

Temperance Meeting.

A meeting of the Washingtonian Temperance Society, will be held in the Court House, in this borough, on the evening of the 23d February. All persons, especially the ladies, are respectfully invited to attend. G. PHILIP GUELLICH, Pres't.

ROBBERY.—The term of office of this Board, which has exercised the functions of a Legislature for our little municipality for the last year, virtually expires on next Friday. When it was elected a year ago, it was dubbed the "Contra Council," and much amusement was believed to be in store for the fun-loving portion of the community, to grow out of the expected inharmoniousness of their action on matters pertaining to the government of the borough. Whether these anticipations have been realized or not, we are unable to say; as we know not whether discord or harmony characterized their deliberations, but we have no hesitation in declaring, that they have agreed in being the most active, useful, and efficient Town Council that the borough has had within the few years that we have been a citizen of the place. More solid improvement has been made in the condition of the streets and pavements than has been made for many years previous. Some of the wooden pavements ordered by them to be laid may, to those who had to incur the expense, have seemed burdensome, but then within a very brief period their benefits, in the increased facilities for travelling, and enhanced value of the property upon which they have been placed, will have become so apparent, that complaints will turn to congratulations. If all "Contra" Councils are as efficient as our present one, let us have them all "contra."

In this connection it may not be amiss to say, that the executive department of our borough government, was also in able hands. Mr. Radabaugh, Chief Burgess, and Mr. Park, High Constable, are deserving of the thanks of their fellow-citizens, for the faithful and impartial manner in which they performed their often unpleasant duties.

NOT AWARE OF THE CIRCUMSTANCE.—A friend, a few days ago, sent us a little package of garden seeds, of a rare species, which he requested us to hand to our—what do you think?—to our wife, to plant next garden-making time. While we are very grateful for the favor on the part of our friend, we must assure him that either he or we are laboring under some strange delusion on the subject of the wife, and we are strongly inclined to think it is our friend and not us, as we have never been officially informed that we are so fortunate as to be entitled to claim any of the lovely daughters of Eve as our better half.

THE BOROUGH FINANCES.—We publish this week, by order of the Town Council, the statement of the finances—receipts and expenditures of the borough of Clearfield, for the current year. At first sight it looks as if the balance against the borough were rather heavy, but nearly the entire balance is made up by the McAdamsing of 2d street by the citizens residing thereon, which is to be paid them in taxes hereafter assessed on their respective properties. This cannot properly be considered a debt, as the manner in which the payment is provided for, will prevent it being a burthen upon the general taxpayer. And upon the whole is a great benefit to the town.

COUNCIL'S CLERK.—L. J. Crans, Esq., who acted as Council's clerk, has refused to receive any compensation whatever, either for his services as Clerk, or the use of his office for the meeting of the Council. This is an act of disinterestedness on the part of Mr. C. when we take into consideration the fact that the records and ordinances of the borough, have never been so accurately, neatly, and voluminously kept, since it was incorporated, as by him, he deserves more than a passing notice, and the Council have passed a vote of thanks, which has been placed upon their minutes as a slight evidence of their appreciation of his services.

THE SPRING ELECTION, which will be held on next Friday, is for the purpose of electing the following officers for the borough of Clearfield:—A Chief Burgess, a Town Council, consisting of a board of five members, and a High Constable, to serve each one year. Also, a Justice of the Peace to serve five years, a Constable and an Auditor, an Assessor and two Assistant Assessors, and two Overseers of Poor, to serve each one year.

ARTISTIC.—We are requested to state that Purviance, our old artistic friend and fellow citizen, has again come to life and revived his business as an ambrotypist. He has procured fresh chemicals, and new stock, and is now producing, we are informed, brilliant and life-like specimens of the photographic art. He engages to give entire satisfaction in regard to work and prices.

SEAWAIF, is the title of a highly interesting story, the commencement of which will be found on our fourth page this week. Any body who likes thrilling stories, will find this one up to the highest standard of this class of literature.

A MAN was fined \$1 and costs for skating on a pond near N. Y., last Sunday week. The defence set up was that he skated for his health, by medical advice, and not for pastime.

DEER CATCH.—We learn that Mr. M. S. Ogden, residing on the bank of the river just outside of the borough limits, caught a fine deer in the stream nearly opposite his dwelling on last Monday morning. We did not learn the weight of the prize, but as it was a female we presume it would make most delicious venison.

ACCIDENT.—We learn that Mr. James Allen, of Sinnemahoning, was severely injured on last Saturday, by the falling of the top of an old stump which was knocked off by a falling tree. We do not know the extent of Mr. A.'s injuries, but we understand they are not likely to prove fatal.

A LOSS.—A valuable mare and favorite animal, belonging to G. L. Reed Esq. died at his farm near town on last Monday night. The mare had received a fall that day while drawing timber, which caused her death.

CAUGHT IN A TRAP.—A man named Carl, in Brady township, Clearfield County, (says the Brookville Jeffersonian,) while out hunting last week, came across a bear trap made of large logs, and having never seen one was anxious to examine the manner in which it was arranged. Accordingly, he sat his gun down on the outside and crawled in to satisfy his curiosity, when he touched the trigger and the trap closed, shutting him inside. Being unable to extricate himself, he was kept shut up for two days without any thing to eat, until the person who made the trap came to examine it and found that in place of catching a bruin, he caught a dutchman.

