

The First Train.—We were not a little surprised to see on last Saturday morning standing in front of the court house, some thing very suggestive of a railroad car, and our first idea was that we must have been indulging in a "Rip Van Winkle" nap, and that during our protracted slumbers, the Tyrone Clearfield & Erie Railroad had been completed and was now in full tide of operation.

Change of Time.—The time of leaving this place for Tyrone by the stage line of Messrs. Foster & Williams has recently been changed from two to seven A. M. which allows passengers for the east to take breakfast before starting. This arrangement went into effect last Monday morning, and will we think be much more in accordance with the wishes of the traveling community, than the former time of leaving this place at from one to two o'clock in the morning, without breakfast.

The Weather, still continues mild and pleasant, although we have had a few blustery days within the last week or two. Yesterday it rained as it usually does on election day, but the temperature was by no means cold or disagreeable notwithstanding the very prosopitable decrease in the amount of artificial heat used on such occasions.

When Dr. VALL'S GALVANIC OIL was first introduced into the market, it never was thought of being applied, by the proprietor, to Lung Diseases, but its being applicable to almost every other disease, the afflicted have used this preparation in Consumption, and, although it has never cured a purely consumptive patient, yet it has saved many who have been prone to die by country merchants generally.

MAGOE HARTMAN, Sec.

By the Arabia we learn that in the contest between Morphy and Harwitz, it is tables here, as was expected, turned in favor of Morphy. Of the seven games comprising the game, six had already been played, with our countryman ahead. Harwitz is considered by good judges, the best Chess player in Europe. He is employed to play games against all comers at the Cafe de la Regence, Paris.

Nobody likes to meddle with a woman whose disposition contains the essence of lightning, vitriol, cream of tartar, and harshness; who manufactures words by the yard and measures their meaning in a shamble.

There is not a heart but has its moments of longing, yearning for something better, nobler, holier than it knows now.

Somebody "out west" has discovered the "path of rectitude," but reports it sadly overgrown.

New Phases of Mormonism.

A correspondent of the Buffalo Daily Courier describes the fortifications at the famous Echo Canon, where the Mormons proposed to cut off the American Army, on their march to Salt Lake City. The Canon is said to be twenty miles long—the walls approaching each other within one hundred yards at the distance of about three miles from its mouth. The walls are six hundred feet high, so that persons standing on the top could easily crush those below with heavy projectiles.

Within the space of three or four yards, in the bottom of the Canon, extending from bank to bank, were four entrenchments. The first three were simple ditches, each with a parapet wall on the inner side. The fourth, or innermost entrenchment, was constructed with greater care; and while behind the parapet the Mormons could securely deliver their fire, it had also been made to serve the purposes of a dam, and was provided with a sluice gate, by the opening of which it was in their power to inundate the space in front of the works, with water of a little creek flowing at the bottom of the Canon, and thus present an obstacle to the attack of the U. S. troops.

There were also several stone wall defenses erected across the mouths of two lateral canons, with loop holes for musketry. The indications in the vicinity of the works showed that from 1000 to 1500 men were engaged in the building up of the defenses. The remains of about 50 poles and mud lodges, which served as barracks, were to be seen. In their midst were the remains of a larger lodge, supposed to be the quarters of the Commanding Officer. It is said however, that all these defenses were to be demolished by a few shots. In fact, the arrangements of the Mormons were suited only for a sort of guerilla warfare, and not for any regular engagement.

The writer describes the condition of the Mormons as wretched and demoralized in the extreme, and is of the opinion that the United States Government should step in and put a stop to their disgusting practices of polygamy. He scents the idea of suffering them to go on in their gross immorality under the plea of religious liberty, and says such a plea might as well be set up by a sect who should practice the Spartan doctrine of theft as part of their religion. Theft is a crime against society, and so is prostitution; and he argues that the one should not be tolerated any more than the other.

The extreme of poverty is to be met with among the Mormons. There are persons so poor that they scarcely see a pound of meat the whole year, and some have not had a dollar for many years. Many of the women are almost destitute of clothing, and are really objects of pity. It is also said that the Mormons were the instigators of the Indians to murder a party of emigrants, and that the most corrupt practices prevail among them. A proposition is made that the Government shall provide for the removal of all who desire to quit the Territory. There are said to be many whose hearts are aching to expose to the world their wrongs; but they cannot do it, for they do not know how soon the troops may leave, and therefore how soon they may be called to account for their apostasy, the penalty of which, in many instances, is death.

