Home Affairs.

THE COMET.—This beautiful object is now daily in full view, in our clear nights, in the northwest part of the heavens, from sun-down until 10 P. M. Its appearance is magnificent beyond description: being the size of a star of the first magnitude with a train of at least ten degrees in length. This train is quite bright and luminous, and is slightly curved from the body of the comet to its termination.

Two other comets are said to be in view, besides the one we see every evening:—but we have had no personal acquaintance with them, therefore can give no description of them.

INSTITUTE.—The annual institute or examination of Teachers for the ensuing winter, is now in progress at this place.—We have not been present during its session, but we understand it is well attended. Yesterday evening it adjourned to the Court House from the Town Hall, where it is being held, and an interesting address was delivered by Rev. A. McLeod. Public examinations take place to-day; whence it will adjourn to Lumber city, commencing to-morrow.

THE WEATHER for some weeks has been delightful in the highest degree. The only drawback at all being the coolness of the nights and the heavy fogs in the morning. The days throughout are clear, and the atmosphere dry and bracing: well adapted to either labouring, sporting or lounging. Autumns such as we have had thus far this season are rare indeed, and we can not be too grateful to a kind Providence for such exalted favors as we daily receive at his hands.

ARRESTED.—A young man named McAnear was arrested last week and lodged in our jail, charged with stealing a horse from Joseph McClarren Esq. of Decatur tp. some time last summer. We do not know anything about the circumstances, further than that the young man alleges that he is innocent of any wrongful design in taking the horse, which, by the way was recovered shortly after it was taken. We trust for his sake it may turn out as he relates it.

STOVES.—Wm. C. Neman, 33 north 2nd. street, Philadelphia, called the attention of the public in our last issue, to his large and splendid as ortment of stoves of all kinds which he has on hand and is very anxious that somebody should have the use of, if they will fork over to him the low price he puts on them. "Meghee's patent gas burning stoves" is particularly recommended. His card is still to be found in our paper.

TO OUR READERS.—Owing to having a large quantity of tickets to print for the approaching election, we have not been able to furnish the "Republican" with as great a variety of matter as we could have desired; but after one more issue the election will be over, and we will then be enabled to give more attention to news and variety.

THE ATTENTION of Lumbermen is called to the letting of the large Steam Saw Mill of the Alleghaney & Bald Eagle Railroad, Coal & Iron Company, for which proposals will be received by J. T. Hoover Esq. Secretary of the board, at Bellefonte Pa. until the 9th of the present month.

MCADAMIZING.—Esq. Wrigley is now engaged in filling up his side of the street in front of his dwelling, with earth and gravel. This will be quite an addition to our street, when the whole street has been filled up in like manner. Mr. W's example should be followed by his neighbors, on record street.

CLOVER HULLERS.—The Messrs. Haupt of Millheim, Center Co. Pa., advertises their celebrated Clover Huller, which if possessed of the qualities they allege, will be a valuable piece of agricultural machinery; and we have no doubt they state nothing but facts in relation thereto.

AMBROTYPING.—In our advertising columns will be found the card of Mr. A. M. Hall photographic artist who is now operating in our town. We have not yet seen any of his specimens, but he has the reputation of being a good artist. The best way to find out is to have your picture taken at once.

SURGICAL OPERATION.—Drs. Wilson and Hartwick of this place, with their assistants, performed yesterday with compete success, a most difficult surgical operation upon the person of Mr. Thomas Wood of Lawrence township. This operation consisted in the removal of a large tumor from the back of the patient, which when detached weighed between three and four pounds. The patient bore the operation with much fortitude, and was able to go home, a disance of about two miles, on foot after it was over.

READ ALL OUR new advertisements, there may be something in them of importance to you.

ERRORS.—The little that I have seen the world and know of the history of mankind, teaches me to look upon their errors in sorrow, not in anger. When I see the history of one poor heart that sinned and suffered, and represent to myself the struggles and temptations it yielded trough; the brief pulsation of joy; the feverish inquietude of hope and fear; the tears regret; the feebleness of purpose; the pressure of want; the desertion of friends; the scorn of the world, that has no charity; the desolations of the soul's sanctuary, and threatening voices within; the light gone; happiness gone; I would fain pity the erring soul of my fellow-man and Him from whose hands it came.—*Exchange.*

ENCAMPMENTS.

