larly when I saw how careful he was not to disturk the ground deeply very near the young plants, I understood his mean ing. In a long acquaintance with corn Mave observed enough to make me think he was right. The weeds must be cut up Foot and branch to have good corn, that's certain, and the ground must be kept certain, and the grown and to let the heat get in, and be seen growing. Terms from \$15 to \$20 be seen growing. the moisture pass up from below, and to per acre, payable within four years by inallow the spreading roots to make their stalments. To visit the place—Leave THE undersigned being about to dissolve way easily through the soil in search for Vine st. wharf at Philadelphia, at 74 A. their partnership, give notice to all persons way easily through the soil in search for Vine st. wharf at Philadelphia, at 74 A. borng dealings with thom in any way whatso born, to call and settle without delay, as in a close around the dress R. J. Byrnes, by letter. See full adshort time the books will be left in other hands stilk, when every cut there if two inches vertisement in another columns who can possibly do so, should square their accounts before the dissolution is finally effected. number of the growing roots. It certain-If you then go to work and cut off its mouths, for the roots are mouths to the plants So. I always cultivate lightly where e roots have extended, which is about the length that the stalk has reached a do Townshies. above the ground, and when the corn is up breast high, I wouldn't, let a man go through the field with a plow, if he'd pay

wages for doing it and find himself. 1 do not believe in hilling corne making the field look like a crop of young flag staffs planted on small planacles. The crop has grown up into the air where it was in tended to stay, and it isn't natural to par-tially bury it alive. People do it to prop tially bury it alive. People do it to propit up, so that the wind will not level it.—
But if it be let alone, it will do its own propings by sending forth extra roots just above the surface, which go out and another it all around. I have seen a field that was hilled laid flat by a storm, while the next one to it, that grew naturally, stood up after the blow as straight as a militia captain on training day. When corn is lilled it will try to send out a second growth of supporting roots, but neither the first nor the second growth will then become strong enough to be of much

use If therefore try to leave my ground dearly level, and thus also save the roots the trouble of diving down again to get below the gullies which are sometimes left after the first plowing —American Ag-WHITWASH FOR OUTDUILDINGS .- For un planed surface, common whitewash, ap-"I Red early in the summer when the wood is dry and the pores open, answers a good purpose and materially operates in pre-venting decay. But whitewash may be rendered more permanent, needing less frequent applications, if sulphate of zinc

The following particular directions for making the wash and for colorsing to any desirable shade are given in Downing's "Country House: Take a clean barrel that will hold water. Put it into half a barrel of quicklime, and slack it by pouring over it boiling water sufficient to cover it four or five inches deep, and stirring it until slacked. When quite slacked dissolve it in water and add two pounds of sulphate of zine, and one of common salt. Which ma the druggists, and which in a few days will cause the whitewash to harden on the

wood work. Add sufficient water to bring it to the consistency of thick whitewash. To make the above wash of a pleasant cream color aid three pounds of yellow

For fawn color, add four pounds of umber one pound of Indian red, and one pound of lampblack.

For grav or stone color, add two pounds of raw umber, and two pounds of lamp-The color may be put on with a common willtewash brush, and it will be found

more durable than common whitewash. GROWING POTATOES IN CLAY. -- As sand deravel and muck is almost an indispensable basis for a good crop of potatoes, a classicious clay must be mechanically made to resemble such a soil as near as possible by the aid of well-worked in vegetable this is done, is final top-dressing of long

matter coal ashes, &c.; &c., and when manure can alone keep up that moisture recessary to a good growth of tubers in our hot climate. I have thus had them grow entirely out of the hill or row just under the mulching of coarse manure; this is much better than monure in hills or

gett has been said that the seed ends o potatoes bring tubers a fortnight earlier than the other seed-but they will also be a fortnight smaller. To get potatoes of good size, cut out and throw away most if not all the small eyes in the seed end and plant cut potataes of fair size for seed as the French say, a bas du petite pomme

AN AGED WARRIOR .- Old Tarmahhah (one eye,) the well known Indian chief and warrior, was in Wabashaw, Minn., hast week. He is supposed to have been Born about the year 1755, according to the Wabashaw Herald, which would make him 104 years of age. He was a chief says that paper, one of Red Wing's bands of Sioux, and in the war of 1812 fought nobly and rallantly with the Americans against the L situated in Brady township, Clearfield Coun-British. He was also on the side of the ty, on the Eric turnpike, three miles east of La-Clark, of Missouri, in 1816. Old Tarmahhalt takes great pride in showing this commission, and also demands a cushpop for a sight of it. The marks of extreme old age are visible in his case of extreme old age are visible and age are visible in his case of extreme old age are visible and age are visibl Americans in the Black Hawk war, and thersburg, containing age are visible in his conntenance. He is three rooms on the first floor, and five on the se-

trials? Then you wish to die but half a man. Without trials you cannot guess at your own strength. Men do not learn to swim on a table; they must go into deep water, and buffet the surges. If you wish to understand their true character-if you would know their whole strengthof what they are capable—throw them overboard; over with them-and if they are worth saving, they will swim ashore of

Ayer's Sarsaparilla

bored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to care. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this inflicted fellow-directions.

compound will do it has been proven by experiment on many of the worst cases to be found of the following domplaints:

Schoruta way Schorutous Coaptaints.

ERUPTIONS AND ERUPTIVE DISEASES, UICESS, PINPLES, BLOTCHES, TUNOES, SALT RHEUM, SCALD HEAD, SYPRILIS AND SYPHILITIC AF-RALGIA OR TIC DOUGATEEUX, DEBILITY, DYS-PEPSIA AND INDICESTION, ERYSIPELAS, ROSE on St. Antitox's Fire, and indeed the whole class of complaints arising from Industry or

The Bloop. 1 and and le toile.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the time-ly expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by The subscriber begs leave to inform his old are nipped in the bud. Multitudes can, by customers, and the public generally that he has recently taken the above well known stand, and that he has entirely refitted and refurnished it in sores, through which the system will strive to a style adapted to the age, and the wants of the rid itself of corruptions, if not assisted to do entire traveling community. by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is ob-structed and slaggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleaning the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of

life is disordered or overthrown. Sarsaparilla has, and deserves much, the reputation, of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla,

has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of oblequy which rests upon it. And we think we have ground for pelieving it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete cradication from the system, the remedy should
