THE ROAD TO SINNEMAHONING.—While the public attention of this locality has, like that of every other where, the Railroad, the Telegraph and the Newspaper has spread the news of the day, has been occupied with the great events that have been transpiring in various parts of the world, such as the Atlantic Telegraph, the Comet, the treaty with China, the Election and a variety of other topics "too tedious to enumerate," as the vendue bills say, a most important enterprize to this place, has been quietly progressing almost at our doors, which has scarcely received a thought. We refer to the new road recently constructed between here and Bennet's Branch of the Sinnemahoning creek, which is now open the entire distance.

The history of the construction, or rather, the improvement of this road, for it is a new road in part only, is about this: The want of a good road through the wilderness lying between here and Bennett's branch had been long felt by the citizens, both of this county and those adjoining us on the north. In view of this, application was made to the State Legislature at the Session of 1856, asking the appropriation of the road taxes collected upon the unseated lands lying in Huston township, and those of Lawrence and Pike townships lying west of the Susquehanah river, and north of the turnpike leading from Clearfield to Luthersburg, to the improvement of the township road leading from the former place to Bennetts branch of the Sinnemahoning creek, at or near Jesse Wilson's.

An act was accordingly passed appropriating the road taxes accruing from the land above stated, for six years from that time, to this object, and appointing Hon. A. K. Wright, and G. L. Reed Esq of this borough, and D. Tyler Esq of Huston tp. Commissioners to superintend said appropriation, with power, under certain regulations, to change the location of the road as in their judgment might seem proper. The summer following the passage of the act, a considerable portion of the north western end of the road was permanently repaired under the immediate supervision of Mr. Tyler. At the same time the commissioners deeming it expedient to alter the location over the "Barrens," proceeded to locate that portion, commencing at a point on the Luthersburg turnpike about one and a half miles west, and proceeding up Moose creek, thence over "Hog back" mountain until it intersects the old road about eight miles northwest of Clearfield. A portion of this was let, and considerable work was done on it that summer. During the next year occurred the financial crisis, which had its influence in embarrassing the efforts of the commissioners; then the taxes could only be applied as they were collected, and they only fell due in instalments extending over a period of six years. But, notwithstanding all these obstacles the work was steadily pushed forward by our public spirited and energetic commissioners, and now the bulk of their labors are completed. True, about two miles of the central part of the road need some repairing, which it will receive ere long; but they have opened out a thoroughfare through the wilderness to the northern boundary of our county which will be of vast advantage to the trade of our town, and will add largely to the amount of travel and transportation, between Tyrone and the regions beyond the Sinnamahoning valley.

The road is now equal in all respects, with the exception of the portion alluded to above, to any of the roads throughout this part of the country, having been either newly constructed or thoroughly repaired within two years.

A semi-weekly stage runs between here and Ridgway, leaving here, on Tuesdays, and Fridays, and arriving on Wednesdays and Saturdays, which connects with the line to Smethport and Olean. And we have no doubt this might at once be made a tri-weekly line with profit to the proprietors. At all event we are greatly mistaken if the travel over this route does not make such an arrangement necessary before many months.

This will now be the best and shortest route between Philadelphia by way of the Penna. Railroad, and all of Elk county excepting its extreme northern border, and greatly increases the facilities for transporting merchandise from the Penna. Railroad into Elk county. Twenty-five hundred pounds of freight can be taken over the new road with a span of horses as easily as over any other road in this region of country.

The commissioners are entitled to great praise for the energy with which they have prosecuted the duties of their appointment, and they will undoubtedly receive the thanks of the community for the successful completion of an enterprize, which however humble it may seem in the eyes of those who have not reflected upon its importance, will, we venture the assertion, vastly more advance the prosperity of this town than the laying of the Atlantic cable, even if it had been completely successful.

