

BOOKS.—The mud which last week was frozen up, has again "broke loose", and is now in an extremely liquid state.

ACCIDENT.—On last Monday, James Barchfield, eldest son of Mr. Joseph Barchfield, of this place, as he was hauling a heavy drag of timber, something occurred with his horses, in attempting to arrange which, he was thrown upon an axe sticking in the timber and one of his thighs severely cut.

W. W. SHAW.—Your communication on education is crowded out this week, but we will try to give it room in our next issue.

\$30,000 and all the Expenses of the County for Two Years, can be saved by the Tax-Payers of Clearfield County.

Pursuant to notice a large number of the citizens of Shawsville and the township of Goshen met at the barn in Shawsville on Wednesday 15th Dec. 1858.

Ellis R. Livergood Esq. was called to the chair, and G. W. Snider appointed secretary.

The object of the meeting was generally understood, it being proposed to offer inducements for removing the seat of the county business from Clearfield to Shawsville.

A committee composed of five of the solid men of Goshen were appointed to draft resolutions.

The following were reported and adopted unanimously:

Preamble, whereas, two successive Grand Juries have reported that a new Court house is absolutely indispensable for conducting the business of the county with expedition, and whereas, such a building will cost the county something, and the tax-payers must pay it, if it is located in Clearfield, and whereas, we can well afford to build it if we can get a law passed fixing the county seat in Goshen, by the increased value of our property and by the advantage it will be to us in keeping posted in the judgments and liens against our customers, without the expense of having the Deputies transcribed and brought to us, and will also enable us to sell our lots at double their present value; and even if we do not effect the removal of the county seat, we will get up an excitement and can sell lots at an increased price; therefore

Resolved, that the removal of the county seat from Clearfield to Shawsville will give the people of the county the most central location that can be obtained, as the people up the river are all going in for Pine county to be made to come down as far as Thorps. The distance from Thorps to Shawsville being 25 miles, and the distance from Shawsville to the Three Runs being 28 miles—these two being the extreme points in the county, if Pine is made.—And also because Shawsville is on the river the main highway of the county, over which two thirds of the citizens of the county pass every year.

Resolved, that it is clearly the interest of the people of Clearfield county to have the county seat removed to Shawsville, and the President of this meeting is hereby authorized to appoint a committee of three of the best bidders, and good fellows, that can be hired to go to Harrisburg this winter and use all the necessary means to have a law passed allowing the people to vote on this question of removal.

Resolved, that in the event of a removal of the county seat from Clearfield to Shawsville we pledge ourselves to build a new Court house, Jail, offices and other conveniences for the transaction of the county business, and that we will also pay the current expenses of the county for two whole years after such removal is effected, and of course the people will vote for removal because they can save their taxes.

Resolved, that the President appoint a committee of five of our citizens to agitate this question over the county and get up an excitement generally.

Resolved, that a committee be appointed to procure subscriptions for the erection of buildings, agitation &c. And we solemnly pledge ourselves not to repudiate a dollar of our subscriptions, nor burn the paper.

Subscriptions were then made by the responsible citizens present, conditioned according to these resolutions, amounting to \$33,000.

Resolved, that these proceedings be published in as many papers as will publish them.

Adjoined to meet the next time. E. R. LIVERGOOD, Pres't. Geo. W. SNIDER, Sec't.

If you have a sore or painful disease and get a bottle of Dr. VALL'S GALVANA, and you will not rue it—no! you will purchase more. This has been the case, and will be so in time to come.

The Great Republic Monthly.—This new magazine, which we remarked a short time since, was promised the public by Messrs. Oaksmith & Co., has just been received, and in justice we are bound to say that it exceeds all the expectations we had formed of it. Neither do we say this because we expect the favor of an exchange with it—We have paid for that. But the "Republic" is truly all it purports to be—a magazine of choice American literature. The contributions are from the pens of some of the best American authors, and the illustrations, although not fine steel engravings, are graphic representations of living scenes, which tell their story at a glance. Its fashion plates are also very fine, and constitute to the lady reader no small item of its attractions. For terms see advertisement. Every body that can afford a magazine should subscribe. The number just received is for January 1859 vol. 1 no. 1.

