D. HENRY LORAIN, having associated
with him in the practice of Medicine Dr. J.
G. HARTSWICK, offer their professional
services to the citizens of Clearfield and vicinity
they will attend to professional calls at all hours
of the day.

Dr. Hartswick will be found during the day at
his office opposite Dr. Lorain's residence, and at
night at his residence, one door north of Reed &
Carter's store.
Clearfield, June 10, 1856.

Price reduced to suit the Times—Terms \$1 25
per day.

NATIONAL HOTEL.
(LATE WHITE SWAN.)

Race st. above Third, Phila.

The proprietors of the above well-known es-
tablishment being thankful for the very
liberal patronage bestowed upon them the past
year, take this method of informing their friends
and the public that they are still prepared to ac-
commodate them in all respects with a call.

During the summer months the house has been
thoroughly renovated, improved, cleaned and
other extensive alterations in contemplation.

We are determined to devote our whole atten-
tion to business and flatter ourselves with the
conviction that we shall be able to give satisfac-
tion.

N. B. Carriages will always be in readiness to
convey passengers to and from Steamboat Land-
ing and Railroad Depots.

Estate of A. Bennet Dale, dec'd.

LETTERS of Administration on the estate of
L. A. B. Dale, late of Pike tp., dec'd., having
been granted to the undersigned, all persons in-
debted to said estate will make payment immedi-
ately, and those having claims against the estate
will present them duly authenticated for pay-
ment.
SACHARIAH MCNAUL,
Nov. 15, 1857, pd.

INHALATION IN CONSUMPTION.
BRONCHITIS, LARYNGITIS, and other
Diseases of the Chest and Throat, success-
fully treated by the Inhalation of Medicated
Vapors and powders, by absorption and constitu-
tional treatment, as practiced at the Hygienic
Institution, New York city.

The Hygienic Institution, which has at-
tached its method of treating diseases of the
Lungs and Throat has induced us to depart from
our usual course, and avail ourselves of the
advantages of this method, in order to bring it to
the knowledge of such as may be laboring under,
or predisposed to such affections. The dawn of a
brighter day has at length arrived for the Con-
sumptive; the doctrines of the immortality of
the soul, which have for so long past passed away.
We can furnish proofs in our profession that
CONSUMPTION IN ALL ITS STAGES CAN BE CURED, in
the first by greater absorption; in the second,
by the transformations of the tubercle into chaly-
beated and calcareous concretions; in the third,
by electricity or sears. Those wedded to the opiu-
m of the past may assert, that even now con-
sumption is incurable; but we believe that the
great truth must be apparent, viz:—
that the medicine inhaled in the form of Vapor
or powder directly into the lungs, must be much
more effective than that taken into the stomach,
where the disease does not exist. The advan-
tage of Inhalation in Consumption & Throat
Diseases is, that medicine in the form of Vapor
is applied directly to the lungs, whereas the dis-
ease is there; and it is left free to aid in re-
fusing the stomach; it is administered to health,
and life-giving food. There is no case so hopeless that
Inhalation will not cure. The means, too, are
brought within the reach of all, the manner of
administering the vapors being so simple that the
invalid is never required to leave home, where
the hand of affection tends so much to aid the
physician's efforts.

The Inhalation method is suitable, safe and
pleasant, and consists in the administration of medi-
cine in such a manner, that they are conveyed
into the Lungs in the form of Vapor, and produce
their action at the seat of disease. Its practical
use is destined to revolutionize the opinions of
the medical world and establish the entire curabil-
ity of Consumption.

I earnestly appeal to the common sense of all
patients with Lung disease, to embrace at once
the advantage of Inhalation, and no longer apply
medicine to the unoffending stomach. I claim
for Inhalation a place among the priceless gifts
that nature and art hath given us, that "our day
may be long in the land," and as the only ark
of safety for the Consumptive; a method not only
rational, but simple and effective.

As the Inhalation method has been adopted
Inhalation have found it efficacious in the highest
degree, arresting the progress of the disease and
restoring health in many desperate cases, in verity,
a signal triumph of our art over this fell destroyer
of our species.

NOTE.—Physicians wishing to make themselves
acquainted with the practice, are informed that,
our time being valuable, we can only reply, as to
ingredients used, to such letters that contain a
copy of the Circular.

The fee in all cases of Pulmonary Affections
will be \$10 on receipt of which the necessary in-
struments and medicines will be forwarded. Ap-
plicants will state age, sex, married or single,
how long affected, if any hereditary disease exist
in the family, and symptoms generally. Let
the name, town and State be plainly written.
Postage for return answer must be enclosed. Letters
when registered at our risk.

All letters must be addressed to
WALLACE MERTOUN, M. D.,
S. M. Institute, New York.
Nov. 11, 1857-6 m.

**The New York Steam Saw Mill, and
MACHINE COMPANY.**
CAPITAL \$250,000.

This company has been organized with the above
capital for the purpose of supplying the de-
mand for the
COMBINATION
POLTABLE STEAM SAW-MILL,
And other Improved Machinery.