The Williamsport State Encampment which took place in the early part of the month was an elegant affair, although not so large as expected. The companies we understand numbered about twenty.

The Bellefonte encampment held last week was very nearly as large as the one at Williamsport, and is said to have been much the largest ever held in the county. We have not room this week to notice either of them any more at length, or we should be tempted to do so. Another is now in progress in Hollidaysburg which is also expected to be very large. These circumstances would seem to indicate a revival of the ancient military spirit of Pennsylvania, which for the last few years, had almost disappeared. We are sorry the spirit has not reached Clearfield.

MURDER OF FIVE YOUNG GIRLS IN SPAIN.—The Barcelona journals contain an account of a horrible and almost incredible assassination of five young girls, at Vich, in Catalonia. It appears that, on the 21st ult., as six young girls of the age of 23, 21, 14, 13, 12 and 10 years, were walking home from Mataus cotton mills, which are situated near the village of Rodas, to Ingarolas they were stopped by two miscreants, who, pistol in hand, obliged them to turn back to a solitary place in Sherradanwood.—Here they were ordered to sit down, and while one wretch kept guard over five, the other led the eldest a few paces off and plunged his long Cataline knife into her throat. Her dying shriek was heard by her companions, who, one by one were led away and butchered. The youngest of all, a child of 10 years, on receiving a wound in the neck, fell, feigning death, upon which the assassins, after taking the little money the girls had about them, went to the village of Rodas, where they lived.

The crime was perpetrated at night.—The wounded child remained motionless till daylight, when she crawled to a neighboring farmhouse. When the authorities arrived at the seat of crime, they found the three eldest girls dead, and two desperately wounded. The cause of this bloody act is said to have been jealousy, arising from some display of coquetry at a ball on the preceeding Sunday, where the prettiest of the girls, the one 21 years of age, refused to dance with one of the assassins, or to return him a ring or some other love token. He had then looked for an accomplice, and found one in a neighbor. The accomplice, it appears from the deposition of the child, would have spared the younger ones, but the other, alleging the danger of discovery, insisted upon completing their butcher's work. The authorities are making the most active exertions to discover the lurking places of the culprits, whose persons are well known to the workman of the numerous mills.

GREAT EQUESTRIAN FEAT.—The feat of riding two hundred consecutive miles within ten hours was accomplished June 13th, 1858, by Thomas McNab, over the union Course, San Francisco, California, before an immence concourse of spectators. Mr. McNab rode California stock entirely, 42 of the best horses in the neighbourhood having been provided for the occasion. The running commenced at 7 o'clock, A. M., and terminated at 5 o'clock P. M., less thirteen minutes, leaving him winner of the wager of $2,500 by 11½ minutes. Mr. McNab stopped to refresh himself between the 71st and 80th miles, and again between the 111th and 120th miles' occupying from four to five minutes each time, and on another occation sat on the grass and rested for nine minutes. He accomplished the two hundred miles in 11½ minutes less than the time given. At the expiration of the performance, Mr. McNab mounted the stand apparently fresh and undistressed, and offered to wager $500 or $1000 that he would ride fifty miles more in two and a half hours.

THE INDIAN WAR IN OREGON.—We learn that Father De Smet has received a despatch from Washington requesting him to join Gen. Harney at New York as chaplain to the army in Oregon. Apart from all considerations of a religious or spiritual character, there is eminent propriety in the selection of Father De Smet for his position. It was he who first preached the doctrines of Christianity to the Northern Ultramontane Indians, and he is consequently regarded with especial reverence by those tribes who dwell in the country which is the theatre of the Oregon Indian war. There can be no doubt that his influence over them will facilitate the realization of the purposes of the government. In no part of Oregon is the "Big Black Gown" unknown or unappreciated. His influence over the Blackfeet nation is supreme, and the Flatheads and adjacent tribes are scarcely less submissive to his counsels. The government has therefore consulted its own interests in his appointment to the chaplaincy of the Oregon army.—*St. Louis Dem.*

ADELAIDE WEAVER, a very smart young lady has recently been arrested for stealing in fashionable boarding houses at New York. Her style was a genteel one. A charming pert talker, a splendid player on the piano, a delightful singer, well read in the current fashionable literature of the day and brimful of life, fun and wit, she, with perfect facility worked her way first into the confidence of the gentlemen and lady boarders, and next and lastly into the plethoric portmonnais of the former, and the wardrobes and jewelry of the latter.—Her arrest has brought to a sudden termination a very brilliant career.

