$1000 each. Also, 2,000 magnificient Steel-Plate Engravings, worth from \$3 to \$5 each, and 10,000 choice Holiday books, worth from \$1 to \$5 each, making in all, over THREE THOUSAND GIFTS, worth TWENTY THOUSAND DOLLARS.

Enclose \$3 to the publishers and you will receive the Magazine by return mail.

You will also receive with the first copy a numbered subscription receipt, entitling you to the Engraving of "THE LAST SUPPER," and a chance to draw one of these "THREE THOUSAND PRIZES."

Reason why you should subscribe

EMERSON'S MAGAZINE for 1852.

First: Because its literary contents will, during the year, embrace contributions from over one hundred different writers and thinkers, numbering among them the most distinguished of American authors.

Second: Because its editorial departments, "Our Study," "Our Window," and "our Oil," will be conducted by an able editor—and it will surpass, in the variety and richness of its editorial contents, any other magazine.

Third: Because it will contain, during the year, nearly six hundred original pictorial illustrations, from designs by the first American artists.

Fourth: Because for the sum of \$3 you will receive this splendid monthly, more richly worth that sum than any other magazine, and the superb Engraving of "The Last Supper."

Fifth: Because you will very likely draw one of the three thousand prizes to be distributed on the 25th day of December, 1852—perhaps one that is worth \$1,000.

Notwithstanding that this extraordinary invention can hardly fail to accomplish the objects of the publishers without further efforts, yet they have determined to continue thro' the year that is worth \$1,000.

Notwithstanding that this extraordinary invention can hardly fail to accomplish the objects of the publishers without further efforts, yet they have determined to continue thro' the year that is worth \$1,000.

THE GREAT LIBRARY OFFER.

To any person who will get up a club of twenty-four subscribers, either at one or more post offices, we will present a splendid library, consisting of over Forty Large Bound Volumes embracing the most popular works in the market.

The club may be formed at the club price, \$2 a year, without the engraving, or at the full price, \$7 a year, with the engraving of the last Supper.

It will be very likely drawn one of the three thousand prizes to be distributed on the 25th day of December, 1852—perhaps one that is worth \$1,000.

The following letter expresses the general opinion of those who are using the Combination mill.

Messrs. EMERSON & Co.—Gentlemen: I have tried the saw-mill purchased of you, and will say that it performs well, and more than meets my expectation. I am well pleased with its performance. I set it up on a small stream that affords constant water about as thick as my little finger, which was much more than sufficient to supply the mill.

We are able to cut 3,000 feet of lumber in 12 hours, with something less than one cord of wood.

It is the very thing we have so much needed in our country for a long time.

With a little trouble and expense we are able to move it ten miles per day, and set it up in the heart of the timber, which saves the great burden of hauling the logs a long distance to the mill.

Yours, respectfully,

JESSE KERR, Jr., Louisville, Tennessee.

The Company have purchased LUND'S PATENT FOLIAGE SAW-MILL, which is illustrated and described in the Scientific American, for October 24. This adds greatly to the efficiency of the mill.

THE COMBINATION SAW-MILL was patented October, 1852, and is now generally acknowledged to be the cheapest, most practical, and efficient lumber manufacturing machine in the world. A large number of them are in successful operation in different parts of the country, Canada, Cuba and South America, and wherever their merits have been tested they are being adopted by lumber manufacturers in preference to all other mills.