Business heretofore carried on by J. M. Emerson
& Co., also the Montgomery works at York,
on the Hudson, can be this style, and with the
experience and facilities combined in its organiza-
tion are prepared to furnish machinery of all
kinds at more liberal rates, than has ever been
offered at any other establishment.

THE COMBINATION SAW-MILL was patented
October, 1856, and is now generally ac-
knowledged to be the cheapest, most practical,
and efficient lumber manufacturing machine in
the world. A large number of them are in suc-
cessful operation in different parts of this coun-
try, Canada, Cuba and South America, and where
their merits have been tested they are being
adopted by lumber manufacturers in preference
to all other mills.

The following letter expresses the general
opinion of those who are using the Combination
Mill.

Messrs. Emerson & Co.—Gentlemen: I have
tried the saw-mill purchased of you, and will say
that it performs well, and more than meets my
expectations. I am well pleased with its perform-
ance. I set it up on a small stream that af-
forded constant water about six inches in depth,
which was much more than sufficient to
supply the boiler. We are able to cut 5,000 feet
of lumber in 12 hours, with something less than
one cord of wood. It is the very thing we have
so much needed in our country for a long time.
With a little trouble and expense we are able to
move it ten miles per day, and set it up in the
heart of the timber, which saves the great bur-
den of hauling the logs a long distance to the
mill.
Yours respectfully,
JESSE KERR, Jr.,
Lonsville, Tennessee.

The Company have purchased LINDSEY PAT-
ENT FEED ARBAN EMENT, which is illus-
trated and described in the Scientific American,
for October 24. This adds greatly to the effi-
ciency of the mill.

The Combination Mill with all the recent im-
provements, and steam power of 15 horses, is ca-
pable of sawing from 3,000 to 4,000 feet in twelve
hours, and is sold for \$1,500.

The New York Circular Saw-Mill.
It is manufactured only by this Company. It is of
superior construction, and sold for 25 per centum
less than other mills of no greater capacity. A
mill with 60 to 34-inch saw can be sold for \$450
to \$500, and with a 30 horse engine and boiler is
sold for \$2,200.

New Engines and Boilers: Engines of from
1 to 100 horse power; Locomotives, Flue, Tubec
and Cylinder Boilers furnished at greatly reduced
prices from former quotations.

Drawings with plans and specifications for
building and machinery, furnished gratis to our
customers.

Competent mechanics are sent out to put up
and set on operation our machinery, when re-
quired.

We also manufacture Shingle Machines, Plan-
ing Machines, Sugar-Mills, and Machinery in
general.

Special attention paid to getting up Shipping,
and Boilers for manufacturers, and all kinds of
Mill Wright work.

This Company are selling in great numbers a
Patent Conical Bar Stone Mill, for flour, corn
meal, and all kinds of feed, which is pronounced
by experienced millers, both in this country and
in Europe, the best mill ever constructed. It will
grind more grain in the same time, and with
the power, of any mill of the same price in
the market.

We also furnish other styles of Grist Mills, when
required.

J. M. EMERSON & CO., Agents,
No. 371 Broadway, N. Y.

UNRIVALED ATTRACTIONS!
EMERSON'S MAGAZINE,
AND
PUTNAM'S MONTHLY.

TWO GREAT MAGAZINES IN ONE.
50,000 COPIES, THE FIRST MONTH.

MAGNIFICENT PROGRAMME FOR 1858—
\$20,000 in works of Art. FIVE DOLLAR EN-
GRAVING in every number. THE GREAT
LIBRARY OFFER.

The Union of Emerson's Magazine and Putnam's
Monthly has given to the world the best work a
circulation second to but one similar publication in
the country, and has secured for it a combina-
tion of literary and artistic talent probably un-
rivaled by any other Magazine in the world. Dur-
ing the first month, the sale in the trade and
demand from subscribers exceeded 60,000 copies
and the numbers already issued of the consolida-
tion are universally conceded to have sur-
passed in the richness of their literary contents,
and the beauty and profuseness of their pictorial
illustrations, any magazine ever before issued
from the American press. Encouraged by these
evidences of favor, the publishers have deter-
mined to commence the new volume in January
with additional attractions, and to offer such
inducements to subscribers as cannot fail to place
it, in circulation, at the head of American Maga-
zines. With this view they now announce the
following splendid programme. They have pur-
chased that superb and costly steel-plate Engra-
ving,

"THE LAST SUPPER,"

and will present a copy of it to every three dol-
lar subscriber for the year 1858. It was en-
graved at a cost of over \$60,000, by the late celeb-
rated A. L. Diez, from the original of Raphael
Mughera, after Leonardo Da Vinci, and is the
largest steel-plate engraving ever executed in this
country, being three times the size of the
ordinary three-dollar engravings.

