A Word to the Wife.

Love hailed a little maid, Rumping through the meadow: Hecules in the sun she played, Scornful of the shadow. "Come with me," whispered he, "Listen, sweet, to love and reason."

"By and by," she mocked reply—"Love's not in season." Years went, years came: Light mixed with shadow; Love met the maid again, Dreaming through the meadow, "Not so coy," urged the boy: "List in time to love and reason."

"By and by," she mocked reply—"Love's still in season." Years went, years came: Light changed to shadow; Love met the maid again, Waiting in the meadow. "Pass no more my dream is o'er; I can listen now to reason."

"Keep coy," mocked the boy—"Love's out of season."

Agricultural

Culture of Buckwheat.

This is an important crop, and we present a few hints in regard to its cultivation and uses, for the consideration of our readers. The time of sowing, varies with the season and place, but from the 20th of June to the 4th of July is regarded as the best and most proper season; but we have known good crops from that sown on the 12th of July. If sown too early it is liable to blast and if too late, is apt to be hurt by frost. The land best adapted to this crop is a light loam, and it is also a good crop to subdue and ameliorate newly cleared or recently drained land. The general practice among farmers has been, to sow buckwheat on their poorest land, when there is no crop in fact, which will better pay liberal and generous manuring. The quantity of seed per acre should receive due attention. It is a crop that spreads very much, and therefore less seed is just as good as more. From repeated trials, we have found that half a bushel is amply sufficient for an acre of ground—and this, if sown evenly over that surface, will give as many stalks as can comfortably grow; for if a larger quantity were sown, the growth of straw would be so abundant that it would lodge down, and thus would not fill so heavily, or ripen so evenly. After being cut it should lay for a number of days upon the ground, and if cut in two or three showers no damage is done if it be turned over so as to dry off. When hauled into the barn it should be thrashed immediately, as at that time it shells out more readily, and it can be well done then, and it is out of the way. The average yield is from twenty to twenty-five bushels per acre, although some accounts of which occur to us at writing—that of Mr. Samuel Allen of Benton, Yates Co., who in 1855 raised one hundred and twenty-seven bushels sowing, on about two and a half acres.

The seed is valuable for food to both man and beast, and the straw, if cut before being killed by frost, is a most excellent fodder for sheep, they being particularly fond of it. It seems that this crop should receive more attention from our farmers, as its merits certainly demand it.

SHEEP SHEARING.—James Townsend, in the N. E. Farmer says: "In washing sheep in cold water the 'yolk' or oil can not be started, it only the filth and dirt that can be washed away, and as soon as the sheep are dry they are ready to be shorn. Two fine days are amply sufficient after washing, before getting them under cover for shearing."

My method of putting up wool for market is, after the fleece is off, bring the wool outside up, then shuck it up as near its natural size as possible; then double (not roll) the sides over till about a foot wide, then turn the rump half way, and bring the head part to meet it. Roll the fleece half way over, then the other half the same. Have two strings each two yards long; use one around, and one endwise, bringing the fleece up tight, and in good shape.

As manufacturers of wool are scattered all over the country, sell your wool to them, and you will be more likely to get its real value, as many speculators have no practical knowledge to guide them in purchasing.

WM. F. JOHNSON. Union tp., June 4th, 1849. 6t.

WE have the honor to announce that we shall issue, on or about the first of December next, as to be in season to command the early attention of the public and the periodical trade, the first number of a new illustrated magazine, to be called the "Great Republic" Monthly. It is intended to make this magazine superior in every respect to anything ever before issued in this country. The general scope of its character can best be understood by its name. It will be thoroughly National—in its wide sectional or sectional, and wholly impersonal. It will offer to the writers and thinkers of this Union a common field, where they can meet on the highest ground of contemporary literature. It will aim to gather about it every variety of intellect.

The range of articles will be a wide one, covering, among other grounds, Essays, Sketches, Humorous Tales, Stories, Historical Incidents, Reviews, Criticisms, Biographies, Scientific Articles, Travels, Table Talk, Dramas, Incidents, Politics, Poems, Ballads, Stanzas, Sonnets, Musical Correspondence, Gossip, etc., etc. The Magazine will be published in the highest style of wood engraving. The Literary department will present a greater variety, combined with more thorough excellence, it is believed, than ever before offered to the American public in a single periodical. The following authors and popular writers are included in the list of contributors engaged:—Geo. D. Prentiss, Charles Swain, Fitz Green Halck, Chas. J. Ingersoll, Orestes A. Brownson, Geo. P. Morris, Nathaniel Downing, Hon. Chas. Gayard, Wm. Gilmore Simms, Park Benjamin, Hon. Albert Pike, of Arkansas, Abbe Adrian Roquette, Hon. R. T. Conrad, Rev. Ralph Hoyt, Saba Smith, (Jack Downing), J. T. Headley, [etc., comprising a long list of writers, among whom are many of the most popular in the country.]

Each number will contain an original piece of verse composed expressly for this work. Of the superior excellence of the Magazine in every respect, and of the certainty of its permanent success, very little more need be said.

The terms and general conditions of the Magazine will be as follows:—

There will be two volumes a year, of about 700 royal octavo pages each, commencing in January and July, and ending in June and December, respectively making six numbers to each volume, and twelve numbers to each year. The engraving will be sent on rollers by mail, prepaid.

Agents and canvassers can make liberal and satisfactory arrangements upon application, stating the territory required. All postmasters and clerks are authorized to receive subscriptions, which they may forward to us, giving name and address of subscriber, and deducting 25 per cent. for their trouble. The rate of postage will not exceed three cents for each number, to be paid in all cases at the office where it is received. All communications to be entitled to answer, must contain the return stamp. Subscribers must in all cases write Names, Town, County, and State in full, as legibly as possible. HEAVY and DRESS OVER-COATS selling very cheap at

KRAETZER.

A compound remedy, in which we have labored to produce the most efficient alternative that can be made. It is a concentrated extract of Para Sarsaparilla, combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:— SCROFULA and SCROFULOUS COMPLAINTS, ERUPTIONS and ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS and SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR THE DOGDOLEUR, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE ON ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which festoon in the blood at that season of the year. By the timely expulsion of them many ranking disorders are tipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pulchery of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown. Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, latter and painful disappointments have followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

PREPARED BY DR. J. C. AYER & CO. LOWELL, MASS. Price, \$1 per Bottle; Six Bottles for \$5.

Ayer's Cherry Pectoral, has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills,

FOR THE CURE OF Costiveness, Jaundice, Dyspepsia, Indigestion, Diarrhoea, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Diarrhoeic, and for Purifying the Blood. They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic. Price 25 cents per Box; Boxes for \$1.00.

Great numbers of Clergymen, Physicians, Statesmen, and eminent persons, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agents below named furnish gratis our AMERICAN ALMANAC in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.

Do not be put off by unprincipled dealers who offer cheap preparations they make more profit on Demand AYER'S, and take no others. The sick want the best aid there is for them, and they should have it. All our Remedies are for sale by