Death of a Member of the Bellefonte Bar.

We copy the following tribute of respect to the memory of D. C. BOAL, Esq., a member of the Bellefonte Bar, whose demise occurred on the 4th inst., from the *Central Press*, and insert them in our columns.

At a meeting of the Bar and Officers of the Court of Centre county, on Saturday evening last, James Macmanus was called to preside, and James A. Beaver appointed secretary.

The Chairman then announced the death of David C. Boal, a member of the Bellefonte Bar.

James H. Rankin, moved the appointment of a committee on resolutions.

The Chairman then appointed James H. Rankin, Samuel Linn, and John Hoffer, a committee to draft resolutions appropriate to the occasion.

The committee reported the following resolutions, which were unanimously adopted:

- 1st. That the members of this Bar and officers of this Court, have heard with unfeigned regret and deep sorrow of the death of our brother in the profession, David C. Boal, Esq.
- 2d. That as a husband and a father he was kind and affectionate—his attachment strong and fervent.
- 3d. That as a member of society the feelings of a warm and generous heart were at all times exhibited in his acts, and his friendships knew no change. As a legislator he was faithful and industrious, ever mindful of the interests of his constituents.
- 4th. That as a lawyer his brilliant talents shone forth as of the first order. He was well versed in the learning of his profession, and courteous in his demeanor to the Court and the Bar.
- 5th. That as a mark of respect for his memory we will attend his funeral in a body, and wear the usual badge of mourning thirty days.
- 6th. That R. G. Durlam, E. Blanchard, and W. P. Macmanus, be a committee to communicate a copy of the proceedings of this meeting to the family of the deceased with assurances of the condolence of the bar and officers of the court, for the loss they have sustained.

JOURNAL OF INDUSTRY.—We have received the Feb. No. of a publication with the above title, devoted to the interests of the laboring classes throughout the country. It contains a report of the labor market, the price of wages and the cost of living in the United States and British Provinces; also, the price and quality of lands eligible for settlers, with all such information as may be useful to those seeking employment, or homes, &c., &c., with much other useful information.

It has no political bias or aims. Terms: Three Cents per number. Every one contributing One Dollar to the "American Industrial Association," will be entitled to one copy.

Rheumatism, of the most severe kind, have been cured by using two bottles of DU VAL'S GALVANIC OIL. Backache, pain in the head, sick head-ache, and nervous diseases of the head, are every day being cured soundly by the use of this medicine. For sale by country merchants generally.

IRON CITY COLLEGE.—The rapid growth and extended popularity of this School, is the result of the confidence it has inspired by its fair dealing and thorough teaching. *Presbyterian Banner and Advocate, of Pittsburgh.*

Three hundred and fifty-seven students are in attendance at this time, making it the largest and most popular Business School ever organized in the United States.

A MONSTER OF A HORSE.—A gentleman who was at Zanesville, Ohio, a few days since, gives a description of a monster sorrel horse, which was raised in Pennsylvania, and purchased by a resident of Zanesville. He is "pony built," measures twenty hands high, and weighs 2,400 pounds. The price was \$1,000. He will probably be exhibited at the State fair at Zanesville.

THE Odd-Fellows of the United States propose setting apart the 29th day of April, 1859, as a day of thanksgiving among its members. That is the fortieth anniversary of the organization of the order in this country.

DIED

In Pike township, on Tuesday the 8th inst. Isaac Bloom Sr. in the 80th year of his age.

The deceased was among the earliest settlers of Clearfield county and was the eldest of seven brothers, all residents of this county, of whom three survive him. He was an excellent citizen, and his loss will be deeply deplored by his friends, and his numerous descendants, among whom he was truly a patriarch.

In the village of Pennville, Penn tp., on Saturday the 12th inst., JONATHAN EVANS, Esq., aged about 58 years.

The deceased was a member of the Society of Friends, and was in all respects, worthy of the high moral reputation universally accorded to that religious body. As an honest man, a good citizen, and a kind friend, he had few superiors, and his place in the community will not be readily supplied.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children, to the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which poisons the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

AYER'S Compound Extract of Sarsaparilla.

The most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedies that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERYTHEMA AND SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, OR ERUPTIONS, PIMPLES, PUSTULES, BLOTCHES, BLAINS AND BOILS, TENDRONS, TETTER AND SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC AND MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is an impurity of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSICIAN. are so composed that disease within the range of their action can rarely be without or evade them. Their penetrating properties search, and cleanse and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and infallible.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis his American Almanac, containing certificates of their cures and directions for their use in the following complaints: Catarrhs, Heartburn, Headache arising from disordered Stomach, Nausea, Indigestion, Pain in and Nervous Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of the kind is too apparent to require observation, and where its virtues are known, the public no longer hesitate what antibiotic to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed, and been discarded, this has gained friends by every trial, conferred benefits on the afflicted that can never be forgotten, and produced cures too numerous and too remarkable to be forgotten.
