MAGNIFICENT PROGRAMME FOR 1858.—

#20,000 in works of Art. FIVE DOLLAR EN-BRAVING to every subscriber. THE GREAT LIBRARY OFFER. Agents getting rich.

The union of Emerson's Magazine and Putnam's Monthly has given to the consolidated work a eirenlation second to but one similar publication in the country, and has second for it a combi-Illierary and artistic talent probably un rivated by any other Magazine in the world. During the first month, the sale in the trade and ismand from sub cribers exceeded \$6,000 cepies and the numbers already issued of the con ted work are universally conceded to have sur-passed, in the richness of their literary contents. and the beauty and profuseness of their pictoria. illustrations, any magazine ever before issued from the American press. Encouraged by these evidences of favor, the publishers have 'etermined to commence the new relume in January with additional attractions, and to offer such inducements to subscriber as cannot fail to place it, in circulation, at the head of American Maga- at all times. With this view they now announce the following spleudid programme. They have purchased that superb and costly steel-plate Edgrady Pay System,

"THE LAST SUPPER."

and will present a copy of it to every three dol lar subscriber for the year 1858. It was engra-ved at a cost of over \$6,000, by the late celebra ted A. L. Dick, from the original of Raphael Morghen, after Leonardi Da Vinci, and is the largest steel-plate engraving ever executed in this country, being three times the size of the ordinary three-dollar engravings.

The first impressions of this engraving are held at \$10, and it was the intention of the arstoring her lih, by administering to it healthy and life-giving food. There is no care so hopeless that tist that none of the Engravings should ever be Inhalation will not care. Thus every three-dollar subscriber will receive the Magazine one year—cheap at \$3 administering the vapors being so simple that the -a d this splendid engraving, richly worth 5 thus getting for \$3 the value of \$8.

We shall commence striking off the engravings immediately, yet if can hardly be expected that impressions of so large a plate can be taken as fast as they will be called for by subscribers .- We shall therefore, furnish them in the order in which subscriptions are received. Those who desire to obtain their engravings early, and from the incures world and establish the entire carabilities impressions, should send in their sub-ity of Consumption.

I cornectly appeal to the comman sense of all scriptions without delay. The engravings can self-ted with Lung diseases, to embrace at once the subsections of the consumptions.