AMERICAN AGRICULTURIST.—This excellent and popular farmers magazine for Dec. has been on our table for some time but we have not had time to allude to until now. It continues as interesting as ever to the agriculturist, while the juvenile department in each number is becoming more attractive. Only one dollar a year. Published in English and German. Distinct editions containing as nearly as possible the same articles.

AMERICAN MERCHANT.—We failed to speak of this valuable mercantile journal, the last one received, the Oct. No. It is still published by Bryant and Stratton, at New York.

The "Great Republic" Monthly

TO THE PUBLIC, THE BOOK AND PERIODICAL TRADE, AND THE PRESS. WE have the honor to announce that we shall issue, on or about the first of December next, so as to be in season to command the early attention of the public and the periodical trade, the first number of a new illustrated magazine, entitled the "Great Republic" Monthly. It is intended to make this magazine superior in every respect to anything ever before issued in this country. The general scope of its character can best be understood by its name. It will be thoroughly National—in no wise sectional or sectarian, and wholly impartial. It will offer to the writers and thinkers of this Union a common field, where they can meet on the highest ground of contemporary literature. It will aim to gather about it every variety of intellect.

The range of articles will be a wide one, covering, among other grounds, Essays, Sketches, Humorous Tales, Stories, Historical Incidents, Reviews, Critiques, Biographies, Scientific Articles, Travels, Table Talk, Dramas, Incidents, Politics, Poems, Ballads, Stanzas, Sonnets, Music, Correspondence, Gossip, &c., &c. The Magazine will be published in the highest style of wood engraving. Headley, &c., comprising a long list of writers, among whom are many of the most popular in the country.

Each number will contain an original piece of music composed expressly for this work. Of the superior excellence of the Magazine in every respect, and of the certainty of its permanent success, very little more need be said.

The terms and general conditions of the Magazine will be as follows: TERMS.—There will be two volumes a year, of about 700 royal octavo pages each, commencing in January and July, and ending in June and December, respectively making six numbers to each volume, and twelve numbers to each year. A LARGE AND BRILLIANT WEEKLY NEWSPAPER.

THE CONSTELLATION. PARK BENJAMIN, Editor.

"A Constellation is but one, Though 'tis a train of Stars,"—Dryden.

THE subscriber has great pleasure in announcing that he has made arrangements to issue on Saturday, January 1, 1859, the largest, handsomest and most complete Weekly Newspaper ever published. It will be a superb folio sheet, doubling the size of the New York Ledger! containing nine broad columns on each page, 35 lines in length, and double the quantity of real published matter given by any weekly paper now published; embracing the choicest and freshest matter, selected and original, furnished from abroad and at home. It will be in all respects, a Living Journal; containing the productions of the most popular writers in liberal quantity; Romances, Stories, Essays, Poems, Anecdotes, Sketches, Notices of Amusements and the Arts, &c., &c.; in time, all things which are now, beautiful, interesting and attractive. Each number will contain not only a carefully condensed synopsis of the General News during each week, but all the very latest information and Telegraphic Despatches up to the hour of going to press. The Constellation will not be an Illustrated Paper, as the picture sheets are, but it will contain beautiful Designs and Engravings, when they really illustrate and ornament a subject.

The subscriber has already engaged a Corps of Contributors, "a Train of Stars," unequalled for genius, brilliancy, and reputation by those of any other journal now published, no matter what may be its pretensions. It is with no slight gratification that he announces his success in engaging, after much persuasion, the able and experienced services as a gentleman, so long and so justly eminent, as Mr. Park Benjamin. Connected for twenty years with the press of New York City, and always successful in his literary enterprises, whether as Editor, Author, or public speaker, the name of Mr. Benjamin is an augury of certain good fortune.

The public may rest assured that no means will be untiringly by the subscriber to secure a grand and brilliant accomplishment of his effort to establish the largest and best weekly paper ever published—since nothing will be left undone that can be done by talents, capital, experience, learning, and a resolute perseverance.

"The Constellation will mainly recommend itself to cordial and generous support from the very best people by its observance of good and avoidance of evil. It will be an unobjectionable and perfect family newspaper—giving offense to no sect or party—the favorite alike of both sexes—of young and old. The subscriber, having had nearly a quarter of a century's experience in the publication of daily and weekly journals, and having no competitors in such well known and valuable editorial aid as he has therein, factors himself that this new enterprise will at once achieve a popular favor and success unparalleled in newspaper enterprises.