DEDICATION.—The new Baptist Church, which has just been completed on second street in this borough, is to be dedicated on next Sunday. A number of Ministers from a distance are expected to be present to assist in the ceremonies of the occasion. A notice in another column extends a cordial invitation to the public to attend the dedication services.

FATAL ACCIDENT.—Under our obituary head will be found a notice, in the usual brief form, of the death of Mr. John Kephart of Decatur township, but it does not tell all the story. The deceased met his death in a most shocking and unexpected manner. He had gone out on the day indicated by the obituary for the purpose of cutting down a tree supposed to contain, in a cavity in its trunk, a hoard of chestnuts deposited there by the squirrels for their winter's subsistence. While chopping at the tree, a rotten limb became detached from it, and falling upon his head crushed his skull. He lived but a short time after receiving the blow. He was a young man, in the flush of health and the full vigor of manhood, but the relentless hand of death would not be stayed, and with scarcely a moment's warning he was hurried into Eternity. His relatives and friends will the more deeply lament his untimely death, for its sudden startling cause.

THE COMET.—This interesting celestial object, after astonishing and delighting the world for a brief season, is evidently shaping its course for those illimitable regions of space, which it intends spending the next two hundred years, as astronomers calculate, in traversing with the same incomprehensible velocity with which it has travelled since it has made its appearance among the luminaries of our corner of the universe.

What a variety of reflections the sudden advent and disappearance of this beautiful and mysterious wanderer among the spheres is calculated to induce. Whither is it bound, what distance will it traverse ere it revisit us again, and to human vanity the most important of all, what changes will have been wrought in this little earth before two centuries have elapsed, who of all of us now living will be remembered, whose names of those who now control the destinies of nations will be handed down to that distant posterity, will this Earth itself be still a smiling frontal planet or have turned to chaos? Ah! pregnant inquries! Who shall answer them?

But apart from all this "chitlatin," it is evident that the comet is rapidly leaving us; and its immense caudal appendage which it flourished so extensively a few weeks ago has become "effete as nothing all any more," while its body is no larger than a star of the fifth or sixth magnitude and a very few days will bear it beyond the range of mortal vision. Good bye, and God speed!

NEW HOUSE.—Our townsman, J. B. McEnally Esq. has recently added another to the list of handsome residences which adorn our town. Within the last few days its chimneys have reared their tops alongside those of the buildings in its vicinity; and although a less pretending structure than some of the magnificent dwellings recently erected, yet for taste, neatness, and convenience of arrangement in the plan of its construction, it is not surpassed by any. Mr. M's house is situated on front street adjoining the residence of Mr. Alexander, and is a handsome addition to

HOAXED.—It seems that we were made the victim of a contemptible hoax by publishing, in our paper of the 6th inst. a couple of bogus marriage notices, sent to us by some contemptible fellow with more impudence than brains; none such ever having taken place. The parties who were made the subject of this pitiful jest, were Mr. Wm. G. McCracken and Miss Elizabeth Star, and Mr. Wm. Reed and Miss Amelia Shoening. We most heartily regret that we have been the innocent cause of placing them in a false light before the community, but the notice recieved was so plausible that a suspicion of its fraudulent character never entered our mind. We shall endeavor to be more careful in the future; and we would advise the perpetrators of this sensless joke, if intended as a joke, not to undertake to humbug us in that style again. This explanation we think is due to the paries concerned, and offer it cheerfully, as the best reparation we can make for the wrong done them.

COL. WM. T. ALEXANDER, the galiant and fearless editor of the *Clarion Democrat*, who with his family, is now on visit to this place, paid us a visit a few days ago. The Col. is one of the most experienced and influential democratic editors in western Pennsylvania; and is worthy of his well earned popularity. For a more unfaltering Democrat, and whole-souled gentleman, is hard to find any where. Notwithstanding the defeat of our party at the late election, he is in fine spirits, ready to meet the enemy whenever the day of battle comes round again.