The first impressions of this engraving are
held at \$10, and it was the intention of the ar-
tist that none of the Engravings should ever be
offered for a less sum than \$3, being richly worth
that amount. Thus every three-dollar subscriber
will receive this splendid engraving, richly worth
\$3, thus getting for \$3 the value of \$8.

We shall commence sending out the engravings
immediately, yet you had better be expected that
impersonal of so large a plate can be taken as
fast as they will be called for by subscribers.
We shall therefore, furnish them in the order in
which subscriptions are received. Those who
desire to obtain their engravings early, and from
the first impressions, should send in their subscrip-
tions without delay. The engravings can be
sent on rollers, by mail, or in other manner,
as subscribers shall order.

\$20,000 IN WORKS OF ART.

In addition to the superb engraving of "THE
LAST SUPPER," which will be presented to
every three-dollar subscriber for 1858, the pub-
lishers have completed arrangements for the dis-
tribution of 20,000 copies of a selection of
series of splendid works of art, consisting of one
hundred rich and rare old paintings, valued at
from \$100 to \$1000 each. Also, 2,000 magnific-
ent Steel-Plate Engravings, worth from \$3
to \$5 each, and 1,000 choice Holiday books, worth
from \$1 to \$5 each, making in all over THREE
THOUSAND GIFTS, worth TWENTY THOU-
SAND DOLLARS.

Involving \$3 to the publishers and you will com-
mence receiving the Magazine by return mail.—
You will also receive with the first copy a nu-
merous subscription receipt, entitling you to the
Engraving of "THE LAST SUPPER," and a
chance to draw one of these "THREE THOUS-
AND PRIZES."

Reasons why you should subscribe
EMERSON'S MAGAZINE for 1858.

First: Because its literary contents will, dur-
ing the year, embrace contributions from over
one hundred different writers and thinkers, num-
bering among them the most distinguished of A-
merican authors.

Second: Because its editorial department, "Our
Studio," "Our Window," and "Our Opio,"
will each be conducted by an able editor—and
it will surpass in the variety and richness of its
editorial contents, any other magazine.

Third: Because it will contain, during the
year, nearly six hundred original illustra-
tions, and colored by the first American ar-
tists.

Fourth: Because for the sum of \$3 you will
receive this splendid monthly, more richly worth
than than any other magazine, and the
superb Engraving of "The Last Supper."

Fifth: Because you will very likely draw one of
the three thousand prizes to be distributed on
the 25th of December, 1858—perhaps one that
is worth \$1,000.

Notwithstanding that these extraordinary in-
ducements can hardly fail to accomplish the
object of the publishers without further efforts,
they have determined to continue thro' the year
THE GREAT LIBRARY OFFER.

To any person who will get up a club of twen-
ty-four subscribers, either at one or more post
offices, we will present a splendid Library, em-
bracing the most popular works in the market.
The club may be formed at the club price, \$2 a
year, without the engraving, or at the full price,
\$3 a year, with the engraving of the last Supper
to each subscriber. List and description of the
Library, and particulars of the offer, will be
forwarded on receipt of 25 cents. Over 500
Libraries, of 5,000 volumes, have already been
distributed in accordance with this offer, and we
should be glad to furnish a library to every cler-
gyman, to every school-master, or to some one at
every post office in the country.

AGENTS GETTING RICH.

The success which our agents are meeting
with is almost astonishing. Among the many
evidences of this fact, we are permitted to pub-
lish the following:

GENTLEMEN:—The following facts in relation
to what your agents are doing in this section
may be of use to some enterprising young man
in want of employment. The Rev. John E. Jar-
den, of this place, has made, since last Christ-
mas, over \$4,000 in his agency. Mr. David M.
Smith, of Hildy, Mo., your general agent for
Platt county, is making \$70 per day on each sub-
scent employed by him, and Messrs. Weimer &
Evans, of Oregon, Mo., your agents for Holt co.,
are making from \$8 to \$25 per day, and your
humble servant has made, since the seventh day
of last January, over \$1,700, besides having re-
ceived 500 acres of land out of the business worth over
\$1,000. You are at liberty to publish this state-
ment, and to refer to any of the parties named.

DANIEL GREGG, Carrollton, Mo.

With such inducements as we offer, anybody
can obtain subscribers. We invite any gentle-
man out of employment, and every lady who de-
sires a pleasant money-making occupation to ap-
ply at once for an agency. Applicants should
enclose 25 cents for a specimen copy of the mag-
azine, which will always be forwarded with an
answer to application by return mail.

SPECIMEN ENGRAVING.—As we desire to
place in the hands of every person who proposes
to get up a club, and also of every agent, a copy
of the engraving of "THE LAST SUPPER," as a
specimen, each applicant enclosing us \$3 will re-
ceive the Engraving, post-paid, by return mail
also specimens of our publications and one of the
numbered subscription receipts, entitling the hol-
der to the Magazine one year and to an entrance in
the distribution. This offer is made only to those
who desire to act as agents or to form a club.

Address,
OAKSMITH & CO.,