The terms for "The Constellation" will be two dollars per annum cash, when ten copies are sent in one envelope to one address, \$49 00. Five copies do. do. \$12 00. Two copies do. do. \$6 00. One copy do. do. including postage or delivery, \$3 00.

All subscriptions to be invariably in advance. Single copies, Five cents. To Newspaper agents, \$3 50 per 100. A late Saturday evening edition will be published, and left early Sunday mornings at the residences of City subscribers, by regular carriers, employed by the publisher. Those who desire to commence with the first number, should send in the subscription orders as early as possible—since, owing to the immense size of the sheet, only such numbers will be printed as may be ordered.

THE GREAT PURIFIER.

TO PRODUCE ITS EQUAL! THE BLOOD SEARCHER. GLORIOUSLY TRIUMPHANT!

Sworn statement of David McCrary, of Napier township Bedford county.

In April, 1855, as near as I can remember, a small pimple made its appearance on my upper lip, which soon became enlarged and sore. I used poultices of sorrel, and a wash of blue vitriol, without effect. Finding the sore extending, I called on Dr. Ely, of Schellsburg, who pronounced it CANCER, and prescribed a wash of sugar of lead, and broad poultices. Finding these remedies of no avail I called on Dr. Shafter, of Davidville, Somerset county, who also pronounced the disease CANCER, and gave me internal and external remedies—the latter consisting principally of caustic; but all to no purpose, as the disease continued spreading toward the nose. I next used a preparation of arsenic in the form of salve. This for a time checked the disease, but the inflammation soon increased. I next called on Dr. Statler of St. Clairsville, Bedford county, who also pronounced the disease CANCER, and applied a salve said to be a never failing remedy, but it had no effect whatever in checking the spread of the sore. In December of the same year, 1857, he pronounced me cured, and I left for home. In April the disease again returned, and so violent was the pain that I could not rest at night. Late in May I returned to Cincinnati, and again placed myself under the charge of Dr. Newton, with whom I remained until September, during which time he used every known remedy, and partly succeeded in checking the disease, but when I returned home there were three discharging ulcers upon my face. I continued using Newton's preparations, and also medicine that I got from Dr. Ely, but the Cancer continued growing until it had cut off the left side of my nose, the greater portion of my left cheek, and had attached my left eye. I had given up all hope of ever being cured, since Dr. Ely said he could only give relief, but that a cure was impossible. In March, 1858, I bought a bottle of "Blood Searcher," but I must confess that I had no faith in it. I was very weak when I commenced taking it, but I found that I gained strength day by day, and also that the ulcers commenced drying up. I continued, and when the third bottle was taken my face was healed as if by a miracle. I used a fourth bottle, and I have been healthier since than I have been for the last seven years. Although my face is sadly wasted, I am grateful to a benign Providence who has spared my life, and which has been done all through the instrumentality of LEBESSY'S IMPROVED BLOOD SEARCHER. DAVID MCCRARY.

Sworn and subscribed, this 31st day of August, A. D. 1858, before me, one of the Justices of the Peace in and for the Borough of Hollidaysburg, Blair county, Pa.

Witness—C. J. Jones. JOHN CORLEY, J. J.

NEW EVIDENCE.

Being afflicted with a grievous Tetter on the arms and face—after trying many remedies which utterly failed to cure—I was persuaded by W. M. Harris & Co., to try Lindsey's Improved Blood Searcher, and now, six weeks after finishing the second bottle, pronounce myself cured. The tetter broke out, something over a year ago, on the inside of my arms, extending from the elbows down to the wrists, also on my face, immediately round the mouth and chin, and continued to be a perfect torment to the until cured by the Blood Searcher. My arms, at times, were almost useless, owing to the cracks and sores on them, liable to bleed at any time on the least exertion to lift or work, and sometimes so itchy that I could scarcely prevent tearing off my flesh. I have now been cured six weeks, and feel it due to Mr. Lindsey, and to the publishers of this medicine, to make this statement, in hope that others, like myself may be benefited by using his valuable medicine.