WONDERFUL ACHEIVEMENT.—M. Garvani, a French machinest, has, it is said perfected his aerial ship, at the cost of 300,000 francs, and made a voyage to Algiers, Africa, and back with it—a distance of fifteen hundred miles from the starting point. The average speed was almost one hundred miles an hour, the voyage occupying eighteen hours. M. Garvani is to make the attempt from Havre to the city of New York as soon he has further tested the character of his invention by a few short trips over the Mediterranean and thd neighboring provinces.

THE GREAT PURIFIER!—
THE WORLD CHALLENGED!—
TO PRODUCE ITS EQUAL!
THE BLOOD SEARCHER
GLORIOUSLY TRIUMPHANT!

Sworn statement of David McCreary, of Napier township Bedford county:

In April, 1856, as near as I can remember, a small pimple made its appearance on my upper lip, which soon became enlarged and sore. I used poultices of sorrel, and a wash of blue vitriol, without effect. Finding the sore extending, I called on Dr. Ely, of Schellsburg, who pronounced it CANCER, and prescribed a wash of sugar of lead, and bread poultices. Finding these remedies of no avail I called on Dr. Shaffer, of Davidsville, Somerset county, who also pronounced the disease Cancer, and gave me internal and external remedies—the latter consisting principally caustic; but all to no purpose, as the disease continued spreading toward the nose. I next used a preparation of arsenic in the form of salve. This for a time checked the disease, but the inflamation soon increased. I next called on Dr. Statler of St. Claire ville, Bedford county, who also pronounced the disease Cancer, and applied a salve said to be a never failing remedy, but it had no effect whatever in checking the spread of the sore. In December of the same year, the disease had eaten away greater part of my upper lip, and had attacked the nose, when I went to Cincinnati, where I consulted Prof. R. S. Newton, of the Electic Medical College. He pronounced the disease "a cutaneous Cancer, superinduced by an inordinate use of mercury." He applied mild zinc ointment, and gave me internal remedies. My face healed up, but the inflamation was not thoroughly removed. In February, 1857, he pronounced me cured, and I left for home. In April the disease again returned and so violent was the pain that I could not rest at night. Late in May I returned to Cincinnati, and again placed myself under the charge of Dr. Newton, with whom I remained until September, during which time he used every known remedy, and partly succeeded in checking the disease, but when I returned home there were three discharging ulcers upon my face. I continued using Newton's preparations, and also medicine that I got from Dr. Ely, but the Cancer continued growing until it had *eat off the left side of my nose, the center portion of my left cheek, and had attacked my left eye.* I had given up all hops of ever being cured, since Dr. Ely said he could only give relief; but that a cure was impossible. In March, 1858 I bought a bottle of "Blood Searcher," but I must confess that I had no faith in it. I was very weak when I commenced taking it, but I found that I gained strength day by day, and also that the ulcers commenced drying up. I continued, and when the third bottle was taken my face was healed as if by a miracle. I used a fourth bottle, and I have been healthier since than I have been for the last seven years. Although my face is sadly disfigured, I am still grateful to a benign Providence who has spared my life, and which has been done all through the instrumentality of LINDSEY'S IMPROVED BLOOD SEARCHER. NEW EVIDENCE.

Being afflicted with a grevious Tetter on the arms and face—after trying many remedies which utterly failed, to cure—I was persuaded by W. M. Harris & Co., to try Lindsey's Improved Blood Searcher and now, six weeks after finishing the *second bottle*, pronounce myself cured.