FANCY FURS FOR LADIES & CHILDREN.

JOHN FAREIRA & CO. No. 818 (New No.) Market st, above 8th, Philadelphia. Importers, Manufacturers and Dealers in Fancy Furs For Ladies and Children; Also, Gent's Furs For Collars, and Gloves.

THE number of years that which we have been engaged in the Fur business, and the general character of our Furs, both for quality and price is so generally known throughout the country, that we think it unnecessary to say more than that we have now opened an assortment of FURS for the FALL and WINTER sale—the largest and most beautiful that we have ever before offered to the public. Our Furs have all been imported during the present season when they were scarce and

FURS MUCH LOWER

than at the present time, and have been manufactured by the most experienced workmen; we are therefore determined to sell them at such prices as will continue to give us the reputation we have borne for years, that is, to sell good articles for a very small profit. STOREKEEPERS will do well to give us a call, as they will find the largest assortment by far to select from in the City, and at manufacturers prices. JOHN FAREIRA & CO. No. 818 Market street, above 8th, Philadelphia. Sept. 29th, 1858. 409.

THE GREAT PURIFIER—THE WORLD CHALLENGED—TO PRODUCE ITS EQUAL—THE BLOOD SEARCHER—OR GLORIOUS TRIUMPHANT!

Sworn statement of David McCree, of Sapior township Bedford county: In April, 1856, as near as I can remember, a small pimple made its appearance on my upper lip, which soon became enlarged and sore. I used poultices of sorrel, and a wash of lime vitriol, without effect. Finding the sore extending, I called on Dr. Ely, of Schellsburg, who pronounced it CANCER, and prescribed a wash of sugar of lead, and bread poultices. Finding these remedies of no avail, I called on Dr. Ely, of Davisville, Somerset county, who also pronounced the disease CANCER, and gave me internal and external remedies—the latter consisting principally caustic; but all to no purpose, as the disease continued spreading toward the nose, I next used a preparation of arsenic in the form of salve. This for a time checked the disease, but the inflammation soon increased. I next called on Dr. Sailer of St. Clairsville, Bedford county, who also pronounced the disease CANCER, and applied a salve said to be never failing remedy, but it had no effect whatever in checking the spread of the sore. In December of the same year, the disease had eaten away greater part of my upper lip, and had attacked the nose, when I went to Cincinnati, where I consulted Prof. R. S. Newton, of the Eclectic Medical Institute. He pronounced the disease "a cutaneous Cancer, superinduced by an inordinate use of mercury." He applied mild zinc ointment, and gave me internal remedies. My face healed up, but the inflammation was not thoroughly removed. In February, 1857, he pronounced me cured, and I left for home. In April the disease again returned and so violent was the pain that I could not rest at night. Late in May I returned to Cincinnati, and again placed myself under the charge of Dr. Newton, with whom I remained until September, during which time he used every known remedy, and partly succeeded in checking the disease, but when I returned home there were three discharging ulcers upon my face. I continued using Newton's preparations, and also medicine that I got from Dr. Ely, but the Cancer continued growing until it had cut off the bridge of my nose, and protruded out of my left eye, and had attacked my left eye. I had given up all hope of ever being cured, since Dr. Ely said he could only give relief; but that a cure was impossible. In March, 1858 I bought a bottle of "Blood Searcher," but I must confess that I had no faith in it. I was very weak when I commenced taking it, but I found that it gained strength, and I continued, and when the third bottle was taken my face was healed as if by a miracle. I used a fourth bottle, and I have been healthier since than I have been for the last seven years. Although my face is sadly disfigured, I am still grateful to a benign Providence who has spared my life, and which has been done all through the instrumentality of LAMBERT'S IMPROVED BLOOD SEARCHER. DAVID MCCREE, Sworn and subscribed, this 31st day of August A. D. 1858, before me, one of the Justices of the Peace in and for the Borough of Hollidaysburg, Blair county, Pa. Witness—E. J. Jones. JOHN CORLEY, J. P.

NEW EVIDENCE.

Being afflicted with a greivous letter on the arms and hands after trying many remedies which utterly failed to cure—I was persuaded by W. M. Harris & Co., to try Lindsey's Improved Blood Searcher and now, six weeks after finishing the second bottle, pronounce myself cured. The letter broke up, something over a year ago, on the inside of my wrist, extending from the elbow down to the wrist, and, on my face, immediately round the nose, and chin, and continued to be a perfect torment to me until cured by the Blood Searcher. My arms, at times, were almost useless, owing to the cracks and sores on them, liable to bleed at any time on the least exertion to lift or carry, and sometimes so itchy that I could scarcely prevent tearing of my flesh. I have now been cured six weeks, and feel it due to Mr. Lindsey, and to the public generally, to make this statement, and to hope that others like myself may be benefited by using his valuable medicine. JANE WILSON, mark.

