NOTICES OF THE PRESS.—THE SCHOOL JOURNAL, is the title of a monthly publication edited by Townsend, Martin & Lukens, the July number of which is now upon our table.

"After twenty years of uninterrupted prosperity, the country finds itself in the midst of one of those business reversions which are the inevitable consequences of extended trade and commerce, and which human laws are inadequate to prevent."

"The enemies of the Democratic party, ever on the alert for political capital, are now proceeding to press this new element into their service. But will the country trust these reckless and unprincipled schemers? Who stood higher in the Old Whig party, as the advocate of a protective tariff, than Ashman of Mass., and Vinton of Ohio? And yet, only two years ago, these men, in conjunction with other leading men of the protective policy, organized themselves into a regular lobby association at Washington, with the avowed object of admitting iron (the loudest interest for a high tariff) duty free!

"They sent circulars to all the mammoth railroad corporations, offering their service to lobby for low duties or no duties for the stipulated hire! Look at the revelations of the late tariff investigating committee, and

you will find the great Thurston Weed receiving a \$5000 fee for labor in the cause of free trade, against one of the great agricultural interests of the East and West. And yet, this man, in his editorial capacity, is clamorous for high duties! I ask again, can the country trust such a gang of exposed and convicted political hypocrites? With them, the welfare of the country is secondary to personal aggrandizement."

GREAT DISCOVERY OF THE AGE, Important to TOBACCO CHEWERS. DR. GUSTAV LINNARD'S TASTE RESTORATIVE TROCHES.

It is a well known and incontrovertible fact that the use of Tobacco is the promoting cause of many of the most severe MENTAL AND PHYSICAL DISORDERS to which the race of man is subject, as our daily analysis and long and painful experience now have clearly proven that it contains certain narcotic and poisonous properties which are dangerous in their effect, which by entering the blood deranges the functions and operation of the heart, causing many to suppose that organs to be seriously diseased.

TOBACCO affects also the entire nervous system, manifesting itself—as all who have used it anxiously would bear testimony—in Lassitude, Nervous Irritability, Water Brash, Dyspepsia, and many other disorders of a similar character. THE TASTE RESTORATIVE TROCHES are designed to counteract these baneful influences and have proved completely successful in a multitude of cases, and wherever used. Being harmless in themselves they exert a beneficial effect upon the entire system, restoring the Taste which has become vitiated or destroyed by great indulgence, completely removing the irritation and accompanying tickling sensation of the Throat which are always consequent upon the abstention from the use of Tobacco, and by giving a lenient tone to the stomach invigorate the whole system.

Persons who are irremediably undermined by their constitutions and shortening their lives should use these Troches immediately and throw off the injurious and unpleasant habit of Tobacco chewing.

These Troches or Lozenges are put up in convenient and portable form at the low price of 50 cents per box. A liberal discount to the trade. Prepared solely by the undersigned to whom all orders should be addressed.