The tetter broke out, something over a year ago, on the inside of my arms, extending from the elbows down to the wrists; also, on my face, immediately round the mouth and chin, and continued to be a perfect torment to me until cured by the Blood Searcher. My arms, at times, were almost useless, owing th the cracks and sores on them, liable to bleed at any time on the least exertion to lift or work, and sometimes so itchy that I could scarcely prevent tearing off my flesh. I have now been cured six weeks, and feel it due to Mr. Lindsey, and to the public generally, to make this statement, in hope that others like myself may be benefitted by using his valuable medicine.

5,000 Acres

Of Valuable

TIMBER LAND

At Private Sale.

THE Subscribers offer at private sale a large body of the most valuable TIMBER LAND in the state; comprising about Five Thousand Acres, surveyed and warranted as follows, viz No. 5066, containing 990 acres; no. 5067, containing 883 acres; surveyed in the name of Wm. Powers; and no. 5673, containing 1041 acres, no. 5674, containing 1041 acres, no. 5675, containing 1041 acres surveyed in the name Moore & Delany.

These lands are situated on Bennett's Branch of Sinnemahoning Creek, in Huston tp. Clearfield county Pa., and are within a few miles of the route of the

Sunbury & Erie Railroad

which is now being hastened to completion. They are heavily timbered, being covered with a thick growth of Hickory, Beech, White Oak, with a large proportion of the best of

WHITE PINE;

and have been pronounced by competent judges equal to any timber lands in Clearfield county. They are favourably situated for operating upon: Bennett's Branch of **Sinnemahoning Creek** is a public HIGHWAY, and NAVIGABLE steam, upon which large quantities of timber are annually carried to market.

The character of these lands is well known to all persons acquainted with the lumber regions of Clearfield and Elk counties, and persons examining them will find that the description given above, instead of exaggerating, falls far short of pointing out all their advantages to the Lumberman, the Speculator, or the Capitalist.

They will be sold on *REASONABLE TERMS*, either in a body, or separately in sections to suit purchasers.

UNRIVALED ATTRACTIONS!

EMERSON'S MAGAZINE,

AND

PUTNAM'S MONTHLY.

TWO GREAT MAGAZINES IN ONE.

100,000 COPIES, THE FIRST MONTH.

MAGNIFICENT PROGRAMME FOR 1858.—$20,000 in works of Art. FIVE DOLLAR ENGRAVING to every subscriber. THE GREAT LIBRARY OFFER. Agents getting rich.

The union of Emerson's Magazine and Putnam's Monthly has given to the consolidated work a circulation second to but one similar publication in the country, and has secured for it a combination of literary and artistic talent probably unrivaled by any other Magazine in the world. During the first month, the sale in the trade and mail from subscribers exceeded 80,000 copies the numbers already issued of the consolidated are universally conceded to have surpassed in the richness of their literary contents, the beauty and profuseness of their pictorial illustrations, any magazine ever before issued from the American press. Encouraged by these evidences of favor, the publishers have determined to commence the new volume in January with additional attractions, and to offer such inducements to subscribers as cannot fail to place it, in circulation, at the head of American Magazines. With this view they now announce the following splendid programme. They have purchased that superb and costly steel-plate Edgraving,

"THE LAST SUPPER,"

and will present a copy of it to every three dollar subscriber for the year 1858. It was engraved at a cost of over $6,000, by the late celebrated A. L. Dick, from the original of Raphael Morghen, after Leonardi Da Vinci, and is the largest steel-plate engraving ever executed in this country, being three times the size of the ordinary three-dollar engravings.

The first impressions of this engraving are held at $10, and it was the intention of the artist that none of the Engravings should ever be offered for a less sum than $5, being richly worth that amount. Thus every three-dollar subscriber will receive the Magazine one year—cheap at $3—and this splendid engraving, richly worth 5; thus getting for $3 the value of $8.

We shall commence striking off the engravings immediately, yet it can hardly be expected that impressions of so large a plate can be taken as fast as they will be called for by subscribers.—We shall therefore, furnish them in the order in which subscriptions are received. Those who desire to obtain their engravings early, and from the first impressions, should send in their subscriptions without delay. The engravings can be sent on rollers, by mail, or in other manner, as subscribers shall order.