Sworn and subscribed before me, one of the Aldermen in and for the City of Pittsburg, this 28th day of July, A. D. 1858. AND, MASTER, Alderman. September 22, 1858.—500.

UNRIVALLED ATTRACTIONS.

EMERSON'S MAGAZINE. PUTNAM'S MONTHLY. TWO GREAT MAGAZINES IN ONE. 50,000 COPIES THE FIRST MONTH. MAGNIFICENT PROGRAMME FOR 1858.—\$20,000 in works of Art. FIVE DOLLAR ENGRAVING to every subscriber. THE GREAT LIBRARY OFFER. Agents getting rich.

The Union of Emerson's Magazine and Putnam's Monthly has given to the consolidated work a national second to no other similar publication in the country, and has secured for its combination of literary and artistic talent probably unrivalled by any other Magazine in the world. During the first month, the sale in the trade and from subscribers exceeded 50,000 copies—the numbers already issued of the consolidated are universally conceded to have surmounted the richness of their literary contents, beauty and profusion of their illustrations, any magazine ever before issued in American press. Encouraged by these evidences of favor, the publishers have determined to commence the new volume in January with additional attractions, and to offer such inducements to subscribers as cannot fail to place it, in circulation, at the head of American Magazines. With this view they now announce the following splendid programme. They have purchased that superb and costly steel-plate engraving "THE LAST SUPPER," and will present a copy of it to every three dollar subscriber for the year 1858. It was engraved at a cost of over \$6,000, by the late engraver A. L. Dick, from the original of Raphael Menges, after Leonardo Da Vinci, and is the largest steel-plate engraving ever executed in this country, being three times the size of the ordinary three-dollar engravings. The first impressions of this engraving are sold at \$10, and it was the intention of the artist that each copy of the Engraving should ever be offered for a few months at \$7, being richly worth that amount. Thus every three-dollar subscriber will receive the Magazine one year—cheap at \$5—and this splendid engraving, richly worth \$10, thus getting for \$5 the value of \$20.

"THE LAST SUPPER."

We shall commence striking off the engravings immediately, yet it can hardly be expected that impressions of so large a plate can be taken as fast as they will be called for by subscribers. We shall therefore, furnish them in the order in which subscriptions are received. Those who desire to obtain their engravings early, and from the first impressions, should send in their subscriptions without delay. The engravings can be sent on rollers, by mail, or in other manner subscribers shall order. \$20,000 IN WORKS OF ART. Also, 2,000 magnificent Steel-Plate Engravings, worth from \$3 to \$5 each, and 1,000 choice Holiday books, worth from \$1 to \$5 each, making in all, OVER THREE THOUSAND GIFTS, worth TWENTY THOUSAND DOLLARS.

EMERSON'S MAGAZINE for 1858.

First: Because its literary contents will, during the year, embrace contributions from one hundred different writers and thinkers, many being among them the most distinguished of American authors. Second: Because its editorial department, "Our Studio," "Our Window," and "Our Oil," will each be conducted by an able editor—and it will surpass in the variety and richness of its editorial contents, all other magazines. Third: Because it will contain, during the year, nearly six hundred original pictures, illustrations, from designs by the first American artists. Fourth: Because for the sum of \$3 you will receive this splendid monthly, more richly worth than any other magazine, and the superb Engraving of "The Last Supper."

Fifth: Because you will very likely draw one of the three thousand prizes to be distributed on the 25th day of December, 1858—perhaps one that is worth \$1,000. Notwithstanding that these extraordinary inducements can hardly fail to accomplish the objects of the publishers without further efforts, they have determined to continue "the year" to any person who will get up a club of twenty-four subscribers, either at one or more payments, or will present a splendid library, consisting of over Forty Large Bound Volumes, embracing the most popular works in the market. The club may be formed at the club price, \$2 a year, without the engraving, or at the full price, \$3 a year, with the engraving of the last Supper to each subscriber. List and description of the Library, and specimen copy of the Magazine will be forwarded on receipt of 25 cents. Over 20 Libraries, or 5,000 volumes, have already been distributed in accordance with the plan. You should be glad to furnish a library to every clergyman, every school-master, or to some one every post office in the country.