CONVALESCENT.—We are glad to learn that our worthy neighbor, Mr. Isaac Johnston, who has been quite ill for some time with typhoid fever, is now convalescent.

Many cases of dysentery, in its most severe form, have been cured by the administration of DR VALL'S GALVANIC OIL. Cholera Morbus and all diseases of the bowels are relieved in a short time by a few drops of Galvanic Oil. *For sale by country merchants generally.*

THE GREAT PURIFIER!
THE WORLD CHALLENGES
TO PRODUCE ITS EQUAL
THE BLOOD SEARCHER
GLORIOUSLY TRIUMPHANT!

Sworn statement of David M'Creary, of Napier township Bedford county:

In April, 1856, as near as I can remember, a small pimple made its appearance on my upper lip, which soon became enlarged and sore. I used poultices of sorrel, and a wash of blue vitriol, without effect. Finding the sore extending, I called on Dr. Ely, of Bobellsburg, who pronounced it CANCER, and prescribed a wash of sugar of lead, and bread poultices. Finding these remedies of no avail I called on Dr. Shaffer, of Davidsville, Somerset county, who also pronounced the disease Cancer, and gave me internal and external remedies—the latter consisting principally caustics; but all to no purpose, as the disease continued spreading toward the nose. I next used a preparation of arsenic in the form of salve. This for a time checked the disease, but the inflamation soon increased. I next called on Dr. Statler of St. Clairsville, Bedford county, who also pronounced the disease Cancer, and applied a salve said to be a never failing remedy, but it had no effect whatever in checking the spread of the sore. In December of the same year, the disease had eaten away greater part of my upper lip, and had attacked the nose, which I went to Cincinnati, where I consulted Prof. R. S. Newton, of the Eclectic Medical College. He pronounced the disease "a cutaneous Cancer, superinduced by an inordinate use of mercury." He applied mild zinc ointment, and gave me internal remedies. My face healed up, but the inflamation was not thoroughly removed. In February, 1857, he pronounced me cured, and I left for home. In April the disease again returned and so violent was the pain that I could not rest at night. Late in May I returned to Cincinnati, and again placed myself under the charge of Dr. Newton, with whom I remained until September, during which time he used every known remedy, and partly succeeded in checking the disease, but when I returned home there were three discharging ulcers upon my face. I continued using Newton's preparations, and also medicine that I got from Dr. Ely, but the Cancer continued growing until it had *eat off the left side of my nose, the centre portion of my left cheek, and had attacked my left eye.* I had given up all hope of ever being cured, since Dr. Ely said he could only give relief; but that a cure was impossible. In March, 1858 I bought a bottle of "Blood Searcher," but I must confess that I had no faith in it. I was very weak when I commenced taking it, but I found that I gained strength day by day, and also that the ulcers commenced drying up. I continued, and when the third bottle was taken my face was healed as if by a miracle. I used a fourth bottle, and I have been healthier since than I have been for the last seven years. Although my face is sadly disfigured, I am still grateful to a benign Providence who has spared my life, and which has been done all through the instrumentality of LYNDSEY'S IMPROVED BLOOD SEARCHER. NEW EVIDENCE.

Being afflicted with a grevious Tetter on the arms and face—after trying many remedies which utterly failed to cure—I was persuaded by W. M. Barris & Co., to try Lindley's Improved Blood Searcher and now, six weeks after finishing the *second bottle*, pronounce myself cured.

The tetter broke out, something over a year ago, on the inside of my arms, extending from the elbows down to the wrists; also, on my face, immediately round the mouth and chin, and continued to be a perfect torment to me, as well by the Blood Searcher. My arms, at times, were almost useless, owing to the cracking and sores on them, liable to bleed at any time on the least exertion to lift or work, and sometimes so deep that I could scarcely prevent tearing of my flesh. I have now been cured six weeks, and feel it due to Mr. Lindsey, and to the public generally, to make this statement, in hope that others like myself may be benefitted by using his valuable medicine.