$20,000 *IN WORKS OF ART.*

In addition to the superb engraving of "THE LAST SUMMER," which will be presented to every three-dollar subscriber for 1858, the publishers have completed arrangements for the distribution, on the 25th of December, 1858, of a series of splendid works of art, consisting of one hundred rich and rare old paintings, valued at from $100 to $100 each. Also, 2,000 magnificent Steel-Plate Engravings, worth from $5 to $5 each, and 1,000 choice Holiday books, worth from $1 to $5 each, making in all, over THREE THOUSAND GIFTS, worth TWENTY THOUSAND DOLLARS.

Inclose $3 to the publishers and you will commence receiving the Magazine by return mail. You will also receive with the first copy a numbered subscription receipt, entitling you to the Engraving of "THE LAST SUPPER," and a chance to draw one of these "THREE THOUSAND PRIZES."

reasons why you should subscribe *EMERSON'S MAGAZINE for* 1858.

First: Because its literary contents will, during the year, embrace contributions from over one hundred different writers and thinkers, numbering among them the most distinguished of American authors.

Second: Because its editorial departments, "Our Studio," "Our Window," and "our Ollo," will each be conducted by an able editor—and it will surpass, in the variety and richness of its editorial contents, any other magazine.

Third: Because it will contain, during the year, nearly six hundred original pictorial illustrations, from designs by the first American artists.

Fourth: Because for the sum of $3 you will receive this splendid monthly, more richly worth that sum than any other magazine, and the superb Engraving of "The Last Supper."

Fifth: Because you will very likely draw one of the three thousand prizes to be distributed on the 25th day of December, 1858—perhaps one that is worth $1,000.

Notwithstanding that these extraordinary inducements can hardly fail to accomplish the objects of the publishers without further efforts they have determined to continue thro' the year

THE GREAT LIBRARY OFFER.

To any person who will get up a club of twenty-four subscribers, either at one or more post offices, we will present a splendid library, consisting of over Forty Large Bound Volumes embracing the most popular works in the market. The club may be formed at the club price, $2 a year, without the engraving, or at the full price, $3 a year, with the engraving of the last Supper to each subscriber. List and description of the Library, and specimen copy of the Magazine will be forwarded on receipt of 25 cents. Over 200 Libraries, or 8,000 volumes, have already been distributed in accordance with this offer, and we should be glad to furnish a library to every clergyman, to every school-master, or to some one at every post office in the country.

AGENTS GETTING RICH.

The success which our agents are meeting with is almost astonishing. Among the many evidences of this fact, we are permitted to publish the following:

GENTLEMEN:—The following facts in relation to what your agents are doing in this section, may be of use to some enterprising young man in want of employment. The Rev. John E. Jardon, of this place, has made, since last Christmas, over $4,000 in his agency. Mr. David M Heath, of Ridgly, Mo., your general agent for Platt county, is making $8 per day on each subagent employed by him, and Messrs. Welmer & Evans, of Oregon, Mo., your agents for Holt co., are making from $8 to $25 per day, and your humble servant has made, since the seventh day of last January, over $1,700, besides having for 500 acres of land out of the business worth over $1,000. You are at liberty to publish this statement, and to refer to any of the parties named.

DANIEL GREGG, Carrollton, Mo.

With such inducements as we offer, anybody can obtain subscribers. We invite any gentleman out of employment, and every lady who desires a pleasant MONEY-making occupation to apply at once for an agency. Applicants should inclose 25 cents for a specimen copy of the magazine, which will always be forwarded with answer to application by return mail.

SPECIMEN ENGRAVING.—As we desire to place in the hands of every person who proposes to get up a club, and also of every agent, a copy of the engraving of the "LAST SUPPER," as a specimen, each applicant enclosing us $3 will receive the Engraving, post-paid, by return mail also specimens of our publications and one of the numbered subscription receipts, entitling the holder to the Magazine one year and to a chance in the distribution. This offer is made only to those who desire to act as agents or to form Clubs.
